This court holds: First, that it has jurisdiction of the appeal even although the decree below was rendered by consent. Second, that it distinctly appears in the record that the Pacific Railroad Company of Missouri assented, through its solicitor, to the decree of foreclosure and sale. This is equivalent to a direct finding by that court as a fact that the solicitor had authority to do what he did, and binds this court on an appeal so far as the question is one of fact. Third, that while it may be true that under the peculiar provisions of the company's charter, the stockholders have a sort of supervisory power over the doings of the directors they cannot on appeal correct errors arising from the latter's acts. If they have been defrauded, they must apply for relief in the first instance to the court in which the fraud was perpetrated. Fourth, that it was competent for the parties to the suit below to agree that a decree should be entered for a sale of the mortgaged property, without any specific findings of the amount due on account of the mortgage debt, and without naming a day for payment, and with such provisions as to the manner of payment as they thought fit. Fifth, that in accordance with the construction given by this court to the act of March 31, 1875, (in Meyer vs. Construction Company,) the Circuit Court had proper jurisdiction of this case. The court fails to discover in the record any errors which can be corrected on appeal, and the decree is, therefore, affirmed. The Chief Justice delivered the opinion.

This decision shuts out the old stockholders of the Pacific Railroad of Missouri, and confirms the title of the present holders of that property, derived through the foreclosure and sale.

Iron in Virginia.

A paper was recently read before the geological section of the New York Academy of Sciences, by Prof. Thomas Egleston, on the iron and coal resources of Virginia, in which he said that the commission which divided Virginia put all the coal lands in West Virginia and left the iron lands in Virginia. The iron beds were remarkably rich, yielding all the ores within a very small space. To the north, along the Blue Ridge, are the Potsdam ores which are used in the Shenandoah Iron Works. The mountains to the south are full of the Hamilton shales, and outside of the iron-producing beds, taking the State as a whole, the upper district has a full line of ores averaging from 45 per cent to 55 per cent, and in the class of specular ores are fully as good as those of Lake Superior. From Staunton 100 miles south of the James river there is a series of mountains made up almost entirely of iron ores. The importance of this section was very great several years ago, as the rich iron beds are on the line of the river and the canal and many furnaces were erected. Some of the furnaces prospered, while others stand to-day monuments of wasted effort. The ore beds are admirably arranged for mining, and on account of the outcrop on the mountain side mining operations can be carried on without difficulty. Formerly furnaces were worked by charcoal, but now the coal and iron are brought together by rail and the increase of the manufacture promises to be very great. The Confederate Government tried to get iron in that part of Virginia, but the engineers struck points where the quantity of phosphorus in the iron was very large, so that they got very poor iron. There is but one coking oven in Virginia, and the general idea is that the coal there cannot be well made into coke, and the mines do not come into market. If an industrial survey were made and the results published capital would flow in and the State would have an era of prosperity such as it has never had. To-day it is really as unexplored a State as Texas and needs first the surveyor, then the capitalist.

Mining.

The Chrysolite No. 4 shaft at last reports was still sinking, the bottom being in first class sand carbonate; the new station at "Roberts" was also looking as finely as usual. Total shipments March 1 to 15, 2,092 tons. On March 19,140 tons were shipped to smelters, and $110,500 remitted to the company's office in this city. The total amount of cash received from sales of ore during the month of March aggregates $164,066 77. Shipments March 20 and 21, 265 tons. Professor Rossiter W. Raymond and Mr. A. R. Meyer have lately visited and inspected the Chrysolite.

The new shaft on the Little Chief is down 82 feet, and a new engine is being put up to continue the work of excavation. The winze below the main level north from Shaft No. 3 still shows galena. The shipments from the 1st to the 17th of March were 1,739 tons; on March 20 and 21, 208 tons. Shipped to smelters, 66 tons March 22, and mailed to New York office, $25,000.

The Homestake is constantly working its 200 stamps, and could utilize more if it had them. The yield for February aggregates about $91,500. The total bullion product to date of last report amounts to $1,191,752 74.

Sentenced for a Misused Pass.

Mr. John A. More, who was arrested some time since in San Francisco for using a pass over the Union Pacific Road, which had been issued to another party, was to-day brought up before Judge Savage for sentence. The circumstances of the case, which have been recited before, are briefly these: Mr. More, who is a gentlemen of education and culture, was an old railway agent out of employment and penniless in New York. His mother was in San Francisco dependent on him for support. The pass was given him by a friend who knew his circumstances and he used it to reach his home. Upon being brought up for trial he pleaded guilty to misappropriating property of the Union Pacific to the value of $25. His plea was accepted and he was remanded to the county jail on the 25th ult., whence he was to day brought up for sentence. Judge Savage, in consideration of the mitigating circumstances of the case, let him off with a sentence of 20 days in the County Jail, to date from his plea of guilty, which leaves but 10 days of the sentence unexpired.—[Omaha (Neb.) Bee, March 6.

The World's Steel Production.

The total capacity of the steel mills at the present time throughout the world is estimated at about 3,000,000 tons for the year's production. In the United Kingdom there are 120 Bessemer converters built, of which over 80 are at work, and the annual yield from these is considered as from 755,000 to 800,000 tons. The American make is estimated at 750,000 tons, the next largest producer being Germany, which is considered by many to be capable of the greatest expansion among all the steel-making countries. Less than two years ago there were 25 converters in Prussia working out of the 50 built, and turning out 375,000 tons, which was increased by the works in Saxony and the Palatinate to 400,000; and since the revival in trade fresh converters have been put into operation. The estimate of the French manufacture is about 275,000 tons; that of Belgium, 150,000; of Austria, with 32 converters, 250,000, and of Sweden and Russia, 150,000. Of the Bessemer converters in England, the largest are two 10-ton ones at Sir John Brown & Co.'s works, in Sheffield, the others varying between three and eight tons in capacity, and out of the 54 British steel works 17 only have rail-mills. Looking at

the probable extension of railways for the next 12 months, it is difficult to see how all this large output of steel rails is to be utilized. [—London Times.

The Law of Brokerage.

An important case was recently decided by Judge Fancher, of the Court of Arbitration in New York. William A. Torrey & Co. received a cable dispatch from Moritz Schloss, their Swedish correspondent, ordering 11,800 sides of leather at a certain price, on behalf of some Swedish merchants. Mr. Torrey took the order to Thorne, McFarlane & Co., but they refused to fill it at the prices named. He cabled their terms to Schloss, who answered to fill the order. The goods were accordingly shipped, but it turned out that Schloss had exceeded his authority, and the Swedish merchants refused to accept them at the prices agreed upon here. Rather than reship them, Thorne, McFarlane & Co., consented to a reduction, and the same parties purchased them. Torrey & Co. thereupon sued for a commission of $2,451.43, and Thorne, McFarlane & Co., put in a counter claim for $5,797, the difference between the price agreed upon and that obtained. Judge Fancher decides that neither can recover. He holds, on the one hand, that the original contract ended when the Swedish merchants refused to accept the goods at the price agreed upon between Thorne, McFarlane & Co. and Torrey & Co., and that the subsequent sale under stress of circumstances at another price did not give the latter any new rights, notwithstanding the fact that the purchasers were persons to whom they had introduced the sellers. On the other hand, he declares that the evidence shows Torrey & Co. to have acted in good faith and to have been themselves deceived. They therefore are not liable.

Selma, Rome and Dalton Railroad.

In the case of the Selma, Rome and Dalton Railroad Company, in which several millions of dollars are at issue, the Supreme Court of Alabama has decided that the first trust-deed of 1852 had a first lien on the whole of the main line of the road in Alabama, but not on the Government land grant; and, also, on a corresponding portion of the rolling stock, the other portion of the rolling stock pertaining to the road in Georgia. A decree will be rendered for the sale of all the property and franchises, including the grants of land of the road in Alabama. The Alabama portion of the road is 170 miles. This decision, it is stated, confirms to the company all the road, subject only to a prior lien of the Alabama and Tennessee River Railroad first and second mortgages, amounting altogether to $600,000. The certificates of the Receiver held by the Selma, Rome and Dalton Railroad bondholders are ratified, and the land grant of 450,000 acres is confirmed to the Selma, Rome and Dalton Railroad bond-holders free from lien.

☞ The directors of the Missouri, Iowa and Nebraska Railroad Company have ratified the proposed sale of that road to the Wabash. Contracts have been given out for extending the main line 80 miles west to Corydon, Iowa, and for grading a branch to Albia. After foreclosure and reorganization the road will be consolidated with the Wabash. The branch to Albia contemplates a connection with the Iowa Central and the ultimate absorption of the latter road into the Wabash system.

Chicago, Milwaukee and St. Paul Railway.

At a meeting of the directors of the Chicago, Milwaukee and St. Paul Railway Company, held at the office of the company, 68 William St., this city, on the 23d inst., the following statement of the operations of the line for the year 1879 was submitted:

By gross earnings		$10,012,819 78
Less operating expenses, including taxes		5,473,794 96
		$4,539,024 82
Interest received on money loaned account in 1879		69,066 84
		$4,608,091 66
To 3½ per cent dividend on preferred stock in October, 1879	$429,781 90	
To 2½ per cent dividend on common stock in October, 1879	385,106 42	
		814,888 32
		$3,743,203 34
To interest on bonds and payment on sinking fund in 1879		2,357,407 36
		$1,435,795 98
To 3½ per cent dividend on preferred stock in April, 1880	$429,781 90	
To 3½ per cent dividend on common stock in April, 1880	539,149 13	
		968,931 03
Balance		$166,864 95

☞ The Richmond and Allegheny Railroad Company have opened an office in Richmond and are making every preparation to push foward the work of constructing the railway along the canal tow-path. They are already having railroad ties cut and the rails made. A locomotive for the construction train, to be used principally in carrying supplies to the hands along the route of the road, has also been ordered and is in course of manufacture.

☞ Messrs. Geo. V. Halliday & Co., No. 610 North 4th Street, St. Louis, Mo., have been appointed Western representatives of the Philadelphia Scale and Testing Machine Works, Messrs. Riehle Brothers Proprietors, for the sale of the superior and widely known articles manufactured by this firm, through the Western and Southern States. Messrs. Geo. V. Halliday & Co., have also warerooms inNew Orleans, and will keep a stock of scales on hand at both stores.

☞ Surveyors for the Long Island Railroad Company have recently been prospecting through the Villages of Huntington, Cold Spring, Oyster Bay, and Port Jefferson, with a view to selecting the place which offers the most favorable facilities for extending the railroad to tide water, the ultimate object being to run excursions to Coney Island and Rockaway from New Haven via the Sound and the Long Island Road.

☞ The first locomotive over the newly-built Southern Pacific Railroad arrived at Tucson, Arizona, on the 18th inst., and the event was celebrated by the people assembled at that place with imposing ceremonies.

☞ A cargo of 1,600 tons of iron rails, for the Houston and Central Texas railroad, has arrived at Galveston, from Wales, by the British steamship Morglay.

OFFICE OF LA PLATA MINING AND SMELTING CO., OF LEADVILLE, COL., No. 58 BROADWAY, ROOMS NOS. 12 AND 13, NEW YORK, March 18, 1880.

DIVIDEND NO. 7.

THE BOARD OF TRUSTEES HAVE THIS DAY declared a dividend of SEVEN AND ONE-HALF CENTS per share, (par value $10) on the capital stock, payable on Thursday, April 1, prox., at the office of the company. Transfer books will close on Thursday, March 25th inst., and reopen Friday, April 2, 1880.

Statement of the financial condition of the company:

Cash capital	$100,000 00
Feb. 1, 1880.—Balance surplus account	45,543 75
March 1, 1880.—Net receipts for month of February	13,080 78
	$158,624 53
Dividend of 7½ cents per Share, 200,000 Shares	$15,000 00
Balance surplus, March 1, 1880	$143,624 53

W. B. ALLEN, Assistant Secretary.

CHRYSOLITE SILVER MINING CO.

ROOMS NOS. 51 TO 57 BOREEL BUILDING, No. 115 BROADWAY, NEW YORK. March 18th, 1880.

THE BOARD OF TRUSTEES HAVE THIS DAY declared a regular monthly DIVIDEND (No. 5), of TWO PER CENT on the TEN MILLION DOLLARS ($10,000,000) capital stock of this company, amounting to TWO HUNDRED THOUSAND DOLLARS ($200,000), or ONE DOLLAR PER SHARE, out of the fifth month's net earnings, payable at the Central Trust Company, No. 15 Nassau Street, on the 27th of March.

Transfer-books will close March 25th, and reopen March 30th. DRAKE DE KAY, Secretary.

LITTLE CHIEF MINING COMPANY.

ROOMS NOS. 51 TO 57 BOREEL BUILDING, No. 115 BROADWAY, NEW YORK, March 15, 1880.

THE BOARD OF TRUSTEES HAVE THIS DAY declared a MONTHLY DIVIDEND (No. 2) of one Per Cent. on the TEN MILLION DOLLARS ($10,000,000) capital stock of this company, amounting to ONE HUNDRED THOUSAND DOLLARS ($100,000,) or FIFTY CENTS Per Share, out of the second month's net earnings, payable at the Central Trust Company's on the 25th inst.

Transfer-books will close March 21, and re-open March 26. DRAKE DE KAY, Secretary.

CHICAGO, MILWAUKEE AND ST. PAUL RAILWAY COMPANY, NEW YORK, March 24, 1880.

NOTICE IS HEREBY GIVEN THAT A DIVIDEND of Three Dollars and Fifty cents per share has been declared on the preferred stock of the Chicago, Milwaukee and St. Paul Railway Company, and a dividend of Three Dollars and Fifty cents per share on its common stock, out of the net earnings of the year 1879, payable at the office of the company, No. 68 William-st., on the 15th day of April next. The transfer-books will be closed on the 29th of March, and reopened on the 19th of April next.

JULIUS WADSWORTH, Vice-President.

METROPOLITAN ELEVATED RAILWAY COMPANY, No. 71 BROADWAY, NEW YORK, March 18, 1880.

THE SECOND QUARTERLY DIVIDEND of (2½) TWO AND A HALF PER CENT on the capital stock of this company will be paid to the Stockholders of record on and after the 1st day of April next, at the office of the Central Trust Company of New York, No. 15 Nassau-st.

The transfer books will be closed at the said office at 3 p. m. on the 24th of March, and remain closed till 10 a. m. on the 1st of April next.

JOHN E. BODY Treasurer.

Oregon Railroads.

The following is an extract from the Report of of John Q. A. Bowlby, Esq., President Astoria Chamber of Commerce, for the year 1879:

A bill was introduced last Congress to forfeit to the government the unearned railroad lands between here and Forest Grove, and is now pending. This land has been locked up for ten years useless to everybody, and retarding the settlement of the country. It should be thrown open to settlers at once. Within these limits during the year 1878 40,561 acres were settled under the United States laws, and in 1879, to November 1st, 50,017 acres were so taken, notwithstanding one-half of the land was tied up by the railroad.

At the time of our last report narrow gauge railroads were attracting considerable attention in this state and elsewhere, but the popular interest in them does not seem so great at present.

Out of your efforts a company, the Astoria and Winnemucca Railroad Company, was organized last July to construct, if found practicable, a railroad from Astoria to the Central Pacific in Nevada. The survey has been carried from Astoria to Forest Grove and found to be feasible and on a much shorter line than anticipated, besides exposing fields of fine coal near tide water. It is hoped grading will begin on this section as soon as the weather will admit. This line will develop and open a portion of country throughout nearly its whole length that is now without a transportation line, and will connect Astoria by rail to Portland, and several of the Willamette valley towns. During the last year the Western Oregon Railroad Company was incorporated, and extended a railroad from the terminus of the Oregon Central at St. Joe to Corvallis.

The narrow gauge, the Sheridan and Grand Ronde, has done much for the section of country through which it passes to the Yamhill river.

The Oregon Railway and Navigation Company has also been formed and are contemplating building railroads in eastern Oregon and Washington territories to the Columbia river and perhaps to some place below The Dalles.

On account of rocks and ice, transportation on the upper Columbia has been blockaded and the the boats have been unable to bring out all the grain this last year.

The Northern Pacific Railroad Company has begun building eastward from the mouth of Snake river and perhaps the Oregon Railway and Navigation Company will extend its line to a junction with it.

These lines east of the Cascade mountains are simply (at present at least) developing the valleys of the upper Columbia and its tributaries, and affording avenues for its products to the Columbia river without aiding at all the outlet to the sea.

The Northern Pacific strikes the river 345 miles from the ocean. A short road now in operation called the Walla-walla Railroad terminates 323 miles away and the projected road, Oregon Railway and Navigation, if it starts at The Dalles, will be 200 miles off. From the termini of these roads the freight will be carried on a mighty river but one broken by obstructions. The Cascades, 150 miles, The Dalles, 200 miles from Astoria, besides rocks above.

There is talk of extending the Oregon Railway and Navigation road to Portland, but if the river boats and all the portages are owned by the same persons it will not afford any competition.

The Northern Pacific will not, for five years at least, perhaps more, extend its road either down the Columbia or over the mountains to the Sound. But if the roads were constructed through and controlled by rival companies they could not carry as cheaply as river boats. Last season it cost $10 50 per ton to carry wheat from Wallawalla to Portland, and $11 50 to Astoria. Thirty miles of that distance is by rail and costs $4 50 per ton, while the remainder, 285 miles to Portland by boat, over two portages, cost only $6, and the 323 miles to Astoria, over the same portages, cost but $7 per ton.

Chrysolite Mining Co.

The Chrysolite Company declares its fifth regular monthly dividend of $200,000, out of the fifth month's net earnings.

This aggregates one million dollars of dividends paid out of the net earnings of the first five months in which the company has had possession of its mines, and leaves a handsome surplus in the Treasury, besides paying the heavy cost of timbering, new hoisting machinery, and the expensive dead work necessary in scientific opening of the mines and a judicious development by exploration.

This additional outlay has been about $312,000, and has reduced the cost of hoisting five sixths, and has placed in sight over three dollars net of new ore for every dollar extracted, and has put the mine in condition to enable the company to double its output.

"Arteries of Commerce."

Canals, as valves in the arteries of commerce, regulating and giving direction to the flow of their currents, come very naturally under the fostering care of government. They cannot be constructed without the expenditure of money, of course, but governments have usually been liberal towards them. The United States are no exception to this rule. The Louisville and Portland canal, to make which toll free and provide for its maintenance and repairs the House of Representatives has just passed a bill by more than a two-thirds vote, has cost the government nearly $5,000,000. The Sault Ste. Marie canal, in Michigan, the locks of which are being enlarged by the government, though only a mile long, has cost government more than $1,000,000. The Des Moines Rapids canal has cost the government between $5,000,000 and $6,000,000 to complete it, besides a permanent appropriation of $40 000 per annum for its maintenance. The Eads jetties, which are in the nature of a canal cutting through the bar at the mouth of the Mississippi river, will cost when completed $10,000,000. These are liberal appropriations liberally made, for objects of national importance. None of these canals, however, serve the commerce of so wide an extent of productive country, so many States and Territories, as the proposed ship canal between the Chesapeake and Delaware. This, when constructed will accommodate and furnish an outlet to the commerce of an area three times larger and greater than that served by the Welland canal, upon which, nevertheless, when it is completed, (as it will be in 1881,) the British government and the Canadian authorities will have expended $40,000,000.—[Baltimore Sun.

North Carolina Minerals.

We are under obligations to Prof. W. C. Kerr, State Geologist, for a copy of the Geological Report of North Carolina. The volume is prefaced by a handsomely made map of the State, showing its general geological features, and the report itself bears conclusive evidence of the pains-taking integrity and comprehensive scientific culture of the head of this important part of the State government of North Carolina. The economical geology of that State is of great interest to our local industries, as fully set forth by Professor Kerr in his speech before our Chamber of Commerce, two weeks ago. The subject deserves attentive study in this regard, even aside from the prospective extension of our railway system due South. We mean that, even now, by the use of existing lines of transportation, it may be possible that our iron manufacturers may draw profitably upon the ore resources of that interesting section of our common country. At a time when we are receiving thousands upon thousands of tons of iron ores from Spain, Africa and Great Britain, it must surely be possible to get the magnetic and hematite veins of the Tar Heel State tapped for our consumption.—[Pittsburg Chronicle.

Tide Water Pipe Line.

The Bradford (Penn.) Star says that when the Tide Water Oil Pipe Line was first opened there was almost no sale for crude at their terminus, and the refining facilities were a mere bagatelle, but that now there are facilities for refining one-fourth of all the oil produced in the northern field, and then adds:

The Tide Water Line have made a reasonable profit on every barrel of oil they have transported since they opened their line. The Tidewater are now carrying 10,000 barrels per day and will increase their facilities as fast as the trade demands it to be done. The laying of a line to Buffalo will open up a trade not hitherto considered a factor worthy of notice in the calculations of the prospects of the business, but which must soon make itself felt in the scramble for our fast declining product. The Standard Company are daily circulating reports of the increase of the product while they are putting forth every effort to secure to the last barrel all that is being produced in the country. They are building lines now to carry the product to the seaboard.

Mexican Central Railroad.

The directors of the Mexican Central Railroad Company recently elected are: Isaac T. Burr, B. P. Cheney, Thomas Dana, William Roich, Lucius G. Pratt, Warren Sawyer, R. M. Pulsifer, William O. Taylor, S. A. Kent, Theodore Nickerson, Levi C. Wade, Charles Lanier, Robert R. Symon, Edward D. Adams, Sebastian Camacho, Ramon G. Guzman, and Walter W. Symon. The officers are: President, Warren Sawyer; Vice-President, Robert R. Symon; Second Vice President, Levi C. Wade; Clerk and Treasurer, Stephen W. Reynolds. The Mexican Government has not yet nominated the two members of the Board of Directors to which it is entitled. This is the corporation which is to build a line from the City of Mexico to San Francisco, and another to the extension of the Atchison, Topeka and Santa Fe Road in Arizona.

☞ The Chicago, Milwaukee and St. Paul Railway Company having secured control of the Chicago and Pacific Railroad, is enabled to run its own trains from Chicago and Milwaukee to Sioux City, Yankton and Sioux Falls, the most important points in Northwestern Iowa and Southern Dakota. The road, which is 90 miles long, is to be greatly improved, and probably extended.

☞ A certificate of incorporation has been filed with the Secretary of State at Columbus, of the New York, Pennsylvania and Ohio Railroad Company, being the reorganization of the Atlantic and Great Western Railroad Company under the recent act passed by the Legislature of Ohio.

☞ From figures recently published in the Pall Mall Gazette, it appears that the average earnings of an English engine amount to about $22,800 a year. The largest earnings are those of the Great Northern line, which amount to over $25,000; the lowest are those of the Lincolnshire Railway, which barely come up to $18,750.

☞ Articles of incorporation have been filed in the office of the Secretary of State at Springfield, Ills., of the Chicago and Western Railroad Company, of Chicago, with a capital of $1,000,000. The corporation proposes to construct and

operate a railroad from Chicago to Aurora, passing through Cook, Du Page, and Kane Counties, but the route is not otherwise stated.

Ohio and West Virginia Railroad.

The Ohio and West Virginia Railroad, which is destined in the near future to become an important link in some of the trunk lines of the country, is about 82 miles in length, and runs from Logan to Gallipolis, thence up the Ohio River to Pomeroy. At Logan, it connects with the Columbus and Hocking Valley and Columbus and Toledo Railroads, and as soon as the Chesapeake and Ohio Railroad builds 27 miles, now under contract, there will be a through line from the Atlantic through West Virginia and Ohio to the North and West, which will be over 50 miles shorter than any other route. Rails are now going down at each end of the road, and the work is being pushed to completion. The company was fortunate in purchasing 8,000 tons steel rails at less than $50 per ton, and among the equipments contracted for before the rise were six standard engines at about $6,000 each.

☞ The Washington and Waynesburg Railroad is to be extended this Summer from Waynesburg to Blacksville, enough money having been raised for that purpose. It is proposed also to build a road to Charlestown, West Va., a distance of 211 miles. As at present traveled the distance from Pittsburg to Charlestown is about 400 miles.

☞ It is thought that the construction of a narrow gauge line of railway from Bradford, Pa., to Kinzua will also accomplish ultimately another long-looked-for end, and that is a continuous line of road from Titusville to Bradford, passing Warren in its route, and making Olean the terminus in New York.

☞ Articles of incorporation of the Evansville and Peoria Railroad have been filed. The capital stock is $1,000,000. The projected line is from Evansville, Ind., to Grayville, White County, Ill., where it becomes a part of the Peoria and Decatur Railroad.

☞ The Nevada Central Railroad, recently completed to Austin, Nevada, on money furnished by Hatch & Foote and Phelps, Stokes & Co., is to be extended south to Bodie, and north from Battle Mountain through Idaho to the Columbia River, in Oregon.

☞ Work on the new railroad from Johnstown to Somerset, Penn., will be begun early in April. The cost will be about $750,000, the Cambria Iron Company at Johnstown subscribing one-half that amount.

☞ The contract for building the Wisconsin and Minnesota Railroad, from Colby, on the line of the Wisconsin Central, to Chippewa Falls, has been let. The road is to be in running order by October 1. The distance is 64 miles.

☞ The engineers of the Shenandoah Valley railroad are now engaged in running a line through Rockbridge county, Va., with a view of its extension towards Salem.

☞ The entire contract for the western extension of the Missouri, Iowa and Nebraska Railroad has been awarded.

Commerce for the Isthmus Canal.

The following information was obtained for the Interoceanic Canal Committee, to which it was referred:

During the fiscal year ending June 30, 1879, there were cleared from San Francisco for foreign ports 259 vessels via Cape Horn, with an aggregate tonnage of 342,721 tons, and 12 vessels with a tonnage of 22,175 tons, for domestic ports, the aggregate value of their cargoes being $2,725,069. During the same year, 58 vessels entered the port of San Francisco, having passed around Cape Horn from foreign ports with an aggregate tonnage of 68,418 tons, and 57 vessels from domestic ports with an aggregate tonnage of 92,683 tons. Twenty-seven vessels cleared from San Francisco with cargoes valued at $2,166,699, destined for transfer across the Isthmus of Panama, and 27 vessels entered the port with cargoes that had been transported across the Isthmus; the average time occupied by sailing vessels in making the voyage from New York to San Francisco, via Cape Horn, was stated to be 132 days.

☞ The owners of the Little Rock, Mississippi River and Texas Railway propose to extend it from Monticello, Ark., its present terminus, to Texarkana, where it will connect with the Northern Texas system of roads. The gap to be built is about 140 miles in length. The line will run through Camden, and will afford an outlet for a large and fertile section of Arkansas now entirely dependent on the navigation of the Ouachita river. With the completion of this line and of the railroad from Pine Bluff to Little Rock, New Orleans merchants would have access to Arkansas at all seasons of the year.

☞ A company has been formed for the purpose of constructing a railroad from Valatie, Columbia county, New York, through Kinderhook to the Hudson River. Charles Wild, of Valatie, has been elected President of the company, C. H. Housman, of New York, Vice President, and W. H. Rainy, of Kinderhook, Secretary and Treasurer. The road is to be narrow gauge. It will have its river terminus at Judson's Dock, a few miles below Stuyvesant where connection with the Hudson River Road and the boats on the river will be secured. Work on the line is to begin with the opening of Spring.

☞ The gross earnings of the Columbus, Chicago and Indiana Central Railway from Sept. 1, 1879, to Feb. 29, 1880, inclusive, were $2,282,748 67, and the net earnings $725,257 89, against $1,853,994 62 gross receipts, and $361,927 86 net earnings, the corresponding six months of previous year.

☞ The Pittsburg Chronicle says that the foreign steel blooms which are now being received at the Superior Rail Mill in that city are found to be cheaper than the American article, and give entire satisfaction. The firm have contracted for about 15,000 tons, which will last a considerable time. The blooms are of Austrian manufacture.

☞ The first through car to Port Royal, S. C., over the Cincinnati Southern Railway, with the Port Royal delegation to the great railway celebration, arrived there on the 21st, 34 hours from Cincinnati.

☞ The Minneapolis, Shakopee and Minnesota Valley Railroad was formally organized at Minneapolis, on the 20th, and the directors have given orders looking to the early building of the line.

☞ The Chicago, Milwaukee and St. Paul Railway Company have taken a lease of the entire property of the Sioux City and Dakota Railroad Company. The leased property embraces the recently consolidated Dakota Southern and Sioux City and Pembina Railroads, and will be operated as the Sioux City and Dakota division of the Chicago, Milwaukee and St. Paul Railway.

☞ The stockholders of the South Boston Railroad Company have voted to authorize the directors to issue the remaining two thousand shares of stock, as authorized by law.

☞ Earth was broken for the Danville and New River Railroad near Danville, Va., on the 18th inst.

☞ The Directors of the Marietta and Cincinnati Railroad Company have decided to open an office in New York for the transfer of stock, &c.

☞ The Coney Island and Brooklyn Railroad Company have declared a dividend of 3 per cent payable April 15th.

INTERSTATE AND INTERNATIONAL
MECHANICAL EXCHANGE,
No. 20 East 13th Street,
(Near Union Square bet. Broadway & Fifth ave.)
NEW YORK, U. S. A.

A. S. Gear, Manager, (late of Boston, Mass.)

An equitable purchasing and selling agency, and bureau of Practical Knowledge. Reliable information concerning Machinery and Mechanical Supplies, (any kind, style or make) Patents, and Mechanics; Purchases made, sales effected, help furnished, inventions patented, litigations carefully conducted.

☞ From 5 to 25 per cent saved in doing business through the Exchange. A large variety of meritorious mechanical devices always on exhibition, and new and novel contrivances are kept in motion. Send for explanatory circular.

The Coal Trade.

The total tonnage of anthracite coal from all the regions for the week ending March 13, as reported by the several carrying companies, amounted to 354,105 tons, against 480,559 tons in the corresponding week last year, a decrease of 136,454 tons. The total amount of anthracite mined for the year is 3,703,241 tons, against 3,929,179 tons for the same period last year, a decrease of 220,938 tons. The quantity of bituminous coal sent to market for the week amounted to 8,160 tons, against 59,214 tons in corresponding week last year, a decrease of 51,054 tons. The total amount of bituminous mined for the year is 697,721 tons against 564,964 tons for the corresponding period last year, an increase of 232 357 tons. The total tonnage of all kinds of coal for the week is 362,263 tons, against 539,773 tons in corresponding week last year, a decrease of 140,306 tons, and the total tonnage for the coal year is 4,405,963 tons, against 4,395 143 tons to same date last year, an increase of 10,820 tons. The quantity of coal and coke carried over the Pennsylvania Railroad for the first week of March was 110,013 tons, of which 73,256 tons were coal and 36,757 tons coke. The total tonnage for the year thus far has been 1,203,718 tons, of which 915,477 tons were coal and 288,241 tons coke. These figures embrace all the coal and coke carried over the road east and west. The shipments of bituminous coal from the mines of the Cumberland coal region during the week ending March 13th were 39,581 tons, and for the year to that date 344,388 tons—159,124 tons more than in the corresponding period of 1879. The shipments to the Baltimore and Ohio Railroad for the week were 31,242 tons, for the year 301,662 tons, an increase of 146,249 tons as compared with 1879. The shipments to the Pennsylvania Railroad for the week were 8,339 tons, and for the year 40,142 tons, an increase of 10,290 tons, as compared with 1879.—[Phil. Ledger, March 22.

☞ In the case of the United States against the Missouri Pacific Railroad Company for $135,000 taxes falling due between 1864 and 1871, Judge McCrary, in the U. S. Circuit Court at St. Louis ruled that as no assessment and demand had been made at the time, or until 1877, when the property had passed into other hands, no lien could be established, and his decision was in favor of the railroad.

☞ The stockholders of the Mankato and St. Cloud and Austin and Mankato lines, formally organized at St. Paul, Minn., on the 20th inst., by the election of the same officers. Preliminary surveys of the route were ordered to be made forthwith; maps and profiles are to be prepared, and a limited issue of stock, amounting to 300 shares, was directed to be issued to meet current and future expenses.

☞ The annual report of Chicago pork packing gives the following figures: Number of hogs packed during the summer season, 2,155,418; during the winter season, 2,525,219, making a total for twelve months of 4,680,637, a decrease of 280,319 from the season of 1878-79. Aggregate weight of hogs, 562,552,284 pounds; total yield of lard, 102,516,571 pounds, a decrease from last year of 28,290,677 pounds.

☞ The Miami Valley narrow-gauge railway was sold at judicial sale, at Lebanon, Ohio, on the 21st inst. for $61,000, to John Ferris, agent for a Cincinnati association. The road runs from Cincinnati to Waynesville, Ohio, and cost a large sum. The new owners will at once complete its construction.

A. G. DAY,

MANUFACTURER OF

Kerite Insulated Telegraph Wire and Cables,

Of all kinds made to order, for Ocean, River, Aerial and Subterranean Lines.

The Kerite covering of these Conductors unlike any other, resists effectually the destructive action of Heat and Moisture, and the corrosive agents either in Earth, Air or Water.

☞ Special orders should state whether the Cable is to be exposed to Earth, Air or Water.

FACTORY—SEYMOUR, CONN. Office, 120 Broadway, New York.

NEW YORK, LAKE ERIE & WESTERN RAILWAY.

TO THE TRAVELING PUBLIC.

During the Centennial Season—six months, closing November 10, 1876—the Erie Railway carried almost 3,000,000 passengers, without a single accident to life or limb, or the loss of a piece of baggage.

And for a whole year, the official records of the United States Post-Office Department show the arrivals of Erie Railway trains in New York, on time, to be from 15 to 27 per cent. ahead of competing lines.

Facts well worthy the consideration of travelers.

HARLAN A. PIERCE, Editor.

New York, Friday, April 2, 1880.

Railroad Construction for 1880.

The *Daily Commercial Bulletin* has compiled a very full and interesting table of railroads under construction and projected for the coming year. From the figures thus obtained it is seen that the greatest activity is in the West and Southwest, and next in the South and the Middle States as well as Eastward. From September 1, 1879, to about the present date, 2,971 miles of road have been completed. Within the same period arrangements have been made for building 12,641 miles more; making the total of completed and projected road 15,612 miles, within seven months. This nearly equals the entire increase of mileage for the three years 1869, 1870 and 1871—the most active period of railroad construction in the history of the country.

The capitalization, as a rule, is somewhat lower than during that period. Thirty roads, embracing 4,923 miles, show a total capitalization (stock and bonds) amounting to $138,000,000; which gives an average rate of about $28,000 per mile of single track, which is more than the honest cost of the work, and which is a repetition of the old error of over-capitalization which brought down so many companies after 1873, though not to the same excess. Assuming this to be the average rate of capitalization, upon the 15,612 miles projected and placed under construction within the last seven months the new issues of stocks and bonds will aggregate $437,000,000. Assuming the actual cash cost of line and equipment to average $17,500 per mile, and that all the projected road will be actually built, these new enterprises will absorb $273,000,000 of capital.

Railroads Advancing Wages.

It is one of the most gratifying as well as hopeful signs of the times that the railroads of the country are generally advancing the wages of their employes, voluntarily, to the old standard from which they had gradually reduced them since 1877 to a point consistent only with an emergency such as the depression in the trade of the country then presented. Indeed, this was the understanding upon which these reductions were made and submitted to, and hence it was the duty of the railroads to restore wages to the old standard just so soon as the return of better times was assured. This time arrived last fall, and we then took occasion to remind the officers of railroad companies that it was time to advance their employes' wages not only because the occasion for their temporary reduction had passed away but because the cost of living had been enhanced 25 per cent as was then shown. Since then there has been an advance in rents and some classes of goods not then effected by the general rise in prices, while the wholesale price of others has fallen back materially, but left the retail prices about as high as then. Upon this 25 per cent increased cost of living we then asked for 25 per cent advance in wages to keep the employe upon a footing equal to that at the bottom of the depression for without it he was actually getting less purchasing power in his wages than at the worst period. We then showed that the increased earnings of the railroads up to that time, were 25 per cent, and sufficient to pay this 25 per cent in wages. Since then this increase has been still more marked and is still increasing. For January the increase was 30 per cent and in February 34 per cent, notwithstanding the grain and provisions blockade caused by the speculation in those staples at the West. The returns for March will be still better on the great trunk lines because the grain blockade is broken and it is coming forward freely since the middle of that month.

It will thus be seen that 25 per cent advance in wages is really no advance, as the cost of living has advanced the same. What the basis of 1877, to which some of the roads have restored their wages, was, we do not now remember, but if it is not more than 25 per cent above the bottom prices of last year, it is really no advance at all, and instead of the stockholders demanding all above that percentage in increased dividends, they should share this excess with their employes or rather make them a dividend also, with which to fortify themselves against a return of hard times, and thus establish the bonds of humanity, fellow feeling and interest between employer and employed, so that when hard times come again their property will not be placed in peril by reason of labor riots on the railroads. Make these employes sharers of dividends, and then the property of the roads becomes theirs jointly with the stockholders and they will be equally interested to protect it and enhance its value. It is therefore gratifying and hopeful, as we said, to see that the officers of many of our railroads begin to appreciate their relations to their men and to accord them their rights, as we suggested to

them last fall, without waiting for them to enforce them by strikes and riots.

The Special Rate Pilgrimage to Albany.

The recent pilgrimages to Albany, from all parts of this State, of those who enjoy special freight rates over our railroads, to protest against the "Anti-Discrimination Bill," proposed by the Railroad Committee of the Assembly, to compel the railroads to treat all their customers alike, is the most touching exhibition of unselfish devotion to a principle, that has been witnessed in this country, or in the nineteenth century. There is but one great example in history, even, with which these apostles of Vanderbilt and their mission, can be justly compared, namely, the pilgrimages of the Apostles of Mohammed to Mecca, to secure for themselves "special rates" to the (wheat and corn) fields of Paradise. These modern pilgrims, however, travel in far different style from their Moslem brothren. They were furnished for their journey with "special trains" of palace coaches by their master, the modern Jove, to take them to the Mecca of the "special raters" at Albany. They were required to provide themselves with neither purse nor scrip, for their benefactor and protector, Vanderbilt, was provided with both purse and scrip (dividends) with which to pay all the expenses of these poor but honest pilgrims, who were unable to compete with their ungodly neighbors, without "special rates." Hence Vanderbilt, the great and good protector of the weak and defenseless, led these lambs of his fold, before the wolves of the Railroad Committee, to plead for the inalienable rights of a poor man—"special rates"—as an absolute necessity to enable them to compete successfully with the multitude of their rich and unscrupulous rivals who are seeking to devour them.

Eye witnesses of the sessions of the Railroad Committee at which these poor pilgrims presented their case, are said to have been unable to control their emotions, as they pled for their wives and their children and their homes; and they declare if ever a mortal man was entitled to be called a Saint that man is Vanderbilt, who thus secured for these poor merchants and manufacturers a standing in Court, gave them a holiday from their hard labors, a free ride and a free "feed" to and from Albany. If, after these prayers and these tears, the Railroad Committee shall approve the "Anti-Discrimination Bill," it will be the grossest abuse of representative power, in the interest of the many against the few, to be found in the annals of modern legislation. We know the successful business man may say that Darwin's theory of the survival of the fittest applies to business as well as to the descendants of the ape in person; yet this is too cold blooded a theory for an age of Christian civilization; and we shall propose Mr. Vanderbilt as a candidate for the next vacant seat in the Board of Saints, as the man who saved from extinction the few—the remnant of Darwin's race, who are unable to take care of themselves without "special rates" and special privileges. Down therefore with the Railroad Committee and the "Anti-Discrimination Bill," and up with Saint Vanderbilt and his Pilgrims. So said the Board of Managers of the Produce Exchange, whose kindly and *disinterested* souls melted before the *convincing* arguments of the half dozen Pilgrims of that body. Indeed, for such services, we do not know but we should propose each member of this Board of Managers for Saintship, also, were it not for the fact that they go out of office soon, and that the great mass of worldly minded members swear they shall never go in again. In this event, however, they would make good candidates for martyrs, at which time we may be constrained to propose them for membership in that Board together with the Pilgrims, if the Hepburn bill is passed; for, virtue in these corrupt times of majority oppression of the minority too often goes unrewarded, while venality is elevated to place and power. Down, therefore, also with the Produce Exchange and up with its Pilgrims and their Board of Managers.

The Law of Railway Leases.

Among the decisions handed down by the United States Supreme Court on the 29th ult. was the following:

George W. Thomas et al., plaintiffs in error, vs. The West Jersey Railroad Company.—Appeal from the Circuit Court of the United States for the Eastern District of Pennsylvania.—On the 8th of April, 1863, Thomas et al., the plaintiffs in error, entered into a contract with the Millville and Glassboro Railroad Company, of which the West Jersey Railroad Company is the successor, whereby they became the lessees of that railroad and its franchises for a period of 20 years. The contract contained a proviso stipulating that the lease should be terminable by the railroad company at any time upon three months' notice to the lessees, and that in the event of such termination arbitrators should be chosen to compute the amount equitably due Thomas et al. from the railroad company, by way of indemnity for non-fulfillment of contract. The lease was terminated after proper notice on the 1st of April, 1868. Efforts to fix by arbitration the amount of compensation due Thomas et al. for the unexpired term of the lease having proved fruitless, the latter brought this suit to recover damages for non-fulfillment of the contract. The most important point presented to this court for decision was whether the Millville and Glassboro Railroad Company had legal power, without the consent of the State and without any authority from its charter, to executed a contract by which it virtually transferred its road and franchises to the plaintiffs in error. The point is one of importance, on account of its bearing upon railroad leases in general. This court holds that in the absence of express authority in its charter, the railroad company had no right to transfer its road and franchises to other parties, and thus render itself unable to perform the duties which that charter directly or by implication imposed. When a corporation like a railroad company has granted to it by charter a franchise intended in a large measure to be exercised for the public good, the due performance of this function being the consideration of the public grant, any contract which disables that corporation from performing such function, which undertakes without the consent of the State to transfer to others the rights and powers conferred by the charter, and to relieve the grantees of the burden which it imposes, is a violation of the contract with the State, and is void as against public policy. It follows that the plaintiffs in error cannot found a right of action upon an agreement void for want of corporate authority and forbidden by the policy of the law. The decree of the lower court is therefore affirmed with costs. Mr. Justice Miller delivered the opinion, Mr. Justice Harlan dissenting. Mr. Justice Bradley did not hear the argument, and took no part in the decision.

Fine Carriage Building in Brooklyn.

Until within the past few years, fine carriage building for the country in and about New York has been confined to Manhattan Island, the rivers surrounding which, to use the words of a prominent Brooklyn carriage builder, having hitherto been like a wall of fire to confine this great manufacturing interest to a few firms in this city. This, however, is fast changing, partly from natural causes, and partly as the result of enterprise in business, and close attention to the wants of the Brooklyn driving public, which were not formerly studied, by the carriage manufacturers of that city, who contented themselves with taking a secondary place, and doing second-class work, relying upon the repairing branch of their business for their patronage and profit, as people will have their repairing done at home because more conveniently and quickly attended to, while they have gotten their new work in New York, because better built.

The Coney Island Boulevard has increased the number of people in Brooklyn who keep horses, and hence the demand for carriages. The growth of the Island itself, in the past two years, has still further added to this number. The races of last season augmented these additions, by bringing New York people to Brooklyn, while the new race course at Sheep's Head Bay, and other new Coney Island attractions will continue to increase these causes from year to year, so long as the popularity of these summer resorts, so lately known, shall be kept up.

These are the natural causes which have led to the change noted, and made it possible to build fine carriages in Brooklyn. The enterprise, which was farsighted and bold enough to see these advantages and appropriate them, belongs to Mr. J. Curley, whose manufactory is centrally located on State Street and Boreum Place, one block from the great thoroughfare to the Park, Schemerhorn Street, where within a few years he has built up the largest and best repairing business in Brooklyn, second to none in New York. In the meantime, he has quietly and by good work, established a reputation for the manufacturer of first-class fine carriages to which no other Brooklyn manufacturer can approach, and few, if any, of the first manufacturers of New York, excel. Indeed, from personal knowledge and use of Mr. Curley's carriages and theirs, we do not hesitate to say that he already ranks among the best fine carriage manufacturers of the country. It is the general verdict in Brooklyn of those who have been using

his carriages, that they rank side and side, for style and durability, with the leading manufactures of this city. We venture to say that not one in ten, who have used their carriages, could go into a repository and tell one from the other without looking at the plates. As a consequence, Mr. Curley is not only turning out more new work every year for Brooklyn people, but his trade is extending beyond them, on the reputation he has made among them, for he has never solicited business outside of that city.

Debt of Allegheny County.

The revenues of Allegheny County, Penn., during the year ending December 31, 1879, were $778,358 39, and the expenditures $628,498 22—leaving a balance on hand at the close of the year of $149,860 17. The outstanding obligations of the county, January 1, 1880, were as follows:

Registered Compromise, five per cent bonds	$271,830 81
Compromise coupon, five per cent bonds	1,521,000 00
Uncompromised railroad, six per cent bonds	34,000 00
Work House and Inebriate Asylum, seven per cent bonds	12,000 00
Registered Volunteer Bounty, six per cent bonds	250 00
Registered Fractional Scrip, five per cent bonds	26 00
Outstanding Countersigned Warrants	149 40
	$1,839,256 21

The indebtedness of the county at the commencement of the year was $1,891,469 54, and at its close, as stated above, $1,839,256 21—showing a reduction during the year of $52,213 33.

New York Stock Exchange.

The following securities have been admitted by the Governing Committee of the New York Stock Exchange to the official list:

Amie Consolidated Mining Company, capital in shares of $10, $5,000,000.

Colorado Coal and Iron Company, capital in shares of $100, $10,000,000.

Silver Cliff Mining Company, capital in shares of $50, $10,000,000.

District of Columbia Funding Fives of 1899, amount, coupon and registered, $1,092,300.

St. Paul and Sioux City Railroad Company first-mortgage six per cent bonds, on South Stillwater Branch, six miles, $60,000; Omaha and Northern Nebraska, sixty-three miles, $630,000; Covington and Black Hills line, twenty-six miles, $260,000. Also in lieu of all existing stocks on roads recently acquired, $10,000 per mile, of preferred stock and $10,000 per mile of common, to the amount of $1,287,500 of each class.

Pittsburg, Titusville and Buffalo Railway Company preferred stock, in $50 shares, $750,000; common stock, in $50 shares, $3,375,000.

Central Iowa Railway Company common stock, authorized, $4,925,200; first preferred stock, $907,000; second preferred stock, $1,167,800; first-mortgage 7 per cent bonds, $3,700,000; coupon debt certificates, $629,000.

Louisiana and Missouri River Railroad Company preferred stock, $1,010,000; common stock, $2,272,200

St. Louis, Terre Haute and Vandalia Railroad Company first-mortgage 7 per cent bonds, guaranteed, $1,899,000; second-mortgage 7 per cent bonds, $1,000,000; second-mortgage 7 per cent bonds guaranteed, $1,600,000.

The Pittsburg and Titusville stocks must await the readiness of the Farmers' Loan and Trust Company to transfer and register the stock. The Vandalia bonds will be a good delivery when registered to bearer by the Third National Bank of New York.

Chicago, Burlington and Quincy Railroad.

The gross earnings of this road for the year ending December 31, 1879, were $14,817,105 72, the expenses $7,577,061 23, and the net earnings $7,260,038 49. The gross earnings show an increase of $697,440 26, the expenses a decrease of $314,847 92, and the net earnings an increase of $1,012,288 18, as compared with those of 1878. After paying dividends of 10 per cent and all fixed charges, the surplus remaining was $1,657,529 55. Of this, $1,000,000 was appropriated to the renewal fund, and balances of accounts amounting to $423,084 81 were written off, leaving a balance of income of $234,444 74, which, added to the old balance, made the balance on hand Jan. 1, 1880, $4,416,262 91. The surplus, after paying interest and rentals, was equivalent to over 15 per cent on the stock. The new lines built during the year were: From Port Byron Junction to Rock Island, 6.59 miles; from Charlton, Iowa, to Indianola, 16.3 miles; from Creston, Iowa, to Fontenelle, 7.3 miles; from Clarinda, Iowa, to Burlington Junction, Mo. 20.81 miles; from Leon, Iowa, to Mount Ayr, 35.29 miles; from Knoxville to Des Moines, 34.29 miles; from Red Oak, Iowa, to Grisworld, 18.1 miles; from Chillicothe to Charlton, 14.973 miles. The increase of mileage owned and operated during the year aggregates 154 miles, and the amount expended in construction and equipment was $4,097,800 39. The funded debt was decreased $374,500. The present stock is $31,004,456 51, and the present bonds $30,503,225. The cost of the road in excess of all liabilities amounts to $11,578,033 07, divided as follows: Bonds and cash in sinking fund, $5,127,101 54; construction on old lines and new branches, $4,977,126 54; supplies and material on hand, $753,588 93; sundry investments, $335,192 79; accounts considered good, $385,023 27. The cash receipts of the land department were $365,549 16, and the expenses $47,469 01, leaving a balance of $318,080 15, paid over to the sinking fund for the land grant bonds.

St. Louis and San Francisco Railway.

The gross earnings of the St. Louis and San Francisco Railway for the year 1879 were $1,672,437, the expenses, $723,943 and the net earnings, $948,494. The gross earnings show an increase of $470,786, the expenses an increase of $148,486, and the net earnings an increase of $322,352 over those of 1878. The amount expended in improvements were $78,884, against $49,687 in 1878. The outstanding stock aggregates $22,063,420, the bonds $6,786,086, and the floating liabilities $304,116. The balance on hand is $335,031. The receipts of the land department were $154,598, and the expenditures $56,034. During the year the company purchased the Joplin Railroad, from Joplin, Mo., to Girard, Kan., 38 miles, and the Missouri and Western Railroad, from Pierce City, Mo., to Oswego, Kan., 73 miles, with a branch to Joplin, Mo., 9 miles, and leased the St. Louis, Wichita and Western Railroad, a new line from the Missouri, Kansas and Texas Railroad, near Oswego, at its intersection with the Missouri and Western Railroad, to Wichita, Kan., 144 miles. Of this, 78½ miles are in operation and the remainder is being rapidly pushed to completion. At Wichita it will connect with a branch of the Atchison, Topeka and Santa Fe Railroad.

North River Railway.

This road is to extend from a point in Orange or Rockland County, near Fort Montgomery, in Orange County, and on the line of the Jersey City and Albany Railroad, to a point in the City of Albany. Branches are to run to Schenectady, and to a point on the railroad of the New York, Ontario and Western Railway Company, east of the Village of Westboro, in Sullivan County. The length of the road is estimated at 105 miles; the branches 30 miles each. The road will run through the Counties of Orange, Sullivan, Ulster, Greene, Albany, Schenectady, and Rockland. The capital is $10,000,000, with power to increase. The gentlemen named as directors of the company are: Samuel A. Strange, George W. Farles, Theodore Houston, Conrad N. Jordan, Charles R. Flint, Jose F. Navarro, Charles J. Canda, Vincent P. Snyder, Robert Hyslop, William H. Cary, and John U. Simpson, of New York, with Charles J. Hedge, of Passaic, and Stephen A. Lathrop, of Newark, N. J.

☞ A charter has been granted and the right of way obtained by the Grand Trunk Railway Company of Canada for a new line of road that will shorten the distance between Montreal and Plattsburg by 14 miles. The proposed link will run from St. Isadore, on the Lachine and Province Line Division, (15 miles this side of Caughnawaga,) in a direct line to Brosseau, there connecting with the road through Victoria bridge. At Mooers Junction, N. Y., connection is now made with the Delaware and Hudson Canal Company's main line of road for Albany. The crossing for the Ogdensburg Railroad is at this station, and connection in either direction is easily made. It is expected that work will be commenced at once on the new branch, and as the distance is only 11 miles, its completion can doubtless be announced within a short time.

☞ The extensive car wheel works of A. Whitney & Sons, on Callowhill street, Philadelphia, extending along that avenue from Sixteenth street to Seventeenth street, and reaching from Callowhill street to Pennsylvania avenue, were established in 1847. Two hundred men, nearly the full complement, are employed. Forty tons of pig iron are melted daily, making about 260 car wheels. About 150 wheels are fitted on axles daily, this department running over-time. The wheels are for railroad, street cars, mine cars, lumber trucks, &c.

☞ The Philadelphia Scale and Testing Machine Works of Riehle Brothers, on Ninth street, above Master street, Philadelphia, build railroad, wagon, coal, hay, cattle and numerous other kind of scales, some of which are of their own patents; also warehouse trucks. The usual number of 60 hands are employed at increased wages, and business is very brisk.

☞ Contractors have commenced laying the rails on the Portland and Bangor (Penn.) Railroad. This road will greatly facilitate the shipment of slate, large quarries of which abound along the route.

Pittsburg, Wheeling and Kentucky Railroad.

At the annual meeting of the Pittsburg, Wheeling and Kentucky Railroad Company held in Wheeling, West Va., on the 25th ult., the annual report of the directors for the year 1879 was read, showing the gross earnings to be $77,598 62, the expenses $14,250 05, and the net earnings $33,348 57; out of which was paid interest on bonds $14,000, and rent of equipment $7,008 62, leaving a surplus for the year of $12,339 95. The old Board of Directors was re-elected, consisting of the following gentlemen: Chester D. Hubbard, John McLure, H. G. Lazear, M. Reilly, William Thaw and Thos. D. Messler. The officers are C. D. Hubbard, President; W. H. Barnes, Treasurer; J. M. Belleville, Secretary, Wheeling, and S. B. Liggett, Assistant Secretary, Pittsburg.

Interest paid by United States, $45,651,155 94; interest repaid by transportation of mails, &c., $13,656,910 27; balance of interest paid by United States, $31,994,245 67.

The foregoing is a correct statement of the public debt, as appears from the books and Treasurer's returns in the Department at the close of business, February 28, 1880.

JOHN SHERMAN,
Secretary of the Treasury.

☞ Articles of incorporation of the Fort Wayne, Warsaw and Brazil Railroad have been filed in the office of the Secretary of State of Indiana. The line of the proposed road is from Fort Wayne to Terre Haute, passing through Wells, Huntington, Blackford, Grant, Howard, Tipton, Madison, Hamilton, Clinton, Boone, Hendricks, Montgomery, Putnam, Park, Clay and Vigo Counties, being in all 165 miles in length. The capital stock is fixed at $600,000, and of this $51,000 has been taken—$34,000 by persons residing in Huntington County.

☞ The Pittsburg Chronicle says that the stock and securities of the Columbus, Chicago and Indiana Central Railway have lost much of their buoyancy since the Pennsylvania Company perfected their appeal in the legal points at issue. The opinion prevails in railroad and legal circles that the child is not living who will ever see the time when the stock will have any real value.

☞ The Chicago, Milwaukee and Albia Railroad, an extension of the Missouri, Iowa and Nebraska railroad, has mortgaged its line to the Iowa Loan and Trust Company for $100,000 the money to be used in building the road to Albia, Iowa.

American Railroad Journal.

Financial and Commercial Review.

THURSDAY EVENING, April 1, 1880.

The closing quotations of the stock market in our last issue, showed a sharp and sudden reaction from the prevailing depression of the preceding days of the week, upon which our remarks were then predicated, and since then the general tendency of the whole market has been upward, notwithstanding a continued close money market. The causes of this change were, first, a natural reaction on increased buying for an advance aided by the anxiety of a large short interest, which had been created on the decline, to cover their contracts, while there were indications of the large operators taking a stronger hold of the market than for some time past, when it has been regarded as a broker's market. The stocks first and chiefly affected were those most prominent on the break of the two previous weeks, namely, Pacific Mail, Manhattan Elevated, Louisville and Nashville, Nashville and Chattanooga, among the speculative fancies, with which the whole speculative list sympathized, including Ohios, Chesapeakes, Goulds and Erie. These led the reaction; but no sooner had the tide fairly turned than the Investment Stocks came to the front, headed first, by Rock Island, on the talk of doubling its capital, and exchanging for the new certificates the old, including its branch lines, upon a basis fixed by the market value of each; and next by New York Central on expectations semi-officially confirmed, that the capital is to be increased to $100,000,000, from $90,000,000 and that $10,000,000 of the company's bonds should

be bought with the proceeds, reducing the bonded debt to $80,000,000. On these points these two stocks have jumped up almost as sharply as the Jack-in-the-box speculations which started the advance. With these Chicago, Burlington and Quincy, and the Granger Stocks all grew stronger and some of them more active, and the Coal Stocks came in for their share of the strength on the advance in coal, based on a restricted output. The cue is given that something is going on between the Panama Railroad and a proposed new steamship line to compete with the Pacific Mail, yet the latter has gone up since these rumors started, and it is thought a new bull clique has been formed in this stock and that these rumors were used to depress it in order to buy at low figures. Among the other investment stocks affected by the rise in Rock Island, were especially noticeable, Chicago and Alton and Illinois Central. Western Union Telegraph was an exception in the Vanderbilt stocks, which went up with New York Central, as the dissolution of the injunctions of the Western Union against the American Union leave the latter free to complete its connections and enter into full competition for business. Houston and Texas has been erratic first up and then down independent of the general market without apparent cause. St. Paul and Minneapolis, and St. Paul and Sioux City have been better, and Northern Pacific weaker. Toward the close the Elevated roads fell back again, and some of the other fancies were easier, notwithstanding the large purchase of bonds by the Treasury which did not have the effect of strengthening prices as might have been expected, for there were free sellers of long stock after this purchase was announced, as money ruled tight to the close of Wednesday at a bonus of 1-16@1-8 per cent.

The closing of all the Exchanges on Good Friday made Saturday practically a holiday also and there was very little of importance occuring until the opening of the present week. The Bank Statement continued favorable and the Exchanges on New York with the interior denote no material change in the movements of money. Exchanges on Europe have been dull and without material change on a fair supply of wheat and corn bills which have been taken by importers. The ruling rates still remain such as would warrant the export of gold were not the money markets of New York and London against it, rates here being 6 per cent and a bonus most of the week, while 3 per cent was the ruling rate there. Exports have been of a fair aggregate, $7,291,000 against $3,750,000 same time last year and less in 1878, of which wheat, corn and lard are the chief staples, making total since January 1st $84,000,000 against $79,000,000 last year. Imports have kept well up and are still in excess of exports.

Government bonds have been generally stronger on the 4 and 4½ per cents, while the earlier issues were depressed until the Treasury purchase of Wednesday when offers to the amount of $5,000,000 were unexpectedly accepted and the street found short of a portion of the amount, when there was some lively hunting for the bonds to make good the offers and prices were better.

State bonds have been neglected except Louisianas which were slightly better.

Railroad bonds have followed the course of stocks largely, the speculatives and investments being up from the depression of last week, but not active. Gold bearing bonds have been the strongest because of the talk at Washington of forcing silver dollars into circulation by new legislation.

Mining shares have been easier early, and since, more steady as a natural reaction from the late depression, yet the distrust caused by the late exposures of mismanagement of Eastern mines, has shaken faith in all mines alike and investors are not buying.

The merchandize markets, almost without exception, have been lower under pressure of accumulated and accumulating stocks brought out by the speculation of last Fall and Winter, and the consequent high prices, for the consumption has not kept pace and buyers hold off and buy only on the old hand-and-mouth policy of the Hard Times, instead of anticipating their wants as last fall when stocks were taken that are not yet worked off. This is true of wheat, oats and corn, which have broken steadily 1@2 cents per day until near the close, without bringing in a large demand. Europe has worked her cards well on this Breadstuffs deal; for by buying only as she wanted, as we advised last fall, she has been able to get all she wanted without paying within 20@25 cents per bushel, of the highest prices for very large amounts. She is pursuing the same policy on provisions and will win if she holds out, for the stocks of hog products are greater in proportion to wants than were those of wheat or corn Ocean Freights, however, have advanced sharply on lighter supply of room and tonnage and a better inquiry for grain vessels.

The American Mining Stock Exchange are reported to have leased No. 63 Broadway for a term of three years for an Exchange.

It is believed that the Public Debt Statement, to be issued to day, will show a reduction of about $10,000 000. The receipts from internal revenue for the nine months of the current fiscal year, which ended yesterday, were $83,500,000, and the customs receipts $137,000,000.

The directors of the Chicago, Burlington and Quincy Railroad Company have voted to make, out of the surplus earnings of the current year, a cash dividend of $1 25 per share, and a dividend of 20 per cent in stock, representing the surplus earnings invested in the road and equipment, payable May 3d to stockholders of record April 10th, after which date the stock transfer books will remain closed till May 8th. Non resident stockholders, in drawing for dividends, are requested to include new stock and cash in one order.

The closing quotations on Thursday were: Adams Express, 112½@113¼; American Express, 58¾@59¼; Atlantic and Pacific Telegraph, 43½@44; Canada Southern, 66½@67; Central of New Jersey, 84½@85; Central Pacific, 79½@80; Chesapeake and Ohio, 24@24¼; do. 1st pref., 31@32; do. 2d pref., 25@26; Chicago, and Alton, 113½@115; do. pref., 126@130; Chicago and Northwestern, 96⅜@96½; do. pref., 109¾@110; Chicago, St. Paul and Minneapolis, 58@58¾; Chicago, Milwaukee and St. Paul, 82¾@82⅞; do. pref., 104¾@105; Chicago, Rock Island and Pacific, 186@189; Chicago, St. Louis and New Orleans, 40½@42; Cleveland, Columbus, Cincinnati and Indianapolis, 78½@79⅛; Col., Chicago and Indiana Central, 16⅜@16¾; Delaware and Hudson Canal, 85½@86; Delaware, Lackawanna and Western, 93⅜@93½; Hannibal and St. Joseph, 36¾@37; do. pref., 71½@72; Illinois Central, 108¼@108⅞; Lake Shore and Michigan Southern, 109⅛@109¼; Louisville and Nashville, 158@160; Michigan Central, 93@93½; Morris and Essex, 107½@108; Manhattan Railway, 26½@26¾; Metropolitan Elevated, 93½@94½; New York Elevated, —@113; New York, Lake Erie and Western, 45⅞@46; do. pref., 68½@69½; Northern Pacific, 29⅝@30; do. pref., 52⅝@52¾; Ohio and Miss. 38¼@38½; do. pref., —@77; Pacific Mail, 42⅜@42½; Philadelphia and Reading, 70@70⅜; St. Louis, Alton and Terre Haute, 25@26; do. pref., —@70; St. Louis and San Francisco, 40@40½; do. 1st pref., 78@80; St. Louis and Iron Mountain, 58½@59; Union Pacific, 90½@91; United States Express, 48½@49½; Wells Fargo Express, 106½@107¼; Western Union Telegraph, 107¾@107⅞; Wabash, St. Louis and Pacific, 44¼@44½; do. pref., 69⅜@69½.

Summit Branch Railroad.

The gross earnings of the Summit Branch Railroad Company for the year ending December 31, 1879, were $969,617 52 and the operating expenses (including $10,638 15 added for depreciation of lands) were $923,802 16—making the net receipts $45,815 36. The interest on debt and taxes amounted to $92 821 93—showing a loss on the year's business of $47,006 57. It appears by the details of operating expenses that the colliery division was run at an expense of 94.46 per cent of the gross earnings, while the railroad division cost 99.97 per cent, netting $1,851. The gross receipts of the Lykens Valley Coal Company, owned by the Summit Branch, were $514,301 05, and the expenses $560,591 01, a loss of $46,283 97. The profit and loss account is charged with $16,719 81, as loss from wastage on coal sent to Boston wharf during the preceding 10 years, and $80,714 08, the amount of advance made to the Lykens Valley Coal Company. The amount to debit of profit and loss account of the Summit Branch Railroad Company is $1,194,453 82; and of the Lykens Valley Coal Company, $189,475 80.

☞ At a meeting held in Chicago on the 25th ult. of the directors and stockholders of the various lines over which the Grand Trunk Railway of Canada enters Chicago, the proposed consolidation of these roads were ratified and approved. The newly consolidated road was named the Chicago and Grand Trunk Railway. It extends from Port Huron to Chicago. The companies included are the Indiana Railway, Michigan Railway and Northwestern Grand Trunk (in Michigan). It is understood that the consolidated company will issue its bonds in the sum of $20,000 per mile of its road, to be secured by a mortgage on its property and franchises.

☞ The Governor of Virginia has appointed Gen. James McDonald railroad commissioner, vice Col. Thomas H. Carter, resigned.

Cleveland, Columbus, Cincinnati and Indianapolis Railway.

The earnings and expenses of this road for the years ending December 31, 1878 and 1879 were as follows:

Earnings.	1878.	1879.
From passengers	$674,665 24	$739,939 47
" freight	2,601,384 68	2,796,405 31
" express	74,417 92	62,422 26
" mail	75,549 70	76,289 07
" rents	41,866 35	43,444 69
" interest & dividends	60,829 90	40,467 16
	$3,528,713 79	$3,758,967 96
Expenses, viz:		
Freight expenses	$898,310 81	$933,903 24
Passenger expenses	240,503 92	235,467 14
Legal expenses	17,125 26	21,068 21
General expenses	98,785 40	100,975 62
Repairs of locomotives	189,124 75	177,648 04
Repairs of pass. cars	89,556 46	64,631 45
Repairs of freight cars	179,947 20	189,095 05
Repairs of track	386,072 08	419,775 94
Repairs of buildings	39,278 33	27,314 50
Repairs of fences	8,443 18	9,400 78
Repairs of bridges	34 365 85	35,731 86
Oil and waste	43,530 59	38,686 00

Stock damages	3,321 79	3,789 25
Loss and damages	5,365 55	4,667 08
Gratuities & damages	11,602 50	17,596 14
Telegraph expenses	48,663 50	49,274 73
Balance car service	130,643 14	133,869 00
	$2,680,814 33	$2,692,307 53
Earnings less exp.	$847,899 46	$1,066,660 43
Add balance from previous year		674,325 19
Add premium on bonds sold		19 750 00
Total		$1,760,735 62
Disbursed as follows, viz:		
Taxes		$117,013 54
Interest on bonds		425,180 09
Sundry accounts charged off as worthless		35,818 31
Paid Wabash Railway pool, balance to Nov. 30, 1879		12,045 57
Dividend No. 15, 2½ per cent, payable Feb. 2, 1880		374,770 00
Surplus December 31, 1879		795,908 20
Total, as above		$1,760,735 62

The gross earnings in 1879 were $3,758,967 86, and the total expenses, including taxes and interest, were $3,234 501 07, leaving a balance of $521,466 29; in 1878, the earnings were $3,528,713 79, the expenses, taxes and interest, $3,240,-921 41, and the balance $287,792 38—showing an increase in earnings of $230,254 17, a decrease in expenses, etc., of $5,420 34, and an increase in net income of $236,674 51. The ratio of expenses to earnings in 1879 was 71.62, against 75.97 in 1878. The President in his report, says.

Of through freight there have been transported 319,739,341 tons one mile, as compared with 276,-211,935 ton transported in 1878; and of local freight there have been moved 81,368,629 tons one mile, against 69,633,528 tons in 1878.

The total amount of freight hauled one mile is 401,107,970 tons at an average gross rate of 0.697 cent per ton mile, as compared with 345,845,373 tons, at an average gross rate of 0.752 cent per ton mile in 1878.

With an increase of 17.97 per cent in the freight tonnage, there has been a decrease of 7.31 per cent in the ton rate per mile.

The expense of freight per ton mile has been 0.575 cent, as compared with 0.655 cent in 1878, being a decrease of 12.21 per cent.

A comparason between the earnings and expenses of freight per ton mile this year with last, shows:

	1879. Cent.	1878. Cent.	Inc. Cent.	Dec. Cent.
Freight earnings per ton mile	0.697	0.752	.....	0.055
Cost of freight per ton mile	0.575	0.655	.....	0.080
Net earnings per ton mile	0 122	0.097	0.025	.....

The passengers carried one mile were, of through passengers 15,259,16[illegible]; and, of local passengers, 18,812,163, as compared with 12,816,400 through, and 17,153,900 local passengers in 1878. An increase of 23.89 per cent in the through, and of 9.66 per cent in the local passenger traffic. The total number of passengers carried one mile being 34,071,632, as against 29,470,300 in 1878, an increase of 15.61 per cent.

And the passenger rates and expenses per mile, as compared with 1878, are as follows:

	1879. Cents.	1878. Cents.	Inc. Cent.	Dec. Cent.
Rate per mile	2.579	2.798	. ..	0.219
Expense per mile	1.135	1.410	....	0.275
Net earnings	1.444	1 488	0.056	....

The extraordinary gross freight rate of the year is to be noted, dropping below the rate of any preceding year, and averaging, as it is seen, less than seven mills per ton mile.

When it is stated the through or competitive tonnage forms 79.71 per cent of the entire freight traffic of the railway, it will be understood how vital to net revenue is the maintenance of reasonably remunerative rates.

The average gross rate per ton mile on competitive freight traffic has been during the year, by months:

	Cent.		Cent.
January	0.656	July	0.430
February	0.617	August	0 537
March	0.532	September	0 666
April	0.063	October	0 659
May	0.457	November	0 731
June	0.377	December	0.752

And the addition of a single mill upon the year's freight traffic equals a net earning exceeding $400,000.

Allusion was made in the previous annual report to pooling contracts, and to certain conservative agreements between the trunk roads which also included most of the principal Western rail lines. These agreements it was believed, would largely lessen, if not entirely remove, the evil of unlicensed competition for traffic which had destroyed rates and revenue.

A considerable portion of the year had passed before much efficiency was given these agreements, and throughout the Spring and early Summer, rates in competition with the lake and canal were simply below the cost of service.

United and effective action, for the first time under the trunk line agreements, relieved the situation during August, and thence-forward, for the remainder of the year, the results of operation improved steadily.

It is to be hoped these arrangements of the trunk lines and connections for the maintenance of tariff, and for the amicable settlement of transportation quarrels, whenever or however they may originate, are now permanently as well as thoroughly in operation. And, as remarked in a previous report, these transportation contracts and regulations serve not the rail interests alone, but also benefit the shipper, the community, and the State.

The advances to the leased lines and payments on account of construction work during the year have been:

To the Cincinnati and Springfield Railway	$116,786 38
Construction, new equipment and land	46,267 55
Total	$163,053 93

The financial condition of the Cincinnati and Springfield Railway has improved, and that road has been further strengthened by the transfer to its tracks, between Dayton and Cincinnati, of the traffic of the Atlantic and Great Western Railroad, under an agreement which took effect on May 1st. There is every prospect that henceforward the Cincinnati and Springfield will be able to meet its obligations and operating cost.

The legal situation in respect of the Indianapolis and St. Louis Railroad, the other leased line of this company, remains unchanged since the last report. The litigation in connection with that road, which had been inaugurated by the St. Louis, Alton and Terre Haute Railroad Company, is still pending.

The pool with the Cincinnati, Hamilton and Dayton Railroad Company has continued in successful operation throughout the year.

A pool of gross earnings was made between this company, the Indianapolis and St. Louis, and the Wabash Railway Company, which took effect June 1st. The current working of this arrangement has been very satisfactory, and to the best interests of the several roads.

It is gratifying to be able to state that the floating indebtedness of the company heretofore existing, caused by advances to leased lines under contracts of long standing, has been liquidated during the year. To accomplish this object, the bonded indebtedness of the company has been increased $228,000, and now stands at $6,337,000.

The condition of the railway and its equipment, in every respect, was never better; and, with the present contract for rails filled, the main track between Cleveland and Cincinnati, and between Galion and Indianapolis will be wholly laid with steel rails.

The number of locomotives in service at the close of the year was 143, classified as follows: freight, 87; passenger, 27; switching, 29.

The locomotive mileage for the year was as follows: passenger, 979,202; freight, 3,586,105; working, 74,879—total, 4 640,177, an increase, compared with the preceding year, of 41,616.

The passenger and freight equipment in service at the close of the year was as follows: 33 first class and 22 second class coaches, 7 sleepers, 2 parlor, 1 directors', 1 pay, 17 baggage and express, 6 postal and mail, 2,239 box, 311 stock, 587 flat, 806 coal, 68 cabcose, and 12 wrecking, etc., cars.

The equipment of the Cincinnati and Springfield line was as follows: 16 locomotives, 15 passenger, 6 baggage, 2 U. S. postal, 100 box, 98 stock, 79 coal, and 11 caboose cars.

The total number of passengers carried was 740,181; of whom 658,295 were way, and 81,886 through. Number of passengers carried one mile, 34,071,632. Average rate per passenger per mile, 2.172 cents, against 2.289 cents in 1878, 2.343 cents in 1877, 2 222 cents in 1876, 2.541 cents in 1875, 2.716 cents in 1874, and 3.009 cents in 1873.

The total number of tons of freight carried was 2,299,711; of which 1,555,127 tons were through and 744,584 way. Of the through freight 1,226,-601 tons were carried eastward and 218,526 westward. Of the way freight, 460,563 tons were carried eastward, and 284,021 westward. Total eastward bound, 1,697,164; do. westward do. 602,547. Number of tons carried one mile, 401,107,970. Average rate per ton per mile, 0.697 cent, against 0.752 cent in 1878, 0.890 cent in 1877, 0.814 cent in 1876, 1.005 cents in 1875, 1,192 cents in 1874, and 2,362 cents in 1873.

The renewals of track for the year 1879 embrace the following: 179,025 cross ties, 5,009 tons steel rail, 92 tons railroad spike, 262 tons iron splices, 42 tons track bolts and nuts. There

were yet remaining in the track 75.58 miles of iron rail. The mileage of track is as follows:

	Miles.
Columbus Division—Main track	138
Double track	18.14
Sidings	64.65
Indianapolis Division—Main track	203.15
Double track	1.89
Sidings	41.19
Cincinnati Division, (Delaware to Springfield)—Main track	50
Sidings	7.68
Total mileage	524.70

Increase, 8.85 miles.

The General Manager in his report, from which the above is obtained, says that the rapidly increasing cost of iron, coal and all supplies required in operating a railway, must inevitably increase the working cost during the coming season; and while every endeavor will be made to keep expenses within a proper limit, it hardly seems probable that an increase can be prevented if the property is maintained in its present high standard.

ABSTRACT OF LEDGER BALANCES, Dec. 31, 1879.

ASSETS.

Construction		$18,044,795 27
Materials on hand:		
For repairs of cars and engines	$152,547 88	
For repairs of track	51,495 67

President.—J. H. DEVEREUX.

Vice President.—H. B. HURLBUT.

Directors.—J. H. Devereux, H. B. Hurlbut, S. Burke, James Barnett, T. P. Handy, Amos Townsend, Geo. H. Russell, Cleveland; B. S. Brown, Columbus; H. J. Jewett, Hermann R. Baltzer, J. R. Keene, Walton Ferguson, A. G. Dulman, New York.

Secretary and Treasurer.—GEO. H. RUSSELL.

General Manager.—E. B. THOMAS.

☞ The gross earnings of the Chicago and west Michigan Railroad Company (the reorganized Chicago and Michigan Lake Shore Road) for 1879 were $654,383, the expenses, $541,556, and the net earnings, $112 827; an increase as compared with 1878 of $75,284. The surplus was $75,467, but there was expended for construction and equipment $97,366, leaving $21,899, which was met from the balance of cash assets on hand Jan. 1, 1879. The stockholders subscribed during the year to two new enterprises, viz: the West Michigan Lumber Company and the White River Railroad Company.

☞ A complete report of pork packing in the West shows that the total number of hogs Winter packing is 6,950,000, an increase of 530,000. The average decrease in weight is 4.2 pounds net. The aggregate decrease in lard is 128,000 tierces. There is an increase of 103,000 barrels of pork The Summer and Winter packing combined shows an increase for the year of 143,000 barrels, the largest year's business recorded.

☞ The new iron railroad bridge to be built by the Baltimore Bridge Company across the Mississippi at Minneapolis, Minnesota, will have a length of 1,150 feet. It is said this bridge will be the second highest structure in the country, the highest being across the Kentucky river on the Cincinnati Southern Railroad. The estimated cost is $200,000.

☞ The number of hogs packed at St. Louis from November 1, 1879 to March 1, 1880, was 577,793; average gross weight a shade over 258 pounds; cost per hundred pounds, $4 05; yield of lard a shade over 36 pounds; amount of pork made 46,581 barrels.

☞ The sale of the Miami Valley Narrow Gauge Railroad to Messrs. Bullock, Hafer, Forbus, Kahn and others, of Cincinnati has been confirmed by the Court. It is expected that the new owners will push it forward to an early completion.

☞ It has been decided to made a locating survey at once for a railroad between Brattleboro' (on the line of the Vermont Valley Railroad) and Hinsdale (on the line of the Ashuelet Railroad)—the new line to be known as the Western New Hampshire Railroad.

OFFICE OF LA PLATA MINING AND SMELTING CO., OF LEADVILLE, COL., No. 58 BROADWAY, ROOMS NOS. 12 AND 13, NEW YORK, March 18, 1880.

DIVIDEND NO. 7.

THE BOARD OF TRUSTEES HAVE THIS DAY declared a dividend of SEVEN AND ONE-HALF CENTS per share, (par value $10) on the capital stock, payable on Thursday, April 1, prox., at the office of the company. Transfer books will close on Thursday, March 25th inst., and reopen Friday, April 2, 1880.

Statement of the financial condition of the company:

Cash capital	$100,000 00
Feb. 1, 1880.—Balance surplus account	45,543 75
March 1, 1880.—Net receipts for month of February	13,080 78
	$158,624 53
Dividend of 7½ cents per Share, 200,000 Shares	$15,000 00
Balance surplus, March 1, 1880	$143,624 53

W. B. ALLEN, Assistant Secretary.

CHRYSOLITE SILVER MINING CO.

Rooms Nos. 51 to 57 BOREEL BUILDING, No. 115 BROADWAY, NEW YORK. March 18th, 1880.

THE BOARD OF TRUSTEES HAVE THIS DAY declared a regular monthly DIVIDEND (No. 5), of TWO PER CENT on the TEN MILLION DOLLARS ($10,000,000) capital stock of this company, amounting to TWO HUNDRED THOUSAND DOLLARS ($200,000), or ONE DOLLAR PER SHARE, out of the fifth month's net earnings, payable at the Central Trust Company, No. 15 Nassau Street, on the 27th of March.

Transfer-books will close March 25th, and reopen March 30th. DRAKE DE KAY, Secretary.

THE COUPONS OF THE FIRST MORTGAGE BONDS of the Central Pacific Railroad Co. (San Joaquin Valley Branch), and of the Land Bonds, due April 1, 1880, will be paid at the office of Fisk & Hatch, No. 5 Nassau-st.

C. P. HUNTINGTON, Vice-President.

CHICAGO, MILWAUKEE AND ST. PAUL RAILWAY COMPANY, NEW YORK, March 24, 1880.

NOTICE IS HEREBY GIVEN THAT A DIVIDEND of Three Dollars and Fifty cents per share has been declared on the preferred stock of the Chicago, Milwaukee and St. Paul Railway Company, and a dividend of Three Dollars and Fifty cents per share on its common stock, out of the net earnings of the year 1879, payable at the office of the company, No. 68 William-st., on the 15th day of April next. The transfer-books will be closed on the 29th of March, and reopened on the 19th of April next.

JULIUS WADSWORTH, Vice-President.

THE COUPONS OF THE FIRST MORTGAGE BONDS of the Southern Pacific Railroad Co. (of California), due April 1, 1880, will be paid at the office of the Company, Nos. 9 Nassau and 11 Pine-sts., New York. C. P. HUNTINGTON.

METROPOLITAN ELEVATED RAILWAY COMPANY, No. 71 BROADWAY, NEW YORK, March 18, 1880.

THE SECOND QUARTERLY DIVIDEND of (2½) TWO AND A HALF PER CENT on the capital stock of this company will be paid to the Stockholders of record on and after the 1st day of April next, at the office of the Central Trust Company of New York, No. 15 Nassau-st.

The transfer books will be closed at the said office at 3 p. m. on the 24th of March, and remain closed till 10 a. m. on the 1st of April next.

JOHN E. BODY Treasurer.

Connecticut Central Bonds.

D. D. Warren, Willis Phelps and William Birnie have sold the 302 $1,000 bonds of the Connecticut Central Railroad Company, which have long been on the market, to parties who are supposed to be agents of the New York and New England Railroad Company, which is regarded as a preparatory step to the lease of the Central Road by the other corporation. The bonds sold for 80 cents on the dollar, and were delivered to Kidder, Peabody & Co., Boston brokers. The sale included all the bonds of the road, except 23, which are scattered among several parties, who have the privilege of selling on the same terms if they choose. The New York and New England Company have made no move as yet to lease the Central, and they disclaim any intention of foreclosing on the property, or of making any immediate change in the running of the road. D. D. Warren will continue to act as President and Superintendent, being also Treasurer of the Company. As long as amicable relations are maintained with the parties that control the road's connections Mr. Warren says that a through line will be kept up between this city and New York, connecting with the old Southern Road. Such is the wish of the New York and New England Company, who want the Central Road because the latter corporation has the use of a part of their track between Vernon and Rockville, Conn., and also of their bridge over the Connecticut at Hartford. But should the Connecticut Valley Road desire for any reason to cut loose from the Central, then Mr. Warren thinks the New York and New England company would take it more directly in hand, giving it a foothold in the Union depot at Hartford, and New York connections by the way of Waterbury and the New York and New England extension to Brewster's N. Y., on the Harlem road. Probably that company will also attempt some Boston business from this city by way of the Rockville Branch and Vernon Junction. To do this conveniently it would be necessary to build two miles of road between West street Rockville and Vernon. Then the route between Springfield and Boston would be 18 miles shorter than by way of Athol, although a good deal has lately been said about the latter route as a competing line to Boston.—[Springfield Republican.

Allouez Mining Co.

At a meeting of the stockholders of the Allouez Copper Mining Co., recently held in this city, it was unanimously voted to increase the number of shares to 80,000, giving four new shares for one old one, upon payment of $1 per share, or $4 per share of every share of old stock. This will give the company $30,000 cash, which will enable them to start free and clear from debt, with money in the treasury. The par value is reduced from $50 to $25. The company's property consists of 3200 acres, and they are now negotiating with parties who wish to purchase some eighty acres. A committee has been appointed to confer with these parties, and a speedy sale of the above number of acres is anticipated. The company has received permission from the lessees to commence work forthwith, to sink the shafts and make openings, so as to be able to put on a large gang of men without any delay November 1, when the mine once again passes into the company's possession. It is thought that enough ground will be opened to enable the mine to produce 175 tons during the first month.

☞ The sale of the New York, Housatonic and Northern Railroad, which was to have taken place at White Plains on the 27th ult., was postponed till the 3d of April, for the reason that a gentleman who was unable to be present on that day would start the bid at $135,000, which is $5,000 higher than has as yet been offered for the road. It was understood, as one of the conditions of the postponement, that the sale will take place peremptorily on the 3d.

Grand Trunk Railway of Canada.

The revenue statement of the Grand Trunk Railway Company of Canada for the month of January, 1880, compared with the corresponding month of the previous year, is as follows:

	1880.	1879.
Gross receipts	£162,243	£153,661
Working expenses	119,835	121,146
Net profit	£42,408	£32,515

—showing an increase in receipts of £8,582, with a decrease in expenses of £1,311—making the increase in net profit £9,893.

Houston and Texas Central Railway.

The following is the comparative statement of the business of the Houston and Texas Central Railway Company for the month of February:

	1879.	1880.
Gross earnings	$241 315	$272,791
Operating expenses	150,001	154,546
Net earnings	$91,314	$118,245

—showing an increase in earnings of $31,476, in expenses of $1,515, and in net earnings of $26,931.

Denver and Rio Grande Railroad.

On the 27th ult., Justice Miller, of the U. S. Supreme Court, signed decrees terminating the lease and Receivership and restoring its road to the Denver and Rio Grande Railroad Company; also turning over the entire line, which has been in dispute with the Atchison, Topeka and Santa Fe Company for the last two years, between Canon City and Leadville to the Denver and Rio Grande Company, and dismissing all suits. This is the end of a long and severe legal warfare, involving the well-known struggle for the Grand Canon of the Arkansas and the contest of last Summer for the possession of the old Rio Grande Road. The line to Leadville will now be completed in two or three months. The compromise thus perfected is based upon a treaty of peace for 10 years between the Atchison, Topeka and Santa Fe, the Union and Kansas Pacific, and the Denver and Rio Grande Railroad Companies and all their subsidiary companies.

☞ The gross earnings of the Chicago, Clinton, Dubuque and Minnesota Railroad (the reorganized and consolidated Chicago, Clinton and Dubuque and Chicago, Dubuque and Minnesota Roads,) for 1879, were $491,075, the expenses $370,997 and the net earnings $120,078, a decrease as compared with 1878 of $22,856. After payment of interest, old indebtedness amounting to $4,708, and $21,256 for construction, there was left a surplus of $65,802.

☞ The Supreme Court of the United States has affirmed the judgment of the U. S. Circuit Court for the Eastern District of Pennsylvania in the case of George W. Thomas and others against the West Jersey Railroad Company. The position of the lower Court is sustained that "the contract by which the Millville and Glassboro Railroad Company (now the West Jersey Railroad Company) leased it road to the plaintiffs in error was void, for the reason that it was in excess of the powers granted to that company by its franchise. The present suit to recover damages for nonfulfilment of that contract cannot, therefore, be sustained.

Chicago, Rock Island and Pacific Railroad.

The Executive Committee of the Board of Directors of the Chicago, Rock Island and Pacific Railroad Company have issued a circular to the stockholders notifying them that the following propositions will be submitted for their approval at the annual meeting in Chicago on the 2d of June: The purchase of the Avoca, Harlan and Northern, and Guthrie and North western Railroads; the consolidation with the Chicago, Rock Island and Pacific Company of the Iowa Southern and Missouri, the Newton and Monroe, the Atlantic Southern, the Avoca, Macedonia and South-western, and the Atlantic and Andubon Companies, and the issuance of a consolidated capital of $50,000,000. The new system will be nearly 1,280 miles in length, and will have a capital of $35,000, and a bonded debt of $13,000 per mile. The capital of the Chicago, Rock Island and Pacific Company proper will be doubled.

Northern Central Railway.

The Northern Central Railway Company furnishes the following comparative statement of its gross earnings and operating expenses for the month of February:

	1880.	1879.
Gross earnings	$330,860 19	$273,607 33
Operating expenses	213 094 52	180,983 69
Net earnings	$117,765 67	$92,623 64

Two months ended February 29:

	1880.	1879.
Gross earnings	$665 354 55	$538,610 09
Operating expenses	427,155 42	368,314 61
Net earnings	$238,199 13	$170,295 48

☞ The receipts of the St. Paul and Duluth Railroad Company for the seven months ending December 31, 1879, were $408,512 52, the operating expenses $275,791 96, and the net receipts $132,720 96; adding the net receipts from the land department, the total was $223,884. The surplus was $12,977 17. The Northwestern equipment trust has been reduced to $161,500, which is payable May 1, 1880. The preferred stock has been reduced to $4,798,862 12. The common stock outstanding is $4,055,407 51. The land unsold aggregates 276,138.26 acres. The St. Croix branch will be finished to Chicago Lake by July.

☞ The report of the President of the Central Railroad of Iowa, dated March, 1880, states that the only claim remaining unpaid is an exaggerated counsel fee for $2,500, which will be contested. When this is settled, "the company will be free to accumulate earnings for distribution among its beneficiaries, and the payment of interest will begin in July next." The report further shows that the earnings for the six months of 1879 were $483,751 24, as against $395,868 25 under the court the previous year. The expenses were, in the same period, reduced from $215,689 57 to $210,529 92.

☞ The Camden and Atlantic Railroad Company has declared a dividend of 3½ per cent on the preferred and common stocks, payable on and after April 19, in the preferred stock or scrip of the company, at par, to stockholders as registered

on the books at the close of business on April 1, 1880.

St. Louis, Iron Mountain and Southern Railroad.

The gross earnings of the St. Louis, Iron Mountain and Southern Railroad for the year 1879 were $5,292,611 27, the expenses $2,992,056 07, and the net earnings $2,300,555 20, an increase as compared with 1878 of $354,599 80. The expenditures on construction account were $440,288 20, and for change of gauge from 5 feet to 4 feet 8½ inches, $195,169 92. The excess of charges over income for the year was $341,337 87, which, added to the old debit balance, left a debit balance Jan. 1, 1880, of $1,577,753 79. The sale of Arkansas lands aggregated $120,077, and the expenses $34,695, leaving a balance of $85,382. As the earnings of the railroad are sufficient to pay the interest on the divisional mortgages, the net proceeds of the Arkansas land department will hereafter be invested in the purchase of Cairo and Fulton Railroad first mortgage bonds, to be canceled.

☞ The Wabash, St. Louis and Pacific Railroad Company has purchased a majority of the stock and bonds of the Champaign, Havana and Western Railroad—formerly known as the Western Extension of the Indianapolis, Bloomington and Western Railroad. This road, which will now be consolidated with the Wabash system, extends from Champaign to Havana, Ills., with a branch line to Decatur. It has a total length of 132 miles, and is important in supplying another line to Keokuk and Quincy.

☞ The stockholders of the Louisville and Nashville Railroad Company, at a meeting in Louisville, Ky., on the 26th ult., approved the recent purchases of the controlling interests in the Nashville and Chattanooga, Mobile and Montgomery, Pensacola and Gulf, Selma and Gulf, and proposed the acquisition of the New Orleans, Mobile and Texas, etc. J. W. Thomas has been appointed general superintendent of the Louisville and Nashville and Great Southern and of the St. Louis and Southeastern railroads.

☞ The Newark and Delaware City Railroad Company was organized on the 29th ult. at Wilmington, Del., in the interest of the Pennsylvania and Philadelphia, Wilmington and Baltimore Railroad Companies, being worked as a branch of the latter line. Strickland Kneass was elected President. This is the old Pennsylvania and Delaware Railroad, some time ago sold under foreclosure.

☞ The Camden and Atlantic Railroad Company has acquired possession of the Shackamaxon Ferry between Cooper's Point and Kensington, which will be run in connection with its trains. There is also being laid a double track road to Haddonfield, giving evidence of large and increasing traffic.

☞ At the annual meeting of the Maine Central Railroad Company, held at Augusta, Me., on the 24th ult., the report of the Directors and Treasurer for the year ending December 31, 1879, was presented and accepted, and the following gentlemen were unanimously elected directors for the ensuing year: Abner Coburn, Darius Alden, John B. Brown, Arthur Sewall, Wm. G. Davis, Alfred P. Rockwell, Geo. S. Monson, Geo. P. King, Geo. E. B. Jackson, Wm. B. Bacon, Willard P. Phillips, Elijah B. Phillips and Stephen J. Young.

Portsmouth and Dover Railroad.

The finding of Judges Bingham, Clark and Smith in the case of the Portsmouth and Dover Railroad against the Eastern Railroad Company is entirely in favor of the former and is as follows: They find that the capital stock January 1 was $757,800, as claimed by the Portsmouth and Dover Railroad, and that the Eastern in New Hampshire shall pay the interest due July 1, 1879, amounting to $22,734, with the interest upon said sum from that date. Said Judges allow the Eastern Railroad Company upon this claim on the Portsmouth and Dover Road the sum of $11,200, which the Portsmouth and Dover is to pay the Eastern, and is to be added to the amount of capital stock, so that the latter hereafter shall be $769,000, and upon this last sum the Eastern in New Hampshire is to in future pay six per cent.

Consolidations of Railroads.

While there is much unfavorable comment in certain business circles over the many consolidations of railroads in the past few months, in almost every case the effect has been to drag one or more roads out of the slough of bankruptcy and to give them excellent financial prosperity. There are roads in this country which for all large purposes run from nowhere to nowhere. They start from points to which no traffic necessarily tends, and run out into the universe in a vague and purposeless fashion, as if the builders had pushed them along with an eye to the expenditure of their money. Some such roads were built to secure land grants; others to sell bonds given at low prices to construction companies; others to gather in local grants; and others with schemes as to extensions or connections which were defeated while the road was still unfinished. The only way to make such roads pay is to draw business to them, and that can often be done only by connecting them with others as unfortunate as themselves in a state of single wretchedness.—[Pittsburg Chronicle.

☞ A despatch dated Portland, Oregon, March 18th says that the indications of an active resumption of railroad construction in the Willamette valley were never more flattering than at present. The Oregon and California Railroad Company call for ties for their branch roads to Silverton and Lebanon, and the Oregon Railway Company solicit tenders for ties to extend the Dayton road to Dallas. The Silverton and Lebanon branches are to be completed by midsummer, and the Dallas extension is to be finished by the 20th of May. The people of Willamette valley will not have reason to feel much longer the want of facilities of transportation.

☞ The gross earnings of the Richmond and Petersburg Railroad for the year ending September 30, 1879, were $154,622, the expenses $81,551 and the net earnings $73,071, an increase as compared with the previous year of $10,518. After payment of interest and 4 per cent in dividends, there was a surplus of $10,149. It is proposed to fund the present mortgage bonds by a new issue bearing a less rate of interest.

☞ The work of laying rails on the Atlantic City Branch of the West Jersey Railroad is progressing rapidly. The road, it is said, will be finished by the first of June, and opened for summer travel.

☞ The directors of the Ogdensburg and Lake Champlain Railroad Company having received legislative authorization for issuing $4,500,000 of 6 per cent bonds for retiring $2,000,000 8 per per cent preferred stock and about $1,000,000 bonds for the purpose of building a new elevator with a capacity of 1,000,000 bushels, for 500 new grain cars, and also for relaying the track with steel rails, have called a meeting of stockholders at Ogdensburg on the 4th of May for ratification of the same.

☞ A certificate of incorporation has been filed with the Secretary of State of Ohio of the Connotton Northern Railway Company, termini Canton and Fairport Harbor, and passing through the counties of Stark, Summit, Portage, Cuyahoga, Geauga, and Lake, capital, $2,000,000, by C. Aultman and others.

☞ It is proposed to complete this season the Indianapolis and Evansville Air Line Railroad as far north as Washington, Ind., where it will connect with the Ohio and Mississippi Railway. Surveys are also being made with a view to extending the road to Bloomington.

☞ The transfer books of the Lake Shore and Michigan Southern Railway Company will close at three o'clock P. M. on Saturday, the third day of April, (for the purposes of the next annual election), and will be reopened on the morning of Thursday, the sixth day of May next.

☞ A dividend of one per cent has been declared on the capital stock of the Buffalo, Bradford and Pittsburgh Railroad Co., payable on demand at the office of the Treasurer of the New York, Lake Erie and Western Railroad Co., 187 West St., N. Y.

☞ The Directors of the Cincinnati Southern Railway Company, now operating the Cincinnati Southern Railroad, have decided to submit to the stockholders a proposition to increase the capital to $2,000,000 for the purpose of providing more rolling stock and other necessary facilities.

☞ The Northern Extension of the Milwaukee, Lake Shore and Western Railroad has been completed to Norrie, in Marathon County, 190 miles north of Milwaukee, and regular trains commenced running to that point on the 29th ult.

☞ The Chicago, Milwaukee and St. Paul Railway Company expects soon to build a line from Libertyport, on the Chicago Division, to Darien, on the Southwestern Division, a distance of about 40 miles.

☞ The Governor of New York has signed the bill to authorize the Ogdensburgh and Lake Champlain Railroad Company to issue bonds.

The Coal Trade.

The total tonnage of anthracite coal from all the regions for the week ending March 20, as reported by the several carrying companies, amounted to 364,335 tons, against 412,089 tons in the corresponding week last year, a decrease of 47,754 tons. The total amount of anthracite mined for the year is 4,072,576 tons, against 4,341,268 tons for the same period last year, a decrease of 268,692 tons. The quantity of bituminous coal sent to market for the week amounted to 20,505 tons, against 62,587 tons in corresponding week last year, a decrease of 42,082 tons. The total amount of bituminous mined for the year is 759,391 tons against 627,572 tons for the corresponding period last year, an increase of 131,819 tons. The total tonnage of all kinds of coal for the week is 384,840 tons, against 475,676 tons in corresponding week last year, a decrease of 90,836 tons, and the total tonnage for the coal year is 4,831,967 tons, against 4,968,840 tons to same date last year, a decrease of 136,873 tons. The quantity of coal and coke carried over the Pennsylvania Railroad for the second week of March was 129,793 tons, of which 87,535 tons were coal and 42,258 tons coke. The total tonnage for the year thus far has been 1,333,511 tons, of which 1,003,012 tons were coal and 330,499 tons coke. These figures embrace all the coal and coke carried over the road east and west. The shipments of bituminous coal from the mines of the Cumberland coal region during the week ending March 20th were 8,490 tons, and for the year to that date 352,878 tons—139,469 tons more than in the corresponding period of 1879. The shipments to the Baltimore and Ohio Railroad for the week were 7,671 tons, for the year 309,333 tons, an increase of 131,018 tons as compared with 1879. The shipments to the Chesapeake and Ohio Canal were for the week 576 tons, an increase over last year of 3,160 tons. The shipments to the Pennsylvania Railroad for the week were 243 tons, and for the year 40,385 tons, an increase over 1879 of 5,471 tons. The light shipments of the week were owing to the strike on the Cumberland and Pennsylvania Railroad, over which the coal is hauled. But for this the increase for 1880 to March 20 over the corresponding period of 1879 would have been about 160,000 tons.—[Phil. Ledger, March 20.

Oil in Alabama.

Oil has been struck in the centre of the coal and iron fields of Alabama. The same carboniferous formation that extends through Western Pennsylvania terminates in Alabama, not far south of Birmingham, where oil has been struck. If Alabama can collect and refine oil with commercial success, she will have as great a variety of products as Pennsylvania, though her resources have not been developed. Besides coal, iron and marble deposits of great value, the State has broad belts, producing in one cotton, in another corn, wheat, &c., in another valuable timber, while still another section of the State is devoted to cattle raising. If oil well enterprise and industry are added, Alabama may yet come to be a rival of Pennsylvania.

☞ Engineers are now engaged in leveling the roadbed of the Ohio Central railroad, near Marengo, in Morrow county, preparatory to laying ties, and a full corps of workmen will commence immediate operations for the completion of the road, which it is confidently expected will be in active operation by August next.

☞ Four of the twelve locomotives ordered from the Schenectady Locomotive Works for use on the Southern Pacific Railroad have arrived at Sacramento, and are being placed in running order at the railroad shops in that city.

A. G. DAY,

MANUFACTURER OF

Kerite Insulated Telegraph Wire and Cables,

Of all kinds made to order, for Ocean, River, Aerial and Subterranean Lines.

The Kerite covering of these Conductors unlike any other, resists effectually the destructive action of Heat and Moisture, and the corrosive agents either in Earth, Air or Water.

☞ Special orders should state whether the Cable is to be exposed to Earth, Air or Water.

NEW YORK, LAKE ERIE & WESTERN RAILWAY.

TO THE TRAVELING PUBLIC.

During the Centennial Season—six months, closing November 10, 1876—the Erie Railway carried almost 3,000,000 passengers, without a single accident to life or limb, or the loss of a piece of baggage.

And for a whole year, the official records of the United States Post-Office Department show the arrivals of Erie Railway trains in New York, on time, to be from 15 to 27 per cent. ahead of competing lines.

Facts well worthy the consideration of travelers.

HARLAN A. PIERCE, Editor.

New York, Friday, April 9, 1880.

The Hepburn Bill again at the Produce Exchange.

The fight over the Hepburn or Anti-Discrimination Bill at the Produce Exchange, is still carried on with renewed vigor and desperation on the part of the "special raters," who were worsted by 525 to 78 on the ballot taken since our last, to which the Board of Managers of that body were compelled to submit, as we then predicted, in compliance with the indignant protests of a large majority of its members. The vote was unusually small, however, owing to the unparalleled action of the Board of Managers, who refused to allow the members to vote upon the question in its original form, in which they obligingly put it when they called a meeting without objection, and on very short notice, at the instance of the "special raters," who thereby captured the Exchange and perverted its prevailing sentiment against special rates, by the despotic use of their power and influence over their fellow members, which we fully explained two weeks ago. The result of this last vote is therefore not regarded as settling anything except that the Exchange is opposed to discriminations; for the question of "special rates" was obligingly omitted from the resolution on which the Exchange was compelled to vote, if at all, by its autocratic managers, whose little brief authority seems to be their stock in trade, for which the "special raters" have successfully bid. This is the only theory upon which their action on this question can be accounted for, unless we throw the mantle of charity over them and suppose that these dizzy heights of power, to which they were never accustomed, have turned its members' heads. To do this, however, would be to expose them to ridicule, and we prefer to think that some of these managers are themselves getting "special" rates from the roads and others "special" favors from the "special raters" themselves. We think this accounts for the milk in the cocoanut.

There is now, however, another petition started by the "special raters," whose clerks and brokers have all signed it and gotten all their fellow clerks and brokers to do the same, asking this Honorable Board to call another meeting to ballot upon the Hepburn Bills *with their amendments*, as they know that not one in ten of the members can vote intelligently upon the question, in this shape, and that they cannot get copies of the bill to enable them to do so. In this way they hope to secure the same result as at the first packed meeting. Now we shall wait and see if it will take this Great Board of Managers two weeks to decide whether they will grant the petition of the 78 "special raters," as it did that of the 525 ordinary members who are not "in with" this Board and the railroads.

Meantime we may indulge in a few reflections upon this shilly shally, backing and filling policy of the present Board of Managers, and contrast it with that of former administrations, as this is now the tendency of thought and discussion at the Exchange, as was shown by a circular distributed there on the day of the balloting, under the caption, "Were Railroads chartered to enrich the few at the expense of the many?" in which some extracts, which we print below, from the annual address of its former President, Wm. A. Cole, were most pertinently made. It will be seen that these remarks of two years ago fully cover the question now, though its magnitude and danger have since been increased. To explain the position of affairs at the Exchange under former administrations, we need only point to the long and successful contest of President Franklin Edson some years ago to introduce the grain grading system at New York in defiance of the "special raters," who opposed it because it would give the small receivers of grain equal terminal facilities with themselves. We would also call attention to his more recent letter to the Hepburn committee placing the Exchange squarely on the record against discriminations and special rates alike, during his third term as President of the Exchange.

It will thus be seen how the Exchange has been misrepresented by its present management, and that there was a time when its officers could not be controlled and that there are some members of the Exchange who can rise above their selfish interests in treating a great public question, who have declared that they do not want special rates, although accepting them in self-defense because others get them, and who have said that if they cannot compete with their advantages of large capital, against their smaller neighbors, without special rates, they ought to be compelled to go out of business. This is in strong contrast with those who are crying for special rates like a lot of overgrown and overfed babies clinging to the bottle after their teeth are

cut and they ought to be eating the diet of a man, like a man.

Indeed their action on this question reminds us of an incident in the boyhood of one of these "special raters," as told us by himself. His father had sent him to cultivate tobacco plants; and, finding it tiresome stooping over them, he improvised a labor sowing machine in the shape of a milking stool, strapped to his body, on which he sat down while weeding the plants, carrying it with him like a pannier from plant to plant, until discovered by his father, who taught him a lesson in standing upon his own bottom which he appears to have forgotten. The extracts from the address of President Cole contained in the circular above referred to are as follows:

"New York is the only city discriminated against on the seaboard. The love developed for other and strange gods—Boston and Portland—by roads leading to New York, is truly marvelous. Western produce is carried from a given point hundreds of miles further for less money; trades which once flourished in New York have been driven from us. Our Rochesters and Buffaloes have been moved a thousand miles westward because the rates of freight are the same to, or rather in favor of, the Western point. One city has been built up at the expense of another, which, I hold, is not the legitimate business of a railroad. As common carriers, receiving their charters from the people, rates of freight from one given point to another should be equal. A thousand car loads freight, owned by a thousand people, should be brought as cheaply as to the one man owning the thousand. Combinations of all kinds are unhealthful, and the railroad combination is not an exception; it is the cause of freight discriminations and its bad results. Railroad combination, as now understood, is the making of a rate to day and breaking faith with each other to-morrow, by making special rates for the few to the detriment of the many, and this is the growing evil of the day. Capital in this country—the result of persistent individual effort—belongs solely to its possessor. It has many and great advantages, and it should not be subsidized by a railroad, nor, indeed, by any other interest. Let each and all stand on equal ground, so far at least as the transportation of merchandise by railroad is concerned. Let brains and enterprise have that chance. Let not the many be forced to pay a royalty to the few. Let him who fights his battle best be the victor. We are not at all envious of our sister cities on the seaboard, or elsewhere; we applaud their people for their enterprise and spirit—are glad to know that they utilize all their natural advantages; and I believe they have more manliness than to ask the roads to discriminate in their favor. New York asks no favors; it demands only justice, and to be placed on an even footing in all respects with its competitors. There can be no antagonism between the people and our railroad organizations if they are not antagonistic to the people."

☞ At the annual election for directors of the Panama Railroad Company, held on the 5th inst., two changes were made: D. O. Mills and William B Dinsmore were chosen to fill the places of James M. Burke and H. H. Baxter. The present Board is therefore constituted as follows: T. W. Park, John R. Marshall, Chas. G. Francklyn, D. O. Mills, J. G. McCullough, Joseph Ogden, Wm. B. Dinsmore, Samuel C. Thompson, George Garr, Charles D. Leverich, George A. Hoyt, Thomas Maddock, Christopher Meyer.

Co-operative Railroading. Why Not?

The principle of co-operation has been so successfully introduced into almost every branch of manufacturing and commercial enterprise, both individual and corporate, in Great Britain, that it seems strange it has never been thought of, or at least publicly discussed, as a means of harmonizing the otherwise apparently inharmonious interests of stockholders and employes of railroad companies. Co-operative organizations, as is well known, were the outgrowth of the interminable conflicts between labor and capital, which began with the accumulation of money in the hands of the few, of whom the masses were compelled to seek employment, and grew with these accumulations, until they threatened not only the safety of property, but also the existence of the poorer classes and the stability even of the State itself. Against all these perils to the individual and the community, co-operation has proved the only permanent and human safeguard, because it protected the rights and dependence of both labor and capital upon each other by making their interests identical and their prosperity or losses mutual. There is no field of industry, in which such vast interests and enormous aggregations of capital are wholly at the mercy of labor, as in railroading. A manufactory can be stopped, but a railroad, like a newspaper, would be ruined by stoppage. The entire fabric of society and government even—the whole machinery of commerce and industry are dependent upon the employes of railroads for means of communication in person or by mail and for the food and clothing, the material and transportation necessary for their livelihood and operations, while their property is as dependent upon them for its value in store as it is for its safety while in transit. The railroad riots of 1877 gave the country a foretaste of the power of railroad employes for destruction, of which we hope the country may never be forced to a full realization. Never in the history of the world did so few men hold such power in a peaceful department of industry as they. These are the conditions which make it imperative that railroad employes should be placed in a position at once equitable to themselves and just to stockholders, above any other industry. Why, then, should not the co-operative principle be applied to railroading, as well as to other corporate industries?

Suppose for instance our railroads were organized with the minimum scale of wages and the rate of dividends fixed, by a Board of Arbitration having the power, upon a relative normal basis. That the wages were a first lien upon their property after it is paid for, ahead of all the mortgages, as the earnings and value, as well as the preservation of the capital represented by bonds and stocks, is dependent upon the continuance of the laborers' services. That mortgages come next, and that the capitalization be fixed at an honest construction limit. That after the payment of the fixed wages, interest on bonded debt, expenses of maintenance and operation and the fixed dividends as above proposed, the excess of earnings be divided pro rata between the capital and labor or stockholders and employes, upon the basis of the labor representing a capital equal to the amount on which the fixed wages already paid would be the interest at the rate per cent fixed as dividends on the capital stock of the company. Add this amount to the capital stock of the company and divide the surplus accordingly, each laborer drawing a dividend upon his labor or stock in the company, the value of which has thus been fixed by what the company has paid him in fixed wages at a fixed interest for its use. This would be equitable and make the employe a partner whose interest would be to preserve instead of neglect or destroy the property of the company and shippers, as is now almost invariably the case.

Effects of Railroad Discriminations on the Erie Canal, and on the Commerce of this City and State.

Another side of the question of Railroad Discrimination in freight rates in favor of large houses, of localities, and of the season of Canal and Lake navigation, was recently shown before the Assembly Committee on Railroads by Mr. W. C. Clark who appeared in behalf of the boatmen of the Erie Canal. He charges that the condition on which the New York Central road grants special rates to shippers on its line, is that they shall ship nothing by canal, and that extortionate rates of freight are charged in winter in order to enable the road to carry freight while the canal is open, at less than cost, hoping to eventually bankrupt the boatmen and get rid of competition by the canal entirely. He charged even that there was a conspiracy existing between the trunk lines to pursue this policy until the Erie Canal should be abandoned and become a "Dry Ditch," as they have threatened, after which nothing would prevent them charging extortionate rates the whole year. We must admit there is more truth than fiction in what Mr. Clark says as to the purpose of the railroad managers; but we do not see the possibility of their ridding themselves of water competition during Lake navigation, even, should the Erie Canal be abandoned; for the Welland Canal will soon be enlarged to increase that competition during the summer, while the opening of the mouth of the Mississippi is already affording a winter outlet by water from the West via the Gulf of Mexico. The effects of the high rail rates of freight from the West

this winter have been seen in a material increase in grain shipments via New Orleans until recently, when the railroads lowered their rates. On the other hand what Mr. Clark says of the supremacy of the commerce of this city and State being lost with that of the Erie Canal, is perfectly true; for neither the railroads of this State nor this city would get the business lost by the canal, which Montreal and New Orleans, as well as the shorter rail routes to the seaboard, would take from us.

Junction Railroad.

At the annual meeting of the stockholders of the Junction Railroad Company, held in the office of the Pennsylvania Railroad Company, on the 5th inst., the following officers were elected for the ensuing year: President, Isaac Hinckley; secretary Joseph Lesley; secretary pro tem., John C. Sims, Jr.; treasurer, John Calker, Jr. Directors, Isaac Hinckley, George B. Roberts, Henry M. Phillips, Franklin B. Gowen and Henry Lewis. The Junction railroad connects the tracks of the P., W. & B., Philadelphia and Reading and Pennsylvania railroads, in West Philadelphia, and is owned jointly by the three companies with the exception of about a mile running through the Pennsylvania Company's yards, over which that company claims exclusive ownership.

Panama Railroad.

The Earnings and Expenses of this road for the year ending December 31, 1879, are as follows:

Earnings of the Road:		
From freight		$1,531,653 93
" passengers		142,709 80
" mails		12 369 62
" treasure		20,028 56
		$1,706,761 91
Miscellaneous Receipts:		
Interest and exchange		178,321 80
Lighterage		132.755 35
Water supplied shipping		27,391 29
Rental of property, ballast, wharfage, light dues, telegraph, etc., etc.		81,071 75
Old rails taken up and shipped to New York prior to December 31, 1879		35,066 32
		$2,156,367 42
Expenses:		
Operating expenses on the Isthmus (including $33,182 43 spent for 1000 tons steel rails)	$463,168 91	
Lost & damaged freight	997 28	
New York office expenses	16,246 93	
Miscellaneous expenses in New York	24,204 52	
Total working expenses	$504,617 59	
Subsidy to U. S. of Colombia	250,000 00	
Drawback on Colombian produce	9,939 27	
Interest on bonds	270,853 10	
		1,035,409 96
Net profit		$1,120,957 46

—being 16 per cent on the capital stock, from which quarterly dividends have been paid equal to 13 per cect per annum, and $210,957 46 has been added to the surplus fund, increasing the same to $2,141,733 40.

The monthly payments due from the Pacific Mail Steamship Company, under the contract of February 1, 1878, were temporarily reduced for a period of two years from January 1, 1879, to $60,000 per month, causing a diminution in receipts of $120,000. At the expiration of the present year the steamship company will resume their stipulated payments of $70,000 per month.

The number of tons of freight transported over the road in 1879, was 161,744, against 152,477 in 1878, being an increase of 9,267 tons. In 1877 the tonnage was 146,943, and in 1876 113,781—showing a gain in four years of 47,963 tons, equal to 43 per cent. The number of tons of freight transported from New York to San Francisco in 1879 was 13,210; and from San Francisco to New York, 17,524—a total of 30,734 tons, out of a total tonnage, as stated above, of 161,744, or about 19 per cent; showing that the business between New York and San Francisco does not form the largest share of the traffic of the road.

The following is a comparative statement showing the principal productions of Central and South America transported over the Panama Railroad during the years named:

	1877.	1878.	1879.
Bark, bales	20,169	40,500	39,654
Cotton, bales	4,775	13,576	40,026
Cocoa, bags	115,019	59,466	186,110
Coffee, bags	233,131	191,561	351,070
Indigo, zeroons	11,884	7,438	9,531
Ivory nuts, bags	56 937	134,596	89,795
Rubber, bales	16,516	16,360	16,711
Sugar, bags	22,956	18,011	12,348

The extraordinary increase in shipments of bark, cotton and cocoa is attributed to the partial withdrawal of the rival steamship line via the Straits of Magellan, which now runs only one steamer per month, stopping at Caldera, whereas formerly they ran as far north as Callao, and that most of the steamers constructed for that line are now employed in the trade between England and Australia.

The increase in the shipments of coffee, the staple product of Central America, is attributed in part to the marvelous growth of these Republics, and to the fact that its cultivation was largely increased in lieu of indigo, the cultivation of which is gradually decreasing, as the land can be turned to better account in growing coffee. The decrease in ivory nuts for 1879 is due largely to the low prices ruling in the American and European markets. The falling off in the shipments of sugar is due to the fact that nearly all of this article exported from Salvador and Gautemala now finds a market in San Francisco instead of going to Europe or New York.

The number of passengers transported over the road in 1879 was 23,729, against 24,921 in 1878, 22,110 in 1877, and 22,940 in 1876. The decrease in the passenger traffic of the past over the previous year is attributable to the Chili-Peruvian war and exceptionally light travel between California and New York. The damage done by the floods of November, which interrupted freight traffic on the road during the month of December, has been repaired excepting the long bridge over the Chagres river, the stone piers of which are being rebuilt.

During 1879, 13 miles of new steel rails were laid, leaving 11 miles of the old iron to be taken up. All the steel rails and fish plates to replace these are on the ground, and the work is being carried along. A further small shipment of steel is now on its way from England with which to relay the yards at Panama and Aspinwall. The old iron was disposed of at $45 per ton—more than enough to pay for the steel, after deducting freight to New York, duties and all expenses.

The Company have 13 locomotives, 335 box cars, 75 flat cars, and 35 dump cars.

Treasurer's Statement, Dec. 31, 1879.

Assets:		
Cash in Bank		$10,400 27
Cash in London		17,284 19
Due from connecting steamship lines		542,988 52
Notes receivable		4,165 00
U. S. of Colombia, for advance of subsidy		56,250 00
900 shares Panama stock, cost		122,564 97
Loans on demand		753,000 00
Petty cash		157 17
Accrued interest on loans		4,818 08
		$1,511,628 15
Liabilities:		
Drafts advised	$1,520 00	
Due sinking fund	88,877 03	
Unpaid bills	6,208 14	
Accrued interest on bonds	60,189 58	
		109 794 75
Surplus		$1,401,733 40
Surplus Dec. 31st, 1878.		1,190,775 94
Increase for the year		$210,957 46

Besides the above, the Company holds steamship property transferred to it 1st February, 1878, by the Pacific Mail Steamship Company, for which this Company issued Sterling bonds amounting to £200,000, say $1,000,000.

Sinking Fund, December 31st, 1879.

The bonded indebtedness of the company consists of 3,989 seven per cent Sterling bonds of £200 each, equal to £797,800, (say $3 989,000 00) of which the first 2,989 are due in 1897, and the remaining 1,000 (issued February 1st, 1878,) in ten half-yearly payments of 100 bonds each, beginning on 10th October, 1884, and ending on 10th April, 1889. To meet this bonded indebtedness the company has the following sinking fund:

195 Panama 7 per cent Sterling bonds, cost	$178,255 01
1,500 shares Panama stock, cost	153,690 37
Six Pacific Mail steamers	400,000 00
Due from Panama Railroad Company	38,877 03
	$770,822 41

President.—T. W. Park.

Vice President.—J. G. McCullough.

Directors.—John R Marshall, T. W. Park, Chas. T. Francklyn, Joseph Ogden, Samuel C. Thompson, H. H. Baxter, George A. Hoyt, J. G. McCullough, Charles D. Leverich, John M. Burke, Thomas Maddock, Christopher Myer, George Garr.

Secretary and Treasurer.—W. J. Emmet.

Accountant.—E. Z. Penfield.

Gen. Sup't.—B. Mosley, Aspinwall.

☞ Articles of incorporation of the Stillwater and Hastings Railway Company, dated April 5, and extending over a period of 50 years, have been filed in the office of the Secretary of State of Minnesota. Its general nature of business is the building of a railway from Stillwater to Hastings. The amount of capital stock is $1,000,000.

☞ The Ontario Silver Mining Company has declared the regular monthly dividend of Fifty cents per share for March, payable at the office of the transfer agents, Wells, Fargo & Co, No. 65 Broadway, on the 15th inst. Transfer books close on the 10th inst.

Baltimore and Northern Railroad.

The bill to incorporate the Baltimore and Northern Railroad Company, the nucleus of the new through route between Baltimore and New York, was withdrawn from the Maryland Legislature Saturday morning. It had already passed the Senate, but there was a strong opposition at work and it was evident that it could not pass the House of Delegates, the probability being that it would have received one or two readings and be pocketed at the adjournment of the Legislature to-night. The corporators will now fall back upon the general railroad law of Maryland, which will give them authority to construct the proposed road. The proposed bill embodied certain special privileges which are not embraced in the State law and its semi-enforced withdrawal is a victory for the opposition to the extent of the value of those privileges.—[Wilmington Every Evening, April 5.

Statement of the Public Debt of the United States, April 1, 1880.

The foregoing is a correct statement of the public debt, as appears from the books and Treasurer's returns in the Department at the close of business, March 31, 1880.

JOHN SHERMAN,
Secretary of the Treasury.

☞ The Atchison, Topeka and Santa Fe Railroad Company has issued a circular to its stockholders proposing to unite the New Mexico and Southern Pacific with the main line, on the basis of eleven shares of the Atchison, Topeka and Santa Fe for fourteen shares of the New Mexico. This offer is made to subscribers under circulars 42 and 48. Those who accept this proposal before the 10th inst. will be entitled to participate on the same terms as stockholders in the Atchison, Topeka and Santa Fe in the subscription soon to be issued for the building of the Atlantic and Pacific Railroad. Parties entitled to stock under circular 42 will receive it at once, and those under circular 48 will be entitled to stock of the Atchison, Topeka and Santa Fe to be issued in exchange when the New Mexico stock is issued under such circular, but without any participation in dividends up to that time.

☞ The Trustees of the Mt. Gilead (Ohio) Short Line Railroad propose to issue bonds to the extent of $8,000 more to complete their railroad. This will make the total expenditure for this enterprise $21,000.

Philadelphia Stock Exchange.

American Railroad Journal.

Financial and Commercial Review.

THURSDAY EVENING, April 8, 1880.

The close of our last review was upon an unsettled Stock Market, caused by the collapse of the Elevated Railroad stock balloon led by a heavy break in the Manhattan shares, while the other stocks were stronger except as they where affected by the Elevateds. Since then the money market has been the great bug bear of the Street, and and has constantly hung over the market like the April storms, which have literally dropped out of the skies without warning; as every one had looked for easier money after April 1st, and especially after the $5,000,000 Government purchase of bonds last Wednesday a week. Next to this has been the incubus of the Elevated Railroad stocks and bonds, even all of which still further and heavily declined on the adverse decision of the higher Courts rendering all these roads liable for damages to adjoining property along their entire length, thus reversing the decisions of the lower Courts in favor of these roads.

With these movements all stocks have sympathized, until near the close, when other shares, notably those for which Keene stands supporter, were the weakest spots in the market, aided still by tight money, which ruled throughout the week at a premium over 6 per cent, with but one or two days exception, while as high as 1 per cent commission was at one time paid. This state of the money market is so unexpected that the sale of new bonds is almost wholly stopped and dealings in old issues are limited to the realizations nesessitated by the wants of legitimate trade a

speculations in money. Foreign Exchange as well as domestic has been influenced by this same cause, and State and Investment bonds have been generally neglected without much change in prices of investments, while all speculations have fallen off with stocks.

The Stock Market has been on the verge of a panicky feeling at times and needed only a large failure to precipitate it, which occasion fortunately did not occur although there were some minor failures on the street. It is the general opinion that the leading large operators, namely Gould and his following, are sold out of their stocks and heavily short of the market generally, as well as the inside elevated operators, who unloaded their long stock last week before the public were aware and undoubtedly went short on the same knowledge that caused them to get out of their holdings. The only support to the market of importance is supposed to have been the Vanderbilt clique and syndicate in New York Central which is not believed yet, to be rid of their last fall's loads. It is even thought that while they have been engaged in holding up the market to get out of Central, Vanderbilt has been selling out his other stocks, if not this, on the market thus made for him, and hence the break during the week in Canada Southern, the blind for which, was that hostile legislation either at Washington or Quebec was probably upon the ground that it was a foreign corporation or affiliated with them. With this Michigan Central sympathized. The other support was Keene and his following, which appears to be getting small since his unfortunate operations in Wall Street of late, and his signal failure in the Breadstuffs Deal, by which he must have lost heavily, and is destined to fare no better in his Provision Deal than last year, when he lost more than he made on his June Wheat Corner. As a consequence Jersey Central, which he has been holding so high, relatively, for months, dropped off sharply on Wednesday and carried the coal shares with it. Pacific Mail has been stronger and would no doubt have advanced had not the general market been against it, since Monday when the decline began to be general.

We stated last week, in common with the other papers, that it was believed the reduction in the public debt would amount to $10,000,000, whereas by referring to the Public Debt Statement in another column it will be seen that the reduction was $14,719,356 95.

The Bank Statement shows a decrease in surplus reserve of $1,271,025 making it $310,000 less than the legal 25 per cent.

Foreign Exchange was dull and steady until Monday when it was put up ½ cent to be let back again on the renewal of the stringency in money. There have been a fair amount of Breadstuffs and Provision bills, but they have been absorbed by the importers

Exports have been quite fair being over $7, 000,000, while imports have kept up to the late large aggregate of about $11,000,000.

Mining stocks have been depressed as usual both Eastern and Pacific, and there does not appear to be any reaction in the future or bottom to the market. Yet reports come that there is going to be something startling in the Comstocks before ong. In this connection we would ask the Manipulating Managers of the Bonanzas why they are holding back dividends for the last three months when they have money enough in the Treasury to pay two dividends.

Breadstuffs have moved into export quite freely at steady prices until the close, when demand slackened and prices receded. There are appearances that the Keene Wheat Clique has broken up and that its smaller members have gotten out and left the load on Hoyt and Keene, who do not appear to know what to do themselves. It has been thought for a long time that they were engineering a large short interest in order to squeeze out of the bears what they will loose on their long stock; but this belief has so long been entertained that it is being abandoned, for the opinion that the time to do this has gone by, with good cheap prospects ahead. This Wheat Deal is another 13, 15, 14, Puzzle. It was all right as the clique had originally placed the numbers in the box—their official organ—but wheat from some unknown source kept pouring into Europe until it upset the box, and they could not put their numbers back as they had them before. Yet they have been working, like the man for the Herald premium, for the past three months to get the 15 out from between the 13 and the 14. As 15 represents the clique, 14 the old crop and and 13 the new, it will readily be seen why they can't get 15 around 14 nor away from 13.

The Provision Deal is in statu quo, in the hands of Davis who is supposed to represent Keene, while others say he represents a Wall Street Clique and that Keene is out since February. Either may be true, but whom is not out is most certainly in for a long, tedious lagging of the bulk of the stock through the summer, to drop it as Keene did last Fall at heavy lose or for a loss sooner. We are told on usually correct authority that the clique, who ever comprises it, have made up their minds they are wrong, and that they have been unloading futures as fast as possible and not break the market, and that between the 20th of April and the middle of May they will let the market take care of itself.

In other merchandize markets there has been no marked activity or change, except that ocean freights have fallen back about as sharply as they advanced early in the week, on a cessation of the grain Exports towards the close.

The Produce Exchange has appointed a committee of prominent grain merchants to confer with the trunk line freight agents, at the request of their managers, on a plan for the equalization of terminal charges on grain at the five Atlantic ports. It would be a good plan for this committee to return the compliment and invite the trunk line managers to a conference based upon an offer to equalize terminal charges if the railroads will guarantee equal through freight rates from the West to Europe by these five Atlantic ports.

The closing quotations on Thursday were: Adams Express, 112½@113; American Express, 57⅛@58½; Atlantic and Pacific Telegraph, 43 @43¼; Canada Southern, 61@61¼; Central of New Jersey, 80¼@80⅜; Central Pacific, 76⅛@ 77½; Chicago and Alton, 111@112; do. pref., 125@130; Chicago and Northwestern, 95¾@96; do. pref., 108@108¾; Chicago, Burlington and Quincy, 146⅛@147½; Chicago, St. Paul and Minneapolis, 56¾@57; Chicago, Milwaukee and St. Paul, 81⅞@82; do. pref., 104¼@104¾; Chicago, Rock Island and Pacific, 184@188; Chicago, St. Louis and New Orleans, 35¼@35½; Cleveland, Columbus, Cincinnati and Indianapolis, 78⅛@79½; Col., Chicago and Indiana Central, 15¾@16¼; Delaware and Hudson Canal, 83⅛@ 83¾; Delaware, Lackawanna and Western, 92@ 92⅛; Hannibal and St. Joseph, 35⅛@36; do. ☞ The Sheboygan and Fond du Lac Railroad, which was sold, with all its property and franchises, at Fond du Lac, Wis., on the 3d inst., was bid in by Albert and Martin L. Sykes for $1,500,000. The road has lately been operated by the Chicago and Northwestern Railway Company, and will, probably, now be extended to a Westerly connection with the Minnesota line of the Chicago and Northwestern Railway.

☞ Work has been commenced on the Lookout Mountain Railroad, the contemplated line connecting Chattanooga Tenn., and Rome Ga., and it is expected to have it completed by Jan. 1, 1881. All rival companies and hostile charters have been consolidated into the company. It will be operated in connection with the Cincinnati Southern Railway.

☞ Water has been let into the West Branch Division of the Pennsylvania Canal, and large quantities of logs are being floated down. A number of boats are loading with lumber along the course for the Eastern markets. Water has also been let in on the Wyoming and Juniata division and the boats are preparing for an active business.

☞ A company has been organized for the purpose of building a railroad between Portage and Baraboo, Wis., a distance of about 18 miles. The proposed road will connect the Chicago, Milwaukee and St. Paul, the Chicago and Northwestern, and the Wisconsin Central Roads.

☞ A company has been organized in Esmeralda County, Cal., for the purpose of constructing a narrow gauge railroad from Wadsworth, on the Central Pacific Railroad to Callville, on the Colorado river. The capital required—$1,500,000—has been guaranteed.

☞ The entire amount of the capital stock of the Jerome Park Railway Company ($50,000) has been subscribed.

Denison and Pacific Railroad.

The Gainesville, Texas, Register says that the Denison and Pacific Railroad—which is virtually the Missouri, Kansas and Texas—has decided to extend its road from Gainesville, by way of Fort Worth, to Belton. At Belton it will connect with the Gulf, Colorado and Santa Fe Railroad, now being built from Galveston, which has reached Brenham, where it will cross the Western Branch of the Houston and Texas Central Railway, passing between the Houston and Texas main line and its Western Branch to Belton. It is expected that it will be completed to Belton by September 1. The new line will give to the Missouri, Kansas and Texas a direct line through the heart of Texas to the Gulf, and a direct communication with the Texas and Pacific Railway. Respecting the new route the Register says:

A line built from Gainesville through Denton and Fort Worth to Cleburne, and finally on to Belton, there to connect with the Gulf, Colorado and Santa Fe coming out from Galveston, will give the Missouri, Kansas and Texas Railroad an outlet through the very heart of the State to the Gulf, rendering it independent of the Houston and Texas Central. * * * The proposed line will run through not only the best agricultural section of the State, but in actual wealth the line of counties through which it will run, from Cooke to Bell, assessed thirty millions more than the like tier of counties along the Central Road, and that, too, when the latter had the advantage of the assessed value of the Central Railroad. * * * By the building of this road from Gainesville we are placed directly on the main line of the great road from the Atlantic to the Pacific. We are given a new and direct outlet to the Gulf.

Chicago, Burlington and Quincy Railroad.

The earnings of this road for the years ending December 31, 1878 and 1879, have been as follows:

	1878.	1879.
From freight	$11,152,178 68	$11,650,622 56
" passengers	2,439,180 46	2,566,652 19
" mail, express and miscellaneous	522,148 92	562,440 66
" interest and exchange	6,162 40	37,390 31
	$14,119,665 46	$14,817,105 72
Expenses:		
Train service	$647,841 39	$654,324 69
Engine service	826,659 95	843,365 43
Station service	760,174 12	782,267 23
Water service	76 678 90	73,782 57

	$7,871,915 15	$7,557,067 23
Net earnings	$6,247,750 31	$7,260,038 49
Add balance from previous year	3,946,531 71	4,181,818 17
Total	$10,194,282 02	$11,441,856 66

From which deduct—	
Rent of tracks and depots	$179,092 58
Interest on bonds and bills payable	2,110,937 65
Dividend No. 37, March 15, 1879	1,225,830 87
Dividend No. 38, Sept. 15, 1879	1,237,486 20
Dividend No. 39, December 15, 1879	618,718 10
Sinking fund for C. B. & Q. 5 per cent bonds issued for the Albia, Knoxville and Des Moines R. R.	16,810 00
Sinking fund for C. B. & Q. 5 per cent bonds issued for the St. Louis, Rock Island and Chicago Railroad	55,875 00
Amount transferred to C. B. & Q. 8 per cent Sinking fund for investment in Sinking fund bonds for 1879	157,808 54
Amount transferred to Renewal fund	1,000,000 00
Balance of accounts written off	423,084 81
Balance to credit of Income Account, December 31, 1879	4,416,262 91
Total, as above	$11,441,856 66

Compared with the previous year the gross earnings show an increase of $697,440 26, with a decrease in expenses of $314,847 92, making an increase in net earnings of $1,012,288 18. Percentage of operating expenses (including taxes) to gross earnings, 51; in 1878, 55.75. The President in his report says:

The conditon of the road-bed, track, bridges, buildings, and rolling stock, has been carefully maintained, and in many respects materially improved. During the year, 107 miles of single track have been re-laid with steel rails, and 19 miles of new second track, the 15 miles of the Chillicothe and Chariton road, and 35 miles from Knoxville to Des Moines, have been laid with steel rails, making the total number of miles of steel rail single track in the road December 31st, 1879, 894. This includes the whole main line in Illinois, and 256 miles of main line in Iowa.

The total length of the main line now laid with iron, is 24 miles, all in Iowa. There are 99¾ miles of double track in Illinois, and 4½ miles in Iowa.

We have added during the year, 15¼ miles of second track in Illinois, and 4 miles in Iowa. Three and three-quarter miles of track in Iowa, which is in fact used as second track, appears under the head of the Chariton, DesMoines and Southern Railroad, and 15 miles under that of the Chillicothe and Chariton Railroad.

We have, as will be observed, expended considerable money for additional land in and near Chicago, for freight purposes; and during the year a new elevator of 1,750,000 bushels capacity has been built by Armour, Dole & Co., for the accommodation of our increasing grain traffic.

REDUCTION OF GRADES IN IOWA:

The work laid out in 1878 of reducing the grades as far west as Chariton, on the Iowa road, has been completed. The question of further reductions west of Chariton is being considered, and its determination will depend in some measure upon the result of experiments now making with heavier Locomotives than those in ordinary use.

NEW BRANCHES.

During the year branch roads have been built in Iowa, in whole or in part, as follows:

1st. The completion of the Chariton, and Des Moines and Southern Railroad to Indianola, 16 miles; opened for business February 23d, 1879.

2d. The completion of the Creston and Northern Railroad, from Greenfield to Fontanelle, 7 miles; opend for business May 6th, 1879.

3d. The Leon, Mt. Ayr and South-Western Railroad, from Leon to Mt. Ayr, 35 miles; opened for business September 26, 1879.

4th. The Chillicothe and Chariton Railroad, from Frederic to a point on the main line in Iowa, about 4 miles west of Albia, 15 miles; opened for business October 10th, 1879. (Changing grades).

5th. The extension of the Brownville and Nodaway Valley Railroad, from Clarinda to Burlington Junction, Missouri, 21 miles; opened for business October 19th 1879.

6th. The DesMoines and Knoxville Railroad, from Knoxville to DesMoines, 35 miles. Track was completed to DesMoines December 31st, 1879, but the line was not opened for business until January 10th, 1880.

7th. The Red Oak and Atlantic Railroad, from Red Oak to Griswold, 18 miles. The track was about completed December 31st, 1879; but the line was not opened for business until January 17th, 1880.

8th. The Moulton and Albia Railroad, grading bieween Albia and Moravia, partly done; no track laid; but will probably be completed and in operation by May 1st, 1880.

CHICAGO AND IOWA RAILROAD.

Prior to the date of the last report, a stipulation had been entered of record in the proceedings to forclose the second mortgage on this road to the effect that if, on the first day of January, 1880, the net earnings of the road should not be sufficient to pay all arrears of interest on the first and second mortgage bonds, to settle all freight and ticket balances, to pay all liens and charges for taxes and other claims which might be a charge against the mortgage property or the Receiver, except the principal of the first and second mortgage bonds then the road to be sold under the decree of foreclosure entered in the cause without redemption; in the meantime the road and equipment to be put and kept in first class condition.

On the other hand, if the net earnings should prove to be sufficient for these purposes, then the decree of foreclosure was to be set aside, the receiver discharged, and the mortgage property returned to the company.

On the 5th day of January a reference was ordered by the court to the Master to ascertain and report the facts, so that the court could be informed of what action it should take under the stipulation.

The Master is now proceeding with this investigation. Until this report comes in and is considered by the court, it cannot be determined whether the property will be sold under the decree or returned to the company.

SUMMING UP.

It was suggested in the last annual report that any further loans we may need ought to attract capital at much lower rates of interest than heretofore.

Acting upon this idea we have practically suspended the issue of our consolidated 7's, except in exchange for other similar bonds maturing at a considerable distance of time; and we have placed upon our Iowa property, except the Keokuk branch which our consolidated mortgage covered, a new mortgage, covering not exceeded 900 miles of single track, at $16,000 per mile, and providing for bonds, for a second track at the rate of $14,000 per mile, all to bear interest at not over 5 per cent per annum, and having an annual sinking fund of one and one-half per cent.

Of the road thus pledged, 647 miles are now in operation, and we have negotiated a sale of $3,000,000, of five per cent bonds, running 40 years from 1st of October, 1879, at par, less a commission, to provide for construction and equipment expenditures already incurred or authorized, but of this, the proceeds of only $600,000, appear in this year's account.

In pursuance of the policy indicated in the last year's report, we have during 1879, added 148 miles of branches in Iowa, to meet what we considered the natural and healthy wants of the country, and we are making arrangements for some others of a similar character. We have also added at the moderate prices of the past year a considerable amount of rolling stock, one effect of which has been to reduce the amount

paid for car hire from $118,783, in 1878, to $44,-281, in 1879.

We have continued to replace our wooden bridges with iron and masonry, and our iron rails with steel, as rapidly as could be done economically, and we have been fortunate in securing contracts with responsible parties for a large quantity of steel rails deliverable ahead, at the times when we are likely to want them. It may be of interest to note that the earnings per ton per mile, have decreased from 8.7 cents in 1866, to 1.1 cent in 1879. In other words, the gross earnings per ton per mile of to-day would have fallen considerably short of paying operating expenses thirteen years ago. The fact that we can do business at such rates as we now receive is due largely to the increase of tonnage, in part to improved methods, and greater economy of material, and somewhat to very favorable weather during the year for out of door work; but with the late rise in prices, it is of course doubtful, if the present low rates can be maintained.

The year has been marked by the revival of activity in railroad building at the west, and still more by the re-organization of a very large number of insolvent companies, and by certain very important combinations of lines in our own neighborhood. At first view this has caused some alarm as threatening dangerous competition to ourselves and the other large lines from Chicago, west and southwest, which may well be allayed by the reflection that there is no competition so mischievous as that of a bankrupt road with no dividends or coupons to pay.

While we might with apparent advantage have joined in some of the great enterprises which have sprung into life during the year, we have thought it better to devote our resources chiefly to doing such work of improvement on our own line, and the building of such branches and extensions as the unquestioned wants of the country have pressed upon us, and as tend rather to improve than injure our friendly relations with other companies.

We have, however, made considerable progress in a negotiation for consolidation with the Burlington and Missouri River Railroad Company in Nebraska, which, when completed, will be laid before you for confirmation, the details for which it is not expedient to discuss at this time.

But it may be said in general terms that the Burlington and Missouri River Railroad Co., in Nebraska, was originally one of the branches of the B. & M., in Iowa, having a very valuable land grant from the United States Government. It now, with its leased lines, holds about 845 miles of productive road, in the best part of Nebraska, and if the negotiation is consummated, we think it will add to the strength of our company, and will tend strongly to the continuation of a good understanding with our neighbors.

An examination of the detailed accounts given will show that our funded debt, contingent and otherwise, now consists of,

C., B. & Q. bonds of various issues	$21,993,475
B. & M. R. R. R. bonds of various issues	5,276,750
Sundry Branch Bonds (for which C., B. & Q. is contingently liable)	3,233,000
Outstanding bonds of all issues	$30,503,225
From which may be deducted the following:	
Cost of investment for C. B. & Q. 8 per cent sinking fund in other than C., B. & Q. 8 per cent bonds, worth considerably more than cost	$1,273,415
Amount of B. & M. Land Grant bonds as being fully provided for by proceeds of lands already sold and in process of sale	4,621,250
	5,894,665
Leaving practically net funded debt	$24,608,560

Part of which, say $655,000 may be converted into stock.

To the net funded debt add amount of capital stock Dec. 31st, 1879	$31,004,456
Total stock and funded debt	$55,613,016
A result which is reached by estimating as an asset the land notes, and unsold land in Iowa, valued at about	2,894 336
Making	$58,507,352
These liabilities for stock and bonds stand against a property which has cost about	69,997,600
Showing a cost not at present represented by either stock or bonds, of	$11,490,248

It will be observed that our balance is struck this year after making our first quarterly dividend, which has heretofore been included in the first semi annual dividend of the new year.

Besides keeping up our road to a high standard of efficiency, we have by our sinking funds and our use of earnings for construction, accumulated a surplus beyond our dividends of 8 per cent per annum—and it becomes a grave question what part of this might prudently be represented by stock and distributed to the stockholders of to-day rather than held undivided for the benefit of future owners, always reserving a reasonable amount to meet bad crops or other contingencies. Our accounts for the past few years show that with average crops, in a rapidly growing country, there is every promise of our being able to pay fair dividends upon the whole cost of our road. The rates at which we are doing our business are moderate, and the facilities which we are giving to both freight and passengers seem to be satisfactory to the public, while our rate of dividends is less than the average rate of interest at the West on good security, and very much less than the returns which enterprising men claim upon all investments involving risk.

The length of road owned and leased by the company at the beginning of the year, including all branches, and also the St. Louis, Rock Island and Chicago Railroad, was 1,606.107 miles; there have been added during the year 154.283 miles—making a total of 1,760.890. Add for roads leased and operated jointly with other companies, and roads for which a fixed yearly rental is paid, 96.892 miles—making the total number of miles operated by the company December 31, 1879, 1,857.282.

The equipment consists of 374 engines, 140 passenger, 70 baggage, mail and express, 8,412 box, freight and cattle, 2,415 platform and coal, 202 way, 5 dining, 4 officers', 6 wrecking and tool, 2 pile drivers, 457 hand and 868 rubble cars.

The total number of passengers carried in 1879, exclusive of those carried on mileage and season tickets, was 2,076,184, against 2,014,511 in 1878—an increase of 61,673. Total number of tons of freight carried in 1879 (including the Illinois Central in their own cars 331,474 tons) was 4,-686,353; in 1878 (including Illinois Central 293,-905 tons,) 3,975,010 tons—an increase of 711,343 tons.

The number of tons carried increased 17.9 per cent, and the receipts from freight increased only 4.5 per cent. These figures indicate that the increase in the volume of business, in proportion to the earnings, has been greater than the previous year.

The increase of freight cars has been 14 94 per cent—somewhat greater than the increase of business. The payments for rents of cars in 1879 amounted to $14,281 91, as compared with $118,-733 08 paid in 1878—showing a decrease of $74,-451 17.

GENERAL ACCOUNT, December 31, 1879.

Capital stock		$30,883,600 00
Amount of B. & M. R. R. R. stock outstanding December 31, 1879.		120,856 51
		$31,004,456 51

President.—J. M. FORBES.

Vice Pres't & Gen'l Manager.—C. E. PERKINS.

Directors.—John M. Forbes, Sidney Bartlett, Charles J. Paine, T. Jefferson Coolidge, John L. Gardner, Jr., Henry S. Russell, Edward Bangs, Boston, Mass.; John N. A. Griswold, Peter Geddes, New York City; Charles E. Perkins, Burlington, Iowa; James M. Walker, Chicago, Ill.

Chairman of the Board.—J. N. A. GRISWOLD.

General Solicitor and Counsel.—J. M. WALKER.

Treasurer.—AMOS T. HALL.

General Auditor.—GEORGE TYSON.

Assistant Treasurer.—J. N. DENISON.

Secretary.—J. G. WALKER.

Clerk of the Board.—W. J. LADD.

☞ The Grand Canon of the Arkansas, together with the entire line from Canon City to Leadville, has been turned over to the Denver and Rio Grande Railroad Company by the Atchison, Topeka and Santa Fe. The former company takes all the material, rolling stock, &c. Receiver Ellsworth will turn over the road now in his possession as soon as an inventory of the property can be made.

☞ We have received from the National Railway Publishing Company, a new General Railway map which gives the latest railroads constructed, and presents a comprehensive view of the railroad system of the United States and Canada to date. It is a very useful office map for all interested in railroads and railroad construction.

Imports of Dry Goods at New York.

The imports of foreign dry goods at New York for the month of March, were:

ENTERED FOR CONSUMPTION.

	1879.	1880.

American Steamship Co.

At the annual meeting of this company, held in Philadelphia on the 5th inst., the report of the directors for the year ending December 31, 1879, was presented, from which we learn that during the year the four steamships accomplished 85 round voyages, the receipts being $359,971 04, and that the expenses—some of which were extraordinary in their character—left a deficit of $62,086 96. The report says:

Of the extraordinary expenses $45,574 26 was in settlement of the verdict and legal expenses in the collision case of the Steamship Pennsylvania, in December, 1877, with the ship Oasis.

Owing principally to the very low rates of freight existing during the past year on eastward bound traffic, the receipts from all sources show a decrease of about $17,000 from those of the previous year, but a corresponding decrease has been effected in the expenditures for ordinary operating and shore expenses, and the deficit of the year is mainly attributable to the settlement of the Oasis case, and extraordinary repairs and alterations to the ships.

To meet the interest coupons maturing April 1, 1879, on the bonds of the company, $45,000 was borrowed of the Pennsylvania Railroad Company. The interest due October 1 was paid out of the earnings of the company.

The steamers of the company are now being improved by the addition of steam steering gear and the erection of iron pilot and deck houses, iron bridges and other additions, so as to render them equal to any steamers in the transatlantic service. The regularity of the departures and arrivals, and the satisfactory time made by the steamers, has continued during the past year, while they have been kept in thorough repair, and the service, it is believed, has given entire satisfaction to the patrons of the line.

The report was accepted, and an election was held for Directors, with the following result: Henry D. Welsh, President; Josiah Bacon, John Price Wetherill, D. B. Cummins, N. Parker Shortridge, Strickland Kneass, Wm. D. Winsor, G. B. Roberts, George N. Allen, Henry C. Butcher, J. N. Du Barry.

Rapid Transit in Westchester Co.

The Westchester County Rapid Transit Commissioners have decided upon the route of their road, which will be as follows:

It forms a large loop, the bight of the loop being at Corson's Corners, in Mount Vernon. The easterly line then runs to Chester Hill, crossing the New York, New Haven and Hartford Railroad at Franklin Avenue, and continues thence, running between Franklin and Fulton avenues to a little below Third-street. It then takes a curve to the westward, going across the village north of Fourth-street, and proceeds to a point near the White Plains road, at Washingtonville; then curving to the south, it runs about parallel with the White Plains road to the head of Fourth-street, in Wakefield, and keeps the west side of that street to near William's Bridge when it crosses Briggs-avenue, near Brigg's store. Continuing for half a mile on the east side of the "old road," it enters the Lorillard estate, west of the Bear Swamp road. Thence, following a valley on the Lorillard property for nearly a mile, it terminates at the Bronx River, just north of Pelham-avenue bridge, where it will connect ultimately with the Second-avenue road out of this City into the Twenty-fourth Ward. The western branch of the loop, starting, as before, from Corson's Corners, goes through a ravine to the New York and Harlem Railroad, crossing the Bronx River at or near Bridge-street. It then continues along the east bank of the Bronx for a mile and a half, to the southern line of the county, at Woodlawn Heights, where it will connect with the central route of the Surburban Company. The east branch is

given a connection with the New York and New Haven Railroad by a branch running east from Union-avenue and Fourth-street, and the west branch will connect with the New York and New Haven Railroad by a branch across the Bronx, north of Woodlawn Heights. The engineer estimates the total length of the lines at eight miles.

Bradshaw's Railway Manual for 1880.

This well known work, of which the present issue is the 32nd since its first appearance, fully maintains its character as an invaluable repertory of facts for the information and guidance of the railway shareholder and investor. Besides giving an official directory, arranged both under the separate companies and in an alphabetical appendix, and including every gentleman connected with the administrative and executive staffs of the three kingdoms, the Manual gives a history and an account of the financial position of every British line, together with the similar details with regard to the chief Canal and Rolling Stock Companies. In addition to these facts, which are of more or less importance to all who have money or who contemplate putting money in railway securities there is a variety of other useful and interesting information in the work. Thus with reference to the representation of the railway interest in the Parliament now expiring we learn that the House of Lords contains no fewers than 43 peers who are directors of railway companies. In the House of Commons the number of railway directors is still greater, being no fewer than 119.

The subsidiary information found in this volume, including accounts of the chief Colonial, Continental, and American lines, auxiliary associations connected with railways, railway dividends, railway legislation, with the results of the session of 1879 and the notices of bills of 1880, railway commission, and many other kinds of intelligence, cannot fail to be found useful by various classes of readers.[—Herapath.

☞ The new pipe line known as the Union Tank Line, which is being laid by the Standard Oil Company between Bradford and New York, has progressed eastward as far as Wellsville. From there the route passes through Greenwood, about fifteen miles south of Hornellsville, thence to Addison and to Painted Post. No attempt is made to follow the valleys, as distance is avoided, and not grade. Wherever the pipe passes over cultivated land it is buried twenty inches, but along the line of farmers' lands, or in timber land, it is hardly covered.

☞ The President of the Cumberland Valley Railroad Company, in his report, refers to the Shenandoah Valley Railroad as now approaching completion, and officially announces a connection between it and the Cumberland Valley railroad a short distance south of Hagerstown. He says a satisfactory agreement by the new company has been made with his company for the use of depot and other facilities at Hagerstown.

☞ A surveying party has commenced work at Atlanta, Ga., locating the Georgia Western railroad. The Louisville and Nashville Railroad Company will construct the line at once to Decatur, Ala., where it will intersect one of their main lines. This new road will effect railroad combinations in the South, and will, it is said, give the Louisville and Nashville Company a stronger hold than ever.

☞ A preliminary survey is being made for a railroad from Manchester to Ashburnham, Mass. The line will cross the Wilton Railroad at a point four miles from Nashua. It is stated that this route from Manchester to Boston via the Fitchburg Railroad is but two miles further than by way of Nashua and Lowell.

Progress of the Anthracite Coal Trade.

Messrs. P. W. & W. S. Sheafer have published a chart illustrating the progress of the Anthracite coal trade of Pennsylvania. This chart was compiled to accompany a paper read by P. W. Sheafer before the meeting of the American Association for the advancement of Science, at Saratoga in September, 1879, an abstract of which was given in these columns at the time. The chart includes Mr. Sheafer's familiar "coal pyramid," showing the increase in the volume produced yearly from the beginning of the trade, in 1820. The product for 1879 is added, forming the base of the pyramid, and the sudden expansion in that year is strikingly shown.

An entirely new and no less striking feature than the "pyramid" is a series of blocks drawn to scale, representing the comparative amount of coal in each of the Anthracite fields, the proportion mined, the proportion of the remainder that will probably be made available and the probable waste. The Schuylkill field, for instance, is represented by a block 5 inches long by 2 3-16 inches wide. The amount that has been mined up to the present time is represented by a strip across the width of the block but 5-16 in. wide. The amount of available coal is shown by a section 2 1-16 by 2 3-16 and the waste by a section 3⅛ by 2 3-16.

In addition to these, there is a large number of important statistical tables of coal, iron, oil, etc., the whole forming a valuable collection for reference.

Bessemer and Siemens-Martin Steel.

In a new volume on "Steel, its History, Manufacture, Properties and uses," written by the Secretary of the British Iron and Steel Association, the following table of the production of Bessemer and Siemens Martin steel is given, showing the remarkable development in the steel manufacture from 1870 to 1878:

	Production in 1870.—Tons.	Production in 1878.—Tons.
Austria	22,112	97,470
Belgium	9,563	88 000
France	90,000	818,000
Germany	169,951	466,000
Great Britain	245,000	1,020,000
Russia	8,788	18,050
Sweden	6 640	22,000
United States	40,000	768,000
Total tons	572,054	2,797,520

☞ The American Express Company has purchased the personal property and good will of the United States and Canada Express Company owned by B. P. Cheney, of Boston, and Nathaniel White of Concord. The business is a very extensive one, and has been worked up by these gentlemen, who have been in business for thirty-eight years. The route covers 2 000 miles, extending from Boston to Montreal, with many branches.

☞ Valentine L. Lary (formerly receiver) has been elected President of the New Jersey and New York Railway Company. Isaac D. Demarest is Vice President, and Henry C. Denning Secretary and Treasurer. The directors are: Garrett Ackerson, Jr., Charles L. Atterbury, Robert W. De Forest, Isaac D. Demarest, Louis Fitzgerald, Joseph E. Gay, V. L. Lary, John J. McCook, Jacob Van Buskirk, Peter Ward, J. C. Westervelt, Edward P. Carpenter, and Henry C. Deming.

New York and Brooklyn Bridge.

The suit of Abraham B. Miller against the cities of New York and Brooklyn and the Trustees of the Brooklyn bridge was before Judge Blatchford, in the United States Circuit Court on the 31st ult., for trial and final argument. The suit was begun to enjoin the construction of the bridge and to have it declared an obstruction to navigation. Judge Blatchford said that he would hold in accordance with Judge Johnson's decision that the proper and necessary consent of the Secretary of War had been given, and that so long as the bridge was being properly constructed under the plans as approved by Gen. Humphreys and the Secretary, the matter was ended, unless Congress again interposed.

New York, Lake Erie and Western R. R.

The following is the official statement of earnings of the New York, Lake Erie and Western Railroad Company for the month of February:

	1879.	1880.
Gross earnings	$1,207,390 93	$1,252 217 69
Working expenses	934,076 16	909,633 94
Net earnings	$273,314 77	$342,583 75

—showing an increase in earnings of $14,826 76, a decrease in expenses of $24,442 22 and an increase in net earnings of $69,268 98.

October to February inclusive:

	1878-9.	1879-80.
Gross earnings	$6,415,248 10	$7,176,376 21
Working expenses	4,513,491 89	4,860,288 45
Net earnings	$1,901,751 22	$2,316 087 76

—showing an increase in earnings of $761,133 11, an increase in expenses of $346,796 57, and an increase in net earnings of $414,336 54.

ATLANTIC, MISSISSIPPI & OHIO R. R. CO. In view of the present arrangements for the harmonious fusion of all interests, the undersigned hereby withdraw their protest dated the twenty-eighth February.

The investigation of frauds on Railway Companies a specialty.

The Coal Trade.

The total tonnage of anthracite coal from all the regions for the week ending March 27, as reported by the several carrying companies, amounted to 356,852 tons, against 447,360 tons in the corresponding week last year, a decrease of 90,508 tons. The total amount of anthracite mined for the year is 4,431,438 tons, against 5,888,630 tons for the same period last year, a decrease of 457,192 tons. The quantity of bituminous coal sent to market for the week amounted to 27,381 tons, against 63,721 tons in corresponding week last year, a decrease of 36,340 tons. The total amount of bituminous mined for the year is 820,050 tons against 649,906 tons for the corresponding period last year, an increase of 170,144 tons. The total tonnage of all kinds of coal for the week is 384,233 tons, against 511,081 tons in corresponding week last year, a decrease of 126,848 tons, and the total tonnage for the coal year is 5,251 488 tons, against 5,538,536 tons to same date last year, a decrease of 587,048 tons. The quantity of coal and coke carried over the Pennsylvania Railroad for the third week of March was 135,342 tons, of which 92,108 tons were coal and 43,234 tons coke. The total tonnage for the year thus far has been 1,468,853 tons, of which 1,095,120 tons were coal and 373,733 tons coke. These figures embrace all the coal and coke carried over the road east and west. The shipments of bituminous coal from the mines of the Cumberland coal region has ceased, owing to the strike on the Cumberland and Pennsylvania Railroad. The shipments for 1880 down to March 27 were 352 878 tons, an increase of 113,051 tons as compared with 1879. The shipments to the Baltimore and Ohio Railroad for the year have been 309,333 tons, an increase of 110,897 tons over the corresponding period of last year. The shipments to the Chesapeake and Ohio Canal for the year have been 3,160 tons, a decrease of 75 tons as compared with 1879. The shipments to the Pennsylvania Railroad for the year were 40,385 tons, an increase of 7,219 tons over the corresponding period of 1879.—[Phil. Ledger, April 5.

☞ A copy of the proceedings of the Board of Directors of the Lexington and Southern Railway Company has been filed with the Secretary of State of Missouri, extending the road from a point 10 miles south of Butler, Bates county, in a southern direction, through the counties of Bates, Vernon, Barton, Jasper, Newton and Mc Donald, to the southern boundary line of the State, a distance of about 145 miles. This establishes the line of the road from Pleasant Hill, Cass County, to the southern boundary of the State, a distance of about 200 miles.

☞ In the case of the New Orleans and Selma Railroad, special Chancellor Ward has rendered a decree dismissing Robertson's bill, and ordering a sale of the road, the proceeds to be divided pro rata among the indorsed bondholders. No priorities were given. The road will probably be sold on the same day as that fixed for the sale of the Selma, Rome and Dalton Railroad.

☞ A company has been organized at Pioche, Utah, to build a railroad which shall connect with the Utah Southern extension. The latter is open to Black Rock Springs, 87 miles from San Francisco.

☞ The gross earnings of the Philadelphia and Erie Railroad Company for the month of February, 1880, were $245,372 01; the expenses, $162,353 94; and the net earnings, $83,018 07.

☞ The Southwest Pennsylvania Railroad will be completed to Fairchance, five miles south of Uniontown, by the 1st of May.

A. G. DAY,

MANUFACTURER OF

Kerite Insulated Telegraph Wire and Cables,

Of all kinds made to order, for Ocean, River, Aerial and Subterranean Lines.

The Kerite covering of these Conductors unlike any other, resists effectually the destructive action of Heat and Moisture, and the corrosive agents either in Earth, Air or Water.

☞ Special orders should state whether the Cable is to be exposed to Earth, Air or Water.

FACTORY—SEYMOUR, CONN. **Office, 120 Broadway, New York.**

NEW YORK, LAKE ERIE & WESTERN RAILWAY.

TO THE TRAVELING PUBLIC.

During the Centennial Season—six months, closing November 10, 1876—the Erie Railway carried almost 3,000,000 passengers, without a single accident to life or limb, or the loss of a piece of baggage.

And for a whole year, the official records of the United States Post-Office Department show the arrivals of Erie Railway trains in New York, on time, to be from 15 to 27 per cent. ahead of competing lines.

Facts well worthy the consideration of travelers.

HARLAN A. PIERCE, Editor.

New York, Friday, April 16, 1880.

Railway and other Land Grants.

We are in receipt of an interesting pamphlet containing valuable data regarding railroad and other land grants by the General Government, published by the Railway Age Publishing Co. and prepared by E. H. Talbott, Secretary of the Association of Land Commissioners. The object of the work is to show the groundlessness of existing prejudice against land grants to railroads, which is done most conclusively by a comparison of the results of their grants, with those made for other purposes by the Government.

The author traces the history of land grants in this country from the original charter of Virginia, dated May 1609, and signed by James I., down to the last grant by our Government to railroads. In the former a large part of the territory of the United States was conveyed, it being then regarded by the British Government, and since by our own, as the public domain by right of might or conquest, on which alone, the editor justly says, the right and title to property in the soil depends. Without touching further this vexed question of natural or moral right to ownership of land, for which an excuse has been as anxiously sought by the highest legal commentators and as vainly, as was that of air and light, under the window light tax which Great Britain attempted to enforce, upon the same principle of Government ownership of the common gifts of nature, for the equal use and benefit of each being, brought by nature into existence, the editor accepts this right of conquest as it is accepted by civilization, and thereupon demands of the Government as a duty under such assumption, to administer this public estate or domain for the greatest good of the public and therefore of the individual. We find no cause for quarrel in this latter proposition, for it virtually admits the fallacy of the former by making the Government the custodian of each individual's right in the land to be distributed by it among the individuals as they may ask for their share for actual use.

Indeed the editor makes another capital point when he strikes at the old system of land grants because it did not thus redistribute these lands but allowed them to pass into the hands of speculators who monopolized the public domain to the exclusion of actual settlers as in the case of Michigan. He also makes another claim which cannot be controverted, that the granting of lands to railroads has largely broken up the evils of the old system because the railroad's first interest is to have the lands on their line settled and cultivated to make themselves traffic, and hence they have aided settlement and prevented speculation. To support his views the editor then gives some interesting statistics of land grants and of railroads built under them together with the number of acres for which certificates have been issued and the number of acres left of the public domain State by State. The conclusions drawn from these figures is rather misleading than correct for the reason that all the poorest and worthless lands are left while of those taken all are valuable and in many localities include all that are worth the Government price.

The Interoceanic Canal.

The comparative merits of the Panama and San Blas routes were presented before the Committee of the House of Representatives on the Interoceanic Canal at Washington on the 10th inst. by Mr. Frederick M. Kelly and Mr. Sidney F. Shelburne, both of New York, with a view to demonstrate the superiority of the latter. They desired to exhibit the difference between the physical features and estimates by the two routes in thirteen propositions, viz:

First, in respect of length, the Panama route will be 45 miles long from sea to sea. The San Blas route has a total length of 30 miles, or only two-thirds that of the Panama.

Second, in respect of length of canalization, the Panama route will require an artificial cutting for the whole 45 miles, the San Blas route for only 24 miles, thus reducing the actual canal to nearly one-half the length of the Panama. The Bayano River already affords ship navigation for six months on the Pacific side of San Blas.

Third, in respect of harbors, the Panama route has indifferent harbors on both sides of the isthmus. The destruction of ships at Aspinwall last November illustrates this point. Here it is proposed to wall in a harbor by an immense breakwater, more than a mile and a quarter long, at a cost of $2,000,000. This expense is entirely avoided on the Atlantic side at San Blas, where there is an inclosed natural bay and harbor of nine square miles of secure anchorage. On the Pacific side the Panama route ends in the open ocean bay of Panama, with a cutting of submarine rock to reach deep water. The cutting of the Pacific end of the San Blas route ends in the Bayano River, which affords for six miles an anchorage ground, two miles of which has a width of half a mile. The Island of Chepillo, two and a half

miles off in the Bay of Panama from the mouth of the Bayano, affords a perfect protection against the sea.

Fourth, in respect of interfering channels of natural drainage, on the San Blas route there are absolutely none. On the Atlantic side the canal commences at Mardinga Harbor, and extends five miles through a gradually upward slope to the mouth of the proposed tunnel; on the Pacific side, from the opening of the tunnel through an easy downward slope to the Bayano River, a distance of 12 miles. On both sides of the mountain the small streams run parallel with the proposed canal. The Panama route presents the situation of an extensive system of river drainage, of which the Chagres occupies the central position. Crossing the line of the canal are some thirty considerable rivers. These intersecting rivers will require, in addition to a $20,000,000 dam, an artificial channel on either side of the central ship canal; in fact, three canals side by side.

Fifth, in respect of width, the width of the Panama Canal will be but 72 feet at the bottom. That of the San Blas Canal will be 100 feet.

Sixth, in respect of excavation of material, the amount of rock and earth to be excavated on the Panama route will be 98,100,000 cubic yards. This does not include the amount necessary for the construction of the two side canals for the drainage of the intersecting rivers, whose cost is estimated at not less than 75,000,000 francs. The amount of rock alone to be excavated on the Panama route (46,231,260 cubic yards) is almost exactly equal to the total amount of both rock and earth which will have to be excavated on the San Blas route. The rock to be excavated in the central or Culebra section of the Panama Canal (33,789,564 cubic yards) is more than the total amount of rock to be excavated on the San Blas route.

Seventh, in respect of the cost of the work, the estimate for the engineering work alone upon the Panama Canal is $168,600,000, but the estimates for additional expenditures swell the total first cost to $224,535,000. The total cost of the San Blas Canal will not exceed $90,000,000.

Eighth, in respect of disposition of materials excavated, the millions of cubic yards of rock and earth to be excavated from the main canal on the Panama route will have to be carried over the two side-drainage channels, in addition to that taken from the latter channel, before it can be disposed of. The conformation of the country about the Panama route is such that it is doubtful whether a place could be found where these vast excavations could be dumped. No inconvenience of the kind mentioned exists upon the San Blas route.

Ninth, in respect of weather, it is a well-known meteorological fact that the Pacific side of the isthmus is the dry and the Atlantic the wet side. It is highly important that, during the prosecution and after the completion of the proposed canal, it should not be subject to rains and floods. The Panama canal will have on the Atlantic side 35 miles; the San Blas will have but five. On the Pacific side the San Blas route will have 18 miles; the Panama route will have but 10.

Tenth, in respect of time of construction, the difference in length, amount of excavation required and local advantages would, if the Panama Canal can be completed in eight years, enable the San Blas Canal to be finished in six years.

Eleventh, in respect of cost of maintenance, the San Blas Canal, being rock lined, and not intersected by rivers, can be maintained at one-third the cost of the Panama Canal.

Twelfth, the amount of towage necessary, and the cost thereof, would be but two-thirds as great upon the San Blas as upon the Panama route; and,

Thirteenth, the amount of revenue received from the San Blas route would permit larger dividends on the capital invested than on the stock of the Panama Canal, because the amount of capital required for the completion and maintenance of the work would be but one-half as great.

Mr. Kelly, who has spent twenty-nine years and $125,000 from his private fortune in investigating this route, desires to secure a new survey thereof by United States Army engineers. He claimed that naval officers were not competent to survey land routes, and that this was the opinion of nine-tenths of the engineers, constructors, contractors and other persons conversant with the subject.

New York and Brooklyn Bridge.

A special meeting of the Trustees of the Brooklyn Bridge was held at the office of the company in Brooklyn on the 12th inst. to take action on the bill passed by the Legislature on the 7th inst. ordering the City of New York to pay $750,000, and the City of Brooklyn $1,500,000, to enable the Trustees to complete the bridge. The President Henry C. Murphy occupied the chair. The other Trustees present were Mayor Cooper, of this City; Controller Steinmetz, of Brooklyn, and Messrs. W. C. Kingsley, J. S. T. Stranahan, H. W. Slocum, William Marshall, J. T. Agnew, William Taylor, R. B. Roosevelt, A. C. Barnes, and J. Adriance Bush. A session of the Executive Committee was held before the regular meeting, and during this session everything to be done was agreed on, and subsequently ratified in open board. The Treasurer's report, which was read and accepted, shows that the receipts to March 31 were $11,562,734 17, and the cash expenditures $11,382,557 40—leaving a balance on hand of $180,176 77, and outstanding liabilities amounting to $78,281 96. A resolution was presented authorizing the President to notify the Edgmoor Iron Company that the board has elected to complete the bridge, and to call on that company to fill its contract for steel for the superstructure as rapidly as possible. A bill for principal and interest, amounting to $50,188 75, due to St. Ann's Church, in Brooklyn, for land purchased June 1, 1878, was ordered paid. The President read a certified copy of the bill passed by the Legislature ordering the completion of the bridge, and said that all contractors would be notified to fill their contracts, and work would proceed at once and as rapidly as possible. The board then adjourned.

☞ At the recent annual election for directors of the Chicago Division of the Baltimore and Ohio Railroad, the following gentlemen were chosen. John King, Jr., William Keyser, C. H. Hudson, J. R. Cowen, G. R. Dennis, Jas. Walsh, Jno. Tyrrill, Nelson Ludington and D. A. Jones. John King, Jr., was elected president, J. H. Sutor, secretary and treasurer, J. H. Randolph, chief engineer. Two new elevators have been erected on the line, and 505 tons of new steel rails laid during the year. Vice President Keyser, of the Baltimore and Ohio, stated that the company expected largely to increase its business this year; that 49,000,000 bushels of grain were exported from Baltimore last year, and 55,000,000 were expected to be exported this year.

Chicago and Grand Trunk Railroad.

Articles of consolidation of the Indiana Railway Company, Michigan Railway Company, Chicago and Northeastern Railroad Company, and the Northwestern Railroad Company, were filed in the office of the Secretary of State of Illinois on the 8th inst. The title of the consolidated company is the Chicago and Grand Trunk Railroad Company, and the capital stock is $6,000,000. The first Board of Directors is as follows: Joseph Hickson and S. J. Sergeant, of Montreal; E. W. Middaugh and James McMillan, of Detroit; John McCaffrey, F. A. Howe, J. Whitman, A. H. Dolto, and William Munro, of Chicago; D. J. North, Albany, N. Y.; N. L. Beardsley, Auburn, N. Y.; W. S. Shepherd, Bath, N. Y.; Thomas S. Stanfield, South Bend; Deforest Skinner, Valparaiso, Ind.; and C. F. Harrington, Port Huron, Mich. The company had been formally admitted to membership in the Joint Executive Committee, and will be represented at future meetings by Charles B. Peck, General Manager.

Immigration.

During the month of March, 1880, there arrived at the Port of New York 23,616 passengers, 21,658 of whom were immigrants. During the corresponding period of 1879 the total number of passengers arrived at the port was 7,736, of whom 5,965 were immigrants. Of the 21,658 immigrants 6,503 were from Germany, 4 007 from Ireland, and 2,780 from England. Scotland sent 775, Sweden 2,183, Norway 496, Denmark 391, France 306, Switzerland 814, Austria 681, Italy 886, Holland 509, Hungary 678, Russia 195, and Poland 250.

The arrivals for the three months ended March 31, 1880, were: Immigrants, 35,825; citizens of the United States returned, 4,498; sojourners, 868; total, 41,191. For the three months ended March 31, 1879: Immigrants, 11,114; citizens of the United States returned, 3,878; sojourners, 842; total, 14 834.

For the twelve months ended March 31, 1880: Immigrants, 163,656; citizens of the United States returned, 32,022; sojourners, 6,004; total, 201,682. For the twelve months ending March 31, 1879: Immigrants, 83,833; citizens of the United States returned, 34,897; sojourners, 6,075; total, 124,805.

☞ The Atchison, Topeka and Santa Fe Railroad has completed its line to Albuquerque, New Mexico. This point is to be the junction for the Western and Southern branches of the road, the Western branch going to Los Angeles and San Francisco, Cal., over the old Atlantic and Pacific route, and the Southern branch to Guaymas, Mexico, on the Gulf of California. The work on both lines will be pushed with all possible vigor. It is expected to make the junction with the Southern Pacific Railroad at or near Tucson about October.

☞ The deed has been filed conveying from the St. Paul, Stillwater, and Taylor's Falls Railroad Company to the St. Paul and Sioux City Company, all the property, real estate, rolling

stock, &c., belonging to the former company. This completes the consolidation arranged last Fall. The St. Paul and Sioux City Road will build nearly 200 miles of new road this season.

Pacific Railroad of Missouri.

A decision was rendered in the Supreme Court of the United States at Washington on the 12th inst. in the case of Geo. E. Ketchum et al. v. the County of St. Louis, appeal from the Circuit Court of the United States for the Eastern District of Missouri. The Court holds first, that the act of the General Assembly of Missouri, approved January 7, 1865, under authority of which the County of St. Louis issued bonds to the extent of $700,000 and loaned them to the Pacific Railroad Company of Missouri, created when accepted by the Railroad Company and the County an equitable lien or charge in favor of the county upon the earnings of the railroad to an extent neccessary to meet the interest upon the bonds as it should become due, such payments and lien to continue until the bonds were paid.

Second, That this equitable lien or charge exists and is enforceable against funds in the hands of the Receiver, against the purchaser under the decree of foreclosure heretofore rendered, and against whomsoever may hold the property or have custody of its earnings. The judgment of the court below is affirmed. Justice Harlan delivered the opinion, Jutices Strong and Bradley dissenting.

Bessemer Steel Manufacture.

Some figures on the magnitude of the Bessemer steel interest of the United States will not prove uninteresting. This industry was projected in 1864, and in the following year the first steel rails made in this country were rolled at Chicago by Captain E. B. Ward. There are at present in this country 11 important establishments—five in Pennsylvania, three in Illinois, and one in each of the States of New York, Ohio and Missouri. Production has steadily increased, until, in 1879, the number of gross tons manufactured reached a total of 606,397, and the price has as steadily decreased from $166 per ton currency, in 1867, to $18 33 per ton in the year just expired. In the last ten years, and in the experimental years preceding them, this country has produced a grand aggregate of 2,522,107 gross tons of rails, enough to lay 26,750 miles of railway track with 60-pound rails. According to the highest authority recognized in the trade, no other country has in these ten years made half the progress in building up a Bessemer steel industry that the United States has made. Our industry is to-day abreast of that of Great Britain, of which the present producing capacity does not exceed 750,000 gross tons of rails annually, and it is predicted that before this year closes the United States will take the first rank in this branch of manufactures.—[Pittsburg Chronicle.

☞ It is stated that the Philadelphia and Reading Railroad Company will take hold of the Jersey Shore and Pine Creek Railway and complete it this summer, as it will give the former a western outlet from Williamsport. The road is graded from Williamsport quite a distance, and will connect with the Buffalo, New York and Philadelphia Railroad at Port Allegheny. A corps of engineers are now looking over the route.

☞ Work is being vigorously prosecutsd on the line of the Shenandoah Railroad, between Hagerstown, Md., and Shepherdstown, W. Va., and will be completed by the 1st of October. There is but little heavy work between the two points, the line of the road following a natural valley the greater part of the distance.

St. Johnsbury and Lake Champlain Railroad.

The Receivers of the Vermont Division of the Portland and Ogdensburgh Railroad have taken measures for paying their indebtedness for labor and material, amounting to eighty thousand dollars, which amount the Supreme Court decreed last fall was a prior claim on the earnings of the road. The Receiver offers seventy-five cents on the dollar, and at a recent meeting of the creditors the offer was accepted and the cash paid in liquidation of the greater portion of the debt. It is expected that the new organization formed by the bondholders of the road, under the name of the St. Johnsbury and Lake Champlain Railroad Company, will take formal possession of the line on the settlement of the claims. The new company propose making improvements along their line and enlarging their terminal facilities at Maquam.

Reported Injury to the Peach Crop.

The Wilmington, (Del.) Daily News publishes discouraging reports as to the damage done the peninsula peach crop by the frosts of last week. The following summarizes the report from the points named:

Summit Bridge, Del.—The peach blossoms are seriously injured, as they were in the stage of bloom when most easily killed." Harrington—"The late frosts have badly injured the peaches in this city. One grower says all his are killed; others that theirs are very much hurt." Milford—"Whole orchards are entirely destroyed." Frederica—"More than one-half of all buds examined were found to be dead. Enough are left, however, to guarantee a hope that we shall have at least one-quarter of a crop." Frankford—"The general opinion is that peaches are badly injured by the late frosts. I think it safe to say that the crop is reduced to one fourth in this locality." Lewes—"Some varieties are undoubtedly killed." Denton, Md.—"The frosts and freezing weather of Wednesday and Thursday nights have greatly damaged the peach crop in this section. I heard one peach grower remark this morning that he would sell the entire crop in his orchard of several thousand trees for $50. It is variously estimated here that the crop is injured from one-half to two-thirds, and some even go further, and say that 99 out of every 100 of the buds are killed."

☞ An agreement has been made by which the Baltimore and Ohio Railroad Company is to acquire control of the Atlantic, Tennessee and Ohio Railroad, (from Charlotte, N. C., to Statesville,) and is to use it as part of the proposed extension of the Virginia Midland Railroad from Danville to Charlotte. In return the Baltimore and Ohio Railroad is to provide for the debt of the company, which consists of $65,000 bonds, $10,000 floating debt, and a judgment for $92,000, known as the Childs debt, and now held by the sinking fund of the North Carolina Railroad Company.

☞ Articles of incorporation of the San Francisco and Northern Railroad Co. were filed on the 9th inst. The company is owned by a New York syndicate, which has purchased and consolidated the North Pacific Coast Railroad, the San Rafael and San Quentin Railroad, and the steamers and redwood timber lands of the Russian River Land and Lumber Company.

Large Locomotives.

Referring to the new locomotives recently placed on the Boston and Albany Railroad, the Boston Herald says:

The dimensions of these big freighters are: running weight, 77,000 pounds; weight on two pairs of 55-inch drivers, 52,000 pounds; diameter of boiler, 49 inches; cylinders, 18¾x28 inches; steam ports 10 and 8x1¼ inches; exhaust ports, 2¼, and exhaust nozzles, 2⅞ inches; throw of valve, 5 inches, with ¾-inch outside lap, and ⅛ and 1-10 inch inside lead; fire-box (without brick), 59x41⅛x54 inches; 173 two-inch tubes, 12 feet 4 inches long; grate surface, 47 square feet; total heating surface, 1,186.61 square feet; length of frame (4 inches square), 26 feet 4⅛ inches; weight of bed board, nearly 5,000 pounds; 2 injectors, Mack, Nos. 7 and 8; capacity of tender 2,500 gallons. These engines, have therefore, a cylinder capacity of 15,462 cubic inches, or 384 over that of the 52-ton consolidation engines on the Pittsburgh, Fort Wayne and Chicago Railway, which have 20x24 inch cylinders.

Oregon Steam Navigation Co.

Pursuant to a resolution passed at a meeting held in Portland, Oregon, on the 31st ult. by the stockholders and Board of Directors of the Oregon Steam Navigation Company, all the property, real and personal, belonging to that corporation was formally transferred to the Oregon Railway and Steam Navigation Company. The deed was filed in the office of the County Clerk; consideration, $710,000. The transfer includes all the real estate, docks, wharves, landings, etc., owned by the corporation in Portland, Astoria, Oregon City, Salem, The Dalles, Umatilla, Wallula and Lewiston; also all railroads, rolling stock, road beds, etc.; also all telegraph lines between Portland and Walla Walla, including branches, etc. The transfer also includes the following steamers: Dixie, Thompson, Emma Hayward, Bonita, Welcome, Wide West, S. G. Reed, R. R. Thompson, Mountain Queen, Annie Faxon, John Gates, Spokane, Almota, Harvest Queen, D. S. Baker, Idaho, Bonanza, Willamette Chief, Champion, E. N. Looke, Ocklahama, Orient, Occident, Fanny Patton, S. T. Church, McMinnville, Alice, Northwest. There were also ten large barges included in the transfer; also several wharf boats. The consideration for the floating stock of the company was $726,000.

☞ The gross earnings of the Great Western Railway of Canada (excluding leased lines) for the month of February, 1880, were $299,900, the working expenses (including transfers to reserve funds) $226,000, and the net earnings $78,400; for the month of February, 1879, the earnings were $311,000, the expenses, etc., $227,500, and the net earnings $83,500—showing a decrease in earnings of $11,100, in expenses, etc., of $1,000, and in net earnings of $10,100.

☞ The Homestake Mining Company has declared the regular monthly dividend of Thirty cents per share for March, payable at the office of the transfer agents, Wells, Fargo & Co., No. 65 Broadway, New York, on the 26th inst.

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

Explanations.—The column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "¶."

Year ending	Railroad: Main Line.	Railroad: Branch Line.	Railroad: 2d Track and Sidings.	Railroad in progress.	Rolling Stock: Cars: Engines.	Cars: Pass.	Cars: B. M. E.	Cars: Freight.	Companies.	Abstract of General Balance Sheet. Property and Assets: Railroad.	Property and Assets: Rolling Stock.	Property and Assets: Assets.	Liabilities: Accounts and Cash.	Liabilities: Stocks.	Liabilities: Bonds.	Liabilities: Accounts.	Liabilities: Surplus Income.	Railroad Operated.	Operations: Trains Moved.	Operations: Passengers.	Operations: Freight.	Earnings: Gross.	Earnings: Net.	Dividends.	Value of Shares: Par.	Value of Shares: Market.

Atlantic, Mississippi and Ohio Railroad.

A circular has been issued proposing a plan for the reorganization of the Atlantic, Mississippi and Ohio Railroad Company, under which the road is to be bought by a Purchasing Committee and a new company organized, which shall have $6,921,900 capital stock and shall issue four classes of bonds. First mortgage 6 per cent bonds shall be given in exchange for the present divisional bonds issued by the old Norfolk and Petersburg, South Side and Virginia and Tennessee Railroad Companies. The present consolidated bonds are to be replaced by second mortgage bonds, to bear 4 per cent interest the first year and 5 per cent thereafter. There will also be first income 4 per cent bonds to the amount of the unpaid interest on the present consolidated bonds, and second income 6 per cent bonds for the claims of the State of Virginia for $4,000,000.

Statement of the Public Debt of the United States, April 1, 1880.

Interest paid by United States, $45,651,155 94; interest repaid by transportation of mails, &c., $12,983,707 66; interest repaid by cash payments: 5 per cent net earnings $655,198 87; balance of interest paid by United States $32,012,249 41.

The foregoing is a correct statement of the public debt, as appears from the books and Treasurer's returns in the Department at the close of business, March 31, 1880.

JOHN SHERMAN,
Secretary of the Treasury.

☞ A preliminary survey is being made by the Missouri Pacific Railroad Company for a new narrow-gauge road from the point where the present narrow-gauge of the Kansas City and Eastern crosses the Little Blue, seven miles east of Independence, to Kansas City, by way of the Missouri River bottoms. If a practicable route is found, the present track from Little Blue to Kansas City will be torn up and removed to the new route, and the Independence business transferred to the Missouri Pacific main line. The change is to avoid the heavy grades on the present line, over which it is impossible to make the freight traffic a success.

☞ A survey is now being made by the St. Louis, Iron Mountain and Southern Railroad Company for a branch from Allenville north-east to Jackson Mo., 16 miles, to be built this summer. This company is also running a line from Gardoc, Ark., south-west to Camden, a distance of 34 miles, the object being to reach Camden, and eventually Alexandria, La., both of which are large cotton shipping points. Camden alone having exported over 3,000 bales this year.

Philadelphia Stock Exchange.

American Railroad Journal.

Financial and Commercial Review.

THURSDAY EVENING, April 15, 1880.

The close of our last issue was marked with excitement at the Stock Exchange where there was a decided turn in the tone of speculation. The leading speculators who had been manipulating the money market took the pressure off and the rate fell to 5@6 per cent. The New York Central Syndicate, which bought 350,000 shares of the stock from Vanderbilt last November, notified the members of the Syndicate by circular that they were prepared to pay each the money due on the operation. Report says that the balance of stock held by the Syndicate, was taken by Mr. Gould, who will form a new Syndicate, to control the stocks as well as the next election. It is said that the New York money market has been tightened of late by the country banks and those of other cities. Boston banks alone, it is said, drew not less than $8,000,000 of currency from New York, and locked it up there, so that that market could get no use of it.

On Friday the stock market opened buoyant. Early prices were higher, and prospects for an important advance seemed brilliant. But a cloud soon darkened the situation. Someone was freely supplying buyers with a few more stocks than they wanted. Fluctuations followed fluctuations in rapid succession, but each downward dip carried prices a little lower than the previous one had carried them. Operators were confused. Money was easier and they thought prices should rise.

The business of the day amounted to 331,529

shares, against 357,049 shares the day before. The specially active stocks were Erie at 45¼@ 43⅞@44½, New Jersey Central at 81@77¾@ 78¾, Delaware, Lackawanna and Western at 93@ 91⅜@92, Central and Hudson at 134@132¾@ 132⅞, Manhattan Elevated at 31¾@28@29⅝, Missouri, Kansas and Texas at 43½@41⅝@42⅜, Ohio and Mississippi at 38@36@37, Canada Southern at 61⅝@60@60⅞, Pacific Mail at 43⅛@41½ 42⅛, Western Union at 107¼@105½@106¾, and Delaware and Hudson at 84@81@82¾. Indeed the last calendar week ended up with continued excitement and fluctuations, to open the present one with a renewal of the general shaking up of operators, and down of prices.

On Saturday, during the early part of the day, the stock market was weak, on the fear that the bank statement would be unfavorable. Shortly before noon it became known that the statement would show slight changes in the reserve, and the market became strong. The reserve was increased $202,450, bringing it up to within $107,400 of 25 per cent. Upon this the stock market before noon became strong, and so continued until near the close, when the Gould stocks were ruled off and the whole market sympathized. The leading stocks in the rise of the afternoon were St. Paul and Sioux City and St. Paul and Minneapolis, which rose ¾@2 per cent. The other notably strong stocks were Erie, the coal shares, Pacific Mail, Iron Mountain, Milwaukee and St. Paul and Chicago and Northwest. The Gould stocks, notably Kansas and Texas, were weak at the close. On Monday the market opened still more demoralized, though money was easier and better prices instead of lower were looked for, and small holders were compelled to sell, and the result was a decline in prices of ⅛@3¾ per cent, led by Iron Mountain, Kansas and Texas, Wabash and Pacific Mail. Mr. Gould returned about 40,000 shares of Kansas and Texas stock, which had been borrowed for transfer to use at the May election, the transfer books having been suddenly closed without notice on Saturday. On Tuesday the managers of the New York Central Syndicate distributed among its members the amount of cash each had deposited. This distribution involved the calling in of a great number of loans, which in turn advanced the rates for call loans at the Stock Exchange to 1-16 of one per cent per day. This rate was, however, exceptional, the larger part of the borrowers having been accommodated at 6 per cent. In the afternoon, when some of this money returned to the street, the rate fell to 4 per cent. This settlement is the last of the large settlements to be made, and the money market will hereafter be exempt from the disturbances, which as prices fall the aggregate demand for Stock Exchange loans decreases. The tide of currency is setting more strongly toward New York, and foreign exchange is drifting away from the gold exporting point. Speculation in staple articles and commodities outside of Wall Street is at present undergoing a liquidation which will reduce the borrowing demand for money on their account.

At the opening of business on Tuesday the lowest prices for many months were made. Within an hour the bears, under cover of this attack, were buying stocks, and others began to buy making the market strong and keeping it so up to the close of business.

On Wednesday the market was dull and unsettled as a heavy blow to confidence was dealt to his own stocks by the manipulations of Mr. Gould and the sudden closing, at his instance, of the Kansas-Texas transfers on Saturday. He was a large and open seller of the stock on certificates in his own name since Saturday as he could do this without losing his controlling vote at the annual election in May, as the certificates cannot be taken out of his name.

This movement by sympathy pulls down the balance of his stocks and with them the whole list.

It is understood the Wabash Company will soon bring out their "blanket" mortgage of $30,000,000. The successor of Mr. Cyrus W. Field is Mr. Solon Humphreys, of the old house of Messrs. E. D. Morgan & Co., who has had a long railroad experience with the St. Louis Kansas Northern, now consolidated with the Wabash. This keeps the management in the same family.

Notwithstanding the unsettled question of taxation upon bank capital the bids are generally firm at the close for the City bank stocks, and the offers to sell not so numerous. Central is offered at 119, Commerce, 142, Fourth, 120, New York 148, and Metropolitan 151.

The Treasury will have the means and no doubt the appropriations will be made by Congress to pre-pay $225,000,000 or $230,000,000 of the bonds due in 1881.

Railroad earnings for April show an increase in which, Lake Shore is conspicuous. Exchange on London at the close is steady without being active. The offerings of produce bills is on a liberal scale. Cotton is going foward freely at the reduced quotations, as well as wheat and lard.

The offerings of United States bonds of 1881 to the Treasury on Wednesday were $4,945,250. The minimum offers were for 6s of 1880, 104.16, 6s 1881, 105.91, and 5s 1881, 103.65. The maximums 103.24, 106.14, and 103.86 respectively. $1,500,000 were accepted, and all but $50,000 paid for on that day.

Imports have fallen off slightly but are still large.

The exports of domestic produce last week were $7,545,332, against $6,167,126 same week last year. The present week will show some increase. From January 1, the total is $99,538,535, an average of nearly a million per day, Sundays and holidays included. During the same period of 1879 they reached $90,674,802.

Commercial and business suspensions in the United States and Canada for the last quarter, show a decrease in number of nearly one-half, as compared with the corresponding quarter of any previous year since the panic. The falling off in the liabilities is even more marked.

Iron, Cotton, Provisions, Breadstuffs and indeed the whole list of merchandise which was bulled up on the boom of the past six months, are all now falling back with a general collapse of speculation in these products, whose limit does not yet seem to be reached. The cause of all is one and the same—the over-speculation of last fall, which we were the first to oppose in these columns. There are some special causes affecting these different markets such as the failure of Dodge, Potter & Co., in cotton, on Wednesday, but the real cause is the general one above named, and we fear the end is not yet. The same is true of Wall street aided no doubt by Mr. Gould, who is always among the first to comprehend the natural situation and appropriate it to his uses. Otherwise he could not now knock down stocks with all his power and control of the money market.

Mining stocks have been an exception as they were in the boom of last fall when everything else went up and they went down. Now there are natural as well as special causes helping to make mining stocks a favorite of speculation here to the neglect of railroad stocks, as the former were never so low and the latter scarcely ever so high notwithstanding the heavy decline. The California Legislature has adjourned. With May 1st the tax levy upon mining stocks there will have been made at the market price under the new constitution while a strike is reported in Best and Belcher and Consolidated Virginia, which has already sent up the whole list and will no doubt prove to be the forerunner of a regular boom in the Pacific mines after May 1st, since we are told on good authority that the Mackey clique or managers of the Comstock mines now own a majority of the stock of those companies. Unnatural depression is always followed by an equally unnatural reaction as was true of railroad stocks last fall; they fell first in the panic and afterwards mining stock. Now they have gone up and mining shares must have their turn.

The closing quotations on Thursday were: Atlantic and Pacific Telegraph, 42¼@42½; Canada Southern, 58½@58⅞; Central of New Jersey, 77¾@77⅞; Central Pacific, 74@76; Chicago and Northwestern, 93½@93⅝; do. pref., 108¼@108¾; Chicago, St. Paul and Minneapolis, 59@59½; Chicago, Milwaukee and St. Paul, 76⅞@78; do. pref., 102@102½; Chicago, Rock Island and Pacific, 190@193½; Chicago, St. Louis and New Orleans, 33@35; Cleveland, Columbus, Cincinnati and Indianapolis, 76½@77; Col., Chicago and Indiana Central, 14⅝@15; Delaware and Hudson Canal, 81¾@82; Delaware, Lackawanna and Western, 89½@89⅝; Hannibal and St. Joseph, 32¼@32½; do. ☞ The Lake Erie and Western railway will be completed to Sandusky City by July 1. The distance is twenty-two miles from Fremont, the present eastern terminus.

Chicago, Milwaukee and St. Paul Railway.

The following is a comparative statement of the earnings, expenses and net earnings for the years ending December 31, 1878 and 1879:

Earnings:	1878.	1879.
Freight	$5,750,497 35	$6,850,755 43
Passengers	2,011,496 41	2,273,701 00
Mail service	166,512 65	212,111 86
Express service	166,368 16	183,812 01
News service	6,916 79	6,907 02
Rents	8,872 75	7,987 21
Telegraph	689 60	1,895 99
Extra baggage	8,673 83	15,809 29
Sleeping cars	48,439 55	58,882 40
Elevator "A"	83,946 21	100,216 16
Elevators, "B & C"	77,933 88	119,624 89
Elevator, "D"		16,508 54
Elevator "E"	51,840 45	100,201 14
Elevator, Minneapolis	11,456 16	7,948 65
Stock yards	58,124 03	56,458 19
Total	$8,451,867 82	$10,012,819 78
Expenses (ordinary)—		
Repairs of track	$663,228 42	$826,804 31
" bridges	91,641 95	88,623 70
" fences	24,907 57	37,827 97

Exp. Elevator Minneapolis	4,587 72	4,162 37
Expenses (extraordinary)—		
Renewal of track	222,542 75	278,472 84
New bridges	38,850 66	46,092 14
New buildings	6,345 44	6,291 20
Total	$4,792,313 58	$5,473,794 96
Net earnings	$3,659,454 24	$4,539,024 82

Compared with the year 1878, the gross earnings show an increase of $1,561,051 96, with an increase in expenses of $681,481 38—making an increase in net earnings of $879,570 58. The per centage of expenses to earnings, including all expenditures, was 54.7 per cent. In 1878 it was 56.7 per cent. The expenses are divided as follows: ordinary, $5,142,938 78; extraordinary, $330,856 18. In 1878 the ordinary expenses were $4 527,578 78, and the extraordinary expenses were $264,738 85. The President, in his report, says:

This company now owns and operates 2,231 miles of railway, of which 199 miles are embraced temporarily in other organizations.

It thus appears that since the last report it has acquired by construction and purchase 535 miles of road.

In Dakota, extensions have been constructed from Pattersonville by way of Marion Junction to Running Water, on the Missouri River opposite the mouth of the Niobrara, a distance of 124 miles, and from said junction westerly 19 miles, which last named line will probably be carried through to the mouth of American Creek on the Missouri River, a distance of 94 miles during the year 1880, it being already graded.

In 1869 this company purchased over one half of the Capital Stock of the Western Union Railroad, extending from Racine by way of Freeport to Savanna on the Mississippi River, and thence to a junction with the Chicago, Rock Island and Pacific Railroad seven miles east of Rock Island, a distance of 190 miles, exclusive of 23 miles of branches since constructed, and this road has since been operated under control of this company as an independent organization.

The balance of stock of said Western Union Company, and nearly all of its bonds were owned by the City of Glasgow Bank, the failure of which made it necessary that these assets should be sold, and this company deemed it advisable to make an effort to purchase them. The result of the negotiations which ensued was in substance this—the mortgage lien on the road, amounting to $3,500,000 in seven per cent bonds, was purchased by this company for an equivalent sum of its six per cent bonds, and it received in addition, as a bonus, all the outstanding stock of the company. The road is now permanently united with, and forms a part of the property of this company. Its ownership by this company was very desirable seeing that it formed the only feasible outlet to Milwaukee and Chicago for the extensive lines of this company in central Iowa; and besides it traverses a fertile and populous country yielding a large local business. Its net earnings in 1879, were equal to six per cent on $5,500,000.

The branch from Sparta to Viroqua, a distance of 32 miles, mentioned in the last report, was completed and opened for business in last September, and its traffic comes fully up to the expectations that were formed of it.

The Davenport and Northwestern Railway extending from Davenport to Cresco in the State of Iowa, with a branch from Eldridge to Maquoketa has been purchased by this company, and the road with all its equipment was duly conveyed and taken possession of on the first day of August last, since which time, it has been operated by this company.

The road comprised in this purchase consists of 162 miles of finished road, and about 60 miles partly graded, and this company issued in payment therefor $1,750,000 bonds running forty years, bearing five per cent interest.

That portion of the unfinished road between Fayette and Fort Atkinson, about 25 miles will be completed by the first day of May next, and form a connection with the main lines of this company, thus giving a through line from St. Paul and Minneapolis to Davenport, and thence by other lines form the shortest line from said points to St. Louis.

In the month of May last, this company purchased a majority of the stock of the Southern Minnesota Railway Company, a line of road extending west from La Crosse 167½ miles. Said company under the name of the Southern Minnesota Extension Railway Company, have constructed during the past two years a railroad extending from their western terminus to the town of Flandreau in Dakota Territory, about 188 miles, and have graded the line from Flandreau to Sioux Falls, and will complete the same by June next. The bonds which have been issued by the extension company, at the rate of $9,000 to $12,000 per mile have been cashed by this company to aid in the construction of said extensions, and a further amount will be cashed to complete the lines to Sioux Falls. The Southern Minnesota Railroad, and the extensions, together with the Central Minnesota Road from Wells to Mankato, continue to be operated by an independent organization, and the receipts and expenses are not embraced in the operations or accounts of this company, and it is not impossible that such will continue to be the case until the year 1883, when the road will pass into the control of the stockholders in the interest of this company. A traffic agreement between this company and the Southern Minnesota Company exists, and will be continued until the road is finally absorbed into the lines of this company.

The grading and track-laying of the "Short Line" between St. Paul and Minneapolis is nearly completed. The substructure for the Mississippi River bridge on said line is constructed, the iron superstructure for same in process of construction, and it is expected that the whole line and bridge will be fully completed during the month of June next.

During the year there have been erected and nearly completed, in the city of Milwaukee, for the proper accommodation of the Locomotive and Machinery department, Machine Shops and a 44 stall Round House, the whole comprising an area of four acres under roof; all of which are constructed of stone, brick and iron so far as practicable, and are designed to be of sufficient capacity to meet the demands of this branch of the service at this place, and will be fully completed for occupancy, early in the coming summer.

The company has now 617 miles of its road laid with steel rails, being an increase of 94 miles in the past year; and the following new equipment has been added: 21 locomotives, 8 first-class coaches, 2 sleeping cars, 4 parlor cars, 5 baggage, post office, mail and express cars, 729 box and caboose cars, 250 stock cars, 230 flat and coal cars, 2 derrick cars.

The entire cost of the company's property including rolling stock, depot grounds, cattle yards, elevators, warehouses, docks, etc., is represented by

Common stock	$15 404,261
Preferred stock	12,279,483
Mortgage bonds	41,849,500
Making a total of	$69,033,244

on 2,231 miles of road, being at the rate of $30,948 per mile, and showing a reduction of $7,457 per mile since the last report.

The equipment of the road at the close of 1878 and 1879 compare as follows:

	1878.	1879.
Locomotives	226	229
Passenger cars, 1st and 2d class	109	122
Sleeping cars	12	14
Parlor cars	..	4
Baggage, postal, mail and express	71	91
Box freight and caboose	3,826	5,140
Stock	490	791
Flat and coal	812	1,370
Boarding	2	2

Earnings per mile run on freight, $1 36. Earnings per mile run on passengers, $1 12. Expenses per mile run, including all expenditures, $0.78; do. in 1878, $0.88—decrease, 10 cents.

The average price per ton per mile, received for freight, for a series of years past has been as follows:

	Cents.		Cents.
1865	4.11	1873	2.50
1866	3.76	1874	2.38
1867	3.94	1875	2.10
1868	3.49	1876	2 04
1869	3.10	1877	2.08
1870	2.82	1878	1.80
1871	2.54	1879	1.72
1872	2.43		

In the following table are shown the mileage of trains, the passenger traffic and the freight traffic on all the roads collectively for the years 1878 and 1879:

	1878.	1879.
Passenger trains	1,554,048	2,022,798
Freight trains	3,885,214	5,034,085
Wood and gravel trains	552,445	598,848
Total mileage	5,991,707	7,655,701
Passengers carried	1,412,663	1,555,446
Do. carried one mile	65 498,189	78,119,592
Freight (tons carried)	1,955,699	2 559,734
Do. carried one mile	321,818,902	401,595,734
Receipts per passenger per mile	3.09 cents.	2.93 cents.
Receipts per ton per mile	1.80 cents.	1.72 cents.

The earnings, expenses and net revenue per mile of road operated in the two years compare as follows:

	1878.	1879.
Gross earnings	$5,491 73	$5,016 44
Operating expenses	3,113 92	2,274 06
Net earnings	$2,377 81	$2 742 38

The expenditures for construction and permanent improvements, during the year 1879, were as follows:

For additional equipment	$464,560 21
Cost of relaying with steel rails, over cost of iron rails	101,158 60
Real estate, Chic. & Mil. Division	91,587 50
Real estate for extension of warehouse, Milwaukee	72,000 00
Depot grounds, wharves, etc., Milwaukee	6,210 66
Depot grounds and real estate, La Crosse	12,404 70
Depot grounds, McGregor	300 00
Depot grounds, Wauwatosa	170 00
Depot grounds, Portage	403 75
Depot grounds, Minneapolis	828 60
Depot grounds, St. Paul	1,114 66
Right of way	3,992 71
Construction of fences, etc., between Sabula and Marion	749 94
Construction of Short Line, between St. Paul and Minneapolis	247,697 60
New round house and shops, Milwaukee	216 080 56
Addition to Milwaukee stock yards	50,144 90
New draw-bridge, Milwaukee	32,948 33
La Crosse levee improvements	19,566 95
New depot, La Crosse	8,376 02
Canal Street track, Milwaukee	12,205 57
New round house, Minneapolis	11,847 43
New freight house, Minneapolis	14,561 67
New freight house, Chicago	19,687 70
New depot, Oconomowoc	4,300 56
Artesian well, Mason City	3,713 64
Permanent improvements	86,189 69
Total	$1,482,801 95

The value of fuel and supplies on hand December 31st, 1879, was as follows:

47,640 cords wood	$119,576 45
1,069 tons locomotive coal	2 329 62
45,804 ties	15 710 68
27,564 gallons oil	5,996 98
23,493 pounds waste	1,695 33
520,860 pounds splices, bolts and spike	12,986 13
733,447 pounds iron (unworked)	30,426 27
354,659 pounds iron, (worked and partly worked)	17,964 35
147,016 pounds copper and brass	27 027 00
1,382,320 feet lumber and timber	23,402 65
616 engine, truck and car wheels	5,279 40
664 pairs engine, truck and car wheels, (on axles)	15,231 07
222,605 pounds engine, truck and car axles	4,976 51
97,893 pounds ties, (iron and steel)	6,281 71
174,198 pounds steel and steel springs	12,416 79
852,234 pounds engine, car and road castings	20,742 02
3,472 pounds rubber springs	1,687 29
Other supplies	62,241 18
Total	$385,971 43

Statement of Income Account, 1879.

Jan. 1.—By balance		$2,520,074 02

President.—Alex. Mitchell, Milwaukee.

Vice Pres't.—Julius Wadsworth, New York.

Directors.—Alex. Mitchell, Julius Wadsworth, Selah Chamberlain, Jeremiah Milbank, Abraham R. Van Nest, David Dows, John M. Burke, Peter Geddes, Hugh T. Dickey, James Stillman, John Plankinton, S. S. Merrill, Jason C. Easton.

General Manager.—S. S. Merrill, Milwaukee.

Gen'l Sup't.—W. C. Van Horne, Milwaukee.

Secretary and Treasurer.—R. D. Jennings, Milwaukee.

Assistant Secretary & Transfer Agent.—James M. McKinlay, New York.

General Solicitor.—John W. Cary, Milwaukee.

Auditor.—J. P. Whaling, Milwaukee.

Purchasing Agent.—John T. Crocker, Milwaukee.

Chief Engineer.—D. J. Whittemore, Milwaukee.

Production of Corn and Wheat in 1879.

Dr. James Williams, late Auditor of State, has supplied to the Ohio State Journal the following interesting exhibit of the production of corn and wheat in the United States for the year 1879:

CORN.

Rank.	Bushels.
1. Illinois	309,000,000
2. Iowa	185,000,000
3. Missouri	142,000,000
4. Indiana	135 000,000
5. Ohio	105,700,000
6. Kansas	90,000,000
7. Kentucky	65,000,000
8. Nebrasia	62,000,000
9. Tennessee	51,000 000
10. Pennsylvania	44.000.000
11. Wisconsin	39,000,000
	1,228,600,000

WHEAT.

Rank.	Bushels.
1. Illinois	44,900,000
2. Indiana	43,700,000
3. Ohio	36,600,000
4. California	35,000,000
5. Iowa	32,787,000
6. Minnesota	31,887,000
7. Michigan	28,800 000
8. Missouri	26,800,000
9. Pennsylvania	22 300,000
10. Wisconsin	20,600,000
11. Kansas	18,100,000
	341,474,000

The whole country produced 1,545,000,000 bushels of corn, of which 11 States produced 1,228,600,000, while 27 States and 8 Territories produced 316,400,000. Of wheat the whole country produced 442,000,000 bushels—341,500,000 in 11 States, and 107,500 in all of the other States and Territories. The eleven States enumerated above produced 76 per cent of the entire wheat crop, and 79 per cent of the corn crop.

New York, Housatonic and Northern Railroad.

The sale of this road on the 3d inst. by John H. Clapp, Referee, was the outcome of an action commenced in the Supreme Court, in 1875, by David S. Duncombe and Erastus F. Meade, trustees, against the railroad to foreclose a mortgage made to such trustees by the company to secure an issue of bonds amounting to $2,500,000, Mr. Dwight Studwell, representing Mr. Horace Bridgman, of New York, bid in the road at $111,000. This road, which was organized in 1863, has for the past six years been in litigation. The only completed portion of it is from Brookfield to Danbury, Conn., now leased by the Housatonic Railroad at $6,000 a year. There are, however, 23 miles of the route of the road ready graded to receive the rails. It runs a little back of Rye Pond, New Rochelle and White Plains, crossing the New Haven Railroad between Pelhamville and Mount Vernon. It is understood that Mr. Bridgman will complete the road, and have it in running order as soon as possible.

☞ In a suit brought to recover from the State of Tennessee, as a guarantor of the Bank of Tennessee, a debt which the bank owed to the Memphis and Charleston Railroad Company, the Supreme Court of the United States holds that the repeal of the provision in the Tennessee Constitution authorizing parties to sue the State, after the debt accrued, does not impair the obligation of a contract within the meaning of the Federal Constitution. The decree of the lower court was therefore affirmed, with costs.

Coffee Crops of the World.

From an exhaustive review of the coffee trade of all countries by the managers of the Java Bank (Batavia), it appears the total crop of the world for 1855 was 330,165,000 kilos; for 1865, 421,950,000 kilos, and that the average of the three years 1876-7-8 was 490,840,000 kilos. These figures represent an increased consumption of 16 per cent over 15 years ago and of 47½ per cent over 1855. In the Dutch Indies the increase since 1855 has been below the average rate in other countries. In the British Indies and Ceylon the crop has nearly doubled. The total for Asiatic countries is in about the average ratio for the whole world. Brazil falls somewhat below the average ratio of progress; and the same is true of the West Indies, while the most notable increase is in the case of Central America, where the crop has risen from 3.500,000 kilos in 1855 to 32,500,000 in 1876-8. In the South American countries other than Brazil the production has risen from 22,300,000 kilos to 35,900,000, which also is above the average ratio. These comparisons to some extent indicate the sources from which the future increase in the crop may be most expected.

United Pipe Lines.

The following summary made by the United Pipe Lines shows their condition at the close of business, March 31, 1880:

Crude petroleum in tanks and pipes, March 31st, 1880	8,621,097 49
Sediment and surplus	351,130 35
Net stocks	8,269,967 14
Outstanding acceptances, bbls	4,811,894 33
Credit balances, bbls	3,458,072 81
Total liabilities	8,269,967 14
Crude petroleum received during March	1,815,133 31
Crude petroleum delivered during March	1,396,037 88

☞ Hugh J. Jewett, of New York, has been elected President of the Indianapolis and Evansville Railroad Company; T. A. Lewis, of Indianapolis, Vice President; R. G. Hervey, General Manager; E. H. Harriman, of New York, Treasurer, and C. S. Lewis, of Indianapolis, Secretary and Assistant Treasurer. The Directors are: G. R. Blanchard and H. R. Duval, of New York; John C. New, of Indianaplis; Charles Viele, Matthew Henning, J. J. Kleiner, John H. Roelker, R. K. Dunkerson, and Samuel Vickery, of Evansville. A large amount of work has already been done on the road, and it will now be rapidly pushed to completion.

☞ The St. Paul and Sioux City Railroad Company has given a mortgage to the Central Trust Company, of New York, on the following lines, built or now building. The Stillwater Cut-off, 5 miles; Sioux Falls line westward, 38 miles from Sioux Falls; the Niobrara branch westward, 82 miles from a point on the Missouri River opposite Sioux city; the Omaha line southward, 115 miles from a point on the Niobrara branch, 10 miles west of Sioux City, to Omaha. This lien is supplemented to the one of July last, and is at the rate of $10,000 per mile. It provides funds for building 170 miles of new road this season.

Railroads of Iowa.

The valuation of Iowa railroad property has just been completed. The total valuation of all the roads, 4,711 miles, is $24,051,000. The increased valuation over last year is $1,511,006 55. The increased mileage for the year is 387½, or about 8½ per cent. The tax on this valuation will amount to $501,275 16, an increase over last year of $50,471 08. The valuation of the Chicago trunk lines in Illinois is as follows:

	Valuation.	Taxes.
Chicago, Burlington and Quincy	$5,008,885	$125,221
Chicago, Milwaukee and St. Paul	2,455,995	61,348
Chicago and Northwestern	4,060,609	101,505
Chicago, Rock Island and Pacific	6,076,036	151,901
Illinois Central	1,957,614	48,940
Total	$19,557,069	$498,917

The increased valuation of roads is based on their gross earnings, which evidence remarkable prosperity.

☞ Articles of incorporation of the Des Moines and Kansas City Railway Company were filed on the 10th inst. in the office of the Secretary of State of Iowa. The object of the company is the building of a railway from Des Moines to Kansas City, Mo., to be of standard gauge. Provision is made for single or double track. The articles of incorporation provide that the principal place of business shall be at Des Moines, Iowa, and that the capital stock shall be $1,000,000, or not to exceed $16,000 a mile on the road built. The debt to which the company may be liable shall not exceed at any time $2,500,000.

☞ A check for $130,000 has been paid by the Lehigh Valley Railroad Company to State Treasurer Wright, of New Jersey, for the riparian grant which was made to the West Line Railroad Company by the State in 1862. The original money consideration for the grant was $125,000, of which $43,000 was paid in cash and a mortgage was given for the balance. The check is in full payment of the mortgage and accrued interest, and the money will be invested for the State school fund.

☞ General Manager Mulliken, of the Detroit, Lansing and Northern Railroad has just purchased four elegant new coaches from the Harlan & Hollingsworth Company, at Wilmington, Del. The passenger business of the road is growing at an unprecedented rate, and the present equipment is insufficient to meet the demands. The company's earnings up to the close of March show an increase of $40,000 over last year.

☞ Charles O. French, of New York, has been elected President of the Richmond and Alleghany Railroad Company, in place of G. M. Bartholomew, resigned. Conveyance of the rights, property, and franchises of the Buchanan and Clifton Forge Railway has been completed, and the mortgage securing the issue of the bonds of the Richmond and Alleghany Railroad has been placed on record.

☞ By the completion of an extension of the Union Pacific Railway to Lincoln, Iowa, the East-

ern terminus of the Lincoln and Republican Valley Railroad, a branch of the Union Pacific, has been changed from Omaha to Council Bluffs.

Mr. Vanderbilt's Proposition.

Mr. Wm. H. Vanderbilt, has offered to lease for forty years the entire water front on the west side of New York city, between Sixty-fifth and Seventy-second streets, fill it in, erect substantial stores and warehouses upon it, and pay the city $15,000 a year the first ten years, $18,000 the second, $21,000 the third, and $24,000 the fourth. This plot, now under water, includes about a thousand lots. The railroad Mr. Vanderbilt represents already owns the land fronting on the river between these streets. The New York Express claims that these additional lots will enable the company to provide terminal facilities of great public convenience and utility, and place the commerce of New York on a level with that of Baltimore and other cities. The dock commissioners, it is stated, have acceded to Mr. Vanderbilt's propositions. The plans for the improvement have all been prepared and will be approved by the department as soon as the sinking fund commissioners have set apart the land.

☞ Articles of incorporation have been filed in the office of the County Clerk at Portland, Oregon, by G. F. Wells, W. M. Watson and L. A. Wood, for the construction and operation of a narrow-gague railroad and bridges or ferry-boats from Portland to Vancouver. The corporation is to be known as the Portland and Vancouver Railroad Company. Capital stock, $50,000, divided into 2,000 shares of $25 each.

☞ In the case of the Lehigh and Eastern Railroad Company vs. Wm. H. Williams and Josiah C. Babcock, recently argued at Mauch Chunk, Penn., before Judge Meyers, the injunction has been sustained. This decision places the affairs of the company in charge of the President, Simon P. Kase, who, if not restrained by further legal action, will now go on to carry out the purposes of the charter and build the road.

☞ The stockholders of the Continental (Philadelphia) Passenger Railway Company have voted to ratify the lease of their line to the Union Passenger Railway Company, provided the rent shall be payable directly to stockholders of the Continental Company, and that the stock of the Empire and Seventeenth and Nineteenth Street Companies shall be held in trust for the stockholders of the Continental Company.

☞ Mr. Robert L. Harris, formerly engineer-in-chief of the Boston, Hoosac Tunnel and Western Railroad, is in Boston, having recently returned from Texas, where, in connection with John Ross of Homer, Ontario, he has taken the contract to build 150 miles of railroad from Austin to San Antonio, and thence in a southwestern direction toward the Mexican boundary, for the International and Great Northern Railway of Texas.

☞ The Central Vermont Railroad Co. have purchased the lease of Pier 37 East River, with about 44½ feet of bulkhead adjoining on the easterly side, for $4,000; also, about 188 feet of bulkhead on Tompkins street, adjacent to and north of the north side of Rivington street, for $500; also, the pier at East One Hundred and Twenty-ninth street, on the Harlem River, for $250—all for a term of three years.

New Railroad from Philadelphia to Allentown.

Surveys are now in progress for the proposed railroad between Philadelphia and Allentown to be built jointly by the Lehigh Valley and Pennsylvania Railroad Companies. The line starts from the Pennsylvania Railroad, the Connecting road, near 23d Street, Philadelphia, thence goes north through the western end of Germantown to Chestnut Hill; thence to Barren Hill, Conshocken and Norristown. From this point the surveys will carry it at about equal distances between the North Pennsylvania and Perkiomen Railroads to Allentown. The cost of the whole line, from the Connecting road to Allentown, is set down at about $3,000,000 for equipment and construction—or not more than $50,000 per mile. The present intention is to have the line completed to Norristown by April 1 of next year.

☞ The Chicago, Milwaukee and St. Paul Railway Company has given out a contract for building 140 miles of road from the present terminus of its Hastings and Dakota Branch on the west line of Minnesota, north, down the valley of the Red River, to an intersection with the line of the Northern Pacific near Fargo.

☞ A new contract has been let to John S. King, of New York, who agrees to have the Elizabeth City (N. C.) and Norfolk Line (45 miles) ready for use by Dec. 1. Work has already been begun. The contract provides for the extension of the line through to Newbern.

☞ The Newark and Irvington (N. J.) Horse Railroad was sold at public auction at the Court House on the 3d inst., for $45,500, the property being bought in by John H. Suydam, of New York, who also represented other persons. The debts of the road aggregate $51,964.

☞ A certificate has been filed with the Secretary of State of Ohio of the St. Clairsville Railway Company; capital $30,000, in shares of $50; by W. S. Kednon and others. This is a reorganization of the St. Clairsville and Bellaire Narrow Gauge Railway, the name being changed.

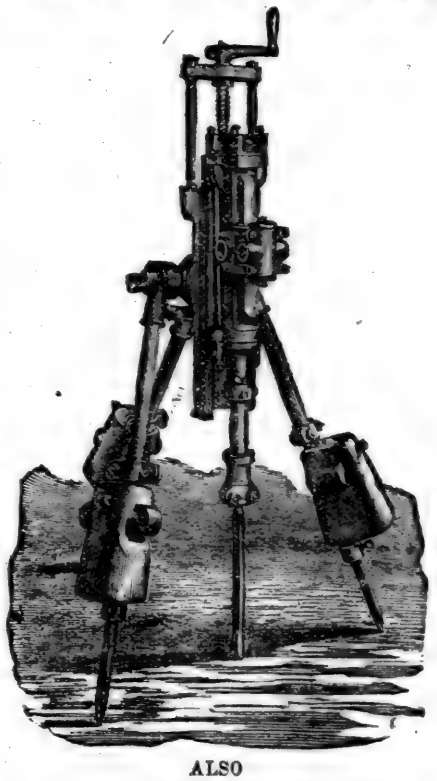
☞ The Maryland and Cumberland Valley railroad seven miles in length, branching off from the Western Maryland Railroad near Smithsburg and running to Waynesboro, Pa., will be completed and ready for trains by the middle of May.

☞ The Lehigh Coal and Navigation Company expect to put about sixty-five new boats on their canal this season, nearly one-half of which will be ready by the first of May.

☞ A. W. Humphreys has been elected President and George C. Clark Treasurer of the Sterling Iron and Railway Company.

☞ The Calumet and Hecla Mining Company will pay an extra dividend of $5 per share May 15, making the full dividend $10 per share.

☞ The Oregon Railway Company, limited, has awarded contracts for building its road to Silverton by July 1.



☞ The Panama Railroad Company has declared a dividend of 4 per cent, payable May 1.

☞ Articles of incorporation have been filed with the Secretary of State of Ohio of the Cincinnati, Newport and Covington Street Railway Company, capital $20,000, in shares of $50, by Frank W. Wilson and others.

☞ At a meeting of the directors of the Georgia Railroad Company at Augusta, Ga., on the 13th inst., the contract for a five years' lease with the Louisville and Nashville Railroad Company was confirmed.

☞ Telegraphic information has been received from the City of Mexico that President Diaz has confirmed the grant of a charter for the Mexican Central Railway line to the Mexican Central Railway Company of Boston.

The Coal Trade.

The total tonnage of anthracite coal from all the regions for the week ending April 3d, as reported by the several carrying companies, amounted to 872,687 tons, against 397,428 tons in the corresponding week last year, a decrease of 24,741 tons. The total amount of anthracite mined for the year is 4,811,678 tons, against 5,294,053 tons for the same period last year, a decrease of 482,480 tons. The quantity of bituminous coal sent to market for the week amounted to 20,661 tons, against 62,022 tons in corresponding week last year, a decrease of 41,361 tons, The total amount of bituminous mined for the year is 840,711 tons against 715,070 tons for the corresponding period last year, an increase of 125,641 tons. The total tonnage of all kinds of coal for the week is 393,348 tons, against 459,450 tons in corresponding week last year, a decrease of 66,102 tons, and the total tonnage for the coal year is 5,652,384 tons, against 6,009,123 tons to same date last year, a decrease of 346,739 tons. The quantity of coal and coke carried over the Pennsylvania Railroad for the last three days of March was 64,011 tons, of which 46,109 tons were coal and 17,902 tons coke. The total tonnage for the year thus far has been 1,664,461 tons, of which 1,229,726 tons were coal and 434,735 tons coke. These figures embrace all the coal and coke carried over the road east and west. The shipments of bituminous coal from the mines of the Cumberland coal region during the week ended April 3 were 11,080 tons, and for the year to that date 368,957 tons, an increase of 91,692 tons over the corresponding period of 1879. The shipments to the Baltimore and Ohio Railroad for the week were 8,835 tons, and for the year 318,168 tons, an increase of 103,395 tons as compared with last year. The shipments to the Chesapeake and Ohio Canal were for the week 716 tons, and for the year 3,877 tons, a decrease of 12,901 tons as compared with 1879. The shipments to the Pennsylvania Railroad for the week were 1,528 tons, and for the year 40,913 tons, an increase of 199 tons over last year.—[Phil. Ledger, April 12.

Our Iron Industry's Cradle.

Old Taunton, Mass., claims the honor of the first iron works or bloomery in America, because one was established there in 1652, by James and Henry Leonard, who came from Wales, England. Several of his name, sons and other descendants of George Hall, a prominent first English settler of Taunton, in 1637, worked in that bloomery. In 1737, a century later, three brothers, George, Isaac and Thomas Hall, great grandsons of that patriarch, removed to Lyme, in the colony of Connecticut, and set up in that famous seacoast town the first known forge in those parts, which kept busy until about the end of the century, and did much patriotic work, during the Revolution. Henry Leonard, a brother of James, leaving the latter and his son to carry on the business in Taunton, went to New Jersey and established a bloomery there. He removed to that State because the ore was much more profitable in its yield and purer.

The iron industry, so early begun in Taunton, went on uninterruptedly from father to son and from generation to generation. "Our iron manufacturers," says Mr. Hall, "were so enterprising and successful that the British Parliament in 1750 voted to 'prohibit the erection of mills for forging, slitting or rolling iron,' on penalty of $1,000. But that did not stop them a bit; they went right along furnishing the people with the materials for nails, tools, pots and kettles.—[Evening Post.

☞ The contract of alliance between the Louisville and Nashville, the Georgia Central, the Georgia, and the Western and Atlantic railroads, has been signed by the presidents of the respective companies. The objective points of the combination are Savannah and Charleston.

A. G. DAY,

MANUFACTURER OF

Kerite Insulated Telegraph Wire and Cables,

Of all kinds made to order, for Ocean, River, Aerial and Subterranean Lines.

The Kerite covering of these Conductors unlike any other, resists effectually the destructive action of Heat and Moisture, and the corrosive agents either in Earth, Air or Water.

☞ Special orders should state whether the Cable is to be exposed to Earth, Air or Water.

FACTORY—SEYMOUR, CONN. Office, 120 Broadway, New York.

NEW YORK, LAKE ERIE & WESTERN RAILWAY.

TO THE TRAVELING PUBLIC.

During the Centennial Season—six months, closing November 10, 1876—the Erie Railway carried almost 3,000,000 passengers, without a single accident to life or limb, or the loss of a piece of baggage.

And for a whole year, the official records of the United States Post-Office Department show the arrivals of Erie Railway trains in New York, on time, to be from 15 to 27 per cent. ahead of competing lines.

Facts well worthy the consideration of travelers.

New York, Friday, April 23, 1880.

Probable Defeat of the Railroad Bills at Albany for Political Reasons.

The probable defeat of the Railroad Commission bill at Albany, and the narrow escape of the Anti-Discrimination bill, is said to have been caused by the Democrats' refusal to place the power of appointing commissioners under it, in the hands of the Republican party through Governor Cornell. This may be the true reason, and may be thought a good one; but equally, both may be just the reverse. We would not like to charge the opponents of the bill with using this political reason as a cover, to undue railroad influence brought to bear upon them by individual considerations. Yet we cannot help this suspicion, and we do not believe the constituency of these members will believe implicitly that the public good, or party interests even, were all at the bottom of their action. One thing, however, is certain, and that is, that the public demand the passage of both bills, and it was partly for this purpose that a large number of the members of the present Legislature were elected by both parties. These gentlemen need not suppose then that they can defeat either of these measures on the excuse of political considerations, which their constituents did not and do not regard as of vital interest in this long and bitter contest which has thus far been successfully carried by the people in spite of the railroads and their great influence, without a question of politics having been raised until now. This is the point, gentlemen of the Legislature, whether Republican or Democrat, and if you attempt to dodge it or attempt to obscure it under alleged political reasons, you will no doubt find yourselves obscured politically, for personal reason, when your constituents have a chance to get at you again through the ballot. It is your duty to pass both these bills, and the responsility of the result will not rest upon you but upon the people of the State who with one accord demand them, excepting only the railroad men and the special raters who now are favored by the railroads.

If, however, there is real danger of the Commission being made a party machine, which may, and no doubt would be possible, under either party, let some amendment to the bill be made to prevent it, such as providing for the election of the Railroad Commissioners by the people, or for their appointment partly or jointly by the Governor and the great commercial bodies of the State, including the Chamber of Commerce and Produce Exchange of this city. A repetition of Erie Canal mismanagement under rings composed of both parties might thus be avoided to the credit of the State, the benefit of its people and the efficiency of our transportation system by rail, which would do more to help the railroads in their competition with the canals than all their present discriminating policy. At all events, the Democrats can well afford to let the Republican administration take the first hand at the execution of the new railroad laws, in which they will be sure to make mistakes for a time, of which the Democrats can take advantage at the next election, after which their party can avoid both the mistakes and avoid what must, at best, at first be a sort of experimental administration. Beside, the position of the Republican Governor upon the railroad question is much more in accord with public sentiment than any of the dodging and hedging declarations of principles yet made by the Democrats, and we assure these opponents of the bill, the people will absolve them from Governor Cornell's mistakes.

The Louisville and Nashville Gamble.

It would seem that old and esteemed investment houses in Wall street, would have more regard for their name and reputation than to lend themselves and their influence to a lot of unscrupulous and reckless speculators on the Stock Exchange for the commission they can make on their business, or, what is worse, use their reputation and trade upon their name in stock speculations on their own account, as appears to have been done by the bankers who have backed the Louisville and Nashville directors in the improper use of their official position to carry on the gigantic and dangerous gamble in the stock of this road for the past six months. This deal has been regarded as not legitimate, at the Stock Exchange, even, and the street as a rule has kept out of it. Especially have all conservative and solid investment houses regarded it as off color and beyond their legitimate field, except the few prominent bankers who have backed it and now stand security for the officers of the road in a suit upon an explicit agreement which the latter refused to fulfill, because their bankers and themselves could profit by a breach of the contract.

To them jointly was due the panic in this stock last Saturday when it broke from 152 to 115 on the announcement of the suit referred

to, which could have been avoided had these bankers and officials wished it, by the payment of damages which would have been but a bagatelle of the fearful loss, caused by their refusal, to the holders of their stock. That these officials and bankers were not holders thereof is therefore perfectly evident; and they cannot complain if the Street accuses them of being short of it and of using their official position to "scoop" the foolish and confiding people who trusted to the reputation of the men who engineered, and of the bankers who backed this Deal, which even Wall Street morals condemned. When, therefore, "investment houses," as they ostentatiously style themselves, like Drexel, Morgan & Co. and John J. Cisco & Son engage in such doubtful schemes as this Louisville and Nashville speculation (for it has been little else from beginning to end) it is time for investors who look for disinterested and safe advisers in the purchase of securities, to be better posted than were the fleeced victims of the Louisville and Nashville Ring. There are plenty of houses on the Street, and we believe a majority, who would not allow their names to be connected with such operations, and our remarks to investors do not imply that these practices are general. Indeed we note this case because it is exceptional and indicative of the demoralizing influences of the speculation of the past nine months which we have continually decried.

Mexico and Vera Cruz Railroad.

At the regular meeting of the Engineers' Club of Philadelphia, held on the 17th inst., Mr. Coleman Sellers, Jr., M. E., read a paper on the History of the Construction of the Mexico and Vera Cruz Railroad, illustrating his remarks with numerous photographs and maps obtained during a recent trip to that country. As early as 1837 the project was broached, and from that time until it was finally opened, in 1873, by President Lerdo, the road suffered an alternation of successes and defeats. During its progress 40 different Presidents and one Emperor governed Mexico, and each government had, in turn, to be won over to the plans of the friends of this enterprise, and this in spite of a powerful opposition from various classes of the community. Not only were these difficulties surmounted, but those offered by the climate and the natural obstacles of the route were likewise overcome. At length, after years of labor and the expenditure of millions of money the road is now an established success, and is to-day he said one of the grandest specimens of engineering the world can show. The road is 260 miles long, is laid with steel rails, is thoroughly equipped with engines and rolling stock; has fine iron bridges, substantial stone stations, and all tunnels, masonry, etc., are of the best character; the grades and curves are numerous and excessive; the highest point of the road is 8,200 feet above the sea; it ascends 6,500 feet in 60 miles, and in one case climbs 2,000 feet in 15 miles; the city of Mexico itself is 7,600 feet above the sea, or nearly one and a half times as high as Mount Washington; the road was built principally by English capital, but is granted a concession by the Mexican Government, which, however, is now much in arrears.

Development of the Coke Industry on the Chesapeake and Ohio Railway.

We are informed by the officials of the Chesapeake and Ohio Railway that the traffic upon their line is being largely increased by the development of the coke industry at New River, where some 500 coke ovens are already in operation, and that there will be a large increase in this traffic another year when the product will be tripled by the construction of 1,000 more ovens which are now under construction and contract. Beside supplying the iron furnaces and works on the line of the road and along the Ohio River, a large amount is shipped to St. Louis and to the far West for smelting the precious metals, for which this New River coke is said to be better than the Connellsville coke, which has been hitherto generally used and regarded as the best for those purposes. The daily shipments over the Chesapeake and Ohio now average 25 car loads daily.

The Low Moor iron furnace near these coke works at New River will be completed and put in blast next July, which will increase the traffic in coke and iron ore to and from their works, and in iron from the furnace. The business of this line therefore will be greatly increased this year.

The Tariff on Hoop-Iron.

The following circular regarding the duty to be imposed on cut hoop-iron was issued by the Treasury Department on the 17th inst.:

"To Collectors of Customs and Others:—Schedule 'E' of title 33 of the Revised Statutes imposes upon band, hoop and scroll-iron various specific rates of duty, varying according to the width and thickness of the iron. The question whether hoop-iron cut into lengths for the manufacture of hoops, and having holes punched in the end, should be classed as hoop-iron or a manufacture of iron, not otherwise provided for at an ad valorem rate of 35 per cent, was considered by the department in its decision (No. 3,824) of December 21, 1878, wherein it was held that, on the authority of the case of Leng against Arthur, tried in the United States Circuit Court for the southern district of New York, hoop-iron cut into lengths and so punched should be admitted to entry at the ad valorem rate of 35 per cent.

"A rehearing has been had upon the question, and the department has become satisfied that the verdict of the jury in the case before mentioned, and the evidence upon which such verdict was based, are not sufficient to justify the decision above cited, and that the admission of such articles at the ad valorem duty is in violation of the true intent of the law. Officers of the customs are therefore instructed that hoop-iron, merely cut to lengths and punched with more or less holes, is not thereby removed from the category of hoop-iron, and the specific rate of duty imposed on hoop-iron in schedule 'E' of the Revised Statutes, will hereafter be collected on the article specified.

"JOHN SHERMAN, Secretary."

The Interoceanic Canal.

Dr. Long, who has for the past eleven years represented the United States Government as Consul at Panama, testified before the Select Committee of the House on Interoceanic Canal, on the 17th inst., that he had a good opportunity to judge of the various explorations and surveys that have been made in that country, and believed that all of them had been made hastily and incompletely, and that the results were not sufficiently satisfactory to induce capitalists to invest their money in any scheme founded upon such bases. He further stated that till within the past three years the trade with the South American countries had been almost entirely monopolized by Great Britain, but that in the past two years the trade of this country with South America has greatly increased.

Needless Revival of Old Land Grants.

EDITOR AM. RAILROAD JOURNAL:

With characteristic indulgence, the Senate Committee on Railroads—after much importuning no doubt—has agreed, by a bare majority, to report, without recommendation, a Bill to extend for six years longer the time within which the Texas and Pacific Railway Company may acquire the land grant of U. S. public lands west of Texas by the completion of that road along the 32nd parallel. The old grant has still two years to run, but before that date there will be no use of any land grant to aid in the construction of the road, as that part of it in the territories will be built without subsidy aid. The Southern Pacific Railroad Company of California have already pushed an extension of their road across Arizona and are more than half way through the length of this same land grant in the Territories. The track is laid 500 miles east of the California boundary, 1,000 miles from San Francisco, and going down at the rate of a mile per working day. Within 18 months it is expected the locomotive from the West will be at the Rio Grande ready to connect with the roads building westward. The absurdity of extending a land grant after the road has been built through it, by private capital, does not seem to have dawned upon these Senators, but the House and the public will be pretty sure to discern it to their great dismay. *

Madeira and Mamore Railroad.

By the recent decision in the English House of Lords the sum of £850,000 ($4,250,000), which is now lying in the Bank of England, as the proceeds of bonds sold for the purpose of constructing the Madeira and Mamore Railroad, was ordered to be divided among the bondholders. It will be remembered that last summer a similar decision was given in a lower court—the Court of Appeal. At that time Lord Justice James based his action upon the ground that the construction of the Madeira and Mamore Railroad (with which the Messrs. Collins were proceeding), was utterly impracticable, and his Lordship further went out of his way to declare that the railroad company was a "fiction and a sham, created and existing

for the sole purpose of deluding a credulous public," and added that its promoters "polluted the temple of justice by their presence."

The decision of the House of Lords, however, while it returns the money to the bondholders, is based upon entirely different grounds to those advanced by Lord Justice James. The Lord Chancellor, who delivered the final judgment, said, in effect, that the concession of the Bolivian Government to the National Bolivian Navigation Company stipulated that the railroad should be completed within two years. This stipulation was not complied with, and, the republic having withdrawn its concession to the company, the bondholders have a right to demand that the money should be returned. "It has been said," continued his Lordship, "that the Brazilian government is prepared to make such concessions as would enable the work to proceed, but we have not sufficient evidence of this fact before us to take it into account in arriving at a decision."

After expressions of opinion by the judges, all the law lords in attendance at the session, viz., the Lord Chancellor, Lords Hatherly, Penzance, O'Hagan, and Selborne, voted in favor of dividing the fund among the bondholders.

Staten Island Rapid Transit Railroad Co.

On the 14th inst. a stock company to be known as the Staten Island Rapid Transit Railroad Company was organized under the General Railroad Law; and on Saturday last, at a meeting held at the banking house of Messrs. H. L. Horton & Co., No. 56 Broadway, the following gentlemen were elected directors: President—Erastus Wiman, of Messrs. Dun, Barlow & Co.; Vice President—W. W. Macfarland, of Messrs. Shipman, Barlow, Larocque & Macfarland; Treasurer—J. Frank Emmons, of Messrs. H. L. Horton & Co.; A Hegewisch, President United States Rolling Stock Company; Frederick White, of White, Morris & Co; E. Norton, of E. Norton & Co.; John D. Vermule, Treasurer Goodyear India Rubber Glove Company; R. B. Whittemore, of Whittemore & Co.; Adolph L. King, of the Old Dominion Steamship Company; W. H. Pendleton; William Krebs, of Messrs. Johnson & Higgins; I. K. Martin, of Messrs. Satterlee, Bostwick & Martin; George Bechtel, Stapleton, Staten Island.

The capital of the company is $500,000, divided into 5,000 shares of $100 each, payable in ten monthly instalments of $10 each. Bonds to the amount of $500,000 will also be issued.

The objects sought to be accomplished by the above organization are:

1. To lessen the time of communication between New York and all parts of the island by fully 50 per cent; 2. To increase the frequency of trips from once an hour to at least three times an hour; 3. To cheapen, especially in the morning and evening hours, the rates of fare from New York to even the most remote parts of the north and east shores of the island.

For years the residents of Staten Island have patiently borne with the slow, inadequate and expensive ferry facilities furnished them by the railway ferry and the North Shore boats, and though both these lines are well managed, and do the best that can be done under the circumsiances, the hope of improvement is precluded so long as both lines persist in starting from the same locality, usually at the same moment, running side by side nearly the whole length of the trip, and separating only when they reach the island, to deliver passengers by the slowest and most expensive process along its shores at eight landings barely a mile apart. Six boats, expensively manned, are employed for this purpose, while the cost of two piers in this city, seven or eight docks on Staten Island, and other attendant outlay, absorbs a great deal more money than there is any necessity for. Notwithstanding those heavy expenses and the infrequency and inadequacy of the communication, so great is the travel that both lines are making large profits, even in furnishing facilities in no respect an improvement upon those which existed 20 years ago.

It is proposed to concentrate the ferry traffic in one ferry, from the Battery to the foot of Hyatt street, New Brighton, employing three boats, which will make trips every 20 minutes. This is the point of the Island nearest to New York, the distance is a trifle over six miles, and the time required for the direct passage is less than 20 minutes. From the ferry there will be constructed along the shore in both directions a steam surface road, trains running west to Port Richmond and south to Clifton, connecting with every boat. The track, which will be double part of the way, will rest upon a sea wall, built between high and low water mark. There will be a station about every half-mile, and stations, cars and engines will be very similar to those now in use on the Sixth Avenue Elevated Road. It is expected that this portion of the road, over six miles in length, will be completed by January next, and by the opening of the next Summer season an extension of the southern branch to Cedar Grove will be ready. The track will pass around old Fort Richmond on piles, making a graceful sweep out into the Narrows, and thence it will run along South Beach for about three miles. This, it is thought, will make the Beach very popular as a place of Summer resort, bringing it within thirty-five minutes of New York. The fare for the whole distance, including both boat and railroad, will be ten cents during the hours of travel of the working classes. From six a. m. to eight p. m boats will run every twenty minutes, then every hour until midnight.

To build the road, to equip it, and establish a twenty-minute ferry with the three objects as above stated in view, is the achievement sought to be accomplished; but a condition precedent thereto must be the gift of the right of way along the bank over such property as is now unproductive, and which, instead of being impaired will be materially improved and beautified by the proposed construction.

Should this effort be met in a proper spirit by the people of the island the success of the enterprise will be insured.

☞ A correspondent, writing from St. John, N. F., states that "a joint committee of the Legislature has decided that the Terra Nova railroad shall be built. Starting from St. John's it will run toward the peninsula dividing Placentia and Trinity bays, connecting en route by branch lines the important settlements of Brigus Harbor, Epace and Carbonear, and be carried through the peninsula districts of Trinity and Bona Vista to the north and that of Placentia to the south. It will in due time be tapped thence on to the fertile French shore. The route designated touches the heads of the bays as it passes."

Chrysolite Silver Mining Co.

The Chrysolite Silver Mining Company has declared a dividend (No. 6) of $100,000. Within six months this company has declared dividends amounting to $1,100,000. The amount to be disbursed to shareholders this month has been reduced from $200,000, the usual dividend, to $100,000 in order, the managers say, to make a partial payment of $88,000 on the $250,000 agreed to be paid for the Vulture mine, now included in the consolidated properties. They say that their contracts with smelters call for only 100 tons of ore per day, although the mine could furnish an output of 200 or 300 tons per day, if the smelters would receive it. The roads throughout the Leadville region are in a very bad condition, and the smelters, after treating the ores which they purchase, are compelled to haul the bullion a distance of sixty miles in order to make connection by rail. They are therefore holding all the mines to the lowest limit of their contracts, and will receive no more ore than they are compelled to accept. It is understood that a change in the secretaryship of the Chrysolite will occur within a few days.

Little Chief Mining Co.

The "Little Chief" Mine, of Fryer Hill, Leadville, pays its regular dividend of $100,000 per month out of the net earnings of the mine. This is the third dividend of like amount earned and paid since the company took possession of its property in January, besides paying for the dead work, re-timbering, and other extraordinary expenses incident to commencing the scientific development of a mine.

It is officially stated by the officers of the company that, for every dollar of ore taken out of the mine, there has been placed in sight over three dollars in reserves, and that upon this principle both the "Little Chief" and the "Chrysolite" are worked.

☞ The Baltimore and Ohio Railroad Company has declared a semi-annual dividend of four per cent on the stock of the Main Stem, and five per cent on the stock of the Washington Branch—being for the six months ending March 31, 1880. The former is payable on the 15th of May, and the latter on the 16th inst., both at the Treasurers office, Camden Station, Baltimore.

☞ Ironton, Ohio, will vote on the 7th of May on a proposition to give $50,000 to a railroad from a point opposite Ashland, Ky., to Portsmouth, O., giving the Chesapeake and Ohio railway a connection to the West.

☞ The Cedar Rapids and Missouri River Railroad has declared a dividend of $1 per share on the common stock, payable May 1. Coupons due August 1, 1880, will be paid upon presentation, with rebate of interest at the rate of 5 per cent.

☞ The Iowa Railroad Land Company has declared a dividend of $1 50 per share, payable May 1.

☞ The Seaboard and Roanoke Railroad Company has declared a dividend of 4 per cent for the past six months.

☞ Articles of incorporation of the Leadville and Great Eastern Broad-Gauge Railway have been filed in the office of the Clerk and Recorder of the county, at Leadville, Col. The object for which the company is formed is the building and constructing and operating a broad gauge railroad from Leadville, via Pueblo, to a point on the east line and boundary of the State, at a point where the Atchison, Topeka and Santa Fe crosses the line of the State. The capital stock of the company is $3,000,000, divided into 30,000 shares of the value of $100 each. Fifty years is the term of existence of the company. The operations of the company will be carried on in the Counties of the Lake, Chaffee, Park, El Paso, Fremont, Pueblo, and Bent, and the principal office is to be in Leadville.

Interest paid by United States, $45,651,155 94; interest repaid by transportation of mails, &c., $12,983,707 66; interest repaid by cash payments: 5 per cent net earnings $655,198 87; balance of interest paid by United States $32,012,249 41.

The foregoing is a correct statement of the public debt, as appears from the books and Treasurer's returns in the Department at the close of business, March 31, 1880.

JOHN SHERMAN,
Secretary of the Treasury.

☞ The exploration of the Desert of Sahara with a view to the construction of a railway across it, has been commenced. Col. Flatter's expedition left Wargla on the 5th ult., on their southward march. In addition to the leader, the party comprises nine scientific officers and 12 French soldiers, besides numerous camel drivers, chiefly belonging to the Chambaas tribe.

☞ Thos. A. Roberts, lately Assistant Engineer of the Philadelphia division, Pennsylvania Railroad, has been promoted to the position made vacant by the resignation of P. F. Smith, late Superintendent of the Bedford division. Wm. M. Phillips, Assistant engineer of the Middle division at Harrisburg, will succeed Mr. Roberts on the Philadelphia division.

☞ The accounts of the Gt. Western Railway Company of Canada have been published in London. The net result for the half year ending January 31, 1880, shows a balance of £73,000, against £29,000 for the corresponding period last year. Dividends of 5 per centum for the whole year are declared on the preference stock, and 1½ per centum on ordinary shares for the half year.

American Railroad Journal.

Financial and Commercial Review.

THURSDAY EVENING, April 22, 1880.

The market on Wall Street at the close of our last issue was feverish and unsettled under the continued stringency in money and the supposed manipulations of the large speculators, who were said to be short of the Coal stocks and desired to cover, beside getting long of the whole list. This was the street talk, but those who have read the JOURNAL's theory of Wall Street speculation for the last six months, may doubt this Wall Street story, for the reason that neither Mr. Gould, with all his power over the stock market, nor Mr. Sage, with his power over the money market, could cause such a decline in stocks were not large holders selling. They tried this plan of raiding the market last fall and could make no impression upon prices, for every body was either holding or buying for a rise. Now the whole machinery of speculation on Wall Street, as elsewhere, is reversed and the large holders as well as small, are selling to avoid further losses, and the bears are discounting this fact and the general tendency to undo the greater half of the bull speculation of last Fall Mr. Gould was simply shrewd enough to see this tendency and avail himself of its advantages, and he is therefore simply an auxilliary to the decline and not the prime cause, as Wall Street money article writers would have the public think. They have placed the cart before the horse, as the same is true in all the markets for merchandize in which speculation ran ahead of legitimate demand last fall.

This accounts for the decline in Stocks, Cotton,

Breadstuffs, Metals, Provisions, Opium, and everything else that was "boomed" up last fall. Without saying whether this speculation and its results have been all undone and trade and prices placed back upon a legitimate basis again, it is certain that at the close there is a reaction which is nearly general on the whole list of articles above named, which may prove permanent and may not. The causes which produced it are more speculative than legitimate, still, and it may as easily be temporary as otherwise. Indeed the chances are that the bottom has not yet been reached in many things, as the downward reaction is likely to go too far, as did the upward one last fall, since the seven years of continuous depression,

The first cause of the improvement in stocks toward the close of the week, is an easier money market, owing to the return of currency from the interior, and to the reduced volume necessary to carry stocks and merchandize, on account of the great decline in prices, which is on an average over 25 per cent of what was required on the 1st of January 1880. Next to this has been the general covering of short accounts in view of easier money, and the large profits in doing so. This of itself is always the best temporary support to a market. In addition many who thus "covered" have gone "long" for a "turn" on the market, which was sure to come of their own "covering" purchases, with the purpose of selling out at a profit on the advance thus caused, and also to get the market up, in order to put out a new line of short contracts. The markets are all in just this position at the close, and detail would be useless. The chances are, therefore, that before another review week we shall see lower prices again and they may be carried as much below true value before bottom is finally reached, as they were above true value last fall.

Every thing else has adjusted itself to this state of things, money, exchange, bonds and stocks, with exports as well, imports alone being unaffected and large.

The Government purchase of bonds Wednesday was $3,000,000, at about old prices, after which stocks fell off though stronger before.

Mining shares have recovered in a measure from the Little Pittsburg shock to confidence, and there has been a better business in the investment mining stocks here and at San Francisco, and better prices have been obtained on a better demand and lighter offerings. After May 1st tax is levied in San Francisco, a better market still is looked for.

The bank statement showed $664,330 gain in reserve, which makes up the deficit of last week and leaves a surplus of $536,930, as about $2,000,000 currency was returned from the interior during the week.

The raid during the early part of the week on Louisville and Nashville is explained in our editorial columns. This was followed by a similar one on Houston and Texas Central, but with less success. The opening rates for money were 6 and ⅛ commission after which they fell to 3@4 per cent, and from that to 6 per cent toward the close.

Under the caption of "Statistical Quackery" we note an article in the Produce Exchange Reporter of this city on the manipulation of statistics by the Exchange official organ, in the interest of the wheat combination, which are well timed, and to which we have before alluded. Had the Exchange statistician confined himself to manipulation of recognized authorities the world over on the wheat supply, he might now have fallen back upon them and saved his reputation and that of the Exchange for reliability. As it is, however, we do not see how either can escape the charge of being the organ of the wheat combination, as a French journal has styled them, for they went under our Agricultural Bureau's estimate of the supply which is usually below the fact, and over European authorities on the European deficit, of which this statistician of course was no judge. Naturally he has come out wrong as the result proves, and the wheat combination and all who followed his figures will now blame him as warmly as they praised him when wheat was up to $1 65 on faith in his statistics, instead of at $1 30 on proof of his error.

The closing quotations on Thursday were: Atlantic and Pacific Telegraph, 43@44; Canada Southern, 61@61⅛; Central of New Jersey, 78@78⅛; Central Pacific, 75@76; Chicago and Northwestern, 94⅛@94¼; do. pref., 108¾@109¼; Chesapeake and Ohio, 21½@22; do. 1st pref., 27@32; do. 2d pref., 23@25½; Chicago, St. Paul and Minneapolis, 58@59; Chicago, Milwaukee and St. Paul, 78¾@78⅞; do. pref., 103@103½; Chicago, Rock Island and Pacific, 192@192¾; Chicago and Alton, 110@112½; do. pref., 120@127; Cleveland, Columbus, Cincinnati and Indianapolis, 76½@77½; Col., Chicago and Indiana Central, 14½@15; Delaware and Hudson Canal, 81½@81⅝; Delaware, Lackawanna and Western, 88⅞@89; Hannibal and St. Joseph, 33½@34; do. pref., 70⅜@70¾; Illinois Central, 106@106¾; Lake Shore and Michigan Southern, 107¾@107⅞; Louisville and Nashville, 136⅛@138; Michigan Central, 91¼@91⅛; Morris and Essex, 107@108; Manhattan Railway, 31@31¼; Metropolitan Elevated, 96½@97½; Nashville, Chattanooga and St. Louis, 72½@73; New York Elevated, 114@116; New York Central and Hudson River, 131¼@131½; New York, Lake Erie and Western, 43@43⅛; do. pref., 66@66½; New York, Ontario and Western, 29¼@29⅜; Northern Pacific, 29⅝@30; do. pref., 53¼@53½; Ohio and Miss. 34⅞@35; do. pref., 75@76; Pacific Mail, 41⅞@42; Philadelphia and Reading, 66⅛@66¼; St. Louis and San Francisco, 37@37½; do. pref., 53@53½; do. 1st pref., 70@75; St. Louis and Iron Mountain, 50¼@50½; St. Paul and Sioux City, 43½@43¾; do. pref., 76½@78; St. Louis, Alton and Terre Haute, 20½@23½; do. pref., 66@67; Union Pacific, 88¾@89; Western Union Telegraph, 106¾@107; Wabash, St Louis and Pacific, 39¾@40; do. pref., 67⅝@67¾.

The following quotations of sales of Railway and other securities, for the week, are in addition to those given elsewhere in our columns:

Mobile and Ohio Railroad.

At a meeting of the stockholders of the Mobile and Ohio Railroad Company, held in this city on 20th inst., the act of the Legislature of Mississippi passed March 5, 1880, providing for a settlement of the controversy between the company and the State was unanimously approved, a vote of 44,931 shares being cast in favor of the proposition out of a total of 53,206 shares. According to the terms of this Act the State of Mississippi relinquishes to the Mobile and Ohio Railroad Company the judgment it held against the railroad on account of what is known as the Chickesaw School Fund Claim amounting in the principal to the sum of $397,866, with interest from Feb. 1, 1876, at 8 per cent; the Company consenting to the repeal of the third section of its charter, and becoming hereafter taxable as other railroads in the State are taxed. This relieves the Company from the last unsettled claim of any moment, all other claims, liens and securities being inserted in the scheme of reorganization, which is thus brought to a final and successful result.

☞ The grain trade will be gratified to learn that the new Erie Railway grain elevator, now in course of construction in Jersey City, will be ready for use in July next. It is 365 feet in length, 96 feet in width, and 156 feet in height, and its storage capacity 1,500,000 bushels. The lower story is of brick, and above the walls are of heavy planks two feet eight inches in width, fastened one upon another. This is about the same capacity as the Central elevator and will add much to the traffic of the Erie in grain, and make it as popular as it has long been in the provision trade, which has given it the preference over any other road, for years.

Philadelphia and Reading Railroad.

Comparative statement of gross receipts, tonnage and passengers, of the Philadelphia and Reading Railroad Company, for the month of March, 1880 and 1879:

	1880. Month.	1880. Year to date.
Gross receipts:		
Railroad traffic.....	$1,404,877 68	$4,986,212 79
Canal traffic.....	6,893 67	35,503 23
Steam colliers.....	37,978 68	227,950 94
Richmond coal barges	7,571 64	29,640 27
Total Railroad Co..	$1,457,321 67	$5,279,307 23
Reading Coal & Iron Company.....	927,670 09	2,854,476 45
Total of all.....	$2,384,991 76	$8,133,783 68
Tonnage and passengers:		
Tons of coal on railroad.	537,809 02	2,044,326 11
Tons of merchandise...	544,893 00	1,920,705 05
Passengers carried....	715,208	2,822,735
Coal transported by steam colliers.....	40,196 00	167,595 00
Tons of coal mined:		
By Coal and Iron Co...	254,792 18	976,715 15
By tenants.....	94,985 19	329,380 10
Total mined from lands owned and controlled by Co. & from leasehold estates.....	349,778 17	1,306,096 05

	1879. Month.	1879. Year to date.
Gross receipts:		
Railroad traffic.....	$889,569 39	$3,426,096 76
Canal traffic.....	75,864 03	84,964 33
Steam colliers.....	69,647 30	226,496 83
Richmond coal barges	6,061 26	20,420 40
Total Railroad Co..	$1,041,141 98	$3,757,878 32
Reading Coal and Iron Co.....	753,178 97	2,311,271 02
Total of all....	$1,794,820 95	$6,069,149 34
Tonnage and passengers:		
Tons of coal on railroad.	600,493 15	1,944,362 06
Tons of merchandise...	301,702 02	1,024,080 06
Passengers carried....	510,762	1,937,880
Coal transported by steam colliers.....	56,236 00	178,586 00
Tons of coal mined:		
By Coal and Iron Co..	323,378 10	1,005,614 15
By tenants.....	97,691 02	826,445 04
Total mined from lands owned and controlled by Co. and from leasehold estates.....	421,069 12	1,332,059 19

☞ Messrs. Booth & Flinn, of Pittsburg, have received the contract for building five miles of the new Somerset and Johnstown Railroad. The job is to be completed by December 1st. The contract prices ranges upwards of $100,000. The five sections of the new road are located near Scalp Level.

☞ The contract for building 140 miles of road from the terminus of the Hastings and Dakota Branch of the Chicago, Milwaukee and St. Paul railway on the west line of Minnesota, down the valley of the Red river to the intersection of the Northern Pacific, near Fargo, has been given out.

☞ The Baltimore Sun says that the Lobdell Car Wheel Company of Wilmington, Del., has purchased a large tract of mineral land in Wythe county, Va., from E. E. Early and Thos. Wilkinson, on New River.

Chicago and Alton Railroad.

DIRECTORS' SEVENTEENTH ANNUAL REPORT.

To the Stockholders of the Chicago and Alton Railroad Company:

The Board of Directors submit the following report for the year ending December 31, 1879:

LENGTH OF ROAD OPERATED.

	Main Track.	Second Track.	Side Track.
Chicago to Joliet (leased)	37.20	36.48	16.84
Joliet to East St. Louis (owned)	243.50	25.58	57.17
Coal City Branch (owned)	27.84	.....	5.74
Dwight to Washington, and Branch to Lacon (owned)	79.80	.....	7.18
Roodhouse to Louisiana (owned)	38.10	.....	5.29
St. Louis, Jacksonville and Chicago (leased)	150.60	.....	13.63
Louisiana & Missouri River (leased)	100.80	.....	10.44
Mexico to Kansas City (leased)	162.62	.....	21.59
Total miles	840.46	62.06	127.88

The railroad last referred to has been in full operation about one-half of the year.

CAPITAL STOCK.

Preferred shares	$2,425,400
Common shares	10,065,400
Convertible scrip outstanding	72
Total	$12,490,872

FUNDED DEBT.

First Mortgage 7 per cent bonds due January 1, 1893	$2,383,000
Income Bonds, 7 per cent due January 1, 1883	1,083,000
Consolidated 6 per cent Sterling bonds, due July 1, 1903 £900,000 say	4,379,850
St. Louis, Jacksonville and Chicago Railroad bonds, assumed in purchase of road from Roodhouse to Louisiana, First Mortgage 7 per cent, maturing April 1, 1894	564,000
Second Mortgage 7 per cent maturing July 1, 1898	188,000
Sinking Fund 6 per cent gold bonds, due May 1, 1903	3,000,000
Total stock and bonds	$24,088,722

GROSS EARNINGS.

	1878.	1879.
From passengers	$1,071,108 68	$1,311,708 17
" freight	3,409,509 82	4,242,791 39
" express	97,969 00	111,806 69
" mails	92,146 84	88,530 24
" miscellaneous sources	789 79	840 70
	$4,671,519 13	$5,755,677 19

OPERATING EXPENSES.

	1878.	1879.
For conducting transportation	$705,242 80	$905,145 86
For motive power	669,124 05	914,368 83
For maintenance of way	717,255 00	806,140 52
For maintenance of cars	283,423 45	268,767 65
For general expenses	140,089 01	155,098 22
Total	$2,515,134 31	$3,049,520 63

SUMMARY OF EARNINGS AND EXPENSES

	1878.	1879.
Earnings from all sources	$4,671,519 13	$5,755,677 19
Operating expenses	2,515,134 31	3,049,520 63
Net earnings	$2,156,384 82	$2,706,156 56
Operating expenses equal per cent of gross earnings	53.83	52.98
Increase in gross earnings		$1,084,158 06
Increase in operating expenses		534,386 32
Increase in net earnings		$549,771 74

Deducting from this sum the amount transferred to account of the Kansas City, St. Louis and Chicago Railroad, as hereinafter stated, the remainder is equal to a net gain of 20.75 per cent over the net earnings during 1878.

	1878.	1879.
Gross earnings per mile of road, estimating the operation of the new line for eight months as equal to 109 miles operated for the year	$6,891 77	$7,313 44
Expenses per mile of road on same basis	3,710 51	3,874 87
Net earnings per mile	$3,181 26	$3,438 57

INCOME ACCOUNT.

Gross receipts from traffic, including Mississippi River Bridge	$5,755,677 19
Dividends and interest collected on stock and bonds of the Mississippi River Bridge Company, held by our company	33,000 00
Balance of amount temporarily taken from this account to purchase supplies	350,000 00
Total	$6,138,677 19

Disbursements:

		5,559,303 97
Balance, December 31, 1879		$579,373 22

The earnings from traffic during the year 1879, after deducting operating expenses, taxes and assessments for that year, interest on bonds, rent, losses and all other sums properly charged in the income account, are equal to 9 42 per cent on our capital stock, both common and preferred.

At the date of this report, the Postal Department of the Government has not fixed a price for transporting the mails between Mexico and Kansas City, and no compensation has been received for that service.

The amount of Capital Stock remains the same as at the date of our last annual report.

In pursuance of the contract with the Kansas City, St. Louis and Chicago Railroad Company, for the construction of the new railroad from Mexico to Kansas City, that company issued and transferred to our company $3,000.000 of its First Mortgage 7 per cent bonds, which by reason of the high rate of interest they bear, our board considered it unwise to sell. The bonds referred to have been deposited with the United States Trust Company, of New York, as collateral security for an issue of the same amount of 6 per cent Sinking Fund bonds, issued by our company, as stated in the foregoing summary. Both issue of bonds bear the same date and mature May 1 1903.

LEASED LINES.

The earnings on each of the lines held and operated under lease were larger than in 1878.

No separate account of the earnings of the Joliet and Chicago Railroad is kept. The rent is fixed by the terms of a perpetual lease at 7 per cent per annum on the capital stock of that company, amounting to $1,500,000, with a covenant by our company to pay the interest and principal of its mortgage bonds at maturity, the amount of which now uncancled is $306 000. The net earnings of this road have at all times exceeded the amount of rent paid for its use.

During the last four years our company has operated a railroad (nearly parallel with our Main Line), extending from Joliet to the Wilmington Coal Fields, which was built and leased to our company, as heretofore reported, by the Chicago and Illinois River Railroad Company. The financial affairs of that company have been seriously embarrassed for nearly the entire period of its existence, and on the 3d day of September last, its property of every description was sold by order of Court under a foreclosure of its first mortgage. The sale was confirmed by the court, and on the 5th of September the property was purchased and deeded to our company. The title is subject to the rights of the Union Rolling Mill Co., if the court shall hereafter decide that its claims for rails sold to the Illinois River Railroad Co. constitutes a lien upon the road. The present cost to our company of what we now call the Coal City Branch (which includes the road purchased and 1,400 acres of coal land), is $500,184 93. Deducting the estimated value of the lands, the remainder is equal to about $15,500 per mile. The cost of the property may be increased by the payment of the claim referred to, so as to be equal to $19,-800 per mile, if all that is claimed should be allowed by the court. This line will be connected at a little cost with our main line, so as to be used for about 28 miles as a second main track where such a track is needed. Its location commands almost the entire coal field, and its value to our company is much greater than its cost.

The St. Louis, Jacksonville and Chicago Railroad earned $655,736 24 in 1878, and $742,798 10 in 1879—increase, $87,061 86, or 13.27 per cent.

The Louisiana and Missouri River Railroad earned $231,389 75 in 1878, and $317,756 59 in in 1879—increase, $86,366 84, or 37.32 per cent.

The contract between our company and the Kansas City, St. Louis and Chicago Railroad Company, under date of March, 1878, in which provision is made for the construction and use of a railroad from Mexico to Kansas City, was stated in full in our last annual report. It provided (as the basis of a construction fund) for the issue and transfer to our company of $3,000,000 of 7 per cent first mortgage bonds; $1,500,000 of 7 per cent preferred stock, and the proceeds of all local subscriptions to its common capital stock. That contract was changed, so far as it relates to the issue of preferred stock, by a supplemental agreement under date of the 29th day of May,

1879, in which it is stipulated that $1,750,000 of 6 per cent preferred stock shall be issued in place of $1,500,000 of 7 per cent preferred stock. All other stipulations in the original contract remain unchanged. The agreement provides that rent for the use of the road shall commence to accrue on the 1st day of November, 1879. Prior to that date, all net earnings on that line have been credited, and all coupons and dividends falling due on the bonds and preferred stock of that road, which had been guaranteed and sold by our company, have been charged in the construction account as will appear from the synopsis of that account in the appendix to this report. The cost of the road so far as the original plans have been adopted in construction, does not exceed the original estimates. Much larger and more valuable depot grounds have been procured at Kansas City, and, in short, a much better road has been built than was originally contemplated. The amount expended in the construction of the road, including the steel bridge over the Missouri River, depot grounds, buildings and all other appurtenances, is $3,592,027 95, or $22,088 47 per mile. The cost of the bridge over the Missouri River and its approaches, is $475,341 96, which, if deducted from the amount above stated, leaves a sum which is equal to $19,165 33 per mile of road. Adding to the sum above stated discount and commissions on bonds and stock sold, and interest paid during the time employed in constructing the road (less net earnings from traffic prior to November 1, 1879), the aggregate sum charged to account of construction is $3,957,382 27, or $24,335 15 per mile. The road is of the most substantial character; the work of construction was prosecuted and materials were purchased for it when prices were cheaper than at any other period for many years. An estimate shows that at present prices the cost of the road would be increased more than $1,500,000. The amount of traffic over this line since its completion has fully equaled the most sanguine expectations of those who recommended its construction. Although it was in full operation only about one-half of the year, it contributed 56½ per cent of the total increase in gross earnings during the year.

The present traffic of our lines imperatively demands additional tracks and buildings at Chicago and East St. Louis, about 15 miles of new side tracks at other stations on our several lines east of Mexico, and a large addition to our rolling stock. Partial provision has already been made to meet this demand.

Twenty locomotives have been contracted for delivery in the next three months, and an average of about eight freight cars per day are being constructed at the shops of our company at Bloomington.

When authority was last conferred upon the board to increase the share capital of our company, the additional amount was limited to 22,710 shares. As was proposed at the time, only about one-half of that number was issued. By the terms of the circular, to which the shareholders gave their consent, it was provided that the time when the remainder of the shares should be issued and sold should be left to the future decision of the board, in view of the necessities of the traffic of the lines as the same might be there after developed.

The shares then issued were sold to the shareholders pro rata at par, in the proportion of one share to each ten shares owned by them respectively, less fractions if any. In our opinion a similar issue and sale should be made not later than May next, of which at least thirty days' notice will be hereafter given. Such an issue of shares would provide a fund of about $1,000,000, which is no more, in our judgment, than will be needed to procure facilities for the increased traffic of our lines in the immediate future.

The property of our company has been in all departments fully maintained in efficient condition, and in many respects improved during the last year.

The company have 187 locomotives, 95 cars for use in passenger trains, 12 Pullman sleeping cars, and 4,218 freight cars of different kinds. Total mileage of revenue trains, 3,609,638. Number of passengers transported, 843,429; do. transported one mile, 54,219,072. Tons of freight transported, 2,634,177; do. transported one mile, 402,234,396. The average rate per passenger per mile was 2.419 cents; do. per ton per mile, 1.054 cent. Average distance traveled by each passenger, 64.28 miles. Av. distance each ton of freight was carried, 114.73 miles. Av. fare paid by all classes of passengers, $1 55.

GENERAL BALANCES, December 31, 1879.

Cost of road and equipment		$19,095,603 40

President.—T. B. BLACKSTONE.

Directors.—T. B. Blackstone, Chicago, Ill, John B. Drake, Chicago, Ill.—term of service expires first Monday in April, 1880; John F. Slater, Norwich, Conn., John A. Stewart, New York, George Strant, Peoria, Ill.—term of service expires first Monday in April, 1881; John Crerar, Chicago, Ill., Lorenzo Blackstone, Norwich, Conn., John J. Mitchell, St. Louis, Mo.—term of service expires first Monday in April, 1882.

Secretary and Treasurer.—CHARLES H. FOSTER.

Gen'l Manager & Gen'l Sup't.—J. C. MCMULLIN.

☞ The Pennsylvania, Poughkeepsie and New-England Railroad Company have commenced putting down rails at the Wind Gap. The first spike was driven by Judge Rank, and was made of silver.

The Boston and Maine and Eastern Railroads.

Dr. J. B. Nichols, of Haverhill, Mass., one of the directors of the Boston and Maine Railroad Company, writes to a Haverhill paper that the clamor in regard to the union of these two roads is to a large extent the work of stock jobbers. He says:

The Boston and Maine has taken no part in any legislative action regarding the two roads, neither advocating nor opposing such action. No propositions made by the Eastern have been considered or discussed by the Boston and Maine, and only one meeting has been held by the committees of the two roads, and that in February, lasting about thirty minutes. It is not true that progress has been made in any arrangement for running the two roads under one management, whilst it is possible for the Eastern to place the management of the road in the hands of the Boston and Maine under favorable conditions, it is not probable that it will be done, and as to the Eastern controlling the Boston and Maine, the notion is too preposterous for a moment's consideration.

The two roads have been running under a business contract during the past five years, which has stopped to a large extent all contention and injurious competition, and this contract is satisfactory to the Boston and Maine and has been to Eastern, and with some modifications will probably be continued. The Boston and Maine was never stronger, or its business prospects more flattering than at the present time, and no action will be taken under its present conservative management to jeopardize its interests.

S E. Spring, resident director of the Boston and Maine Railroad Company, at Portland, Me., is authority for the statement that permission to consolidate with the Eastern Railroad was not requested from the Massachusetts Legislature by the Boston and Maine, nor was the bill for arrangement or consolidation carried before the Legislature by it or by the consent of its board of directors, a majority of whom would be decidedly opposed to such a proceeding, or, in fact, going before the Legislature proposing anything requiring legislative action. Mr. Spring says that the only arrangement entered into, or that will be entered into by the two roads, is the present one for pooling receipts for competing points. In this case a looseness has prevailed of late, and a committee of five each on the part of the two roads has been appointed to see if the arrangement could not in future be enforced in good faith.

☞ The gross earnings of the South Carolina Railroad for the year ending December 31, 1879, were $1,052,023 75, the expenses $720,001 39, and the net earnings $332,022 36—showing an increase in gross earnings, as compared with the previous year, of $40,162 14, an increase in expenses of $117,445 47, and a decrease in net earnings of $77,283 33.

☞ Work has been commenced on the extension of the International Railroad from Austin to San Antonio, Texas. It is said that 150 miles of road from Austin are under contract, which would carry the road within 70 miles of the Mexican border.

☞ The Boston, Clinton, Fitchburg and New-Bedford Railroad Company have declared a dividend of 2½ per cent, on the preferred stock, payable on demand at the Treasurer's office in Boston. The Company paid 2 per cent dividend in October, 1879.

Commerce of New York.

The foreign imports at New York for the month of March, 1880, are officially stated as follows:

	1879.	1880.
Entered for consump'n.	$14,412,884	$25,443,771
Do. for warehousing....	6,545,720	10,115,827
Free goods	6,666,488	9,244,529
Specie and bullion....	612,915	794,602
Total entered at port..	$28,238,007	$45,598,729
Withdrawn fr.wareh'use	5,570,837	7,545,317

The foreign imports at New York for three months from January 1, were:

	1879.	1880.
Entered for consump'n	$38,700,380	$66,124,600
Do. for warehousing..	16,689,424	25,021,653
Free goods.....	22,502,633	32,872,800
Specie and bullion	2,972,103	2,642,214
Total entered at port..	$80,864,540	$126,661,267
Withdrawn fr. wareh'se	15,274,300	21,441,451

The foreign imports at New York for nine months of the fiscal year, were:

	1879.	1880.
Six months ending January 1.....	$148,784,274	$266,228,601
January	25,657,546	40,897,154
February	26,968,987	40,165,384
March..	28,238,007	45,598,729
Total 9 months..... ...	$229,648,814	$392,889,868
Deduct specie.....	9,077,371	81,385,385
Total....	$220,571,443	$311,504,483

The duties received at New York for nine months ending with March, were:

	1879.	1880.
July	$8,103,513 74	$9,329,895 17
August	10,149,191 69	10,662,138 82
September	9,080,936 88	11,790,902 26
October	8,349,904 94	10,952 554 48
November	6,713,339 94	3,460,050 08
December....	6,175,359 43	8,175,540 13
January	7,655,552 67	11,960,677 78
February	8,229,362 06	12,254,602 24
March...	9,320,695 68	14,469,557 65
Total	$78,787,857 03	$97,955,918 61

The exports from New York to foreign ports in the month of March, were:

	1879.	1880.
Domestic produce.	$27,984,449	$33,086,477
Foreign free goods.	283,698	216,068
Do. dutiable.	514,702	323,914
Specie and bullion.....	2,346,398	1,612,713
Total exports	$31,129,247	$35,239,172
Do. exclusive of specie..	28,782,849	33,626,459

The exports from New York to foreign ports for three months from January 1, were:

	1879.	1880.
Domestic produce....	$76,487,771	$81,104,711
Foreign free goods...	849,617	822,302
Do. dutiable.	1,137,360	1,007,160
Specie and bullion....	5,390,015	3,037,654
Total exports....	$83,864,763	$85,971,827
Do. exclusive of specie	78,474,748	82,934,173

The exports (exclusive of specie) from New York to foreign ports for nine months ending with March, were:

	1879.	1880.
Six months ending January 1.	$177,556,058	$197,760,586
January	22,559,556	25,416,566
February	27,132,343	23,891,148
March...	28,782,849	33,626,459
Total produce....	$256,030,806	$280,694,759
Add specie..	9,200,610	6,370,720
Total exports,....	$265,231,416	$287,065,479

☞ The rai road to the crater of Vesuvius is now completed. The depot is situated at a height of 810 metres, or 210 metres above the Observatory. A restaurant and cafe capable of accommodating 100 people is attached to the depot. The angle of inclination of this railroad attains at various points 40, 50 and 63 degrees. There are two passenger cars, the Vesuvius and Etna, accommodating 12 persons each. The system adopted in the construction of the railway is of American invention, and is known as the "prismatic system."

☞ The work of grading the track on the Atlantic and Pacific Railroad from Albuquerque west to the Pacific Ocean has been commenced and is being energetically and vigorously prosecuted, the workmen advancing rapidly on the way. The road crossed the Rio Grande about two and a half miles south-east of the old plaza.

☞ The Bradford, DeGolier and Smethport Railroad Company was organized at Bradford, Penn., on the 16th inst. with a capital stock of $130,000. The road will be a narrow gauge and 12 miles in length, forming almost a direct line to Smethport, the country seat of McKeon county. The road is to be in running order by the 1st of August.

☞ The work of re-laying the Pittsburgh, Virginia and Charleston Railroad with steel rails between Monongahela City and Pittsburg, has commenced. The old iron rails on the present section will be shipped to that portion of the line above Monongahela City, from which point the line will be extended.

☞ There are now about 600 hands employed in grading the Clifton Forge and Buchanan railroad. The route has been changed from the east to the west bank of Jackson river at Clifton Forge. It is expected the grading will be completed by the 1st of July.

☞ The work of grading and bridge-building on the Philadelphia, Marlton and Medford Railroad will be commenced this week and urged to completion with vigor. This road will pass through a portion of the richest agricultural section of South Jersey.

☞ The Lower Brule Sioux have agreed to permit the Chicago, Milwaukee and St. Paul Railway Company to run a railway through their reservation toward the Black Hills. Several chiefs are to go to Washington to ratify the grant.

☞ The Franklin Narrow-Gauge railroad is now running to Rocky Mount, Va., the county seat of Franklin county. The Lynchburg News has been informed that arrangements are now being made for the shipment of 200 tons of magnetic ore daily.

☞ The Kentucky Legislature has passed a bill amending the charter of the Maysville and Big Sandy Railroad Company, so as to authorize the company to build a road from Catlettsburg to Newport and Covington, making a connection for the Chesapeake and Ohio railway.

☞ The capital stock of the Manhattan Beach Railway Company is to be increased from $500,000 to $800,000, of which $200,000 will be used to pay off the indebtedness of the company.

Mining.

Messrs. Lounsbury & Haggin are in receipt of a dispatch from the Homestake Mine, announcing the shipment of 2,347 ounces of gold bullion, which, at $17 25 per ounce, would make the brick worth $40,486. Mr. Haggin started for San Francisco on Saturday last. He will be absent several weeks.

Mr. Drake DeKay tendered his resignation on the 17th inst. as secretary of the Little Chief Mining Company, and Mr. D. F. Verdenal was elected to fill the vacancy.

☞ The Louisville Courier-Journal says that the Louisville and Nashville Railroad Company have again shown their confidence in Southern railroad values by adding to their immense system the Western railroad of Alabama, between Montgomery and Selma, giving the company control of all outlets from Montgomery. A year from now the Southern States will feel the full effects of a net-work of railroads, all operated on a common system, the work directed from one intelligent centre; the aim, that of developing the country so that it will contribute of its fullness to the business of the roads.

☞ Chief Engineer Morley says that he expects to complete the railway from Guaymas to El Paso in eighteen months. He says that the distance from ocean to ocean by that route is 600 miles shorter than the present route, and to Australia it will be 1,000 miles shorter; but from San Francisco to Galveston, Texas, by railway surveys, is exactly 2,000 miles. He says that wheat is the chief export now from Guaymas, and that its commerce will be assisted by supplying return freights of superior anthracite coal.

☞ The Pittsburg Chronicle says that surveying was commenced on the 14th inst. of a new route for the extension of the narrow gauge Pittsburgh and Northwestern Railway to the West. The present survey is from Wampum to Youngstown, 28 miles, and it is expected the matter will be actively pushed and the construction of the proposed extension speedily begun. This road from Pittsburgh to Wampum has opened an immense field of ore, coal and limestone.

☞ The present capital of the Louisville and Nashville Railroad Company is $9,052,950, and the net earnings of their separate line, independent of their recent acquisitions, are 16 per cent. If a combination like this, covering so large an area of rich country and controlling so enormous a mileage, can be held together with less than $10,000,000 of capital, it is certainly one of the wonders of railroad management.

☞ The fast express locomotive just turned out of the Baldwin Locomotive Works for the Philadelphia and Reading Railroad, to be run on the Bound Brook route between Philadelphia and New York, was the 5,000th built by this company. The first locomotive was turned out in November, 1831.

☞ The Red River Northern Railway Company has filed articles of incorporation with the State Secretary of Minnesota. The object of the organization is to build a road from Brownsville, Clay County, to Moorhead. The capital stock is placed at $50,000.

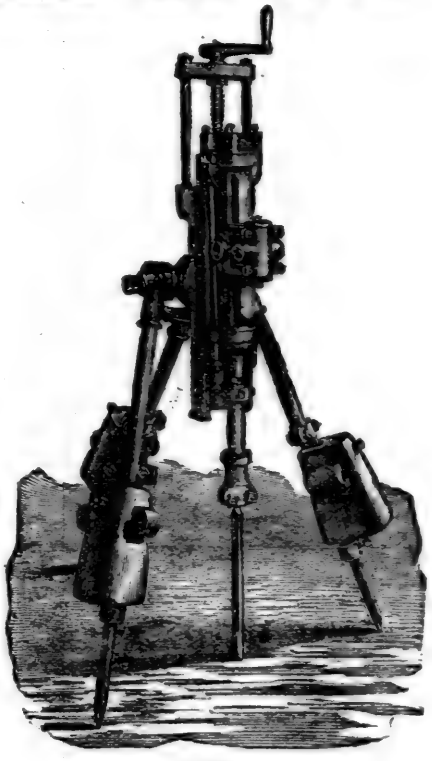
☞ A safety device, applied to the cars of elevators, to avoid accidents in case of the breaking of the suspending ropes, or otherwise, has been recently invented by Geo. W. Fitts of South Hampton, N. H. It involves an entirely new principle, dispensing with the old ratch principle, which has been the fruitful source of so many accidents. The fall of the car is impossible; the safety increases with the weight of the load. Application has been made for a patent.

☞ A Japan Railway Co. have ordered an outfit of scales from Riehle Bros. Phila. among which are 2-25 ton narrow gauge Track Scales, 2-6 ton warehouse scales and a number of warehouse and baggage trucks and smaller scales. This firm are very busy on work for the United States Government and for their regular customers and have doubled their force within the last three months.

☞ The Kansas division of the St. Louis and San Francisco Railroad has been completed to Beaumont, Kan., 20 miles west of Severy, and 47 miles east of Wichita. This puts the building beyond the most difficult portions of the country, and brings the track to the top of the Flint Hills. From this out, track laying will go on at the rate of 2½ miles per day.

☞ The trains are now running on the Republican Valley Branch of the Burlington and Missouri River Railroad in Nebraska to Orleans, Neb., 11½ miles westward from the late terminus at Republican, and 93 miles from the junction with the main line at Hastings. The new stations are Alma, 87 miles, and Orleans 93 miles from Hastings.

☞ The Helena (Montana) Herald gives a lengthy account of the ceremonies attending the laying of the first rail in Montana on the Utah and Northern Railroad. The rail was fastened with silver spikes, and the inevitable champagne and cheers for absent and present friends followed. The Utah and Northern is now 290 miles in length—the longest three feet gauge in the world.



☞ The New Railroad from the Western Maryland railroad to Waynesboro', Pa., will soon be completed. The length of this branch is seven miles, and the country through which it passes is one of great beauty and fertility. A further extension is projected to meet the Harrisburg and Potomac, which is gradually extending in that direction.

☞ The Board of Trustees of the Little Chief Mining Company have declared a monthly dividend (No. 3) of One per cent on the $10,000,000 capital stock amounting to $100,000, or 50 cents per share, out of the third month's net earnings, payable at the Central Trust Company on the 25th inst.

☞ The Denver, Middle Park and Pacific Company has been organized to build a road from Denver to Boulder, and thence to Hot Sulphur Springs, in Grant County, Col., reserving the right to extend the same to and into the Territory of Utah. Capital stock $2,500,000.

☞ The stockholders of the Boston and Lowell Railroad Company have ratified the lease of the Massachusetts Central Railroad by a vote of 8,427 out of 6,500 shares.

New York. St. Louis.

The investigation of frauds on Railway Companies a specialty.

The Coal Trade.

The total tonnage of anthracite coal from all the regions for the week ending April 10th, as reported by the several carrying companies, amounted to 627,433 tons, against 462,855 tons in the corresponding week last year, an increase of 164,578 tons. The total amount of anthracite mined for the year is 5,439,107 tons, against 5,756,908 tons for the same period last year, a decrease of 317,801 tons. The quantity of bituminous coal sent to market for the week amounted to 22,230 tons, against 71,787 tons in corresponding week last year, a decrease of 49,557 tons, The total amount of bituminous mined for the year is 864,942 tons against 787,967 tons for the corresponding period last year, an increase of 76,975 tons. The total tonnage of all kinds of coal for the week is 649,663 tons, against 534,642 tons in corresponding week last year, an increase of 115,021 tons, and the total tonnage for the coal year is 6,304,040 tons, against 6,544,875 tons to same date last year, a decrease of 240,826 tons. The quantity of coal and coke carried over the Pennsylvania Railroad for the first week of April was 118,409 tons, of which 86,499 tons were coal and 31,910 tons coke. The total tonnage for the year thus far has been 1,872,870 tons, of which 1,316,225 tons were coal and 466,645 tons coke. These figures embrace all the coal and coke carried over the road east and west. The shipments of bituminous coal from the mines of the Cumberland coal region during the week ended April 10 were 53,235 tons, and for the year to that date 417,193 tons—164,928 tons over the corresponding period of 1879. The shipments to the Baltimore and Ohio Railroad for the week were 39,948 tons, and for the year 358,116 tons, an increase of 143,342 tons over 1879. The shipments to the Chesapeake and Ohio Canal for the week aggregate 4,866 tons, and for the year 8,743 tons, a decrease of 8,035 tons as compared with 1879. The shipments to the Pennsylvania Railroad for the week were 8,421 tons, and for the year 50,334 tons, an increase of 9,620 tons over last year.—[Phil. Ledger, April 19.

☞ The New York and Greenwood Lake (formerly the Montclair) Railroad is said to have greatly improved under the presidency of Mr. Abram S. Hewitt. Steel rails have been laid; a new coal dumping trestle has been erected at West End, the cars and rolling stock have been thoroughly overhauled, new switches put in, and new bridges built where needed. The extension of the road to Middletown will be begun this season. The road is about forty miles long and has a first mortgage of only $900,000, which makes the interest charge $63,000 per year. The second mortgage bondholders have the right to take up these bonds at 105 at any time and assume control of the property.

☞ The Lake Ontario and Southern Railroad is now in process of construction through the centre of this State, from Great Sodus Bay, on Lake Ontario, to the bituminous coal regions of Potter County, Penn., a distance of 155 miles. The company was formed by the consolidation of the Ontario Southern and the Geneva, Hornellsville and Pine Creek Railroad Companies. Thirty-five miles south from Sodus Bay are now in operation. An extension of the Philadelphia and Reading Railroad to Gaines will give the line connection with the East and West.

☞ The Senate Committee on Railroads on the 19th inst. decided by a vote 7 against 4, to recommend the passage of a bill to extend the time for the completion of the Northern Pacific Railroad six years.

A. G. DAY,

MANUFACTURER OF

Kerite Insulated Telegraph Wire and Cables

Of all kinds made to order, for Ocean, River, Aerial and Subterranean Lines.

The Kerite covering of these Conductors unlike any other, resists effectually the destructive action of Heat and Moisture, and the corrosive agents either in Earth, Air or Water.

☞ Special orders should state whether the Cable is to be exposed to Earth, Air or Water.

FACTORY—SEYMOUR, CONN. Office, 120 Broadway, New York.

NEW YORK, LAKE ERIE & WESTERN RAILWAY.

TO THE TRAVELING PUBLIC.

During the Centennial Season—six months, closing November 10, 1876—the Erie Railway carried almost 3,000,000 passengers, without a single accident to life or limb, or the loss of a piece of baggage.

And for a whole year, the official records of the United States Post-Office Department show the arrivals of Erie Railway trains in New York, on time, to be from 15 to 27 per cent. ahead of competing lines.

Facts well worthy the consideration of travelers.

American Railroad Journal.

HARLAN A. PIERCE, Editor.

New York, Friday, April 30, 1880.

"Argument of Hon. Chauncey M. Depew."

Under the above caption, pamphlets have been published in Albany—at whose expense we do not know—and lavishly distributed at the Produce Exchange, giving what, upon perusal, would appear to be the misstatements rather than the "argument" made by the self-styled "Hon." gentleman above named before the Assembly Committee on Railroads. We have told our readers that Mr. Vanderbilt is a public benefactor, and that he runs his railroads solely for the good of the public. It would be logical therefore to conclude that the "Hon. Chauncey M." is imitating the example of his great master, and distributing his "argument" at his own expense for the public good. Upon this theory let us examine this pamphlet of 30 pages which he has thus dignified with the title of "argument" and embellished with his "Hon." prefix, a title which we suppose he claims by virtue of his long and well paid service of Vanderbilt in the lobby at Albany where "in the last fifteen years" he has made many *convincing* "arguments," no doubt, which he did not publish. Of course "Hon. Chauncey M." was perfectly disinterested in what he said before the Committee. He is like the Vanderbilt family in this respect; and we should accept his views as we would those of the man being tried for murder who should tell us his only desire was to protect society and submit to its laws.

"Hon. Chauncey M." begins with a plaintive statement that during fifteen years' contest before the Legislature for the rights of the railroads, he had been almost alone among hostile elements which regarded him as the incarnation of monopoly. [Here Chauncey paused to wipe away a tear.] "But," he continues, with a smile of honest pride and triumph, "I am here to-day—in the midst of a gathering—the most wonderful we have ever seen in which the business representatives of the State have appeared on the side of the railroads," to fight their battles and he was "compelled to take a back seat"—in front. He then dried his cheek and told the committee that it "was composed of men of intelligence" but that they knew nothing about "the great transportation problems of the day," and that they must be educated before they could legislate thereon. Then he tells this committee of "intelligent men" that Mr. Thurber kicked up all this trouble that called them into existence as an Investigating body. He reminds them that "there was upon it none of the great shippers who" (by special privileges) "control this vast business which has created New York. There was upon it none of these manufacturers" (who also get cut rates) "whose interests have been presented here with such force and emphasis during the past two weeks," when free passes, free feed and free orders were sent them to go to Albany and kill the bills if they expected to get any more special rates. He reminded the Committee how Vanderbilt's Associated Press and every machinery was used to bring before them every possible complaint; and yet "no representative of the great manufacturing interests in this State appeared. The Produce Exchange is unrepresented, the Chamber of Commerce, the Butter and Cheese Exchange, the American Exchange are unrepresented." Mr. Depew will here pardon us for correcting him, as his knowledge of the Exchanges in New York, like that of some other things, is not as perfect as of the Lobby at Albany where he says he spent fifteen years. The Butter and Cheese and American Exchange are one and the same, or rather there is no American Exchange in existence. All these great interests, said he, "stood silent because they had no complaint to make."

The readers of this JOURNAL do not need to be told why the representatives of these interests stood silent and would not testify; but for "Hon. Chauncey M.'s" enlightenment, of which he stands sadly in need, we will restate what we have already published and what we know personally; that is, that merchants who had not the cut rates dare not testify for fear the railroads would carry out their policy of still farther discriminating against any one hostile to them and entirely drive them out of business. We could name men who were asked and refused to testify for this reason, although we had been told by them that they were at times compelled to make arrangements with and to ship over their favored neighbor's way bills in order to get any consignments from the West.

This, the committee knew, whose intelligence Mr. Depew treated with contempt when he told them the great shippers and manufacturers who get special rates had not come before them to complain. Does Chauncey M. call such transparent humbuggery as this argument and its author Honorable? If so, we think the New York Central Company could

get better "General Counsel" for less money, with more honor and more intelligence or integrity than to assume that other people have no more sense than Mr. Depew's "argument" before this committee would appear to indicate. It was an insult to the common sense of any well read or well posted man, and it was an affront to a committee of gentlemen who had spent months in learning facts which they knew and Mr. Depew knew were just the opposite of those assumed in his so-called "argument" which was a mass of misstatement and sophistry from beginning to end. No where is this better known than at the Produce Exchange which he lately undertook to coerce into opposition to the Hepburn bills by threats of discrimination and promises of special rates; and if Mr. Depew knew no better than to send these pamphlets there, he ought to resign as general and special counsel and chief lobbyist of the New York Central, for he could do no more to convince people of the truth of the charges against his road and of the necessity of "an act to regulate the transportation of freight by railroad corporations, than by circulating the "Argument of Hon. Chauncey M. Depew, General Counsel of the New York Central and Hudson River Railroad Company."

Now that "Hon. Chauncey M." has discharged his duty to the Public, we would suggest that he also discharge one to himself; lest the public, in gratitude for his services at Albany, take the matter in hand for him. The suggestion will suggest itself if "Hon. Chauncey M." will read the sentence of the "Hon. William Kemble," Chief of the Lobby at the Capital of the Key Stone State. A word of warning to the wise is sufficient.

The Railways of Prussia.

From the report just issued by the Prussian Minister of Public Works we gather the following summary of the present state of the railways of Prussia. The entire length of the railways in operation at the close of 1879 was 18,578 kilometres, or 11,550 miles, of which only 6,634 kilometres, or rather more than one-third, had two lines of rails. The increased length opened in the year was 759 kilometres.

Of the entire length the State owned and worked 5,391 kilometres, or 29 per cent. Private companies owned 3,823 kilometres, or 21 per cent, which were worked by the State, and further 9,364 kilometres or 50 per cent which were worked by the private companies themselves. Since these statistics were compiled, however, the State has made large purchases of private lines, so that at the present time there are nearly 75 per cent of all the Prussian railways worked by and for the most part owned by the State, leaving only 25 per cent still in the hands of private companies.

On an average there are 5.2 kilometres of railway to every 100 square kilometres of area in Prussia. In the different provinces, however, the railway accommodation is very various. Thus to 100 square kilometres there are 9 kilometres of railway in the Rhenish province, 8 in Westphalia, 7.2 in Hohenzollern, 7 in Saxony, 6.6 in Hesse Nassau, 6.4 in Silesia, 5.7 in Brandenburg, 4.7 in Hanover, 4.4 in Schleswig-Holstein, 3.6 in Pomerania, 3.5 in Posen, 3 in West Prussia, and 2 5 in East Prussia.

The total capital expended on the construction is 4,829,000,000 marks, or £241,450,000, being at the rate of 261,551 marks (£13,077) per kilometre. The cost of different lines was very various. Thus the single-lined railway between Angermunde and Schwedt, connected with the Berlin and Stettin system, cost only 77,239 marks (£3,862) per kilometre, while the doubled line Berlin, Potsdam and Magdeburg Railway cost 445,571 marks (£22,278) per kilometre. The average cost in 1844 was only 118,000 marks (£5,900) per kilometre against rather more than 260,000 marks (£13,000) at the present day. The principal reasons of this large increase are to be found in the enhanced cost of materials and labor, and in the better way in which railways are now constructed, as well as in the fact that many lines have recently been built in the most costly billy and mountainous districts of the country.

As regards passenger traffic there were conveyed in the year 1879 on Prussian Railways 119 million persons, inclusive of the military, while the goods traffic comprised the carriage of 97 million tons of merchandise. Of the total number of passengers, exclusive of soldiers, 1.3 per cent traveled in first-class carriages, 13.6 per cent in second, 51.9 per cent in third, and 33.2 per cent in fourth-class carriages. This was in 1878. A considerable change has gone on in this respect since 1871, the first and second-class passengers having steadily diminished, viz: from 1.7 and 17.3 in 1871 to 1.3 and 13.6 in 1878. Only the fourth class have increased, viz: from 28.6 in 1871 to 33.2 in 1878. The third class remained throughout steady at 52 per cent.

The rolling stock of all the lines at the end of 1878 consisted of 7,000 locomotives, 10,500 passenger carriages, and 145,500 goods wagons. This gives to every 10 kilometres of line an average of 3.7 locomotives, 5.7 passenger carriages, and 77.4 goods wagons. This is a decline since 1874 when the proportions per 10 kilometres of line were 4 locomotives, 6.1 passenger carriages, and 87.7 goods wagons respectively.

The persons employed by the railways numbered altogether 179,200, consisting of 94,000 regular servants and officials, and 85,200 laborers. This is about 1½ per cent of the male population of the country, and in the above number the navvies, etc., employed by contractors in building new lines and extensions are not included.

The total receipts in 1879 were 550 million marks or £27,500,000 sterling. The working expenditure amounted to 310 million marks or £15,500,000 sterling, leaving 240 million marks or £12,000,000 sterling for distribution among the proprietors or shareholders, and giving an average dividend of 4.9 per cent on the total capital expended on the railway system of the country.

With regard to accidents to passengers, there were in 1878 just 12 killed and 46 injured. Of this number 8 were killed and 16 injured from heir own carelessness. The safety of railwayt traveling has improved of late in Prussia, as the average in 1878 was 1 person killed in every 9½ million passengers, and 1 person injured in every 2½ millions, while the average a few years since was 1 killed In every 5¾ millions, and one injured in every 1¼ millions. Accidents among regular railway employes were more frequent, the average in 1878 having been 1 in every 171 either killed or injured, while among the laborers the average was 1 in every 120. The number of persons who attempted to commit suicide by allowing themselves to be run over by trains was 93 in 1878, the number of fatal cases being 86.

Camden and Atlantic Railroad.

The receipts from operations of this road for the years ending December 31, 1878 and 1879, were as follows:

	1878.	1879.
Passengers, including Horse cars	$253,816 55	$311,538 44
Freight	61,091 83	82,887 92
Express	24,747 66	30,382 80
Ferry	45,614 12	49 842 20
May's Landing Branch	3 338 58	3,359 77
United States Mail	4 014 30	3,744 88
Rent of real estate	3,863 43	3,521 49
News agency	1,525 00	1,870 45
Dividend of Sea View Hotel company	1,020 00	1,020 00
Interest	29 36	.....
Premium Second Mortgage bonds	.....	7,305 00
	$399,060 93	$495,472 95
Expenses, viz:		
Conducting transp	$65,993 16	$65,892 90
Motive power	57,286 86	63,128 54
Maintenance of way	58,038 71	52,064 02
General expenses	31,852 76	32,771 16
Express	9,819 01	13.387 24
Ferry	25.248 97	30,033 80
May's Landing Branch	10,285 88	10,066 04
Atlantic City Horse cars	5,913 91	5,202 09
	$277,847 66	$293,345 76
Net earnings	$121,213 27	$202,127 19
Interest on bonded debt taxes, etc	93,950 62	88,659 29
Leaving	$27,262 65	$113,467 90
From which deduct dividend of Nov. 1, 1879, 3½ per cent on preferred stock	$29,335 25	
Deduct, also, balance of account "Stock Centennial Board of Finance," charged to profit and loss	3,917 47	
		33,252 72
Balance to credit of profit and loss		$80,215 18

The company now have 14 locomotives, one new locomotive having been purchased during the year. The number of miles run in 1879 was 296,511, against 268,154 in 1878—an increase of 28,857. The passenger car mileage was: in 1879, 1,142,638; in 1878, 994,000—increase, 148,638. The freight car mileage was: in 1879, 670,383; in 1878, 547,136—increase, 123,702. The report says:

There has been no increase in rolling stock during the year, though that on hand has been or is now being put in condition, not only to meet all demands upon it, but also to give satisfaction to those who may use it. The entire passenger rolling stock of the company and all the engines have been equipped with the Westinghouse Air-brake, and about one-half in number of the passenger cars have been fitted with the Miller Platform and Bumper, and the remainder will be furnished with them in ample time for the requirements of the coming season.

The second mortgage bonds of the company, bearing interest at seven per cent per annum having been reduced to $497,000, and maturing on October 1st, 1879, a new mortgage was executed in that amount, with interest on the same at the rate of six per cent per annum, payable half-yearly, the company not responsible for taxes on same, and the bonds secured by the same were negotiated at a premium of one and one-half per cent on the principal. The annual interest is thereby reduced $4,970.

But one dividend was declared during the year, and that was three and one-half per cent upon the preferred stock of the company, and amounted to the sum of $29,335 25. The balance of net earnings was carried to capital account.

The disbursements on capital account during the year were:

Construction	$26,760 05
Real estate	1,850 00
Equipment	19,074 88
Steam ferry boat	53,066 00
Express trains	610 00
	$101,960 93

During the year 331.73 tons steel rails, 213.49 tons iron rails, and 31,497 cross ties were used in the track. Twenty patent safety switches were put in to supply the places of old switches removed; giving, with those laid in former years, an almost unbroken main track on the western half of the road. A new steamboat was added to the ferry equipment, and another new one is now being built. Two additional first class passenger engines have also been ordered to be ready early in the season of 1880.

The amount of unpaid wages, material bills, dividends, etc., at the close of the year was $53,301 98, against $46,984 60 at the end of 1878, showing an increase of $6,317 38; the floating assets at the same time were $75,655 72, against $86,854 62, showing a decrease of $11,198 90—an aggregate of $17,516 28.

CONDENSED BALANCE SHEET, Dec. 31, 1879.

Construction		$1,946,409 47
Real estate		51,477 05
Equipment		560,060 33
Equipment, Atlantic City Horse cars		8,688 71

President.—CHARLES D. FREEMAN.

Directors.—Charles D. Freeman, John Lucas, Andrew K. Hay, James B. Dayton, Enoch A. Doughty, Thomas H. Dudley, Samuel C. Cooper, George T. Da Costa, Joshua R. Jones, William C. Houston, John A. Merritt, George W. Steever, Edmund E. Read.

Secretary and Treasurer.—D M. ZIMMERMAN.

The Tariff on Hoop Iron.

To show the importance of the manufacturing interest protected by the recent ruling of the Treasury, published in our last issue, that cut hoops must pay a specific duty of 1½ cents per pound, prominent iron-hoop manufacturers state that $6,000,000 is invested in the manufacture of cut hoops, and that 5,000 men are employed therein in the States of Pennsylvania, New York, New Jersey and Ohio. Thirteen mills are exclusively devoted to the manufacture of hoop-band and scroll iron, employing 1,000 men, with a capital of $10,000,000. Ten mills make hoop-bands and scrolls in connection with the merchant iron business, which employes 3,000 men and a capital of $2,500 000. The total amount of capital invested in this industry is $12,500,000, and the total number of men employed is 18,000. The total product is 150,000 tons per year. The value of the raw material used is $5 000,000. The total amount of wages paid is $8,000,000.

Boston, Hoosac Tunnel and Western Railway.

The Boston, Hoosac Tunnel and Western Railroad, lately completed between the western terminus of the Troy and Greenfield Railroad and the Hudson River, comprises two separate corporations. The corporation under which that part of the road that lies within the State of Vermont was built, is known as the Boston, Hoosac Tunnel and Western Railway of Vermont, while the portion in the State of New York bears the corporate name of the Boston, Hoosac Tunnel and Western Railway of New York. The latter corporation leases the road of the former. It is now proposed to consolidate these two corporations into one; and at recent meetings of the directors of both roads, the terms for such a consolidation were agreed to. For the purpose of affording the stock-holders of each road an opportunity to ratify these agreements, a meeting of the stockholders of the Vermont corporation will be held at Rutland, Vermont, the 25th of May, and of the stockholders of the New York corporation at New York city upon the 27th of the same month. The name of the consolidated road will be the Boston, Hoosac Tunnel and Western Railway Company. Immediately after this consolidation has been accomplished, it is expected that the work of extending the road from the Hudson River to Schenectady will be commenced.

Lookout Mountain Railroad.

The Lookout Mountain Railroad, the Memphis Branch (a road partly built between Chattanooga and Rome), and the Sommerville and Rome Railroad have been consolidated into the Lookout Mountain Railroad Company. The latter company is to receive $50,000, paid in stock of the Sommerville and Rome Railroad, 24 miles of which are already graded and ready for the cross ties. They also receive a two-span bridge at Rome, Ga., across the Oostanaula River and $20,000 donations, subscribed by property owners along the proposed lines. Messrs. A. G. Houston & Co. have the contract for the construction of the road which, when completed, will connect Chattanooga, Tenn., with Rome, Ga., and will be the link between the Cincinnati Southern railroad and the entire railroad system of the South via the Selma, Rome and Dalton road. The New Orleans and Selma road, when purchased and reorganized under the late decree of court by the bondholders, will be finished in connection with the Mobile and Alabama Grand Trunk railroad, recently turned over to the bondholders and reorganized. There are fifty miles to build throughout a level country, and when completed this line will be a direct route via the Cincinnati Southern from the West to Mobile and New Orleans.

Northern Central Railway.

The following is a comparative statement of the gross earnings and operating expenses of the Northern Central Railway for the month of March:

	1880.	1879.
Gross earnings	$415,824 92	$334,165 92
Operating expenses	275,269 97	195,261 05
Net earnings	$140,054 95	$138,904 87

Three months ended March 31:

	1880.	1879.
Gross earnings	$1,080,679 47	$872,776 01
Operating expenses	702,425 89	563,575 66
Net earnings	$378,254 08	$309,200 35

☞ The Staten Island Railroad Company is making extensive improvements for the accommodation of the Summer travel. New steel rails are being laid on different parts of the road, the station at the Vanderbilt Landing is receiving a thorough overhauling, and a new bridge is being built at Clifton. It is proposed to have a switch at New Durham, and to lay a track to the South Beach, a distance of about a mile.

☞ The West Jersey and Atlantic Railroad is being rapidly pushed to completion. The rails are laid more than half the distance, and work is progressing from both ends. The entire road, together with the excursion house and depot at Atlantic City, will be completed by the first of June, when trains will begin to run. The entire rolling stock for this road will be new. The cars will be painted red and supplied with steps.

Totals.....	$64,623,512 00	$969,352 68

Interest paid by United States, $45,651,155 94; interest repaid by transportation of mails, &c., $12,983,707 66; interest repaid by cash payments: 5 per cent net earnings $659,198 87; balance of interest paid by United States $32,012,249 41.

The foregoing is a correct statement of the public debt, as appears from the books and Treasurer's returns in the Department at the close of business, March 31, 1880.

JOHN SHERMAN,
Secretary of the Treasury.

☞ At a meeting of the directors of the Kansas City, Burlington and Santa Fe Railroad Company, held on the 26th inst., the following officers were elected: President, William H. Schofield, Burlington, Kas.; vice president, John C. Short, New York; secretary and treasurer, Orson Kent, Kansas; Joseph P. Hale, Thomas Rutter, H. S. Chandler, Charles Place, George Moore, George W. Debevoise and Henry A. Brown constitute the Executive Committee. It is claimed that arrangements have been made for the extension of the road from Kansas City or Leavenworth to Ottawa, and from Burlington to Wichita. Work will be begun in the Fall, and it is hoped that the line to Santa Fe will be completed in about two years.

☞ The Dominion Government has agreed to subsidize the South-eastern Colonization Railway of Manitoba to the extent of 2,500 acres of land per mile. The work on the railway will be commenced immediately.

☞ Track laying on the Texas and Pacific railway is progressing at the rate of 4,000 feet per day.

American Railroad Journal.

Financial and Commercial Review.

THURSDAY EVENING, April 29, 1880.

The Wall Street and Merchandize markets closed with our last in a very uncertain and unsettled condition, some stocks and some merchandize being subjected to reacting influences by reason of short interests and other special causes which checked the general downward tendency for a time, and left people in great uncertainty as to the future tendency of prices. Since then, however, these influences have all, or nearly all, passed away, and with the close of last week and the opening of this, the general downward tendency resumed full control of all the markets with scarcely an exception, and since then we have had as weak and declining markets as have yet been experienced since the work of unloading last fall's speculation commenced some three months ago. That this work is not yet completed seems apparent in all business and directions, as legitimate trade is becoming stagnant and dealers begin to complain at dull times as well as weak markets.

Wall Street is still leading this decline, and resumption of normal values upon a natural basis of supply and demand, instead of speculation and anticipation. In consequence some of the great bull speculators are said to be getting badly hurt, and their favorites being the leaders in the break in prices gives color to these rumors. This is notably the case in Keene's stocks and staples controlled or held up by him, including the coal stocks, wheat, provisions and opium. He is the head of those who have undertaken to support prices, because they were loaded up with stocks

On the other hand Mr. Gould has led those who were out of the general list and believed prices were too high, in the selling movement that has been so successful for three months past. Accordingly one party has been seriously weakened and the other correspondingly strengthened. Hence the Keene fancies have been the weakest on the list and the Gould stocks least effected, though at one time, it is said, Keene undertook to retaliate on Gould by making a "drive" at the latter's stocks, this was not so successful, however, as Mr. Gould resorted to strategy by which he unloaded his M. K. and T. on Keene, just before it broke. In this transaction, it is reported on the Street, that Mr. Gould told in confidence, certain brokers who operate both for himself and Mr. Keene, to buy M. K and Texas for their own account as there would be a movement in it. They did so and also told Keene, in confidence, what Mr. Gould had told them, the result was Mr. Keene loaded up, as said, just before the break. Mr. Gould sent his broker friends his checks for their losses on what he told them to buy, while Mr. Keene footed the bill and also paid Mr. Gould for his stock a round price.

To keep Mr. Gould in his position on the market which was going downward of its own weight from natural causes, the money market has again become stringent on the prospect of taxation of foreign bank capital used on the street, to the amount of some 25 to 30 million of dollars, which is causing its steady withdrawal from the street in call loans since Monday. This bill only awaits the Governor's signature, which it is thought will be withheld, to become a law, which would permanently take that amount out of the loan market at a time when money had begun to work comparatively easy as in the first of the week when stocks went up on the "covering" of the short interest. Who inspired this bill is a matter of surmise as is the author of the Hurd bill in Congress, prohibiting the transportation of goods from and to the West over Canadian roads. There is a direct connection between both, and Wall Street speculation at the moment, and suspicion squints that way for the cause. We fail to see why foreign capital should not be subjected to just the same taxation as home capital, for its own protection, while in the latter we do not see how the United States can prohibit its citizens from shipping their goods by whatever line of road they may choose, so that they comply with the laws of the country, neither do we see how it can thus discriminate against foreign railroads so they comply with the same regulations as our own railroads.

The tightness in money was partially relieved by the sale of $3,000,000 bonds to the Treasury, Wednesday, which stayed the decline in stocks for the moment. The prices paid show ⅛ per cent advance, however, in the old issues. Other classes of bonds have not been in general demand, as the investment inquiry is limited in the present state of the money market, although early in the week they were firm on 4@6 per cent money.

The Treasury contemplates increasing its deposits in its regular bank depositories, which will increase the supply of loanable funds if done.

The Lehigh and Wilkesbarre and the Jersey Central were reported to be in condition to come out of the Receiver's hands early in the week and their stocks went up. At the close, however, this does not seem apparent from the course of these stocks.

The talk of making the stock of the New York Central $100,000,000 and retiring $10,000,000 of bonds is still going the rounds of the press.

The bank statement showed a gain in reserve of $1,654,000 owing to a decrease in loans consequent upon the general decline in prices.

The Treasury has begun the prepayment of the May interest which amounts to $6,250,000 which with the $3,000,000 paid for bonds should go far to making good the withdrawals of foreign bank capital above described.

Rumors are getting current that Mr. Gould is going into Western Union Telegraph again and absorb his new American Union Co.

Imports are still large though decreasing, being about $10,000,000 per week, while exports are on the increase, being over $3,000,000 the past week, largely of cotton, provisions, and grain. Yet the excess of imports over exports from January 1st is over $57,000,000.

Iron is falling off heavily, Scotch standard pig iron selling at $24 per ton, equal to $15 after deducting freight and duty. This is $10 from the top prices and American is $11@12 from the top.

Coffee and tea are drooping and not yet at bottom it is thought.

The Coal trade is curtailing production and the market is not in satisfactory condition, as will be seen elsewhere in these columns. Cotton has gone out more freely of late but the decline that stimulated it has been checked thereby and now the exports are falling off again. The same is true of Breadstuffs and Provisions and the other side with good supplies for current wants, do not buy faster than wants require. The tendency is therefore still downward all over.

Foreign Exchange has been quiet and for the most part dull and steady, until the foreign bank tax bill was passed at Albany, when it became stronger. The quarrel between the members of the South Western Railway Association has been settled on the old basis of December last.

The Huston self-leveling berth as a preventive of sea-sickness has been introduced by Messrs. Alexandre & Co., of this city, on their Havana and Mexican line. A very satisfactory exhibition on their steamer Alexandria was given Wednesday.

Mining stocks are still under ban, the dead weight of mismanagement dragging down the market with all old dividend as well as new properties. The Little Pittsburg fiasco is not ended for Chaffee and Moffatt have had to take back 40,000 shares sold at $16 and these have either been thrown on the market or are expected to be, and the price has gone down to 5⅞. This has dragged down all Eastern mines, while the Pacific mines went down first in San Francisco from some unknown cause.

To show the extent of the reaction in prices since the New Year began and the boom in most articles ended, a comparison of prices, then and now, of some dozen of the chief articles of speculation, gives fully 20 per cent decline. Wheat has fallen the most, from $1 65 as the top price to $1 28 per bushel.

The closing quotations on Thursday were: Atlantic and Pacific Telegraph, 42¾@43; Canada Southern, 61¾@62; Central of New Jersey, 75@75⅛; Central Pacific, 72@72½; Chicago and Northwestern, 93⅛@93⅜; do. pref., 109@110; Chesapeake and Ohio, 20@21⅛; do. 1st pref., 27@30; do. 2d pref., 21⅛@25; Chicago, St. Paul and Minneapolis, 57⅛@58; Chicago, Milwaukee and St. Paul, 77@77⅛; do. pref., 101¾@102¼; Chicago, Rock Island and Pacific, 190@200; Chicago and Alton, 108@109½; do. pref., 125@127; Chicago, Burlington and Quincy, 122@124; Cleveland and Pittsburg, 112½@114; Cleveland, Columbus, Cincinnati and Indianapolis, 75¾@76; Col., Chicago and Indiana Central, 14½@15; Delaware and Hudson Canal, 79@79½; Delaware, Lackawanna and Western, 84⅛@85½; Hannibal and St. Joseph, 33⅞@34; do. pref., 72@72¼; Houston and Texas Central, 68@70; Illinois Central, 104½@104⅞; Lake Shore and Michigan Southern, 106¾@107; Louisville and Nashville, 133@134; Michigan Central, 89@89¼; Morris and Essex, 106@106¼; Manhattan Railway, 30½@31¼; Metropolitan Elevated, 95⅛@97; Mobile and Ohio, 19@23; Nashville, Chattanooga and St. Louis, 72¾@73½; New York Elevated, 112½@113; New York Central and Hudson River 130@130¼; New York, Lake Erie and Western, 42¼@42⅜; do. pref., 64½@65; New York, Ontario and Western, 29⅜@29⅝; Northern Pacific, 28¼@28½; do. pref., 51⅛@51¾; Ohio and Miss. 33¼@33½; do. pref., 73@—; Pacific Mail, 39⅛@39⅝; Philadelphia and Reading, 69@70; St. Louis and San Francisco, 33½@36; do. pref., 51@52½; do. 1st pref., 66@72; St. Louis and Iron Mountain, 48⅛@48¾; St. Paul and Sioux City, 42@42½; do. pref., 76¼@77; St. Louis, Alton and Terre Haute, 20@—; do. pref., 60@65; Union Pacific, 86¾@87; Western Union Telegraph, 105⅞@106; Wabash, St. Louis and Pacific, 38¾@38⅞; do. pref., 66¾@66⅞.

The following quotations of sales of Railway and other securities, for the week, are in addition to those given elsewhere in our columns:

New York.—Chicago, St. Louis and New Orleans R. R., 31½; do. 1st consol., 111½; Chesapeake and Ohio 1st pref., 27¼; do. 2d pref., 23⅛; do. 1st, Series B, 68⅛; Keokuk and Des Moines R. R., 10; do. pref., 33; Lake Erie and Western R. R., 30⅞; do. 1st, 99¼; do. inc., 61; Louisville, New Albany and Chicago R. R., 90; Mobile and Ohio R. R. 20; do. 1st deben., 73; do. 1st, 102; Missouri, Kansas and Texas R. R., 35½; do. consol. ass., 102; do. 2d, 62; Nashville, Chattanooga and St. Louis R. R., 74½; New York, Ontario and Western R. Jerome Park Railway Co.

The gentlemen named as directors of the Jerome Park Railway Company are : Leonard W. Jerome, Eugene M. Jerome, H. Alexandre, Edward O. Gould, Charles W. Griswold, Thomas R. Jackson, Theodore Moss, E. C. Morrison and C. W. Bathgate. President, Leonard W. Jerome ; Treasurer and Secretary Eugene M. Jerome. The capital is placed at $50,000. There are two routes. The first, known as the Jerome Park and Harlem Railroad Route, will begin within the limits of Jerome Park and run to a point of connection with the New York and Harlem Railroad at or near the present Jerome Park station. The second, known as the Jerome Park and Harlem River route will begin within the limits of the Park and run to a connection with the lines of the West Side and Yonkers Railway Company, not less than 1,000 feet north of the station known as Morris Dock. The first route is to be completed before April 1, 1881, and the second a year later.

South Carolina Railroad.

The Receiver of the South Carolina Railroad Company has filed in the United States Court his report of the operations of the road from October 1, 1878, to December 31, 1879. The earnings were $1,423,340, the expenses, $874,177, and the net earnings $549,162. The receiver has paid out for interest on first mortgage bonds $238,216, for legal expenses $23,707, and for freight cars $42,105. There is due for first mortgage interest prior to and including July 1, 1879, $99,488. The cash balance on hand is $184,051, to which must be added balances due by agents and others, amounting to $75,545.

☞ The ten days' debate in the Dominion Parliament on the proposed construction of the Canada Pacific Railway shows a strong feeling in its favor, and the test vote gave 142 in its favor to 49 against it, which gives the ministry a strong enough support to carry it through provided the money can be raised, of which it is estimated 60 to 70 millions of dollars will be required.

☞ Grading has commenced on the Nebraska branch of the St. Paul and Sioux City Railway. On the Sioux Falls extension of the same road graders are working on 38 miles of road.

☞ The report of the Receiver of the Ohio and Mississippi Railroad shows that the receipts of March last amounted to $634,054 40. The disbursements in the same time amounted to $180,669 75, of which $35,290 21 was for liabilities incurred prior to the appointment of the Receiver. The cash balance on hand 1st April was $355,282 86.

Pittsburgh, Cincinnati and St. Louis Railway Company.

To the Stockholders of the Pittsburgh, Cincinnati and St. Louis Railway Co:

Your Directors submit herewith their report of the results of the operation of your road during the past year, and also of the several lines in which you are directly interested, together with a statement of the physical condition of these properties, and the financial status of your company, December 31, 1879.

PITTSBURGH, CINCINNATI AND ST. LOUIS RAILWAY.

Earnings:	1879.	1878.
Freights	$2,643,713 92	$2,270,835 88
Passengers	760,841 09	701,607 22
Express	60,923 82	54,678 28
Mails	127,720 70	130,670 32
Rent of railway	3,600 00	11,424 99
Other rents	2,998 95	3,749 54
Miscellaneous	8,325 28	8,404 34
Totals	$3,603,123 76	$3,176,370 57
Expenses:		
Conducting transp.	$796,221 40	$834 375 58
Motive power	517,583 19	469,122 80
Maintenance of way	383,028 38	398,225 92
Maintenance of cars	216,561 47	200,884 18
General expenses	90,166 57	86,998 56
Totals	$2,003,561 01	$1,989,607 04

The expenses were 55.61 per cent of the gross earnings, as against 62.64 per cent for 1878:

The net earnings for 1879 were	$1,599,562 75
Add amount received from hire of equipment	11,024 76
Received from interest on investments	2,997 90
Total net revenue for 1879	$1,613,585 41
Total net revenue for 1878	1,211,617 84
Increase	$401,967 57
From the above revenue of	$1,613,585 41

Deduct payment as follows:

Interest on 1st mortgage consolidated bonds	$446,635 00	
One year's interest on 2d mortgage bonds, held by Penna. Co.	175,000 00	
Interest on S. & I. R. R. Co. 1st mortgage bonds	180,000 00	
Interest on Columbus and Newark Division bonds	31,990 00	
Interest on securities received under Little Miami lease, which has been credited to income acco'nt of that road	79,444 00	
Interest charged to Car Trust, series "D"	53,500 00	
Interest charged to Car Trust, series "E"	4,035 86	
Rent of Monongahela Extension	37,500 00	
Total charges to net revenue		1,008,104 86
Profit for 1879		$605,480 55
Profit for 1878		371,383 84
Increase		$234,096 71

To the above profit for 1879, viz:		$605,480 55
Add net revenues of the other lines operated by your company, the details of which will be stated hereafter, viz:		
Chartiers Railway	$24,749 25	
Pittsburgh, Wheeling and Kentucky Railroad	26,339 95	
Cincinnati and Muskingum Valley Railway	110,142 17	
Little Miami Railroad	550,233 51	
Columbus, Chicago and Indiana Central Railway	756,300 83	
		1,467,765 71
Total		$2,073,246 26
From which deduct payment as follows:		
Rent of Chartiers Railway	$23,749 25	
Rent of Pittsburgh, Wheeling & Kentucky Railroad	26,339 95	
Interest on bonds of Cincinnati and Muskingum Valley Railway Company	105,000 00	
Interest and dividends paid Little Miami Railroad Company, including loss in operating Cincinnati Street Connection Railway	709,086 28	
Interest on Cincinnati Street Connection Railway bonds	23,625 00	
Receivers of Columbus, Chicago and Indiana Central Railway	756,300 83	
One-half loss in operating St. Louis, Vandalia, & Terre Haute Railroad	16,144 44	
		1,661,245 75
Profit on all lines for 1879		$412,000 51
Loss on all lines for 1878		139,757 21
Gain for 1879		$551,757 72

There was an increase in both local and foreign tonnage during the year, and the number of tons carried was 2,726,847, as against 2,142,155 in 1878; the revenue per mile was 7.2 mills, as against 7.9 mills in 1878; but the cost was reduced to 4.2 mills. The reduction in cost was due to the improved condition of the property, an increased tonnage mileage of 27 per cent, and a diminished empty car mileage, the latter being but 14.61 per cent of the aggregate; and the effect of a largely increased movement in through West bound tonnage, and also in local coal and coke.

There were carried during the year 778,461 passengers, as against 747,455 in 1878, the increase being entirely in local travel. There was a material decrease in the cost of doing the passenger business.

During the year there were used 625 tons of steel, and 109,417 ties; 2⅛ miles of additional side track were laid, and 9⅛ miles were ballasted with stone, and 6 miles with gravel and slag.

Additional double track is needed both at Columbus and Pittsburgh to accommodate the increasing traffic of the line.

Very extensive renewals and repairs of bridges were made upon the line, 1,086 feet of iron and stone spans being substituted for wood; this included the rebuilding of the large bridge over the Tuscarawas river, composed of three 153 feet spans. The work upon the Monongahela bridge was also completed, the piers of the Saw Mill Run bridge strengthened, and a large amount of flooring renewed; the entire expenditure under this head was $74,567 10.

The condition of the equipment was fully maintained, and ten ten-wheeled locomotives were purchased to replace the same number condemned and broken up. 1,000 additional freight cars were placed upon the line under the Car Trust arrangement formerly explained, and the company thus enabled to further reduce the amount heretofore paid for car service.

The load and mileage of engines both show an improvement over the preceding year.

PITTSBURG, WHEELING AND KENTUCKY RAILROAD.

Earnings:	1879.	1878.
Freights	$46,810 34	$24,816 71
Passengers	27,148 81	23,082 30
Express	2,101 79	.....
Mails	1,537 68	1,038 04
Miscellaneous	.....	78 00
Totals	$77,598 62	$49,315 05
Expenses:		
Conducting transp.	$15,903 05	$13,220 94
Motive power	9,479 15	7,777 86
Maintenance of way	16,275 44	17,298 38
Maintenance of cars	48 81	29 18
General expenses	2,543 60	684 59
Totals	$44,250 00	$30,010 95

The expenses were 57.02 per cent of the gross earnings as against 79.11 per cent for 1878.

	1879.	1878.
Net earnings	$33,348 57	$10,304 10
Less hire of equipment	7,008 62	4,684 88
Net amount paid Pittsburgh, Wheeling & Kentucky Railroad	$26,339 95	$5,619 22

The views entertained in regard to the value of this road as an auxiliary to your main line are being entirely verified.

The number of tons carried was 121,808, as against 45,653 in 1878, being a large increase in both local and foreign traffic; the number of passengers carried was 63,123, as against 47,991 in the previous year, the increase being entirely in local travel.

The condition of the track and road-bed has been much improved; and 17.7 miles were ballasted with gravel and slag. In view of the heavy and growing traffic, it will soon be necessary to renew the rails with steel, and to provide additional side tracks and terminal facilities at Wheeling.

CINCINNATI AND MUSKINGUM VALLEY RAILWAY.

Earnings:	1879.	1878.
Freights	$250,966 54	$228,706 44
Passengers	105,203 47	95,693 48
Express	8,265 87	6,000 00
Mails	8,047 44	8,259 21
Rents	722 00	758 24
Miscellaneous	1,460 80	1,979 35
Totals	$374,766 12	$340,396 72
Expenses:		
Conducting transp.	$72,308 10	$71,704 59
Motive power	62,801 04	75,912 20
Maintenance of way	85,049 66	121,422 61
Maintenance of cars	25,176 28	30,785 46
General expenses	19,188 87	18,261 84
Totals	$264,523 95	$318,086 70

The expenses were 70.60 per cent of the gross earnings as against 93.45 per cent for 1878.

Net earnings for 1879	$110,142 17
Net earnings for 1878	22,310 02
Increase	$87,832 15

The balance of the net earnings, after the payment of $105,000 interest on bonds, was applied on account of advances heretofore made to meet deficiency in net earnings.

The number of tons carried during the year was 285,784, against 255,928 in 1878, being an increase in both local and foreign tonnage; the number of passengers carried was 189,636, against 177,010 in the preceding year, the increase being

mainly in local travel; but the rates on both freight and passenger traffic show a further reduction as compared with the previous year.

The condition of the roadway and equipment was fully maintained; 42,479 ties, and 709 1760-2240 tons of re-rolled iron were put in the track.

It is believed that through the extension of the Columbus and Sunday Creek Valley Railroad into the Perry County coal region, an important traffic can be thrown upon this line, which would add materially to its revenue. Under an arrangement made with that company the right to use the portion of the line between New Lexington and Bremen has been granted for twenty years from November 1, 1879, at an annual rental of $4,681 17, in addition to its proportionate part of the running expenses and cost of maintenance of the property, the use of which is so leased.

LITTLE MIAMI RAILROAD.

Earnings:	1879.	1878.
Freights	$734,995 24	$639,599 69
Passengers	457,472 51	436 260 95
Express	38,661 84	45,912 22
Mails	47,933 23	49,013 65
Rents	28,159 98	27,634 31
Miscellaneous	25,273 01	25,270 46
Totals	$1,332,495 81	$1,223,691 28
Expenses:		
Conducting transp.	$306,176 45	$300,193 05
Motive power	209,907 06	210,270 98
Maintenance of way	210,921 86	266,359 75
Maintenance of cars	65,633 09	69,165 32
General expenses	99,067 93	102,524 71
Totals	$891,706 80	$948,513 81

The expenses were 66.92 per cent of the gross earnings, as against 77.51 per cent for 1878.

Net earnings for 1879	$440,789 51
Add amount due this road on division of earnings with C. C. & I. C. Railway	30,000 00
Add for dividends and interest on securities transferred with lease	79,444 00
Total net revenue for 1879	$550,233 51
Against which were charged:	
Twelve months' rent of road	$710,518 24
Twelve months' interest on Cincinnati St. Connection bonds	23,625 00
Twelve months' loss in operating Cincinnati St. Connection Railway	2,935 26
	$737,078 50
Less profit in operating Newport and Cincinnati Bridge	4,267 22
	732,711 28
Net loss for 1879	$182,477 77
Net loss for 1878	363,250 72
Decrease	$180,772 95

The tonnage for the year was 787,769 tons, against 624,564 tons in 1878, being a large increase in both local and foreign.

The number of passengers carried was 835,541, against 850,950 in the preceding year, the decrease being principally in local travel, but the passenger mileage shows an increase.

The condition of the track and structures was much improved. 2,814 tons of 60-pound steel rails were laid, making a total length of 82 miles of steel, and 62,211 ties put into the track. Over 6 miles of the road-bed were ballasted with gravel, and numerous repairs made to bridges, 582 feet of iron plate girders being substituted for wooden spans.

The equipment was fully maintained during the year. Additional depots are needed at Springfield and Dayton, and also at Cincinnati, for the accommodation of the freight and passenger traffic.

CHARTIERS RAILWAY.

Earnings:	1879.	1878.
Freights	$36,336 16	$33,189 37
Passengers	44,716 79	46,361 16
Express	1,840 80	3,130 00
Mails	1,581 21	1,622 85
Miscellaneous	185 55	184 00
Totals	$84,660 51	$84,487 38
Expenses:		
Conducting transp.	$12,443 81	$11,422 07
Motive power	10,627 88	9,972 95
Maintenance of way	29,933 34	18,840 14
Maintenance of cars		160 53
General expenses	1,059 48	1,503 66
Totals	$54,064 01	$41,899 35

The expenses were 63.86 per cent of the gross earnings as against 49.59 per cent for 1878.

	1879.	1878.
Net earnings	$30,596 50	$42,588 03
Less hire of equipment	5,847 25	5,451 86
Net amount paid Chartiers Railway Company	$24,749 25	$37,136 17

The tonnage increased largely, having been 167,571 tons, against 110,250 tons in 1878; the number of passengers carried was 130,743, against 126,718 in the previous year.

The increase in expenditure was in the maintenance of way department, in improving the condition of track and bridges.

COLUMBUS, CHICAGO AND INDIANA CENTRAL RAILWAY.

Earnings:	1879.	1878.
Freights	$2,815,910 09	$2,379,660 74
Passengers	852,500 77	799,645 42
Express	64,218 23	62,446 08
Mails	103,953 59	106,672 71
Rent of railway	67,101 80	69,102 68
Other rents	5,244 33	5,526 27
Miscellaneous	2,332 47	10,611 50
Totals	$3,911,261 28	$3,433,665 40
Expenses:		
Conducting transp.	$1,059,515 96	$956.727 84
Motive power	890,459 58	789,891 17
Maintenance of way	777,140 79	772,038 48
Maintenance of cars	224,529 74	261,415 61
General expenses	203,314 38	242,979 24
Totals	$3,154,960 45	$3,022,151 34

The expenses were 80.66 per cent of the gross earnings, as against 88.02 per cent for 1878.

Net earnings for 1879, to credit of C. C. & I. C. Railway Co.	$756,300 83
Net earnings for 1878, to credit of C. C. & I. C. Railway Co.	411 514 06
Increase	$344,786 77

The tonnage moved was 2,310,058 tons, against 1,791,981 tons in 1878, being an increase in both local and foreign. Though carried at a lower rate than in 1878, the cost of movement was more than proportionately reduced; and the line, it will be noted, shows a very large increase in net earnings.

There were 695,552 passengers carried, against 663,917 in 1878, the increase being in local travel.

The motive power and car equipment of the road are in improved condition, seven ten-wheeled locomotives having been purchased, and heavy repairs made to cars.

During the year, 123 miles of track were ballasted with gravel and sand, and numerous repairs and renewals made to bridges. 544,604 ties, 2,658 tons of iron, and 8,319 tons of steel rails were used in renewal. There are now 139½ miles of track laid with steel.

The property is in better condition than at any time since the lease.

ST. LOUIS, VANDALIA AND TERRE HAUTE RAILWAY.

Earnings:	1879.	1878.
Freights	$362,486 79	$669,023 04
Passengers	343,763 22	218,123 36
Express	35,797 81	34,794 27
Mails	69,964 17	54,888 54
Miscellaneous	5,274 60	6,591 07
Totals	$1,317,286 59	$1,086,420 28
Expenses:		
Conducting transp.	$313,975 32	$245,893 58
Motive power	213,091 47	189,281 40
Maintenance of way	310,494 13	264,783 99
Maintenance of cars	91,881 99	61,961 01
General expenses	24,946 62	25,563 78
Totals	$954,389 53	$890,483 76

The expenses were 72.45 per cent of the gross earnings, as against 81.97 per cent for 1878.

The net earnings for 1879 were	$362,897 06
Against which were charged:	
Rental, 30 per cent of gross earnings	395,185 97
Net loss for 1879	$32,288 91
Net loss for 1878	130,400 69
Decrease	$98,111 78

One-half of the above loss, $16,144 44, is a charge against the income of the P., C. and St. L. Railway Co.

There were carried, during the year, 900,294 tons, against 701,502 tons in 1878, the increase being mainly in through traffic; 240,730 passengers were carried in 1879, against 201,176 in 1878.

During the year 2,521 tons of steel rails were put in the track, and the condition of the property was generally improved.

* * * * * *

Up to the end of the year, $2,711,000 of the coupon bonds of the company were converted into registered bonds; this included $280,000 of the 7 per cent Steubenville and Indiana Railroad bonds, and $39,000 more of the same bonds were converted into the coupon bonds above referred to.

Under a settlement made with the County of Allegheny, Pennsylvania, $61,318 74 have been received, in full settlement of the loss consequent on the destruction of your property at Pittsburgh, during the riots of July, 1877.

* * * * * *

The thanks of the company are due to the officers and employes for their faithful services during the past year; and the board take pleasure in stating that the financial condition of the company is such as to warrant an increase of their compensation on and after the first day of April next.

By order of the Board of Directors.

THOMAS A. SCOTT,
President P., C. & St. L. Railway Co.

Columbus, Ohio, March 16, 1880.

☞ At the annual meeting of the stockholders of the Valley Railroad Company, held in Cleveland, Ohio, on the 21st inst., W. J. Boardman and L. M. Coe were elected directors for three years and John Tod to fill a vacancy. The board organized by electing J. H. Wade President, S. T. Everett Vice-President and Treasurer, Samuel Briggs Superintendent, C. B. Childs Chief Engineer, and W. B. Porter Secretary. The receipts of the company for the year ending March 31, 1880, were $1,030,931, exceeding the expenditures by $49,572.

☞ The first sod of the Emory-Savona (British Columbia) Railway will be turned on the 24th of May. The labor of 4,000 men will be required in the construction of this road.

☞ The work of changing the gauge of the Canada Southern Railway has been completed.

American Iron and Steel.

The following statement of the number and capacity of iron and steel manufactories of the country is from the preface to a work recently prepared by Mr. J. M. Swank, Secretary of the American Iron and Steel Association:

Number of completed blast furnaces, March 1, 1880	697
Number of blast furnaces building March 1, 1880, 23 Bituminous, 12 Anthracite, 9 charcoal—total	44
Annual capacity of completed furnaces, in pig iron, net tons	6,500,000
Annual capacity of 203 Bituminous furnaces, net tons	2,825,000
Annual capacity of 228 Anthracite furnaces, net tons	2,600,000
Annual capacity of 66 charcoal furnaces, net tons	1,075,000
Number of completed rolling mills and steel works March 1, 1880	382
Number of rolling mills and steel works building March 1	10
Number of single puddling furnaces (a double furnace counting as two single ones)	4,467
Number of heating furnaces	2,419
Number of trains of rolls	1,397
Annual capacity of rolling mills in finished iron, net tons	4,000,000
Annual capacity of rail mills, in heavy rails, net tons	2,150,000
Number of rolling mills having nail factories	73
Number of nail machines	4,152
Number of complete Bessemer steel works March 1, 1880	11
Number of Bessemer steel works building March 1, 1880	2
Number of Bessemer converters 22 completed; 10 building	32
Annual capacity in ingots, net tons; completed converters, 1,250,000; new converters, 500,000—total	1,750,000
Number of completed open-hearth steel works March 1	22
Number of open-hearth steel works building March 1	3
Number of open-hearth furnaces—33 completed; 6 building	39
Annual capacity in ingots, net tons: completed furnaces, 225,000; new furnaces, 50,000—total	275,000
Number of completed crucible cast steel works March 1	35
Number of crucible cast steel works building March 1	3
Number of cast steel melting pots in the completed works	3,080
Annual capacity in ingots, net tons	90,000
Number of miscellaneous steel works March 1, 1880	9
Number of steel manipulating works March 1, 1880	31
Number of completed forges (one building) March 1, 1880 (make wrought iron from ore)	69
Annual capacity in blooms and billets, net tons	85,000
Number of completed bloomeries (one building) March 1, 1880 (make blooms from pig iron)	60
Annual capacity in blooms, net tons	80,000

Increase in Illinois Central Business from their New Orleans Extension.

The Illinois Central road does a very large business for nearly half the year in carrying fruits and vegetables from the southern states and the southern portion of this state to Chicago and the north. Its line from this city to the southern extremity of Illinois traverses 365 miles of varying latitude, Cairo at the end being almost as far south as the north line of Tennessee, while its main line from Dubuque to Cairo is no less than 458 miles long. From the latter point the Chicago, St. Louis and New Orleans road, owned by the Illinois Central, runs straight on to the gulf at New Orleans, 550 miles, so that the entire line from Chicago to New Orleans is 910 miles long and extends over 12 degrees of latitude. So when winter still reigns at the northern terminus gardens and orchards are in bloom at the opposite end of the route, and as the season advances the line of ripened vegetation moves northward until the autumn harvests are ripe on the shore of Lake Michigan. To meet the opportunities for this special traffic the Illinois Central runs special fruit express trains which move at passenger train speed and arrive at five o'clock every morning at Chicago. Here they are met by a great number of wagons, often between 200 and 300, sent by the various commission houses and dealers in fruit and vegetables, the cars are immediately unloaded and in about an hour are started southward again. The Illinois Central has some forty cars built for this special service which brings the early products of southern climes to the tables of the north, fresh from the field and garden.—[Railway age.

Oregon Railroads.

The Oregon Railway and Steam Navigation Company propose to build the present season thirty miles of railroad, commencing at Texas ferry on Snake River, and extending up Palouse valley. The contract for furnishing ties is already let, and the work of grading is soon to commence. It is the purpose of the company to have thirty miles completed this year, in time to handle the grain crop. The road will be of the standard gauge, and will, ultimately be continued down on this side of Snake river until a junction is effected with the other line, either at Wallula or Walla Walla.

The Oregon Railway Company, limited, has purchased all the interest of Joseph Gaston and other parties in and to the Dayton, Sheridan and Grand Ronde Narrow-gauge Railroad. The Receiver of the road has been relieved of his duties, and the Oregon Railway Company, limited, assumes entire control. The same company has purchased in the East 4 Mogul freight engines, 7 passenger and 65 freight cars, to be completed immediately and shipped overland. It has also purchased iron for 67 miles of track. One thousand men will be put to work and the ground broken next Monday at Silverton, Marion county, with great ceremony.—[Portland Dispatch, Apl 14.

Iron Trade Statistics.

The following is an extract from a circular statement recently issued by Mr. James M. Swank, Secretary of the American Iron and Steel Association, showing the exports of iron and steel from Gt. Britain to the United States in the month of March, and during the three months ending with March, 1880, compared with the corresponding periods of 1879 and 1878:

	Month of March.		
	1878. Tons.	1879. Tons.	1880. Tons.
Pig iron	1,761	3,429	106,302
Old iron	349	1,034	44,861
Steel, unwrought	389	657	5,625
Tin plates	8,417	14,861	14,801
Hoops and sheets	67	146	4,479
Bar, angle, bolt and rod	504	524	10,482
Iron and steel rails	106	272	15,198
Total	11,503	20,963	201,748

	Three Months.		
	1878. Tons.	1879. Tons.	1880. Tons.
Pig iron	5,341	9,792	232,523
Old iron	569	1,601	99,262
Steel, unwrought	1,187	1,432	11,125
Tin plates	24,139	32,983	42,071
Hoops and sheets	156	235	14,421
Bar, angle, bolt and rod	1,626	715	23,827
Iron and steel rails	109	1,184	43,367
Total	33,127	47,892	466,696

The following is a statement of the exports of railway iron of all kinds from Great Britain to all countries during the month of March and the quarter then ended:

	Month ending March 31.		
	1878. Tons.	1879. Tons.	1880. Tons.
United States	106	372	15,198
Russia	2,112	29	1
Turkey	7	8	....
British India	5,405	14,464	16,622
British North America	568	59	336
Egypt	138	94	95
Australia	7,718	9,784	3,153
Brazil	2,078	5,532	1,579

Total	109,757	85,751	129,411
Total exports from Gt. Britain of all iron and steel to all countries	486,506	499,100	927,436
Total iron rails	36,186	10,505	32,796
Total steel rails	47,290	52,504	76,955
Total rails	83,476	63,009	109,751

Baltimore and Drum Point Railroad.

Mr. Augustus Albert, president of the Baltimore and Drum Point Railroad Company, went to Annapolis yesterday and had an interview with the board of public works in regard to the proposed sale of the State's interest in the Annapolis and Elkridge railroad, in regard to which there was legislation at the late session of the General Assembly. Three acts were passed by the Legislature in connection with this matter. One of the acts authorizes the sale of the Annapolis and Elkridge road on the completion of the Drum Point road and its operation; the second author-

izes consolidation of the two concerns, and the third extends the Drum Point charter. All the legislation is contingent on the actual building and operation of Baltimore and Drum Point road, and it is further provided that neither the Baltimore and Ohio nor the Baltimore and Potomac roads shall become the owner of the Drum Point or Annapolis and Elkridge roads. The board of public works has not yet considered the question of the sale. The act fully empowers the Governor, comptroller and treasurer to effect the transfer if it is considered advantageous to the interests of the State. It is understood that the New York capitalists backing the enterprise desire that the State of Maryland should arrange terms in advance for the acquisition of the Annapolis and Elkridge road. If terms cannot be arranged their representatives believe the work will go on independently. So far, however, the indications have been thrown out that the State will not be illiberal, and the movers in the enterprise confidently expect that a satisfactory arrangement may be made. Counsel representing the New York parties have been in Baltimore in regard to the matter, and they are understood to be satisfied with the legislation on the subject.—[Balt. Sun, April 28.

Elkton and Middletown Railroad.

A certificate of incorporation has been taken out, under the general railroad law of Maryland, by Jacob Tome, Thos. Drennen, John H. Jamart, Henry H. Brady, Richard C. Mackall and Wm. H. Gilpin, to build a railroad from some point at or near Elkton, Cecil county, to the State line dividing Maryland from Delaware. A charter has also been obtained from the Delaware Legislature to extend the proposed railroad to Middletown, in Delaware, where it will connect with the Delaware railroad. At the last session of the Maryland Legislature an act was passed authorizing such connection to be made. A further act was passed transferring to the road, to be known as "The Elkton and Middletown Railroad of Cecil County," the sum of $58,000 appropriated heretofore by the State to the Elkton and Masseys Railroad, the construction of which was subsequently abandoned. The line of the Elkton and Middletown railroad has been already located between those points, the distance being about 12 miles. It is said that the cost of constructing this link will not be over $200,000. The effect of its construction, so far as the citizens of Baltimore are concerned, would be to lessen the distance now traversed over the Philadelphia, Wilmington and Baltimore road to Wilmington, to which city all passengers and traffic now have to go in passing overland by rail to the counties of the Eastern Shore. The town of Elkton, where the proposed railroad will tap the Philadelphia, Wilmington and Baltimore road, is but 52 miles from Baltimore, whereas Wilmington is 69 miles; and as Philadelphia is but 28 miles from Wilmington, the trade from the Eastern Shore of Maryland, which formerly came to Baltimore, has been diverted to Philadelphia. By constructing a railroad 12 miles long, from Elkton to Middletown, a large part of this trade would be recovered to our citizens; for the Delaware railroad, with which connection would be formed at Middletown, runs down the whole length of the peninsula to Crisfield, in Somerset county, and with its numerous feeders, covers, south of Middletown, a length of 466 miles. Besides the ordinary trade of those counties, it is estimated that the product of grain of all kinds on the Delaware and Maryland peninsula amounts to about twelve millions of bushels annually. A part of this reaches either Baltimore or Philadelphia by water; but the greater part of that which now goes overland to Philadelphia would, it is believed, take the Elkton and Middletown cut-off, if the latter road were built, and come to Baltimore, by reason of its being the better market, * * * and as the sum required to build it, in addition to the State appropriation, is not large, it is for our merchants and capitalists to consider what they will do towards helping the incorporators to construct the road.—[Balt. Sun.

Southern Minnesota Railway.

The bondholders' committee of the Southern Minnesota Railway Company have issued a circular making public that they have unanimously approved the sale of the company's railroads and franchises to the Chicago, Milwaukee and St. Paul Railway Co. The latter company is to issue $6,124,000 bonds in exchange for bonds outstanding, and reserves the remainder of a $9,000,000 mortgage on this division for further construction and equipment. The length of the Southern Minnesota Railway is as follows:

	Miles.
Old main line from Mississippi River to Winnebago City	167
Extension, Winnebago City to Flandreau Dak	138
Branch, Wells to Mankato, formerly Central Railroad of Minnesota	40
Total operated	345
Graded and under construction, extension from Flandreau to Sioux Falls	40
Total	385

The extension has been built and the Central Railroad purchased on the unaided credit and resources of the company under the management of the bondholders without involving the company in floating debt, and these additions to the property have added materially to its position and value in the late negotiations with the Chicago, Milwaukee and St. Paul Railway Company.

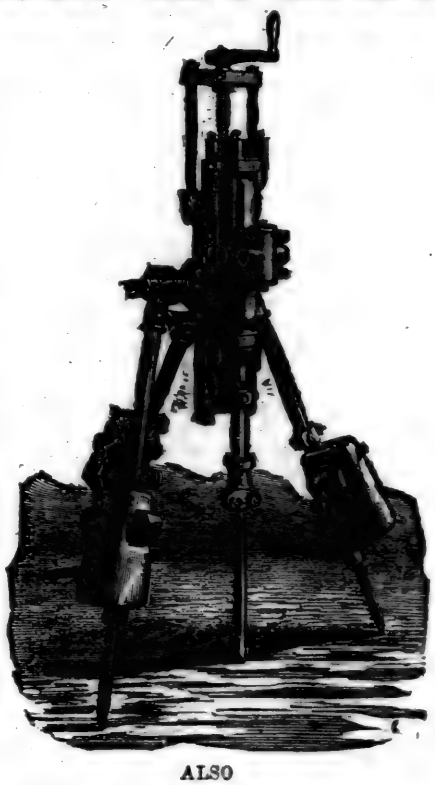
The Mortgage Liens on above Railroads are:

Southern Minn. R. R. "Pink" bonds, 7 per cent		$225,000
Do. construction bonds and accrued interest	$4,474,876	
Less concession to C. M. & St. P. R	309,376	
		4,165,000
Extension bonds 7 per cent, redeemable at par		1,266,000
Central R. R. 1st mortgage 7 per cent bonds, $600,000 redeemable at 78 per cent of par value		468,000
Total		$6,124,000

The Chicago, Milwukee and St. Paul Railway Company, by the terms of sale, provides for an issue of $9,000,000 in 6 per cent "Southern Minnesota Division" mortgage bonds, of $1,000 each, which, under the mortgage, can only be applied as follows, viz:

Nos. 1 to 6,124 to retire the above-mentioned liens.

Nos. 6,125 to 6,586 to complete the railway from Flandreau to Sioux Falls.



Nos. 6,587 to 7,000 to the purchase of equipment for and making permanent improvements on the "Southern Minnesota Division."

Nos. 7,001 to 9,000 to the construction and equipment of an extension of the branch from Mankato to Minnesapolis and St. Cloud, but only to the amount of its actual cost, and not exceeding $15,000 per mile, in sections of ten miles each of completed road.

☞ The Trustees of the Cincinnati Southern railroad have decided to immediately proceed with the construction of the road from Boyce's Station to Chattanooga, and have directed the engineer to advertise for bids. It is estimated it will require about $75,000 to build the five miles.

☞ The New Orleans, Mobile and Texas Railroad was sold at New Orleans on the 24th inst., by a special master in chancery to a committee of bondholders for $4,000,000.

The investigation of frauds on Railway Companies a specialty.

The Coal Trade.

The total tonnage of anthracite coal from all the regions for the week ending April 17th, as reported by the several carrying companies, amounted to 598,627 tons, against 468,648 tons in the corresponding week last year, an increase of 129,979 tons. The total amount of anthracite mined for the year is 6,038,160 tons, against 6,225,556 tons for the same period last year, a decrease of 187,396 tons. The quantity of bituminous coal sent to market for the week amounted to 79,520 tons, against 79,152 tons in corresponding week last year, an increase of 368 tons, The total amount of bituminous mined for the year is 953,540 tons against 863,018 tons for the corresponding period last year, an increase of 90,527 tons. The total tonnage of all kinds of coal for the week is 678,147 tons, against 547,800 tons in corresponding week last year, an increase of 130,347 tons, and the total tonnage for the coal year is 6,991,700 tons, against 7,088,569 tons to same date last year, a decrease of 96,869 tons. The quantity of coal and coke carried over the Pennsylvania Railroad for the second week of April was 154,228 tons, of which 107,978 tons were coal and 46,250 tons coke. The total tonnage for the year thus far has been 2,027,098 tons, of which 1,424,203 tons were coal and 512,895 tons coke. These figures embrace all the coal and coke carried over the road east and west. The shipments of bituminous coal from the mines of the Cumberland coal region during the week ended April 17 were 59,986 tons, and for the year to that date 477,179 tons—134,857 tons over the corresponding period of 1879. The shipments to the Baltimore and Ohio Railroad for the week were 40,600 tons, and for the year 898,716 tons, an increase of 149,820 tons over 1879. The shipments to the Chesapeake and Ohio Canal for the week aggregate 12,748 tons, and for the year 21,491 tons, a decrease of 24,664 tons as compared with last year. shipments to the Pennsylvania Railroad for the week were 6,638 tons, and for the year 56,972 tons, an increase of 9,700 tons over last year.—[Phil. Ledger, April 26.

☞ It is stated that a meeting is shortly to be held in this city for the purpose of taking steps for effecting the consolidation of the Memphis and Charleston, the East Tennessee, Virginia and Georgia, and the Atlantic, Mississippi and Ohio railroads, so as to make one continuous line from Memphis, Tenn., to Norfolk, Va.

☞ St. John (N. F.) advices says large numbers of seals are being taken all along the northern coast, even up to St. John. Six hundred were brought in Friday and eight hundred Saturday. They are also in abundance all along the coast from St. John. North winds have driven them in shore.

☞ The Dundee correspondent of the London Press Association says a part of the lattice work of the Tay bridge has been recovered, which bears marks tending to sustain the theory of Sir Thomas Bouch, chief engineer and projector of the bridge, that the train went off the track before the bridge fell.

☞ The improvements about the Camden depot of the Pennsylvania Railroad Company begin to take shape and display much activity. The Lehigh Coal pier, at the foot of Stevens street, which is 800 feet long and 20 feet above the water at ordinary tide, is being laid with tracks, and will soon be completed.

☞ A railroad, about five miles long is to be built from the West Jersey Railroad, near Cape May Court House, to Anglesea, a new summer resort on the Atlantic, above Cape May

American Railroad Journal.

HARLAN A. PIERCE, Editor.

New York, Friday, May 7, 1880.

"Railway Kings in this Country are the Most Faithful Servants of the People."

So saith the *Railway World* of Philadelphia to which the public are indebted for the above assuring intelligence, at a time when the public mind is most unpleasantly exercised by the belief in, and fear of, an unscrupulous management of our vast railroad system in the interest of these Railway Kings and their favorites who are first, last and always consulted at the expense of the great mass of the people who are taxed for the benefit of these few, whose power is absolute, or only checked by a Board of Directors, whose interests are made the same as those of the controlling managers, who are therefore not only Railway Kings, but despots, and the people their servants, instead of they "the servants of the people."

The *World* takes Mr. Gould as the representative Railroad King of the day and then cites as proof that he is not such, and has no such controlling power, the fact that he is President of only one unimportant road, the Missouri Pacific. It may be news to the editor of the *World* that Mr. Gould has never been President of but one or two roads before, while he has made and unmade the Presidents and Directors of, and controlled in one way or another, more roads, and does to-day, than Col. Scott, Garrett and Vanderbilt together, while his directors are so mixed up with his stock speculations, in which they are dependent on him, that he can control these directors whom he created, as he does the Presidents he made or permits to be. To say that he does not control the Union and Kansas and Wabash Pacific systems shows that the editor knows very little of what goes on in the railroad management of the country outside of Philadelphia. He might be surprised to know therefore that Mr. Gould forced the Kansas and Union Pacific consolidation a few months ago against the Union Pacific directors; also that he forced Vanderbilt to dispose of his controlling interest in New York Central by his control of the Wabash and Pacific business which the New York Central could not get along without, and keep up his eight per cent dividends. He may not know that Gould is the virtual President to-day of a continuous line from New York to San Francisco by rail and thence to China by the Pacific Mail steamers, by which he half surrounds the world to-day.

Mr. Gould is not vain glorious and fond of seeing his name figure as President of this and that railroad. He is content to be the power behind the throne or rather the throne itself. How idle therefore for this editor to put himself on record in print in such words as these, "the Wabash Company has never been under Mr. Gould's control either as holder of stock or in any other way," and that he has "no more control or influence in the Kansas and Union Pacific roads then will always be accorded to a director who has clear views of railway management."

After such misstatements of notorious facts, it is not surprising that he should say these railroad kings possess no power or influence which could be misused by them, and that "no railway line or system can be formed in this country, which could survive a year, if it were not managed in the true interests of the great body of the people who are its patrons." The climax, however, is reached in the last sentence of this remarkable leading "editorial," which we have quoted for the caption of this article, in which the editor, without laughing his readers in their face, says, "The railway kings in this country are the most faithful servants of the people."

Pennsylvania Railroad.

The directors of the Pennsylvania Railroad Company on Saturday last, after performing the pleasant duty of declaring a 3 per cent dividend upon the stock of the company, had presented to them another matter which must have caused them the deepest regret. This was the resignation of Col. Thomas A. Scott as the President and a director of the company, which he tendered to the board in the letter published below. The advice given him by the eminent physician under whose care he is was such as could not be disregarded, and yet it is rare to find a man, even of Col. Scott's exceptional ability, who is willing to recognize such a necessity as the one that has arisen in this case.

The illness which compelled Col. Scott to go abroad was one which, while it in a measure interfered with his physical activity, in no sense clouded his keen intellect or made him one whit the less able to grapple with the important questions inseparable from his position as President of the Pennsylvania Railroad Company.

Those who have been intimate with Col. Scott since his return from Europe know that his mind is as clear and bright as it ever was,

and believe that, with proper care and abstinence from unnecessary labor, he can practically be restored to his former state of health. But no man can fill the position which he holds in the chief railroad corporation of the country without being subjected at all times to great labor, and very often to that abnormal strain which is bound to toll upon the strongest organization.

While acknowledging that Col. Scott's course in this matter is the proper one, and while deeply regretting his loss, and recognizing that it is one which cannot be fully replaced, the Board will, no doubt, feel that it is dictated by the soundest judgment and a proper regard not only for Col. Scott's own welfare but for that of the company to which his lifetime has practically been devoted.

The strong financial position which the Pennsylvania Railroad Company now occupies, and the fact that on Saturday the Board was able to resume 6 per cent dividends upon the stock, make the present a peculiarly favorable time for a change in the leadership. In parting with the company, which he has done so much to build up and place in its present proud position, Col. Scott has the assurance that it stands upon such a strong conservative basis that it only requires prudent management in the future to insure the most gratifying returns to its owners. Those interested are satisfied that those who may succeed him in the charge of its affairs will make it their care to further strengthen its position, so that its securities of all kinds will be safe beyond a peradventure.

All the lines from New York, Philadelphia and Baltimore in the East, to Chicago, St. Louis, Louisville and Cincinnati in the West, have been put in admirable condition within the last five years; and, as shown by the returns published each month, the Western lines especially—which at one time were looked upon as a source of weakness to the company—have now become strong factors in contributing to its financial success. Col. Scott will always be specially remembered as associated with the leases of these Western roads, and it is but another tribute to his sagacity that he recognized far in advance the elements of their future strength, and saw how important these feeders would be to the prosperity of the present company.

Col. Scott's railroad life has been such a busy one—his association with the company stretching over a period of thirty years—that it would be impossible to recall here, even briefly, the many important measures that have been matured under his supervision. But outside of the Pennsylvania Railroad there is probably no enterprise to which more of his energy has been given than to the completion of the Texas and Pacific Railway as an additional highway across the continent. This is already in so prosperous a condition that it more than responds to the expectations of its projectors, and the rails are being rapidly laid so as to reach the Rio Grande by January 1, 1883.

It will be generally recognized that a step such as Col. Scott has taken means the severance, to a very large degree, of the official relations which have extended through nearly two-thirds of his life. But there is reason to believe that all his friends will soon have occasion to congratulate him upon a complete restoration of health and strength. The city of Philadelphia is too largely indebted to the Pennsylvania Railroad ever to forget how much it owes to the gentleman who will, in a few brief weeks, lay down a position which he has so admirably filled for many years past.

Col. Scott has been connected with the Pennsylvania Railroad since 1850. When a lad he collected tolls for the company at Columbia, and gradually worked his way up until, in 1859, he was made Vice-President. At the death of J. Edgar Thomson, in 1875, he was exalted to the Presidency, and this office he has since held without interrruption. In the fall of 1878 he was stricken with paralysis of the left side. His foreign trip benefitted him somewhat, but of late it has been apparent that he was not able to bear up physically. It is with great difficulty that he is able to walk, and he always carries a stout umbrella to aid his movements. His left foot, leg and arm are almost useless. It is only with great exertion that he is enabled to converse, as the left side of his face is also affected.

The following is the letter which was read before the Board:

PHILADELPHIA, May 1, 1880.

To the Board of Directors of the Pennsylvania Railroad Company:

Gentlemen: After a service of nearly thirty years with the Company, I find it necessary to tender my resignation as its President and as one of its Directors, to take effect June 1st.

I do this only because I am assured by my physicians that it is indispensable to a possible restoration of my health, that I should be relieved from the cares and responsibilities inseparable from the position.

I had hoped to continue in the service of the Company during the residue of my life, but, under the advice referred to, this is no longer practicable.

It has not been without much careful thought that I have reached this conclusion as the one best, not only for myself but for the interests of the Company, as I feel that the duties of your chief executive can only be properly performed by one in thoroughly strong health and able himself to act promptly and efficiently in all emergencies that may arise.

I need not say with what keen regret I sever relations which have extended through nearly two-thirds of my life, and which have associated with them the most gratifying recollections of faithful support and adherence to the interests of the Company on the part of those in every department of the service with whom I have been officially or otherwise connected.

In resigning the trust with which the shareholders and board have honored me, I feel sure that the property will be safely and wisely administered by those who may be my successors. And I can only add that with its present high standard, both physically and financially, a faithful adherence to the conservative policy set forth in your last Annual Report will, in my judgment, bring about results that cannot but be satisfactory to the management and gratifying to the shareholders. If I can aid at any time to advance such results, it will give me very great pleasure to do so.

I beg to return my thanks to each and every member of the Board, and to the officers and employes of the company for the earnest and kindly support which I have received from them in the performance of the duties that have devolved upon me.

Very respectfully yours,

THOMAS A. SCOTT.

Great Western Railway of Canada.

DIRECTORS' REPORT.

The accounts for the half-year ending January 31, 1880, are submitted to the proprietors.

The revenue of the half year compares with that of the corresponding period to January 31, 1879, as follows:

	Jan. 31, 1879.	Jan. 31, 1880.
Gross receipts, including the Galt and Guelph (now incorporated with the main line and branches).....	£393,400	£461,140
Working expenses, including credits to reserve funds...	260,322	281,952
	£133,078	£179,188
Loss on working leased lines, interest on bonds, debenture stock, &c.....	104,626	99,977
	£28,452	£79,211
Balance from previous half-year.... ....Cr.	747	Dr. 6 260
Balance for dividends..	£29,199	£72,951

The net result of the half-year's working is an improvement over the corresponding half of 1879 of £50,759.

From the available surplus of £73,950 the directors recommend the payment of dividend on the 5 per cent preference stock for the entire year to January 31, 1880, amounting to £25,288, and a dividend on the ordinary shares for the half year at the rate of 1½ per cent per annum, which will absorb £45,876, leaving a balance to be carried forward of £1,787.

A comparison of the gross earnings on the main line and branches (including the Galt and Guelph) shows the following results:

Increase in local passenger earnings.....	£4,548
Increase in through passenger earnings..	6,144
Increase in local freight earnings.... ...	28,873
Increase in live stock earnings....	505
Increase in through freight earnings	33,951
Increase in mails, express freight, and sundries	2,471
	£71,493
Decrease in through live stock earnings.	3,753
	£67,740

The directors look with satisfaction on this general increase in all description of traffic, the sole exception being in the through live stock business, which is accounted for by the transit of American cattle through Canada being still prohibited. The total tonnage carried during the half year was 1,041,532, against 813,954, an increase of 28 per cent; in consequence, however, of the extreme low rates current in the early part of the half year, the average rate received for through freight business has not been quite so favorable as in the corresponding period of 1879.

Whilst the the gross earnings have increased by £67,739, the working expenses show an excess of only £21,630 over the corresponding period

of the previous year. The percentage of working expenses to gross receipts amounted to 61.14 per cent, or excluding transfers to reserve funds in both half years, the comparison is 61.21 per cent against 64.88. The earnings and working expenses per train mile for the last six corresponding half years compare as follows:

Half-years ended.	Earnings per train mile.	Working expenses excluding reserve and other funds. Per train mile.	Per cent of gross receipts.
	s. d.	s. d.	
Jan. 31, 1875.....	6 8¼	4 11¼	74 38
Jan. 31, 1876	5 7	3 11¼	70 99
Jan. 31, 1877	4 9	3 8¼	78.11
Jan. 31, 1878...	5 2¼	3 ?¼	63.19
Jan. 31, 1879....	4 11¼	3 2¼	64.88
Jan. 31, 1880....	5 5¼	3 4	61 21

The expenditure necessary for the protection of the company's interests, in respect of the Detroit bridge and tunnel and of the Queenston bridge charter, amounting to £2,206, the directors have decided to debit revenue in four half yearly instalments; the sum of £551 is therefore charged in the present accounts in net revenue No. 10.

The directors stated in their last annual report that the revenue for the half year ended the 31st July, 1879, did not admit of the usual credits being made to the various reserve funds. In the present accounts it will be observed that these credits, on the basis explained in the report to 31st January, 1879, have been resumed, and the full half year's contributions have been charged to revenue account. The following figures exhibit the position of the several reserve funds at the end of the half year:

	Balance July 31, 1879.	Debit or credit during the half year.	Balance at Jan. 31, 1880.
Ferry steamers renewal fund.....	£18,250	£3,219	£21,469
Locomotive renewal fund.....	120,549	Dr. 1,562	118,987
Car renewal fund.	88,890	Dr. 8,638	80,252
Rail and bridge renewal fund.....	27,570	4,873	32,443
Insurance fund...	2,055	.....	2,055
Leased lines suspense account..	Dr. 46,261	Cr. 1,761	Dr. 44 500
	£161,053	Dr. 347	£160,706

The charges to capital account for the half year amount to £16,001, as detailed in account No. 5. Five per cent perpetual debenture stock has been placed to the extent of £10,000, leaving on 31st January a balance at the debit of capital account of £7,932.

Excluding the Galt and Guelph (the receipts and expenses of which are incorporated with those of the main line and branches in the half year to the 31st January, 1880, Account No. 9), the loss on working the leased lines amounts in the half year to £11,882, against £15,462, showing an improvement of £3,630. The sum of £4,600 being the equivalent of 20 per cent of the additional traffic interchanged during the half year with the Wellington, Grey and Bruce Railway, will, under existing agreements, be applied as usual to the acquisition of the bonds of that company, at par, on the 1st July, 1880.

The directors have much gratification in reporting, that the working of the Detroit, Grand Haven and Milwaukee Railway Company has been satisfactory. The net revenue from the 19th October to the 14th November, 1878, amounting to $26,188, has, by arrangement, been credited to the capital account of that company. From the 15th November, 1878, when the interest on the bonds of the Detroit, Grand Haven and Milwaukee Company commenced, to the 31st December, 1879, a period of 13½ months, the revenue, after providing for interest on the whole of the bonds guaranteed by this company, and funds for the renewal of permanent way and rolling stock, exhibits a surplus of $50,557. This amount, from which a dividend will be payable in respect of the share capital, held by this company, is not available for the past half year.

The directors have to announce that Mr. Brackstone Baker, who had held the position of secretary to the company for a period of 26 years, retired from that office on the 31st January last. Mr. Walter Lindley, who had previously so satisfactorily filled the position of accountant, has been appointed secretary.

A bill submitted by this company to authorize the formation of a superannuation and provident fund for the officers and servants has received the sanction of the Dominion Legislature. The bills before parliament promoted by other parties, and affecting the interests of this company, are receiving the attention of your directors. The Local Government of Ontario have at length expressed an opinion, that the system of subsidies to local lines has been carried far enough, and have refused further pecuniary aid this session. The fact that so many railways already constructed in Ontario, and comprising a large mileage open for traffic, are paying no dividend on their stock, speaks volumes against the policy which has for some years been followed without regard in many cases to public necessity. In conclusion the directors congratulate the shareholders on the progress the company has made during the half year, and are glad to report that the traffic and rates continue good, and that the Trunk Line companies apparently desire to maintain harmonious arrangements.

On behalf of the Board of Directors,
FRANCIS D. GREY, President.
London, 12th April, 1880.

Col. Scott's Successor.

Thirty years ago George B. Roberts, then sitting at his desk in a surveyor's office, and serving the Pennsylvania Railroad as a rodman, is reported to have said that he had rather be President of the Pennsylvania Railroad Company than of the United States. In a little more than a month he will attain his ambition, for his succession is almost absolutely certain. He has been close beside Col. Scott for many years. He first entered the service of the company five months later than Col. Scott, as rodman in the engineer corps. During the Summer following his accession to the road, in March, 1851, he became assistant engineer in charge of the division on the summit that included the great tunnel. In 1852, in the Fall, he left the Pennsylvania to become assistant engineer of the Philadelphia and Erie, and during the 10 years that followed he was actively employed in building railroads. He was an engineer on the North Pennsylvania Railroad, which was opened in 1855, and on the Northwestern. On the Allentown, the Mahanoy and Broad Mountain, and the West Jersey he was chief engineer and filled that office when they were completed. In 1862, on May 28, he was called to the position of assistant to the President of the Pennsylvania Railroad, on account of this engineering skill and ability as administrative officer. Seven years later on May 3, 1869, he was made Fourth Vice President, and March 26, 1873, Second Vice President. When Col. Scott was elected President, June 3, 1874, Mr. Roberts succeeded him as First Vice President, and during Col. Scott's absence in Europe for a year and a half he was acting President. He has for many years occupied a prominent position in the boards of roads controlled by the Pennsylvania, and, as has been stated above, has already succeeded Col. Scott in most of the Western boards.—[Philadelphia North American, May 3.

New York and Atlantic Coast Railroad.

The charter has been filed in the office of the Secretary of State of New York at Albany of the New York and Atlantic Coast Railroad Company. The charter provides for a line of twenty-five miles, from Bay Ridge to Hick's Beach, L. I. The capital stock will be $500,000, with the privilege of increasing it to $5,000,000. Beginning at Bay Ridge, adjoining the terminus of the Manhattan Beach Railroad, the new road is to run along the shore of New York Bay to Fort Hamilton, thence across Gravesend Bay and along the beach to Coney Island at high water mark from Keating's Beach House to the extreme easterly end, passing in front of Cable's and the Brighton Beach Hotels. The road will continue along the ocean shore to Rockaway Beach and Far Rockaway, near where the large hotel is building. The incorporators of the company are S. Lenox Tredwell, P. D. Gibbs, Henry Rudd, Gardner E. Tufts, John Gannon and John J. Kierst, of this city; John Rooney, John Rooney, jr., and John Fitzgerald, of Brooklyn; James B. Clow, W. A. Dunklee, George M. Irwin and George S. Redfield, of Chicago, and William Currie of Jersey City.

Chrysolite Silver Mining Co.

The superintendent of the Chrysolite reports under date of April 26, that during the week previous 252 feet of drifts have been driven and 52 feet of shafting and winzes sunk. The Roberts shaft was down 175 feet; one half iron in the bottom, indicating the approach to another and lower ore streak. Chrysolite shafts Nos. 3 and 4 were at the new level. The south drift from shaft No. 4, and the west drift from the Roberts first level were expected soon to be connected. The new level was being hurried with all speed to strike what all signs indicate will be an extraordinary development of ore. The top of a rich body of ore has been struck in drifting south on the Carboniferous-Chief line. In one section the ore body was forty feet thick. The new level drift from the bottom of Chrysolite shaft No. 3 will tap this ore body. The Roberts west drift on the first level had sand carbonate on the south side, the ore stratum being in the roof. The Roberts east drift on the first level showed first class ore on all sides. Shipments for the month to April 26 were 2,134 tons. Shipments to April 30, 247 tons.

Ontario Silver Mining Co.

The net product of the Ontario silver mine from January 1, 1877, to March 1, 1880, is $4,319,402, and of dividends paid $2,600,000. President Haggin says, at the conclusion of his report to the stockholders: "From the best information I can get, I believe that your dividends will not only continue indefinitely, but at an early day will be increased." The "Last Chance" property, recently purchased by the company adjoins the Ontario where the ores are richest, and has been opened up from the levels of the Ontario with such favorable results that the new purchase is expected to yield as as much as the Ontario proper. The net product of silver per ton was $90 54, and the total cost $30 87, leaving a net profit per ton of $59 67.

☞ The product of the Homestake mine for the second half of April is reported at 3,883 ounces gold, making over $105,000 for the whole month; the largest for any month since the mine was opened.

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

Figures in each column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "¶."

Midland Railway of Canada.

From the report of the directors of this company for the year ending Dec. 31, 1879, we learn that the gross receipts have amounted to $259,226, as against $248,828 for 1878, showing an increase of $10,397. The working expenses, or rather the amount charged to revenue account, for the year, amounted to $221,685, as against $188,339 in 1878, an increase of $33,346; but this increase occurs altogether in the improvement of the property, no less than $121,563 of this amount having been expended in renewals and repairs, representing many important and substantial improvements to both the road and rolling stock that might fairly be charged to capital account. The percentage of actual working charges upon receipts was 38.63 against 40.15 in the previous year.

Statement of the Public Debt of the United States, May 1, 1880.

The foregoing is a correct statement of the public debt, as appears from the books and Treasurer's returns in the Department at the close of business, April 30, 1880.

JOHN SHERMAN,
Secretary of the Treasury.

☞ The Pennsylvania Railroad Company has declared a semi-annual dividend of 3 per cent, payable 28th instant. The books of transfer are closed until after that date. It is proposed to distribute the stock recently purchased by the company from the city of Philadelphia, and stockholders can receive in lieu of cash a dividend scrip which may be converted into stock at par in amounts of $50. This option extends until 1st October next.

☞ The gross receipts of the Pittsburg, Titusville and Buffalo Railway Company for the quarter ending March 31, 1880, were $111,893 01, the gross expenses $63,677 86, and the net profits $48,215 15. The net profits for same period in 1879 were $32 809 62; increase in 1880, 46.9 per cent, $15,405 53. The net profits for April, 1879, were $9,820 88; the net profits for April, 1880, are estimated at not less than $25,000.

☞ Work has been commenced on the Pomeroy Extension of the Ohio and West Virginia railroad. The grading between Pomeroy and Gallipolis is to be completed within ninety days, and trains running by October 1.

American Railroad Journal.

Financial and Commercial Review.

THURSDAY EVENING, May 6, 1880.

The markets on Wall Street and elsewhere the past week have been in a very unsettled, uncertain, and unsatisfactory position, both for speculation and legitimate purposes. The decline that has been steadily going on now for some three or four months has reached a point that some are inclined to regard as bottom, while others are as much of opinion that prices will go still lower, if not reach nearly those before the "boom" began last fall. Others still are in doubt, and this is the largest class of the three, and hence business in both speculative branches and in legitimate, is gradually coming to a stand still, awaiting for a settled basis of values to be reached. The preponderance of opinion the past week, however, has been towards lower prices, and in most markets the closing quotations this week are below those of last, although at the close there is in some cases a reaction, and in most, more steadiness, which is argued by the bulls as an evidence that the bottom has been reached, and that we are about on the turn for better business and prices. On the other hand the bearishly inclined say it is only a natural temporary reaction from the recent decline, and that so soon as the shorts are "covered" and a few bulls have gotten all the stock they dare take for a rise, and regular demand has been supplied for immediate wants, that we shall see more sellers of stocks, long carried, and awaiting a better market to get out with less loss, than buyers, and that prices will go lower than before. This latter is the more general

view than that we are on the turn, for the reason that in all markets nearly, the stocks are still very large, and held on speculation, which continually necessitates the dropping out of first one and then another speculative support to the markets, without bringing in any new ones, so long as the present tendency is in the ascendant.

To illustrate the situation in almost every staple, we have obtained from dealers in iron the lowest prices in these leading articles before the "boom," the highest on the "boom" and present prices, and stocks from which lower prices still are predicted. New iron rails were selling before the "boom" at $26@27, on the "boom" at $65@67 50, and are now offered at $50. Old do. $16, then $18@44, and now $24@25 and warehouses filled with them, as well as of Scotch pig iron, which went from $20 to $34@$35, and is now $23@$24, owing to the excessive importations, which are said to be enough for a year to come, and held by speculators. The same is true of steel rails, which advanced from $40 to 85@87 50, and are now offered at $62 50@67, while railroads are offering only $60@62 50, and some are holding off altogether, in expectation of $50@55 before the summer is over. Spanish magnetic ore, for Bessemer steel manufacturers, is now selling at $7 per ton, that sold at $10@11 on the boom, and the importers are said to be loaded with stocks. Copper went from 16@17 to 25c per lb., and is now selling at 21c. Iron advanced from 15@16c to 25@26c, and is now 18@19c again, with heavy stocks, of which, that in copper is largely re-importations. In the face of these facts the manufacturers of steel rails are refusing to sell ahead at the prices railroads will pay for new construction under way, namely, $60@62, although last fall when the market was going up instead of down, and still having a downward tendency, they were selling ahead and getting continually caught on their contracts. An article in another column on the "Disastrous Results of Last Fall's Boom" gives the financial views of this situation. This illustrates all the Markets, and there is little to be said in detail of any of them, except in confirmation of the foregoing

Money has worked easier the past week, showing that the late stringency was not the chief cause of the decline in prices.

Government bonds have been quiet and steady, at prices in the open market even below the prices paid by the Treasury for its weekly purchases of $3,000,000. State bonds have been neglected as well as most securities and railroad bonds. The foreign bank tax bill at Albany has been vetoed by the Governor, and all the capital withdrawn in consequence, as noted in our last, has returned to the street, as there will probably be no further legislation this term. These bankers inform us that they are willing to be placed on an equal footing with home banks and bankers as regards taxation. They now pay the General Government ¼ of 1 per cent upon their average loans like home banks, but as they are not allowed by state laws to receive deposits or issue bank bills like home banks, they do not think they should pay as much tax as they. They favor a bill to pay a license of a certain amount per million of average loans, which will be equal to that paid by home banks upon their loans of their capital, but not of deposits as the foreign banks have no deposits here.

Mining Stocks have been alternately firm and depressed without general activity or change in prices, although the demand is increasing and the market apparently getting into a more healthy position. The new American Mining Exchange is now organized and listing a good number of the most important mines, among which the two Bonanzas are noted. It will soon open for business and with this additional capital interested better prices are looked for soon. In Wall Street the Vanderbilt stocks have been pressed for sale by large holders, and have declined more than the general list, and Erie has come in for a greater decline than in a long time, it not having yet gone off with the balance of the list. At the close of our last, the Wall Street Market was sick under realizing sales of margin stocks, on which the coal shares suffered the most, as a heavy speculator was said to be unloading them, and Mr. Gould buying them. On the following day prices advanced on the "covering" of a large short interest which Mr. Gould was credited with "organizing," and on the prospective veto of the bank tax bill.

On this prospect, also, Foreign Exchange which had gone up on the proposed tax fell on the reduced demand for exchange to get foreign bank capital out of the State. This change helped the bank statement, which showed an increase in the surplus reserve which is now $3,277,450. Following this, however, stocks fell off again on an easy market as the manipulators willed it so, as they had the refund movement the day before and a bear market on the following Monday, succeeded by a better feeling afterwards.

The Utah and Pleasant Valley Railroad Company through their fiscal agents, Messrs. Sheldon & Wadsworth, paid the coupons on the First Mortgage bonds of the road, which is now doing an increased business, as the snow has gone and enabled it to resume its coking operations.

The closing quotations on Thursday were: Atlantic and Pacific Telegraph, 41@41⅛; Canada Southern, 60⅛@60¼; Central of New Jersey, 72½@72¾; Central Pacific, 64@—; Chicago and Northwestern, 91⅛@91¼; do. pref., 107½@107¾; Chesapeake and Ohio, 16½@17; Chicago, St. Paul and Minneapolis, 52@54; Chicago, Milwaukee and St. Paul, 74⅞@75; do. pref., 100½@101¼; Chicago, Rock Island and Pacific, —@189½; Chicago and Alton, 105@106; do. pref., 120@124; Chicago, Burlington and Quincy, 121@122; Cleveland, Columbus, Cincinnati and Indianapolis, 72½@73¼; Col., Chicago and Indiana Central, 11½@11⅝; Delaware and Hudson Canal, 77⅞@78; Delaware, Lackawanna and Western, 83⅛@83¼; Hannibal and St. Joseph, 30@30¼; do. pref., 68@68½; Houston and Texas Central, 58¼@59; Lake Shore and Michigan Southern, 103⅜@103⅝; Louisville and Nashville, 125@—; Michigan Central, 84½@84⅞; Morris and Essex, 106@107; Manhattan Railway, 28½@29; Metropolitan Elevated, 92⅛@92¾; Nashville, Chattanooga and St. Louis, 69½@72; New York Elevated, 113@114; New York Central and Hudson River 124¾@125; New York, Lake Erie and Western, 38¼@38⅜; do. pref., —@61; New York, Ontario and Western, 27½@27⅝; Northern Pacific, 24¼@24⅜; do. pref., 49⅝@49⅞; Ohio and Miss. 28⅞@29; do. pref., 74¼@—; Pacific Mail, 36@36¼; Philadelphia and Reading, 55⅜@55½; St. Louis and San Francisco, 30@32; do. pref., 45@45½; do. 1st pref., 62@—; St. Louis and Iron Mountain, 47¼@47⅜; St. Paul and Sioux City, 39@40; do. pref., 72@74; St. Louis, Alton and Terre Haute, 15@17; do. pref., —@55; Union Pacific, 84½@84¾; Western Union Telegraph, 103@103¼; Wabash, St. Louis and Pacific, 33⅞@34⅛; do. pref., 64¼@64½.

Lake Shore and Michigan Southern Railway.

At the annual meeting of the stockholders of the Lake Shore and Michigan Southern Railway Company, held in Cleveland, Ohio, on the 5th inst., the following gentlemen were re-elected directors: William H Vanderbilt, Augustus Schell, Samuel F. Barger, Cornelius Vanderbilt, William K. Vanderbilt, John E. Burrill and Darius O. Mills, of New York; Henry B. Payne and Amasa Stone, of Cleveland; Albert Keep, of Chicago; William L. Scott and Charles M. Reed, of Erie; and Rasselas Brown, of Warren, Penn. The Board was organized by the re-election of the following officers: President, Wm. H. Vanderbilt; Vice President, Augustus Schell; Treasurer and Secretary, E. D. Worcester; and General Manager, John Newell. From the report of the President, which was presented, it appears that the gross earnings of the road for the year ending December 31, 1879, were $15,271,492 47, and the operating expenses $8,934,524 42, leaving the net earnings, $6,336,968 05. The operating expenses for the year were but 58.50 per cent of the gross earnings, as against 60.70 per cent expended in 1878. Out of the net earnings, two dividends, one of 2½ and one of 4 per cent, amounting to $3,215,322 50, were paid, and the balance, with the exception of $56,520 48, which is retained in the Treasury, was expended in interest on the funded debt, dividends on guaranteed stock, the rental of four branch roads, the contribution of $250,000 to the sinking fund, and Ashtabula accident settlements, amounting to $60,128 00. In the operating expenses is included the cost of 9,500 tons of steel rails, increasing the number of miles of track laid with steel from 1,002 to 1,082. During the year an increase of $1,239,309, or 12.3 per cent is noted in the freight earnings over the previous year. The company owns 1,025 miles of road, and leases 152 miles. The first mortgage debt has been diminished by $250,000, and the second mortgage debt has increased $65,000, which represents the purchase made giving the company control of the Chicago and Canada Southern Railway. The funded debt January 1, 1880, amounted to $35,915,000, an increase of $415,000.

☞ At a special meeting of the Directors of the Pennsylvania Railroad Company, held in Philadelphia on the 5th inst., George B. Roberts was elected a member of the Board and President of the Company, to take effect on the 1st of June, upon the retirement of Col. Scott.

☞ The following gentlemen have been elected directors of the American Dock and Improvement Company: Francis S. Lathrop, John Kean, Frederick I. Frelinghuysen, Benjamin Williamson, Frederick A. Potts, George G. Haven and Samuel Knox.

☞ A company has been incorporated at Tucson, Arizona, under the name of the "Southern Arizona Railroad Company," to build and operate a railroad from the crossing of the San Pedro by the Southern Pacific Railroad to Tombstone.

☞ It is proposed to extend the Narrow gauge Southern Pacific Railroad from Pajaro to Hollister.

Hydraulics on a Railroad.

The methods of hydraulic mining have been employed with great success in clearing away the heavy slides of earth which occured recently on the Central Pacific Railroad above Alta. The mass of earth was so great, and the difficulty of handling it in the ordinary way so formidable, that unless water had been resorted to several weeks might have elapsed before the track was cleared. But the hydraulic miners were called upon for help, and they found the situation one which presented no perplexities to them. They brought up their pipes and monitors, constructed a flume from a ditch which was, fortunately, near at hand, and in 14 hours piped away a body of debris which had been the despair of picks and shovels. The tremendous power of hydraulic mining methods has been here exhibited in a very practical way, and for the benefit of the community. Those who witnessed the dispatch of this avalanche of earth have attained a lively perception of the effects produced upon the bluffs which contain the gravel deposits. It is, indeed, somewhat singular that the hydraulic monitor has never, so far as we are aware, been used in making cuts on railways where the soil is sufficiently soft to be piped. It might be thought that in such cases there would be great economy in the application of water-power, for a strong head of water directed by an experienced hand will cut out and carry away more dirt in one day than 50 men could shovel and pick in a week. The slide at Alta would have undoubtedly delayed the resumption of railroad travel very much longer, but for the happy thought of enlisting the monitors and little giants in the work of clearing the track.—[Sacramento (Cal.) Record-Union, April 24.

Northern Central Railway.

At the annual meeting of the stockholders of the Northern Central Railway Company, held in Baltimore on the 26th of February, the following report of the directors was presented and adopted:

OFFICE OF NORTHERN CENTRAL RAILWAY CO.,
BALTIMORE, February 26, 1880.

To the Stockholders of the Northern Central Railway Company:

Your directors submit the following report of the operations of the company for the year ending December 31st, 1879.

The revenue of your main line, with its leased and controlled roads, was as follows:

From passengers	$627,926 83
" freight	3,272,301 56
" express	59,647 22
" mails	42,741 18
" miscellaneous	105,332 03
Total	$4,107,948 82

The operating expenses were:

For conducting transportation	$956,020 93	
For motive power	816,200 77	
For maintenance of way	715,619 53	
For maintenance of cars	308,364 73	
For general expenses	65,736 01	
		2,861,941 97
Leaving as net earnings		$1,246,006 85

In comparison with the year 1878 there was an increase in gross earnings of $384,491 92, equal to 10.33 per cent.

Total expenses for 1878	$2,604,497 21
The expenses for 1879 were	2,861,941 97
Showing an increase in expenses of	$257,444 76

—being 9.88 per cent more than 1878.

The increase in net earnings was $127,047 16, or 11.35 per cent.

In addition to the net earnings as above stated		$1,246,006 85
There was received from dividends and interest	148,339 70	
Contribution for operating Elmira, Chemung, and Canandaigua Divisions, (from Pennsylvania Railroad Company)	159,736 96	
Royalty on coal mined—Shamokin Division	26,055 26	
Total net receipts		$1,580,138 77

Which have been applied as follows:

Interest on lien to State of Maryland	$90,000 00	
Interest on $1,490,000 mortgage bonds, due 1885	89,400 00	
Interest on $1,126,000 mortgage bonds, due 1900	67,560 00	
Interest on $2,804,000 gold mortgage bonds, due 1900	168,240 00	
Interest on $4,525,000 Consolidated General Mortgage gold bonds, due 1904, say twelve months on $4,425,000 and six months on $100,000 .... $268,500		
And on $18,000 drawn bonds, 6 months, to July 1, 1879. 1,440		
	269,940 00	
Interest on $1,000,000 second general mortgage, 6 per cent convertible bonds	60,000 00	
Interest on $3,000,000 second general mortgage, 5 per cent bonds	150,000 00	
Total interest on mortgage indebtedness of the company		$895,140 00
Interest, discount and taxes	26,623 11	
Rents and interest on mortgages & ground rents	30,918 63	
Rental Shamokin Valley and Pottsville Railroad	52,167 00	
Interest on bonds Shamokin Valley and Pottsville Railroad	140 000 00	
Interest on equipment Shamokin Valley and Pottsville Railroad	11,521 59	
Rents do do	982 81	
Rental Elmira and Williamsport Railroad	165,000 00	
Interest on equipment Elmira and Williamsport Railroad	29,166 92	
Rents do do	94 93	
Dividends Chemung R. R	22,800 00	
Interest on equipment Chemung Railroad	12,817 92	
Rents Chemung R. R	1,434 20	
Interest on equipment Elmira, Jefferson and Canandaigua Railroad	24,269 77	
Rents do do	3,297 24	
		1,416,144 12
Balance of net income for 1879, carried to credit of profit and loss account		$163,994 65

The net income of your property, therefore, exceeded all charges of every kind by the sum of $163,994 65.

In the following tables are given the sources of revenue and expenses of the several lines of the company for the year 1879, as compared with those of 1878:

Receipts from—	Maine Line.	Green Spr. Br.	Sham. Div.	Elmira Div.	Chem. Div.	Canand. Div.	Total.
Freight	$2,218,443 31	$5,497 28	$399,016 93	$877,381 17	$38,479 02	$182,533 85	$3,272,301 56
Passengers	419,665 99	2,098 80	16 040 58	98,079 13	39 035 69	53,006 69	627,926 83

Chemung Division	1,864,367	1 695,237
Canandaigua Division	2,407,854	2,189,290
Total	25,888,514	24,122,837

Net increase, 1,765,677, or 7.3 per cent.

The amount received from transportation of passengers in 1879 was	$627,926 83
The amount received from transportation of passengers in 1878 was	657,005 81

Decrease, $29,078 98, or 4.4 per cent.

The number of tons of freight moved was as follows:

	1879.	1878.
Northern Central Railway	3,964,918	2,991,586
Green Spring Branch	22,150	10,972
Shamokin Division	1,149 275	759,522
Elmira Division	1,118 693	793,649
Chemung Division	884 266	730,737
Canandaigua Division	781,564	516,905
Total	7,920,866	5,803,371

Increase, 2,117,495, or 36 487 per cent.

TONS ONE MILE.

	1879.	1878.
Northern Central Railway	272,299,044	192,579,792
Green Spring Branch	167,863	78,581
Shamokin Division	23,300,242	14,151,871
Elmira Division	61,336,074	39,197,023
Chemung Division	18,139,161	13,567,422
Canandaigua Division	28,950,377	20,662,053
Total	404,192,761	280,236,742

Increase, 123,956,019, or 44.233 per cent.

The earnings per mile of road were as follows:

Northern Central Railway—			
Baltimore Division	91	miles,	$20,475 56
Susquehanna Division	47	"	18,612 87
Main Line	138	"	19,841 16
Green Spring Branch	9	"	844 01
Shamokin Division	28	"	14,824 42
Elmira Division	78	"	6,169 36
Chemung Divisioc	22	"	5,806 16
Canandaigua Division	47	"	5,018 17

The tonnage of the main line of the Northern Central Railway was increased 978,332 tons, with an increase in earnings of $266,968 99,

On the Shamokin Railroad the increase in tonnage was 389,753 tons, increase in earnings, $143,337 91. On Elmira Railroad, increase in tonnage, 325,044 tons, increase in earnings, $34,528 05. On Chemung Railroad, increase in tonnage, 153,529 tons, decrease in earnings, $10,546 59. On Canandaigua Railroad, increase in tonnage, 264,659 tons, decrease in earnings, $858 81. On Green Spring Branch, increase in tonnage, 11,178 tons, increase in earnings, $1,272 27.

The total number of tons and tonnage mileage, and the revenue derived from the same, on all lines of the company, were:

	Tons.	Money.	Tons 1 mile.	Rate per ton per mile.
1879.	7,920,866	$3,272,301 56	404,192,761	.810
1878.	5,803,371	2,837,599 44	280,236,742	1.013
Inc.	2,117,495	$434,702 12	123,956,019	....
Dec.	.....	....	....	.203

The coal tonnage of the Main Line in 1878 was 871,232 tons, and in 1879, 1,185,145 tons. There was an increase in the trade going on to the Pennsylvania Railroad at Marysville and Dauphin of 74,818 tons. There was an increase of 3,321 tons to points on the Cumberland Valley Railroad. The total tonnage to Baltimore was 368,337 tons, an increase of 82,320 tons in 1879.

The coal tonnage of the Shamokin Branch in 1879 was 972,875 tons; in 1878, 655,581 tons—showing an increase of 317,294 tons.

The coal tonnage of the Elmira and Williamsport Railroad in 1879 was 595,519 tons, and in 1878, 463,029 tons—an increase 132 490 tons. The decrease from the McIntyre Mines, near Ralston, was 17,277 tons. In the north bound anthracite trade there was an increase of 96,463 tons.

The coal tonnage of the Chemung Railroad was decreased from 437,086 tons in 1878 to 431,258 tons in 1879—a total decrease of 5,828 tons.

On the Canandaigua Railroad the coal tonnage of 1878 was 275,061 tons; in 1879, 351,516 tons—an increase of 76,455 tons. There was a decrease of 4,111 tons in shipments to Coal Point, at Watkins, New York, and an increase of 80,566 tons in shipments to other stations.

On the Green Spring Branch the coal tonnage of 1878 was 5,302 tons, in 1879, 7,655 tons—an increase of 2,353 tons.

The decrease in the bituminous coal tonnage from the Erie Railway and Tioga and Elmira State Line Railroad, destined to points north of Elmira, as compared with the previous year, was 68,865 net tons, the decrease in revenue from this source being $9,317 16.

Your attention is particularly directed to the statistics of the freight traffic of your lines, as shown in the foregoing tables. It will be seen that while the tonnage mileage shows the very large increase of 44.3 per cent, the gross receipts, owing to the low rates prevalent during the year, only increased 15.3 per cent. Fortunately, the excellent condition of your property, as a result of the wise expenditures of the past few years, and the thorough efficiency of your service, enabled this largely increased tonnage to be moved without a corresponding increase of expenses.

The average receipts from freight on your main line, leased lines, and branches, were 0.810 cents per ton per mile; the cost per ton per mile was 0.540 cents, which we believe to be unprecedentedly low for a railway with the physical characteristics of yours.

During 1878 there were moved over your road to Baltimore 14,812,066 bushels of grain, and in 1879, 25,812,279 bushels. By means of the additional elevator erected on the old coal pier at Canton, alluded to in last year's report, this large business was handled with reasonable promptness.

To enable your company to secure its proper share of the tobacco business, a warehouse for the receipt, inspection, and storage of tobacco was erected at Canton. This warehouse will have to be enlarged this year, owing to the rapid increase of this class of traffic.

In the report of last year it was stated that arrangements have been made under which the Elmira and Williamsport seven per cent bonds, amounting to one million of dollars, falling due on January 1st, 1880, might, at the option of the holders, be extended for thirty years, at six per cent per annum. The holders of these bonds, with the exception of $33,000, have availed themselves of this privilege, and have had their bonds extended. The $33,000 of outstanding bonds are being purchased by this company on presentation, and will be extended, and the new bonds sold at a profit, thus more than re-imbursing your company.

Accompanying this report will be found the Treasurer's Income Account and General Financial Statement, together with the Profit and Loss Account for the year. From the latter it will be seen that the balance to the debit of the Profit and Loss Account, on December 31st, 1878, was, $276,850 18. On December 31st, 1879, the balance to the debit of the account was $97,186 67.

Your board take pleasure in reporting that your property is in excellent condition. Its roadbed, equipment, and all other facilities were never so complete as at present. We believe them to be now quite equal to the standard of other first class roads. There are now in the tracks of your various roads 32,795 tons of steel rails, leaving but 4,799 tons of iron rails remaining, which will be replaced by steel during the present year. In accordance with the conservative policy heretofore pursued by your company, all items of construction and equipment have, during the past year, been charged to expenses, the purpose being to place the company on a perfectly safe and sound financial basis.

In conclusion, your board desire to express their appreciation of the zeal and efficiency displayed by the officers and employes in all departments during the past year. They take pleasure also in saying that the reviving business of the country will, in their judgment, justify an increase of their compensation not later than the first of April next. The increase in the net revenue during the past year was so slight that the company was not warranted in taking this step at an earlier date. But they desire to convey the assurance that such further action will be taken from time to time as may be justified by the circumstances of the case.

By order of the Board of Directors.

THOMAS A. SCOTT, President.

Traveling Confidence Operators.

The *Hub* for May contains an account of the exploits of some traveling confidence operators who have come under the observation of Messrs. Valentine & Co., the great varnish house of this city, Chicago and Paris. These operators turned up as representatives of this house, in different parts of the country, and after selling goods and taking orders therefor obtained cash from their customers upon their drafts upon it. In this way "a n phew of Mr. Valentine" obtained $75 in Kentucky of one house and the same amount of another. Another appeared in Brooklyn, like the above, as successor of their old traveling salesman, and kindly took off their hands, the stock of one or two of Valentine's customers, which, they wished to exchange. Of course it has not been exchanged yet. This Brooklyn operator finally struck the wrong customer who had just met this man's predecessor, who, he was told by this operator, had been discharged some two weeks. This ended his operations in Brooklyn for Messrs. Valentine & Co., but he again turned up as the representative of another varnish house to continue his exploits. It is not so strange that men can be deceived in this way, as in the case of the ordinary confidence operator. Yet if people would follow Mr. Valentine's advice, "Never on his bare assertions, trust a man you don't know, with anything of value," such operations and operators as the above would both be impossible.

Disastrous Results of Last Fall's "Booms."

The following from the Produce Exchange Reporter is a very correct epitome of the financial, industrial, and commercial situation of the country to-day.

"These booms in Pork, Lard, Wool, Iron, Wheat, Paper, Cotton, Coal, Gas, Lumber, Cotton and Woolen goods, Real Estate and in Rents, are the great curse of the age, already the prosperity of the country is checked and confidence in the future greatly shaken, and the many men engaged in these booms are standing in a critical position, their credit impaired, as failures seem certain at no very remote period. That these wild and ill-timed speculations, in many of the leading and indispensible articles of food and trade, should be encouraged by our banks is a very great misfortune, and many of these banks are now likely to suffer for their imprudence and bad judgment. This most persons will not be sorry to learn. The purchasing power of our people is not such as to enable them to more than live at former rents, and at about last Autumns prices for most staple articles of food, but if all these are advanced 25@40 per cent more than a year since, it is perfectly plain that people must deprive themselves of very many useful articles of food and clothing, and consequently many branches of industry cannot fail to suffer."

☞ While railroad supplies manufacturers are generally reducing their production Mr. D. A. Hopkins is running his works over time to keep up with his orders for Patent Journal Bearings, for which he has received orders, since May 1st, for over 100,000 lbs., largely from Eastern roads.

☞ Surveyors are now engaged on the north shore of Staten Island making surveys for the Staten Island Rapid Transit Railroad Company.

Richmond and Southwestern Railroad.

Cumberland, County, Va., has voted, 6 to 1, to subscribe $50,000 to the Richmond and Southwestern railroad. The proposed road will start at Gloucester point at the mouth of the York river, extending to the southern boundary of the western part of Kentucky, and is intended to pass through West point, Richmond, Lynchburg, Fincastle, the counties of Craig, Giles, Bland, Tazewell, Russell and Wise, in Virginia, to Pound Gap on the boundary of Virginia and Kentucky, and from Pound Gap along the valley of the Kentucky river to Beattysville, and by the most direct route to Louisville, Ky., and along the valley of the Ohio and Mississippi rivers to the southern boundary of the State, touching at Owensboro', Henderson and Paducah, where it connects with the Danville, Olney and Ohio River railroad, (a three-foot gauge, which will give it a through connection to Chicago and the lakes,) now in course of construction.

From Paducah the road will run to Cairo, with the expectation of final extension to the Gulf of Mexico and to the far West. A loop will be constructed from Pound Gap, through or near Saylersville, in Magoffin county, by the most direct route, to Maysville, on the Ohio river, and along the Ohio valley, through Covington, opposite Cincinnati, to Louisville, there uniting with the first line. This line, extending from Gloucester Point to the Mississippi at the Tennessee boundary, including the loop line to reach Cincinnati and gather both east and west-bound freightage, is the trunk line, and will be built with double tracks, steel rails, and all the characteristics of a first-class railroad of three-foot gauge, bringing the city of Louisville within seven hundred and sixty miles of one of the best and safest ports on the Atlantic coast over a road under one ownership and one management. This line traverses an exceedingly rich country, which is almost destitute of railroad facilities.

East Side and Mount Vernon Railway.

At a meeting of the Rapid Transit Commissioners of Westchester county held at Mount Vernon on the 30th ult, for the purpose of adopting a name for the company which is to build the Westchester branch of the route it was decided to designate it as "The East Side and Mount Vernon Railway Company." The line is to begin at Bronxdale, between Williamsbridge and Woodlawn, and will run as straight as the topography of the country will permit to a point in Mount Vernon on Fourth avenue, between Third and Fourth streets, and thence to the southern terminus of the surveyed line of the New York, Housatonic and Northern Railroad, between Mount Vernon and Pelhamville; thence westerly, skirting Chester Hill to Corson's Corners, and southerly along the Bronx Valley to Woodlawn Heights where it is proposed to connect with the westerly branch of the Suburban Company's road, provided that company concludes to build this branch. The Westchester Company, which is to be organized and given a charter by the commissioners, will be required to build the road from Bronxdale to Fourth avenue, Mount Vernon, within five years from the organization of the company, and that portion from Fourth avenue westerly and southerly to Woodlawn Heights within ten years from the organization. The fare to be charged from Fourth avenue by either branch to the city line is fixed at the maximum rate of ten cents, and five cents between any two adjacent stations. On commission trains, which are to be run between the hours of six and eight o'clock A. M. and five and seven P. M., the maximum rate of fare is to be eight cents, no reduction being required between stations during those hours. The capital stock is to be $250,000, divided into 25,000 shares.

Grand Trunk Railway of Canada.

The revenue statement of this company for the month of February is as follows:

	1880.	1879.
Gross receipts	£153,393	£137,524
Working expenses	112,055	113,945
Net profit	£41,338	£23,579

—showing an increase in gross receipts of £15,869, a decrease in working expenses of £1,890, and an increase in net profit of £17,759.

The aggregate for two months (January 1 to February 29) is as follows:

	1880.	1879.
Gross receipts	£315,636	£291,185
Working expenses	231,890	235,091
Net profit	£83,746	£56,094

—showing an increase in gross receipts of £24,451, a decrease in working expenses of £3,201, and an increase in net profit of £27,652.

☞ The earnings of the Milwaukee, Lake Shore and Western Railway for 1879 were $315,942, the operating expenses $187,983, and the net earnings, $127,959. The total earnings for 1878 were $250,130. The net gain for 1879 is $75,626. The company owns 180 miles of road, with an average of 165 miles of road operated during the year. Its bonded indebtedness is $1,345,000; total interest bearing debt, $1,463,006; preferred stock, $5,000,000; common stock, $1,000,000. Cost of completed road and equipment, $7,546,082.

☞ The engineer corps of the Pittsburgh, Virginia and Charleston Railroad, are in the vicinity of Connellsville looking for a route through the coal fields lately opened up by the Connellsville Coke and Iron Company. The Southwest Railroad will also run a branch through the new fields. The former are now working in the vicinity of New Haven, with the view, probably, of running a road directly to the shaft.

☞ The Coney Island Elevated Railway Company, of which Alonzo Slote is the president, proposed to build an elevated railroad connecting Brighton and West Brighton Beaches, and crossing the Ocean Parkway. The Park Commissioners control the Parkway and have referred the matter to President Stranahan, with power.

☞ The Treasurer of the State of Connecticut, as Trustee, has taken possession of the Connecticut Western Railroad, on the petition of persons holding $1,289,000 worth of the bonds of the road, being more than one-third of the total amount of bonds. The Treasurer will probably take steps for foreclosure at once.

☞ The Newfoundland Legislature have passed the bill authorizing the building of a railway from St. John's through the Isthmus of Avalon to the head of Notre Dame Bay, with branch lines; $5,000,000 is to be borrowed for this purpose.

☞ Arrangements have been completed whereby the Chicago and Toman Narrow gauge railroad will hereafter be controlled by the Chicago and Northwestern Railway Company. There is completed 67 miles of road from Woodman to Lancaster and Montford, and the roadbed is graded from Wauzeka to Toman. It is the purpose of the Chicago and Northwestern to immediately extend the line from Montford to Madison.

Great Western Railway of Canada.

The gross receipts, working expenses, etc., of the Great Western Railway of Canada for the month of March, 1880, (excluding leased lines), were:

	1880.	1879.
Gross receipts	$409,600	$330,200
Working expenses	235,800	235,900
Net profit	$173,800	$94,300

—showing an increase in gross receipts of $79,400, a decrease in expenses of $100, and an increase in net profit of $79,500.

The aggregate for two months (February 1 to March 31) is as follows:

	1880.	1879.
Gross receipts	$709,500	$641,200
Working expenses	462,300	463,400
Net profit	$247,200	$177,800

—showing an increase in gross receipts of $68,300, a decrease in working expenses of $1,100, and an increase in net profit of $69,400. The working expenses include transfers to reserved funds.

Philadelphia and Erie Railroad.

The earnings, expenses and net earnings of the Philadelphia and Erie Railroad for the month of March, 1880, were:

Gross earnings	$327,678 32
Gross expenses	187,056 32
Net earnings	$140,522 00
Net earnings three months 1880	$593,146 26
Net earnings three months 1879	525,409 83
Increase	$70,736 43

☞ Judges Butler and McKennan have decided that the Philadelphia, Wilmington and Baltimore Railroad Company is a "citizen" of Pennsylvania, and can be sued in the Courts of that State. The three roads, of which this company consists, severally incorporated in Pennsylvania, Delaware and Maryland, were afterwards incorporated by Legislative enactment under the company's present title.

☞ Messrs. H. K. Porter & Co., of Pittsburg, have just completed the lightest locomotive ever made for actual service. The cylinders are but six inches in diameter. It is to haul gold and silver ore on a 20-inch track, from the mines of Friendersat raw & Co. of Arizona. Its capacity on a level track is 150 tons.

☞ The Harlan & Hollingsworth Company of Wilmington, Del., sent to New York on the 28th ult., by the steamer Columbia, 50 flat cars, 120 box cars and 14 passenger cars, for the Oregon Railway and Navigation Company, all packed in boxes to be sent by water to Oregon.

☞ George E. B. Jackson has been elected President, and Josiah H. Drummond Clerk of the Maine Central Railroad Company. The President was ordered to make a contract for a new iron bridge over the Kennebec at Skowhegan.

☞ The ceremony of breaking ground on the east side division of the Oregon Railway Company's proposed road was performed at Silverton.

West Side and Yonkers Railway.

A mortgage from the West Side and Yonkers Railway Company, organized in 1879, to the Central Trust Company was recorded in the office of the Register of this County on the 29th ult. The instrument was dated Feb. 1, 1880, and is given to secure the payment at the end of thirty years of registered first-mortgage bonds of $100 each, aggregating $1,142,500, and bearing interest at the rate of 6 per cent. The mortgageors are about building a railroad from River street and Eight avenue, this City, to Yonkers, connecting with the upper terminus of the Metropolitan Elevated Railway by a bridge over the Harlem River, and the money borrowed on these bonds is to defray the expenses of the road construction, which is authorized by the Rapid Transit act passed by the Legislature in June, 1875. The road "constructed, being or to be constructed," and all property appertaining thereto, including rolling stock, depots, &c., are mortgaged to the Trust Company by the instrument. It does not appear whether the road is to be elevated or not.

☞ The gentlemen named as directors of the Mechanicsville and Fort Edward Railroad Company are: Coe F. Young, of Honesdale, Penn.; Theodore Voorhees and E. F. Bullard, of Troy, N. Y.; Isaac V. Baker, of Comstocks; James Roosevelt, George L. Haight, and James C. Hartt, of New York, with Charles D. Hammond, J. White Sprong, Charles W Wentz, and Henry F. Marcy, of Albany, and others. The capital is placed at $100,000. The company has the property and franchises of the Schuylerville and upper Hudson Railroad, which was sold under foreclosure, and will maintain and operate that road.

☞ At the annual meeting of the Directors of the Vicksburg and Meridian Railroad Company, held at Vicksburg, Miss., on the 3d inst., Thomas Rigby was re-elected President, and Frederic Wolfe, of Montgomery, Ala,; George S. Obear, of Macon, Ga., and E. Richardson, of Jackson, Miss., were added to the Directory.

☞ The officers of the Little Rock, Mississippi River and Texas Railroad are: J. E. Redfield, President: G. S. Daniels, Treasurer; J. A. Woodson Secretary, and E. Winchester, John. H. Reed, Elisha Atkins and the President the executive committee.

☞ The following is the report of the canal business of Buffalo for the month of April: amount of tolls collected, $30,719 79; number of boats cleared, 440; shipments of grain—wheat, 1,953,831 bushels; corn, 832,921 do,; oats, 148,961 do,; rye, 33,150 do, ; malt, 23,934 do.

☞ A surveying corps is in the field between Gainesville and Fort Worth, Texas, in the interest of an extension of the Missouri, Kansas and Texas railroad.

☞ Col. Philip D. Fisher, of Columbus, Ohio, has been appointed chief engineer of the narrow gauge road which is to run from Burlington, Iowa, to Toledo, Ohio.

☞ A certificate of incorporation has been filed with the Secretary of State of Ohio of the Delphos and Paulding Railroad Company—termini, Delphos and Paulding Center, passing through Allan, Van Wert, Putnam and Paulding counties—capital stock $60,000, by P. W. Morton and others

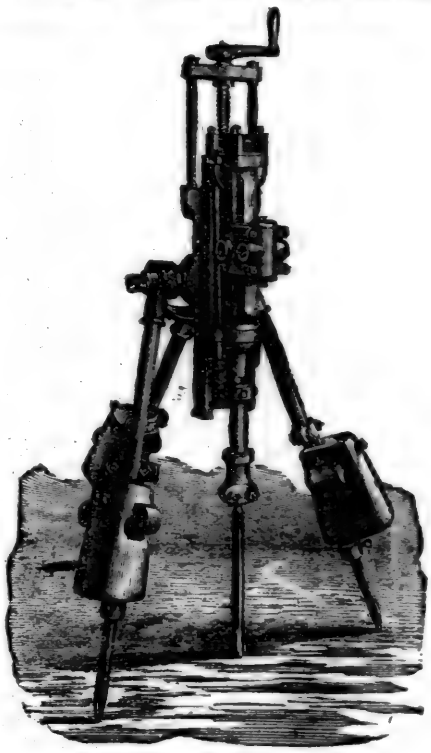
Oregon Railroads.

A correspondent writing from Portland, Oregon, under date April 8th says that all along the Columbia river, from the Dalles to Wallula, work is going on—bridges being built, grading being done—and beyond Wallula the Northern Pacific is constructing to Ainsworth, at the junction of the Columbia and Snake rivers, and 200 miles beyond there, towards Lake Pend d'Oreille, in northern Idaho. Surveys are already being made on the line down the Columbia, from the Dalles to Portland. Surveys are also being made on the Snoqualmie and Cowlitz passes, over the Cascades to Puget Sound, where the Northern Pacific Railroad intends to go in good time. Short roads are being located to reach productive districts tributary to the upper Columbia, and you know all about the competition between the narrow-guage and standard-track roads in this valley. All this means business and more or less prosperity for everybody.

Cars for Japan.

The Harlan & Hollingsworth Company has just completed eight cars—three first and three second class passenger and two combined passenger and baggage cars— for the Japanese government, to be used on the "Poronai Railway of Hokkaido," now in process of construction in Yesso or Jesso, one of the largest of the Japanese islands. The cars will be shipped, in sections, from New York, and Mr. Taylor Strickland will go out to Japan to put them together again and remain there for one year. Mr. S. will go overland to San Francisco and thence by steamer to Japan. —[Wilmington Every Evening.

☞ The appeal suit of L. F. Barron vs. the Baltimore and Ohio and Pittsburg, Fort Wayne and Chicago Railroad Companies, for alleged violation of the State law regarding the proper heating of cars, came up for hearing on demurrer before the Court of Common Pleas at Mansfield, Ohio, on the 23d ult. Judge Dickey sustained the defendants' demurrer, principally upon the ground that there was no cause of action. There were one hundred and thirty cases in all. The decision of the court virtually makes a final disposition of the entire lot.



☞ A dispatch from Tucson, Arizona, 21st ult., says that since the opening of the Southern Pacific Railroad to that point, there has been a wonderful increase in trade with Mexico, many teams per day leaving for Sonora. A station will soon be opened at Temstonetown. The track of the Southern Pacific was laid 35 miles east of Tucson, and the work of grading was proceeding at the rate of a mile per day.

☞ The Supreme Court of Virginia has decided that the McCulloch act of 1879, exempting State obligations from taxation, was constitutional and valid, and that the State was bound to receive the coupons attached to the bonds issued under said act at their face value in payment of taxes and other demands of the State.

☞ Preparations are being made to commence work on the Brattleboro and Whitehall Railroad, which will be pushed rapidly to completion. The iron is expected in two weeks, and in the meantime the work of leveling up the road bed and laying ties will go on.

☞ The Olympia and Tenino Railroad, in Oregon, was sold by the Sheriff recently for taxes, As no bidders appeared the county took it at $1,558 11. Trains are running as usual.

PENNSYLVANIA RAILROAD COMPANY,
TREASURER'S DEPARTMENT,
PHILADELPHIA, May 1, 1880.

THE BOARD OF DIRECTORS HAS THIS DAY declared a semi-annual dividend of THREE PER CENT., on the Capital Stock of the Company, clear of all taxes, payable on and after May 28, to stockholders as registered on the books of the Company at 3 o'clock P. M., April 30, 1880.

In order to give the shareholders the benefit to be derived from a distribution of the shares of the Capital Stock recently purchased from the City of Philadelphia, the option is given to the shareholders to receive the dividend hereby declared, either in cash or in scrip convertible into the Capital Stock of the Company at par, when presented in sums of Fifty Dollars; provided the said option shall be exercised on or before the First day of October next, otherwise the dividend will be paid in cash.

JOHN D. TAYLOR,
Treasurer.

The investigation of frauds on Railway Companies a specialty.

The Coal Trade.

The total tonnage of anthracite coal from all the regions for the week (three days' work only) ending on the 24th of April as reported by the several carrying companies, amounted to 339,928 tons, against 498,311 tons in the corresponding week last year, a decrease of 104,383 tons. The total amount of anthracite mined for the year is 6,435,707 tons, against 6,745,679 tons for the same period last year, a decrease of 309,972 tons. The quantity of bituminous coal sent to market for the week amounted to 87,508 tons, against 78,590 tons in corresponding week last year, an increase of 8 911 tons. The total amount of bituminous mined for the year is 1,041,054 tons against 935,-028 tons for the corresponding period last year, an increase of 106,026 tons. The total tonnage of all kinds of coal for the week is 481,486 tons, against 576,908 tons in corresponding week last year, a decrease of 95,472 tons, and the total tonnage for the coal year is 7,476,761 tons, against 7,680,707 tons to same date last year, a decrease of 203,946 tons. The quantity of coal and coke carried over the Pennsylvania Railroad for the third week of April was 152,300 tons, of which 107,856 tons were coal and 44,444 tons coke. The total tonnage for the year thus far has been 2,-189,398 tons of which 1,532,059 tons were coal and 557,339 tons coke. These figures embrace all the coal and coke carried over the road east and west. The shipments of bituminous coal from the mines of the Cumberland coal region during the week ended April 24 were 59,365 tons, and for the year to that date 536,543 tons—149 521 tons over the corresponding period of 1879. The shipments to the Baltimore and Ohio Railroad for the week were 31,551 tons, and for the year 430,266 tons, an increase of 162,751 tons over 1879. The shipments to the Chesapeake and Ohio Canal for the week aggregate 20,879 tons, and for the year 42,370 tons, a decrease of 19,-632 tons as compared with last year. Shipments to the Pennsylvania Railroad for the week were 6 935 tons, and for the year 63,907 tons, an increase of 13,303 tons as compared with 1879.—[Phil. Ledger, May 1.

Compressed-air Locomotives.

Superintendent Thomas, of the Sutro Tunnel, was in town last evening. He says all work in the tunnel is going ahead very satisfactorily. Yesterday he tried some experiments with the new compressed-air locomotives. They were found to work well. They were first tried with the air tanks (which, on these engines, take the place of a steam-boiler on an ordinary locomotive) charged to a pressure of 100 pounds to the square inch. This pressure was afterward increased to 200 pounds to the square inch. To-day a test will be made by charging the air reservoirs to a pressure of 300 pounds to the square inch. They are calculated to stand a pressure of 350 pounds to the square inch. It is supposed that with a pressure of from 250 to 300 pounds on the compressed air reservoirs the engines will be able to make the round trip through the tunnel, taking in a train of empty cars and bringing out a loaded train. In case the tanks furnished with the engines prove too small to carry sufficient air to run into the branch tunnels and return, tenders containing tanks of any required size can be placed behind the locomotives. These tanks will be charged with a powerful air-compressor stationed at the mouth of the tunnel.—[Virginia (Nev.) Enterprise, Apl 25.

☞ We see it stated that plans are being considered for the construction of a railroad from the Hanover Junction, Hanover and Gettysburg Railroad, or the Berlin Branch road, to a point on the Harrisburg and Potomac Railroad near York Springs. It will practically be an extension of the Hanover and Baltimore road in the direction of Harrisburg.

A. G. DAY,

MANUFACTURER OF

Kerite Insulated Telegraph Wire and Cables

Of all kinds made to order, for Ocean, River, Aerial and Subterranean Lines.

The Kerite covering of these Conductors unlike any other, resists effectually the destructive action of Heat and Moisture, and the corrosive agents either in Earth, Air or Water.

☞ Special orders should state whether the Cable is to be exposed to Earth, Air or Water.

FACTORY—SEYMOUR, CONN. **Office, 120 Broadway, New York.**

NEW YORK, LAKE ERIE & WESTERN RAILWAY.

TO THE TRAVELING PUBLIC.

During the Centennial Season—six months, closing November 10, 1876—the Erie Railway carried almost 3,000,000 passengers, without a single accident to life or limb, or the loss of a piece of baggage.

And for a whole year, the official records of the United States Post-Office Department show the arrivals of Erie Railway trains in New York, on time, to be from 15 to 27 per cent. ahead of competing lines.

Facts well worthy the consideration of travelers.

HARLAN A. PIERCE, Editor.

New York, Friday, May 14, 1880.

The World's Product of Gold and Silver.

The *Quarterly Review* for April contains the most comprehensive article on gold and silver mining that we have seen. Col. Richard J. Hinton is one of, if not the best of our mining editors, and is so recognized on the Press of this city. This article vindicates his reputation as such. He places the world's production of gold from the earliest dates to 1879 at $10,325,597,158, and of silver at $7,683,022,132, of which the United States (within thirty years) furnished in gold $1,493,843,430, and in silver (within twenty-one years) $420,000,000, or about one-fourth of the world's total production of gold, and of silver at least one-third.

The nominal capital of the Pacific coast mining corporations is at least $3,000,000,000. The annual assessments levied have aggregated from $12,000,000 to $18,000,000. The total dividends during the past decade from the Comstock alone have reached nearly or quite $95,000,000, of which $73,750,000 have been paid by the two Bananza mines alone. Besides the mining districts that now attract attention outside of the Leadville, Eureka, Comstock, and some Utah and Black Hills districts, is the rich belt comprising all the older portions of mining, Colorado, New Mexico and Southern Arizona; also, the belt, bearing both gold and silver, ranging from Dakota through the Western part of Wyoming, through Northern, Central and Southwestern Colorado, crossing the Middle Park, the Gunnison region and the San Juan, as it enters Arizona and extends into Utah, which will be the next field. In Utah the total investment has thus far been about $50,000,000. The present value of the permanent works, etc., is about $100,000,000. The aggregated production has been nearly $47,000,000, with an annual yield of $4,700,000.

Col. Hinton thinks that "those who anticipate any very large additional yield for 1880 are doomed to disappointment. The work will be in the main exploration and development, or, what miners term 'dead work.'" In speaking of the protection to the public that ought to be used in connection with mining, he declares that legitimate mining with honorable management and business sagacity will maintain a leading place in our geeat industries.

But radical changes are essential and he makes some capital suggestions in this particular: first, strict limitations as to capitalization and the bona fide character of the share payment; second, fixing with greater definiteness responsibility of promoters and managers, who should be held personally liable for all misrepresentation and dishonest or reckless management; third, providing for the representation of minorities in all boards of directors, and the right of any shareholder to enter a mine and examine it, and for the punishment of officials for withholding information; fourth, prohibiting managers from contracting with themselves, and fifth, providing for the publication of regular reports, sworn to, if necessary, regarding the condition of the mines and their productions. These safeguards are absolutely essential to make mining stocks a favorite class of investment and the sooner they are incorporated into he laws of this and other States, the better for all good mines and honest managers. The recurrence of Little Pittsburg swindles would then be impossible.

Col. Hinton then touches another point in a light that will be new to the Eastern public which will show why the banks of California refused to go into the national system and maintained a gold basis, and what a potent influence they have been in the mismanagement of the Pacific Coast mines. That this power should be removed is evident and the Eastern holders of these stocks should organize and take their proxies out of their hands, by having their stock registered in their owners' names. He says: "Many thousands of persons would have migrated to California after the war but for the gold basis, and many millions of dollars would have gone thither that were shut out because of that policy. It is equally certain that the sectional barrier thus created has greatly increased the long agony of debt, toil, poverty, and bankruptcy endured at large in the effort to get down to 'hard pan' by means of forced contraction and enforced resumption." This he considers the first cause of the depression in mining stocks. "The second cause of the temporary depression of California and Nevada mining interests which has," he continues, "characterized the last six to eight years, is due to the Comstock Mine itself." Without an exclusive gold standard, the Bank of California and half a dozen or more of millionaires would never have been able to grasp such utter control as they did of the great Comstock Mines. Having measura-

bly shut out the Eastern investor, they shut out the National banking system, and then managed the mines for speculation and for the personal aggrandizement of the managers.

In connection with the mining interest he pays a just tribute to the railroads for the part they have taken in the development of the mining regions. He shows that California, in 1866, had only 308 miles of railway, in 1878 2,165; Colorado in 1870 had 157 miles, in 1879 1,305. The four mineral-producing States and eight Territories in 1866 had 325 miles of railway, and in 1879 6,770. Westward of the Mississippi the total railroad mileage in 1866 was 1,572 miles, in 1879 11,235 miles. "Of this grand total," says Mr. Hinton, "two-thirds of the whole may be set down directly to the influence of our mining industry."

We should regard this as a misplacement of of cause and effect, as the Pacific roads were primarily built to connect the Atlantic and Pacific States and Oceans and quicken communication by shortening the distance between them. We are inclined to think the Colonel has placed his cart before the horse in this instance. That railroads did contribute to the development of mines, when built, however, to the extent of two-thirds is no doubt true. In this development he awards deserved praise to the Union Pacific, Kansas Pacific, and Atchison, Topeka and Santa Fe Railroads for opening up and settling Kansas, Nebraska, the great wheat States, and Colorado. He also calls attention to the Southern Pacific, which has within five years constructed over 1,000 miles of railroad, raising Arizona "from poverty and neglect into present prominence and future prosperity," and promising to open within two years a grand transcontinental line which will take in all the prominent cities throughout the South.

The article is well worth reperusal and is most valuable for reference as to the past of mining as well as for suggestion as to its future conduct and management.

Denver and Rio Grande Railroad.

The following is a statement of the affairs of the Denver and Rio Grande Railroad Company:

Length of completed road 337 miles; in course of construction 565 miles. Capital stock, in shares of $100 each, $11,250,000; issued on account of completed road $8,500,000; issued on account of road under construction $2,750,000 (this stock is in Trustees' hands for the benefit of subscribers.) First mortgage bonds covering (by a first lien) 291 miles from Denver to El Moro and Alamosa $6,382,500; first mortgage bonds, Arkansas Valley Division, covering (by a first lien) 43 miles of road between Pueblo and Cannon City $1,040,000.

First consolidated mortgage bonds are to be issued to an amount not exceeding $30,000,000, of which $7,422,500 are to be kept against the outstanding first mortgage bonds above noted, and the balance used for construction at an average rate of $15,000 per mile.

These consolidated bonds are issued under a deed of trust dated January 1, 1880, to Louis H. Meyer and John A. Stewart, Trustees, both of the city of New York, to secure a total of not exceeding $30,000,000. Principal payable thirty years after date in gold coin in New York or in Sterling in London at the rate of £1 to $5. Interest 7 per cent gold, payable in New York or Loedon January 1 and July 1, free of United States taxes. Bonds are in the denomination of $1000 and $500 respectively, and have benefit of sinking fund.

The company has no floating debt except current construction accounts and $109,200 in coupon certificates appertaining to the bonds of the Arkansas Valley Division.

Earnings on the 337 miles of operated road for the six months ending December 31, 1879: gross earnings $755.436 88; expenses $358,-712 88; net $396,724.

The Denver and Rio Grande Railroad expect to be running to Leadville by July 4, when its earnings are likely to be doubled. At present the road is earning, without the Leadville or San Juan extension, about $1,-800,000 per annum.

The Commerce of the Country.

The Chamber of Commerce Annual Trade Review contains some very interesting information. It says:

The consumption of sugar in the United States may always be taken as a measure of the prosperity of the country. Large as was the increase in the imports of foreign sugar into the United States, exclusive of the Pacific States and Territories, in 1878, that for the year 1879 exceeded it by over 30,000 tons. The crop of Louisiana in 1878-79 was the largest crop made since the war, the yield reaching 213,000 hogsheads, against 128,000 the year before.

Adding to the consumption of sugar of foreign growth that of domestic sugars, 112,000 tons, the consumption of cane sugar proper for 1879 reached the large figure of 743,000 tons, being an increase of 8¾ per cent over that of 1878. In addition to this, the refiners of the five seaboard ports, Portland, Boston, New York, Philadelphia and Baltimore, boiled 213,-000 hogsheads of molasses in 1879, with a yield of 45,000 tons of sugar.

Of the 743,000 tons of all kinds consumed in the United States, New York supplied 465,000 tons or 62¾ per cent; over 2 per cent in excess of the business of the previous year. In the importation of foreign sugars she had over 70 per cent of the trade.

The coffee trade shows an increase and declining prices during the greater part of the year, rallying towards the close; and the increase in consumption has been as marked in Europe under the inducement of prices. Large as the deliveries for consumption were in 1878, those of 1879 exceed them by nearly 26 per cent. Of this trade New York received nearly 42 per cent.

The tea trade continues a puzzle to the most experienced dealers. The marked feature of the year was the great increase in the consumption of Japan teas, which reached nearly one-half of the entire quantity received from the East—a remarkable circumstance, when it is remembered that the Messrs. Low imported the first cargo of Japan teas to this country in 1863.

The tobacco trade has been unsatisfactory, and the causes are: the increased duty imposed by Germany, which cut off that market, the large stocks taken abroad in 1877, and the low figures of the Regie contracts. The exports have been less than for the three previous years.

The hide trade has been entirely satisfactory. The importations have been largely in excess of 1878. A novel feature of the trade was the indirect importation of hides from foreign countries, seeking the higher market here.

Cotton still holds the first rank among the exports. The American crop for the year ending September, 1879, reached 5,073,531 bales, exceeding that of the preceding year by more than 260,000 bales, and was the largest crop ever gathered; of this product, 3,467,565 bales were exported, and 1,568,960 bales retained by our spinners, leaving a stock of 59,110 bales. The exports exceeded those of 1878 by 120,925 bales.

The shipments of bacon and hams from New York reached nearly 512,000,000 pounds, valued as $36,000,000; the entire export of the United States reaching $51,000,000.

The export of live animals has continued on a rapidly increasing scale, rising from 35,000 in 1877-78 to 82,000 in 1878-79 from the port of New York, their value being nearly $4,000,-000; the value of the entire shipments from all the ports exceeding $11,000,000.

New York controlled nearly the entire cheese export trade, shipping 132,000,000 of pounds, valued at nearly $12,000,000, the whole trade of all the ports being $12,500,000.

The total exports of wheat and wheat flour from the United States were valued at $160,-000,000, of which New York sent $77,000,000, or 48 per cent. Of other grain exported, valued at $50,000,000, New York sent $21,000,-000, or 42 per cent. Of the whole, amounting to $210,000,000, New York had nearly $100,-000,000, or 45¾ per cent.

The petroleum trade continues to astonish statisticians by its continued and enormous development. For several months the production averaged over 60,000 barrels a day, all of which found a market, although at prices below the low range of last year. The exports for 1879 were, of crude and refined, 417.648,-544 gallons; New York sending 293,992,095 gallons, against 214,613.657 last year, an increase of 79,378,438 gallons.

The general revival of business struck the iron trade early and with unexampled vigor, and the sales of all kinds in the rough and manufactured were heavy, at prices nearly 100 per cent above those of last year. The exports of all kinds of iron and steel reached, from all the ports, a value of $13,000,000 for the fiscal year, of which from New York $7,-500,000, or 37½ per cent.

In 1878 the balance of trade was over $300,-000,000 in favor of the United States. Last year it exceeded $250,000,000, as will be seen by the following statement:

Exports, calendar year 1879	$765,159,825
Imports, calendar year 1879	513,745,748
Balance of trade in 1879	$251,414,077
Balance of trade in 1878	305,243,028
Total	$556,757,105

This large sum of over $556,000,000 is represented by the increase of the stock of precious metals and the liquidation of indebtedness to foreign nations.

☞ The construction of the Marquette and Mackinac Railroad is being pushed rapidly forward. The grading and ties of the first 20 miles is nearly completed; a contract for 70 miles more has been let and the balance of the line, 60 miles, will be let in a few days. Nine thousand tons of steel rail have been purchased, at an average

price of $65 per ton; locomotives are being contracted for and many important details of supplies and construction are being attended to.

Grand Trunk Railway of Canada.

DIRECTORS' REPORT.

The report of the directors for the half-year ending December 31, 1879, is as follows:

	1878.	1879.
The gross receipts upon the whole undertaking, including the Buffalo and Champlain lines, have been....	£925,585	£978,202
Less discount on American currency	1,550	....
	£924,034	£978,202
Deduct—Working expenses at rate of 72 87 per cent, against 76.70 for December half of 1878..	708,757	712,805
	£215,277	£265,395
Add—Interest on International Bridge capital.	10,099	11,836
	£225,376	£277,231
Less—Interest on postal and military bonds not retired	826	....
Leaving	£224,750	£277,231

Applicable for the following payments, viz:

Interest &c., paid on lands..	£2,992
Interest, British American Land Co. deb	617
Interest, Montreal Seminary debentures	616
Interest, Island Pond debentures..... ..	2,700
	£6,925
Deduct interest on loans....	357
	£6,568
Atlantic and St. Lawrence lease..	52,540
Lewiston and Auburn railway rent.....	1,849
Detroit line lease.....	11,250
Montreal and Champlain bond interest.	8,530
Buffalo and Lake Huron rent....	35,000
1st equipment bond interest	12,645
2nd equipment bond interest	15.000
5 per cent perpetual debenture stock..	69,752
	£213,184
Showing a balance of....	64,097
	£277,232

The amount brought forward from the preceding half year, £1,642, makes with the above balance from the past half year of £64,097, a total of £65,740, out of which a dividend for the half year at the rate of £4 per cent per annum on the first preference stock has been paid, absorbing £64,300, and leaving £1,440 to be carried to the next half year's account. On the 13th August, the Riviere du-Loup section, comprising 118¼ miles, was transferred to the Dominion Government, thus reducing the length of railway worked by the company from 1,390¼ miles to 1,272 miles. An additional length of six miles was also transferred to the Government but as the company retain running powers over it, and the full use of it, that length is included under the head of "mileage worked by engines," though the length of railway maintained during the year is reduced to 1,266 miles. The Norway branch, 1½ miles, was opened on the 30th December, increasing the mileage worked by engines of the company to 1,273½. The gross receipts for the half year were greater than in 1878 by £54,168, or 5 86 per cent, though the receipts for the Reviere-du-Loup line from 18th August to 31st December, 1878, (£19,550), were included in the receipts for that year, but not in those for 1879. The working expenses, including renewals, amounted to £712,807, or 72. 87 per cent against a total charge of £708,757, or 76.70 per cent in 1878, showing an increase of £4,050, or 0.57 per cent, as compared with an increase in the receipts of 5.86 per cent. The passenger receipts increased by £5,449, or 1.85 per cent, though the numbers decreased by 27,191, or 2.40 per cent, as compared with 1878. The receipts from freight traffic increased £57,880, or 9.91 per cent, and the tonnage 261,071 tons, or 22.77 per cent. The total number of passengers was 1,102,701, against 1,129,892; and the quantity of freight was 1,407,458 against 1,146,387 tons. The average receipts per passenger was 5s. 5¼d., against 5s. 2½d., and per ton of freight 9s. 1⅞d., against 10s. 2½d. The charges for maintenance and renewals of road and rolling stock compare as follows:

Expended on—	1879.	1878.
Way, stations and buildings.	£151,975	£171,933
Engines, workshops, &c....	64,771	60.749
Cars	69,657	68,680
Total.	£286,403	£301,362
Of gross receipts per cent...	29.28	82.61

The charges as above on the permanent way, &c., were decreased principally by the reduction on the mileage maintained, whilst the expenditure for engines and cars was increased in consequence of extra tonnage conveyed. The total charges for maintenance and renewals were, however, reduced by £14,959, and the proportion of maintenance and renewals to gross receipts was decreased by 3.33 per cent. The expenditure for fuel, wages, and other charges for working the railway, was increased by £19,009, as the following statement shows:

Expenditure for—	1879.	1878
Fuel	£103,247	£96,294
Running engines, wages, oil, etc..	69,795	67,084
Traffic department.....	192,694	187,486
General charges..	18.016	16,366
Miscellaneous expenses	18,181	20,268
Rent and mileage of foreign rolling stock....	15,023	11,105
Tolls paid,....	9,445	8,789
Total.	£426,401	£407,392
Percentage of gross receipts	43.59	44.09

The proportion of the working expenses (excluding maintenance and renewals) to the gross receipts fell from 44 09 to 43.59 or 0.50 per cent, and, as already stated, they were also lower in that for maintenance and renewal of road and rolling stock, thus decreasing the relative proportion of the whole charges 8.83 per cent. The amount charged against capital account during the half year was £38,854, the details of which are given in statement No. 5. Four sections of the Chicago and Lake Huron Railway were purchased during the half year, and the contract for the construction of the remaining section was let on the 2d September, 1879. The whole line, now called the Chicago and Grand Trunk Railway, has since—though still in course of improvement—been opened for traffic, and full explanations in regard to it will be given by the President at the forthcoming meeting. The directors who retire by rotation are William Newmarch, Esq., and Robert Gillespie, Esq. They are eligible and offer themselves for re-election.

By order of the Board,
H. W. TYLER. President.
21, Old Broad-street, E. C., 19th April, 1880.

Inhuman Treatment of Animals.

The following protest has been sent to the General Freight agents of Eastern Railroads by the packers and commission merchants of Chicago:

The packers and commission merchants engaged in handling hogs and cattle at the stock yards respectfully represent that there exists along the lines of your railroads, and others tributary to this market, a practice not only at variance with the dictates of humanity, but also detrimental to the best commercial interests of this city. We allude to the inhuman and barbarous practice of using iron spikes or brads in driving hogs and cattle at the several stations on these railroads, whereby not only is unnecessary pain inflicted upon these animals, but also great damage sustained by loss of commercial value. We therefore ask that you heartily co-operate with the officers of the Illinois Humane society, who are engaged in the suppression of this practice, and issue instructions to the local agents along the line of your railroad to see that in loading cars and otherwise, the use of these spikes shall be discontinued. The loss estimated by the trade from the use of these spikes and brads is several hundred thousand dollars per year on hams alone.

We understand the Railroad companies are ready to co-operate in remedying this abuse. There are others however in the manner of shipment and slaughtering of animals to which we called attention of both railroad men and packers sometime since, which ought also to engage their attention now that the question is before them.

Condition of the Iron Trade.

The iron trade is now feeling the reaction from Last Fall's speculative folly the most generally and severely as well as first of any trade, as it felt the boom first and indeed started it with the aid of Wall Street and good crops in 1879. To illustrate the situation, we have obtained from dealers in iron the lowest prices in the leading articles before the "boom," the highest on the "boom" and present prices, and stocks, from which lower prices still are predicted. New iron rails were selling before the "boom" at $26@27, on the "boom" at $65@67 50, and are now offered at $50. Old do, $16, then $43@44, and now $24@25 and our warehouses filled with them, as well as of Scotch pig iron, which went from $20 to $34@$35, and is now $23@$24, owing to the excessive importations, which are said to be enough for a year to come, and held by speculators. The same is true of steel rails, which advanced from $40 to 85@87 50, and are now offered at $62 50@67, while railroads are offering only $60@62 50, and some are holding off altogether, in expectation of $50@55 before the summer is over. Spanish magnetic ore, for Bessemer steel manufacturers, is now selling at $7 per ton, that sold at $10@11 on the boom, and the importers are said to be loaded with stocks. Copper went from 16@17 to 25c per lb., and is now selling at 21c. Tin advanced from 15@16c to 25@26c, and is now 18@19c again, with heavy stocks, of which, that in copper is largely re-importations. In the face of these facts the manufacturers of steel rails are refusing to sell ahead at the prices railroads will pay for new construction under way, namely, $60@62, although last fall when the market was going up instead of down, and still having a downward tendency as now, they were selling ahead and getting continually caught on their contracts.

☞ Ground was broken at Richmond, Va., on the 5th inst. on the proposed Richmond and Allegheny railroad, and work will now be pushed with vigor along the whole line.

☞ The survey of the Cherrytree and Altoona (Penn.) Railroad was begun on the 3d inst. It is to be a narrow gauge road, built by capitalists of Altoona and Northern Cambria county.

☞ The Chicago, Burlington and Quincy Railroad Co. has decided to purchase the Kansas City, St. Joseph and Council Bluffs Railroad with its own stock at $125 per share,
